# LIQUOR IS CAUSE OF MANY WRECKS

Railroad Officials to Wage  
War on the Stuff During  
The Present Year.

## CAMERA IS TO BE USED.

Railroad officials are said to be determined to put a stop to the liquor habit among employees, particularly engineers, trainmen and those who have to do with the operation of signals and switches.

A unique campaign has been instituted in which the kodak snapshot is to play a leading part. A secret service bureau is to be established to report men who are in the habit of drinking intoxicating liquors when on duty, and there seems to be a new campaign waged by the higher officials against such bad habits. Because of the occurrence of disastrous wrecks in the different states during the year just passed, the blame for some of the accidents has been placed on trainmen, signal men and other operators, railroad officials are moving to stop the use of intoxicants among all classes of employees. The loss of life and financial damage, not to speak of the unwelcome publicity, are not the sole reasons for the crusade. Stockholders of some of the companies have taken the matter up with the officials and urge a closer observance of the rules of the company regarding the use of intoxicating liquors.

# ZEUBLIN CALLS SOCIETY SHAM

## Professor Makes Boston Women Gasp.

Boston, Mass., Jan. 7.—Prof. Charles Zeublin of the Chicago university bitterly attacked modern society and modern philanthropy in a lecture on the "Twentieth Century City" before the Women's Industrial union this afternoon.

"Modern society is nothing but hypocrisy and sham," was the first sensation that the Chicago disciple of settlement work flung at the eager women listeners, and he followed that up quickly by an assault on so-called charities.

"These modern philanthropies" was the way he put it, "are most dishonest; if they are not, they show pathetic ignorance on the part of well-meaning people who leave endowments to widows and cats in what they imagine is a great effort to benefit humanity."

## The Overcoat.

Probably in no other department of life is there exhibited so much difference to hygienic considerations as in the overcoat. The greatest fallacy of all perhaps in regard to the choice of an overcoat is that the terms "weight" and "warmth" are synonymous. As a matter of fact, they are nearly always diametrically opposed. Moreover, the heavy overcoat is a tax on the resources of the organism and destroys the economy which a good insulating cloth is intended to secure.—London Lancet.

## What a Woman Says.

Singletou—I want to ask you a question, old man. Wedderly—Come on with it. Singletou—Does a woman always mean what she says? Wedderly—During courtship she doesn't, but after marriage you bet she does.—Chicago News.

Sounds Possible, but Not Likely.  
"I've thought of a novel effect for my new meliorator."  
"What is it?"

"The villain lights a cigar during the snowstorm, thus setting the snowstorm afire."—Washington Herald.

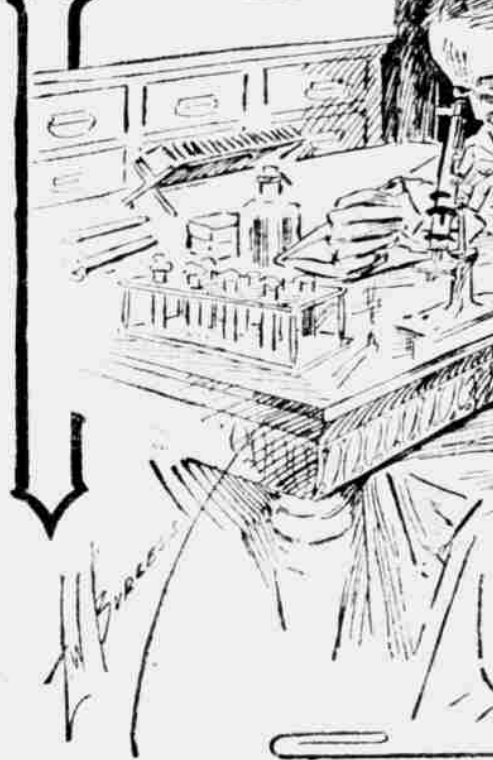

## Heavy Work.

Mr. Younghub—Did you bake this bread, darling? Mrs. Younghub—Yes, dear. Mr. Younghub—Well, please don't do anything like that again. You are not strong enough for such heavy work.

The Nevis is a small British island near St. Kitts, as round as your hat and consisting of one lofty mountain peak and a lovely shell road, some celebrated ruins and the finest of mineral springs—real, hot, rotten smelling sulphur water being brought from the mountain top in a stone conduit. A few baths in this water, at 100 or 104 degrees will renew your youthful vigor.—New York Press.

# PROFESSOR DISCOVERS NEW METHOD OF TREATING CEREBRO-SPINAL MENINGITIS.

Dr. Simon Flexner, head of the Rockefeller Institute for medical research, whose picture is here shown, has discovered an antitoxin serum with which he has treated many cerebro-spinal meningitis sufferers, successfully. At the left is a photograph, enlarged many times, of the cerebro-spinal meningitis germ. The sketch shows Dr. Flexner at work in his laboratory.

