One of the most enjoyable socials ever given at the First M. E. church, was the indoor picnic which was Friday evening in the apartments of the church by the Sunday school. About two hundred members of the church and school participated, tables being provided for all. The tables were prettily decorated for the occasion. Following the supper the evening was spent socially.

News of the T. P. A.

"The Traveling Man" is a new magazine just launched upon the sea of public favor. It is published by "The Traveling Man Publishing Co." of Milwaukee, Wis. Harry H. Hemig, editor; Thomas J. Sullivan, publisher. The initial number is for January, 1908, and is a bright, snappy magazine, consisting of twenty pages of advertising and seventy-five pages of reading matter. We wish it success.—Lafayette Commercial.

The Commercial travelers of Indiana held their annual meeting at the Claypool hotel at Indianapolis on Saturday, Dec. 28th. W. E. Henley, secretary, reported seventy-two members for the year, twelve deaths and nine suspensions, leaving a net aggregate membership of 1,055, which is the largest ever held by the association.

The financial report showed that a half million dollars had been paid beneficiaries of dead members in the thirty-three years that the association has been in existence, and that they have assets to the amount of \$5,000,000. C. C. Cain of Richmond is one of the vice presidents. Richmond has several traveling men that are members of The Commercial Travelers of Indiana.

Win. Q. Simcoe, formerly traveling salesman for I. R. Howard & Co., advises us that he has accepted a position in like capacity for the Elliot Grocery Company of Logansport, Indiana. The boys all join in wishing William the best of success in his new field of labor.

We are in receipt of a very neat in-

itation to attend the Fourth annual winter picnic to be given by Post Q. T. P. A. of A's at Mannerchor Hall, New Albany, Indiana on Saturday evening, January 18th. Post Q will no doubt have a pleasant evening as they are noted for their entertainments of various kinds, and it is with sincere regret that we cannot be in attendance. We hope that Post C will have some member who can go as it would no doubt be well worth the effort.

R. C. Lockwood, formerly traveling salesman for Ross, Marshall, Bartel Company, is traveling now for Davis Bros., of Toledo, Ohio.

It is a pity, and a time traveling man, and one that is good for the blues to talk to, was seen on our streets this week. It is said that Golden Rio is still the best coffee on earth and that he is selling lots of it, despite the financial stringency.

Sometime ago on a visit to one of our neighboring cities, noted for its push, energy and enterprise, one of its citizens stated that he had recently visited our good, solid, old, slow town as he put it, and on going up and down Main street, that he actually saw the same red flannel hanging out in front of the dry goods stores, and the same calf boots hanging out in front of the shoe stores, that were hanging there when he was a boy. We know that this thrust at our up-to-date methods was entirely uncalculated for, as our merchants in these lines are strictly modern. We believe in a general way worse than that would come to pass if they build the board fence much higher around Richmond. With our interurban shopping facilities entirely cut off in one direction, and seriously crippled in the other, with two city ordinances in effect, prohibiting the farmer from

marketing his product, we believe it has come time for Post C to go on record regarding these matters, as they are questions that vitally concern the traveling men's interests. Ezra Kendall said that he had six boys and would rather have six more than to lose one of them, and would rather for all six of them to be bad than to lose one of them, and so that is what we think about the town. We would rather the town would be wide open and bad than to be dead.

S. N. Jenkins, who was slightly under the weather for a few days has recovered his normal health.

Post C is taking the keenest interest in the State Rivers and Harbors commission and will appoint a delegate to attend the meeting.

A tame rattlesnake belonging to an Arizona farmer sleeps every night on the front gate of its owner's garden, coiling himself around the gate and the gatepost so that a lock and chain to keep out intruders are not needed.

PEOPLE'S LOBBY ORGANIZED AGAIN

Is Now Preparing to Break Forth and Will Start Something Interesting.

MATTER OF IMPORTANCE.

Washington, D. C., Jan. 11.—The People's Lobby is preparing to break forth again. It is announced at the headquarters in this city that in the near future something will be given to the public of an interesting character. Just what it is is not indicated, save that it will be a matter of considerable importance.

In the stomach, a responsible physician, in a Chicago hospital recently, prompted diagnosis among the surgeons, whether the stomach could be removed, and the patient be none the worse for it. Before the diagnosis had well and out, the patient had died. It demonstrated we could not live without his stomach. To keep the stomach in good condition, and cure constipation, indigestion, etc., use the great herb laxative compound, Dr. Caldwell's Syrup Pepsin. Druggists sell it at 50 cents and \$1 a bottle.
