

WILL POWER KEEPS MAN ALIVE AND WELL

Was Pronounced as Having Aggravated Case of Consumption But Cured It.

FASTING WAS THE METHOD.

PHILIP PIPHER OF HAGERSTOWN, NEVER TAKES DRUGS INTO HIS SYSTEM AND IS STRICTLY VEG-ETARIAN.

Hagerstown, Ind., Jan. 10.—Philip Pipher, a farmer, was injured in a runaway some months ago. One of the minor effects was a bruise on his foot. He recovered from his more serious hurts, but the bruise on his foot became serious. On account of gangrene the foot was amputated yesterday.

Mr. Pipher is a vegetarian, compelled to be such by reason of his delicate health. For thirty years physicians say he has kept alive through sheer force of will. He was pronounced incurable with consumption and doctors gave him up to die. He began treating himself and adopted a strict vegetable diet and fresh air as the means to cure himself. He has denied himself every luxury of the table. Tobacco, liquors of all kinds, meat, milk, butter, eggs, white bread and confectionary are some of the things he has forced himself to do without in order that he might live. He never takes medicine and when his system becomes deranged he stops eating altogether. He has frequently fasted as long as three weeks at a time, and asserts it is not hard to do. After the first two days all sensations of hunger disappear and a delightful ease of feeling ensues which he describes as "heavenly."

His case has attracted a great deal of attention and his example has been imitated in many places, but it is the history of those cases that the patients have not the necessary will power to refrain from eating their favorite foods, and doctors say that few men have the will power to fast three weeks at a time even to save their lives.

Mr. Pipher is rapidly recovering from the operation and expects to live many years to exemplify his theory that "to eat properly is to live well."

NOT A LIFE OF BLISS.

J. C. Marshall Resigns as Marshal of Centerville.

Centerville, Ind., Jan. 10.—The life of the town marshal of Centerville is not one continued period of bliss as it has been heretofore, for the reason that in addition to expecting him to protect the people of Centerville against lawbreakers, the town council has made it a regular duty of the minion to act as janitor for the town hall. It is thought that for this reason J. C. Marshall decided to resign his position as the sole police force. His resignation has been accepted by the town council and George Sanders has been elected to the position.

RUINED GIRLS GET NO PROTECTION

Mrs. McCullough Says That Jurors Always Favor Pretty Adventuresses.

WOMEN WANT TO VOTE.

AT BIG MICHIGAN MEETING THEY HAD NOTABLE DEMONSTRATION—MAN, HUMBLE MAN, WAS BUTT OF REBUKE.

Lansing, Mich., Jan. 10.—Women clamoring for the constitutional right to vote appeared before the state constitutional convention in large numbers last night. The demonstration was the most notable that has taken place during the meetings of the convention.

Catherine Vaughn McCullough, of Chicago, addressed the convention, urging that the right to vote be conferred upon women in the new organic law of the state.

Inadequate Penalties.

Mrs. McCullough, after devoting attention to the "unfortunate position of women" under the present law with reference to contracts, separate property, ownership of clothing, payment of services, inheritance, divorce, guardianship and competency as witnesses, discussed their legal relation to jury trials.

"Do you believe impartial juries have been the rule when women have stood before them accused of crime or when wronged women have asked justice against men assaulters?" she asked. "A beautiful, elegantly-dressed adventuress accused of crime, pulling the wool over the eyes of admiring male jurors and a shabby, friendless, ruined girl accusing her assailant, neither of them will secure as much justice from men jurors as from juries with a woman or two."

"Men jurors generally fix inadequate penalties for wrongs done women and girls. They can never be expected to go ahead of the law, and the law itself shows little delicate discrimination between wrongs against women and animals."

Mexican Church Legends.

Queretaro was a town before the Spanish conquest and was made a city in 1655. A legend of Queretaro is that an Otomite chief, Fernando de Tapia by name, undertook to convert the city to Christianity in a way that seems novel to us, but was common enough to his day. He came from Tula with a challenge to the people of Queretaro to a fair stand up fight. If he won, the people surviving were to be baptized. The challenge was accepted, but while the fight was in progress a dark cloud came up and the blessed Santiago was seen in the heavens with a fiery cross, whereupon the people of Queretaro gave up and were baptized. They set up a stone cross to commemorate the event on the site of the present church of Santa Cruz. There is scarcely a church in Mexico which has not a legend of this kind attached to it.

To Tell Pure Coffee.

Denmark is famous for its coffee, as every tourist to that fascinating country can bear witness. A Danish woman who lives in New York was speaking of coffee the other day, telling how to distinguish the various grades. She took up a cup of "cafe noir" and, tilting it gently, asked her visitor to examine the side of the cup closely.

"It leaves a brown mark, doesn't it?" her companion remarked. "Yes, it does," the Dane replied "and that's one good way of telling whether it is pure coffee or not. The real article always leaves this mark even on the most delicate porcelain. Your adulterated stuff doesn't. This is all right."—New York Press.

It has been found that if two layers of pure water, one hot and the other cold, are separated by a membrane, a process of endosmosis takes place from the cold to the hot water, exactly comparable to that between water and sugar solution. The same phenomenon is shown in a very marked way when hot and cold air are separated by a membrane.—Engineer.

WHAT THE KIDNEYS DO.

Their Unceasing Work Keeps Us Strong and Healthy.

All the blood in the body passes through the kidneys once every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about 500 grains of impure matter daily, when unhealthily some part of this impure matter is left in the blood. This brings on many diseases, and symptoms—pain in the back, headache, nervousness, hot, dry skin, rheumatism, gout, gravel, disorders of the eyesight and hearing, dizziness, irregular heart, debility, drowsiness, drops, deposits in the urine, etc. But if you keep the filters right you will have no trouble with your kidneys.

Martin Bulach of South 5th street, Richmond, Ind., says: "A number of years ago I was troubled with backache and the kidney secretions were too free and discolored. This was brought on, I think by the trying nature of my work. Doan's Kidney Pills were recommended for similar cases and I secured a box from A. G. Loken & Co's drug store. After taking them only a short time, the aches and pains disappeared and the kidney secretions became normal again. I think Doan's Kidney Pills for the relief I found, and recommend them to anyone suffering in this way."

A French Joke.

Here is a French joke that is rather English in character. The Marquis de Favieres, notorious for his impudent osty, called on a man of means named Bernard and said: "Monsieur, I am going to astonish you, I am the Marquis de Favieres. I do not know you, and I come to borrow 500 louis." "Monsieur," Bernard replied, "I am going to astonish you much more. I know you, and I am going to lend them."—Lippincott's Magazine.

All by Accident Too.

George—Well, life is worth living, after all. Jack—What's happened? George—I went to a railway station to see my sister off, and by some chance Harry Henson was there to see his sister off, and in the rush and noise and confusion we got mixed, and I hugged his sister and he hugged mine.—Philadelphia Inquirer.

From those I trust God guard me, from those I mistrust I will guard myself.—Italian Proverb.