# FUTURE IS CLEAR AS THE PAST TO THIS THIRTEEN-YEAR-OLD GIRL

Battle Creek, Mich., January 7. A strange gift is that possessed by Ethel Hopple, aged 13, living with her grandmother, Mrs. Doly Hopple, in this city. She is known as "the girl from whom you can't keep a secret." At Christmas time Ethel always knows just what every present is to come from her friends. When her grandmother goes calling Ethel always tells without failure whether the person to be visited is at home or not. She forecasts every case of sickness in the

family, and can tell whenever company is coming. When talking to strangers the past and future of their lives comes to Ethel as instantaneous mental pictures which she interprets. Other interesting things are told of her truthful prediction of life events. Miss Hopple was born in the township of Charleston, Kalamazoo county, and lived on a farm until four years ago, when the family removed to Battle Creek. She has never heard of such a thing as psychic phenomena.

# LITTLE EGYPT DIES IN COLD NEW YORK

## Black Marks on Neck Indicate Murder.

New York, Jan. 7.—"Little Egypt," the original "Little Egypt," who was the guest of Herbert Barnum Seeley, the grandson of the showman, when Capt. Chapman made his sensational raid at Sherry's a little over ten years ago—was found dead today in her apartments.

Black marks on her neck and breast and blood stains on her nightgown led Coroner Harburger to believe she had been murdered and he ordered her body removed to the morgue, where an autopsy will be performed tomorrow.

# CAR KILLS BOER WAR VETERAN

## Fought in Battle Thirty Years And Went Unscathed.

Buffalo, N. Y., Jan. 7.—After serving thirty years in the British army, coming unscathed through many campaigns, Lieut. Col. John C. Cantley of Toronto was killed by a street car here today.

He was on his way from his home in Toronto to visit his daughters, who are attending school in Buffalo.

Postum is made of the purest cereals with absolutely no medication whatever and when boiled according to directions it is heavy with food value and a great nourisher and re-builder, as well as a delicious drink. It is also a specific for all of the dozens of different diseases caused by coffee. Trial proves this, and "There's a Reason."

Look in pkgs. for the famous little book, "The Road to Wellville."

# FUNERAL OF ROBERT F. WHITE TOMORROW

## Will Be Held From His Late Home.

The funeral service for Robert F. White, will be held at ten o'clock Wednesday morning at his late home, 110 South Ninth street, both services and interment to be private.

Friends may call Tuesday evening after six o'clock to view the remains.

It goes to the root of disease, strengthens and invigorates. Its life giving qualities are not contained in any other remedy. Hollister's Rocky Mountain Tea has stood the severest test—time. For thirty years the surest remedy. 35c, Tea or Tablets. A. G. Loken & Co.

# CUPID NABS A FAIR TOURIST

## Girl Writing Her Way Around World. Wedded.

New York, Jan. 7.—Word has been received from Manila of the marriage of Miss Anna Finch, one of two plucky American newspaper girls who started from New York two years ago to write their way around the world. Although her object was not matrimony but to see the wonders of creation, she gave up her long globe trot just as soon as Cupid chirped. She is now the wife of Lieut. Dworak of the United States army and their home for the present is at the battalion post of Cotabata in the Philippines.

Miss Finch had for her companion when she started on her tour a Miss Conley, another newspaper woman. They had arranged with several American newspapers to send syndicated articles about countries they meant to visit.

One match factory on the Pacific coast covers forty acres and operates over thirty miles of railroad, over which is carried to it daily 200,000 feet of sugar pine and yellow pine logs for the match machines. Inferior lumber will not do. It must be straight grained and free from knots and carefully treated in addition. The by-product goes into larger things. This factory turns out as by-product a thousand doors and window sashes daily.

# FIFTY MILLION IS LOSS TO KENTUCKY

## Night Riders Have Done That Much Damage to the State By Lawless Acts.

## GUILTY OF HIGHEST CRIME.

Frankfort, Ky., Jan. 7.—The January term of the Franklin circuit court began here today. Judge R. L. Stout impressed upon the members of the grand jury that it was their duty to inquire into any charges of intimidation or destruction of property made by "night riders." Among the things Judge Stout said: "The outrages committed at Princeton, Hopkinsville and Russellville are of great importance to every state. It is not merely a local disturbance, and it cannot be so regarded by any right thinking man. I do not pretend to say where lies the blame of those demonstrations of lawlessness, but I do undertake to say that those who engaged in them are guilty of the highest crimes and misdeeds which have been written against our statute books."

A money standard is not by any manner of means the highest standard with which to judge the acts of men or the effects of those acts. But it is a standard which all men can understand and appreciate. Measured by that standard, I believe the loss to Kentucky occasioned by the recent lawlessness in the destruction of local values at the scenes of those crimes, and the further ill effect upon all Kentucky properties, is not less than \$50,000,000."

# LIVE STOCK MEN NOW IN SESSION

## Eight Organizations Represented in Convention.

Eight organizations, comprising the Congress of Indiana Industrial and Breeders' associations, opened a four days' session in the state house, at Indianapolis yesterday. The congress is under the supervision and the auspices of the Indiana State Board of agriculture, and matters of importance to the live stock interests of the state will be discussed.

The organizations in convention are the Indiana Herford Breeders' association, the Indiana Jersey Cattle club, the Indiana Wool Growers' association, the Indiana Swine Breeders' association, the Chester White Swine Breeders' association, the Indiana Aberdeen-Angus Breeders' association, the Indiana Live Stock Breeders' association and the Farmers' Mutual Insurance company.

Mary Dawson, aged eighty, still works as maid in the New England house, Boston, where she has served for sixty years. Her first employer was Paron Stevens.

# REGARD THE HARTJE CASE AS ENDED

## Wife's Attorneys Are Preparing to Ask for Final Rulings.

## DESIRES TWO CHILDREN.

Pittsburg, Pa., Jan. 7.—Attorneys for Mrs. Mary Scott Hartje regard today's decision of the state supreme court, refusing the petition of her husband, August J. Hartje, the millionaire paper manufacturer, to pass upon the finding of the superior court, which sustains the lower courts in refusing him a divorce, as practically ending the case. They will shortly ask common pleas court for a ruling on the custody of the two children and the amount to be allowed Mrs. Hartje for expenses of the trial. She has asked \$30,000. Following this, her application for divorce asking only separation from bed and board, will be pressed. Hartje's attorneys are seeking new grounds to reach the state supreme court and also to reach the United States supreme court.

# SECRETARY TAFT GIVEN A FROST

## Ohio Republicans Rescind the Resolution.

Sandusky, O., Jan. 7.—Resolutions adopted by the Erie County Republican committee last March, declaring for Secretary Taft as Ohio's candidate for the Republican nomination for President were rescinded last night by a vote of fifteen to two, when twenty-one out of thirty members, representing in person or proxy, held a stormy meeting.

The committee deposed Carl B. Clark, local Taft leader, as chairman. The grounds for the committee's action were stated to be that the previous Taft resolutions do not represent the sentiment of the people now that Senator Foraker is in the presidential race.

## Two Horse Tales.

An Albanian who had been in an eastern state while freshets were in full swing told the following about a horse which had been attached to a footbridge crossing a brook to keep the structure from going adrift. The flood finally swept horse and bridge down stream. Later the bridge was discovered lodged against the bank, with the horse sitting quietly on the former.

A bystander who had listened intently to this tale remarked quietly: "I see you're a real old fellow."

"Indeed? What was it?" asked the storyteller.  
"You see," was the reply, "after the horse I see was told down stream no body ever 'spected to see him alive again. But he was a powerful sort o' brute, an' 'bout a hour afterward we see him a-comin' up stream a-pullin' the blame old bridge arter him!"—Albany Journal.

## Mortar Tossers.

There is no hot carrying in Japan. The native builders have a method of transporting mortar which makes it seem more like play than work—to the onlooker. The mortar is mixed in a pile in the street. One man makes this up into balls of about six pounds weight, which he tosses to a man who stands on a ladder midway between the roof and the ground. This man deftly catches the ball and tosses it up to a man who stands on the roof.—San Francisco Chronicle.

# SEVEN MEN DROWN; BOAT OVERTURNED

## Pipe Layers in Kansas Meet Death in Dark River Waters.

## ONLY TWO MAKE ESCAPE.

Leavenworth, Kan., Jan. 7.—As a result of the overturning of a skiff containing nine men near Kickapoo, Kan., seven were drowned, the other two, William Sharpe and Frank Logan were rescued by Ernest Schweitzer at the risk of his life. The men were employed by the Kansas Natural Gas company in constructing a pipe line under the river and had been working on the Missouri side of the river, the accident happening when the men were rowing to the Kansas side, preparatory to returning to their homes.

## DISTURBED THE CONGREGATION

The person who disturbed the congregation last Sunday by continually coughing is requested to buy a bottle of Foley's Honey and Tar. A. G. Loken & Co.

A Danish scientist, Poulsen, has perfected his apparatus for wireless telephony, so that he can talk and be heard distinctly from Copenhagen to Berlin, some 240 miles.
