

MUNCIE STRIKE IS EXPENSIVE TO THE STATE OF INDIANA

The Riots Will Cost the Tax-payers of Indiana About \$16,000 While the City Itself Will Pay Much.

MARTIAL LAW TO BE DECLARED AT AN END.

Governor Hanly Will Take This Action Within Course of a Few Days—Marion Strikers Get Addition.

Indianapolis, Ind., Jan. 13.—That the Muncie strike will prove the most expensive in Indiana's history is the opinion of Col. Harry B. Smith, commander of the Second Infantry, Indiana National guard, who has just returned from Muncie, where he was in command of the provisional regiment under Maj. Gen. W. J. McKee. The evacuation of Muncie by all the state troops except five companies up to yesterday made it necessary that a regimental officer and his staff should remain longer.

Col. Smith says that the strike riots so far have cost the state at least \$2,000 per day, and as there have already been eight days of martial law and occupation at Muncie by the military the riots will cost Indiana tax payers at least \$16,000. In addition to this the 500 deputies maintained by Sheriff Perdue cost the citizens of Muncie and Delaware county \$1,000 per day. Each deputy will receive pay, under the law, at the rate of \$2 per day. The total cost of the strike, including financial loss to the Indiana Union Traction company, will amount to something like \$25,000.

"It is only a question of a day or two now," said Col. Smith, yesterday, "until Governor Hanly will issue his proclamation declaring martial law in Muncie at an end. The moral effect of the occupation of Muncie by the troops was marked. It took them to teach them a lesson. The tax payers there are beginning to realize that the lawlessness is going to cost them something. The behavior of the troops was of the highest order. I talked with members of the Commercial club and other leading citizens and they were highly pleased with the conduct of the soldiers."

MARION STRIKERS GAIN RECRUIT

Conductor Quits Post and Joins Rank of Union Men.

Marion, Ind., Jan. 13.—The striking street car men yesterday gained a recruit when Wood Harrold, a conductor on a North Marion car, quit work and declared his intention to espouse the cause of the strikers. The strikers claim that there will be further additions to their ranks, but B. F. Parker, local superintendent of the Union Traction lines, declares that all of the present men employed will continue at work.

Because of a rumor to the effect that there would be violence at Gas City last night, twenty deputy sheriffs paraded the streets of the town until the last car had completed its trip. The rumor was evidently not well founded for there was no disturbance of any kind. Governor Hanly had been notified by some one of the probability of trouble and he telegraphed the sheriff to swear in a sufficient number of deputies to preserve the peace of the town and protect property.

Is The Stomach Dispensable?
An operation for the removal of the stomach in a Chicago hospital recently, promoted discussion among the surgeons whether the stomach could be removed and the patient be none the worse for it. Before the discussion had well died out, the patient had died. It demonstrated he could not live without his stomach. To keep the stomach in good condition, and cure constipation, indigestion, etc., use the great herb laxative compound, Dr. Caldwell's Syrup Pepsin. Druggists sell it at 50 cents and \$1 a bottle.

RID CITY OF VICE CRY OF NEW ORLEANS

Pulpit, Press and Bench Join In Campaign to Restore Morality.

WICKEDEST IN AMERICA.

New Orleans, Jan. 13.—The moral awakening of New Orleans has arrived. The pulpit, press and bench in a campaign have aroused what is now roundly declared "the wickedest city in America."

The issue has been made: "Shall the city of New Orleans become a decent city or shall it continue to be, as it has been in the past, the mecca of gamblers, and all the evils that usually follow in their wake?"

The leaders in the fight for a social cleaning up of the city declare that the time has come when New Orleans will be swept of the elements that have made her a moral plague spot in the United States.

The newspapers have taken up the battle for a cleaner city, both morally and physically.

New Orleans has more than once been the center of an upheaval of public sentiment against the negroes, against the saloons, against the gambling resorts, against the race-tracks and against the levee resorts. Always, however, the force of purification has been spent before any actual reform was accomplished.

Strong Men of the Markets.
The porters of the central markets at Paris, which are the largest markets in the world, are called "the strong men of the markets" because of their great muscle and wonderful endurance. They wear hats as big as parasols, which enable them to carry on their heads most unwieldy and unpleasant burdens, such as crates of fowls, rabbits and suckling pigs.—Indianapolis News.

The first settlement in the state of New Jersey was by the Dutch, at Bergen, in 1617. Newark received its first charter in 1713.

COMPLETE REST FOR THE KAISER

Will Take Southern Cruise for Health.

Berlin, Jan. 13.—It is now practically admitted by the government that it is necessary for the Kaiser to leave Berlin in search of health and strength, although it is said that it is nothing more serious than the necessity of taking a complete rest.

On February 27 the imperial yacht Hohenzollern will leave Kiel and start for the Mediterranean, but it has not yet been decided whether the Kaiser and the imperial family will be on board or whether they will be picked up in a southern port. At any rate, they will spend about three weeks cruising in the Mediterranean and toward the end of March they will take up their residence in the beautiful Villa Achilleon on the island of Corfu, which will be ready to receive them.

London In Her Glory.
Seen under the glory of a really fine sunset, London must be one of the most beautiful and impressive spectacles in the world. You may look up the Thames and see the red sun turning the pall of smoke that hangs over the shipping into a sultry crimson cloud and lighting the dirty water and dingy wharfs with a gleam of gold, or see the dome of St. Paul's caught in a mist of rich color, or the high buildings of Bond street standing clearly out against the warmly tinged sky and wonder, not unreasonably, whether any other city that ever was built could show such a magnificent series of pictures as can this dingy London of ours of an autumn evening.—Country Gentleman

Holy Water Stoups.
The holy water stoup in mediaeval churches took many strange forms. In the little village church of Annonay, in France, there are two very fine ones made from the two parts of the shell of a giant oyster found in the Malay peninsula, whence they were brought 150 years ago by a son of the village who was an official in French India in its palmy days.—London Scraps.

The Sunrise Of Life.
Infants and children are constantly needing a laxative. It is important to know what to give them. Their stomachs and bowels are not strong enough for salts, purgative waters or cathartic pills, powders or tablets. Give them a mild, pleasant, gentle, laxative tonic like Dr. Caldwell's Syrup Pepsin, which sells at the small sum of 50 cents or \$1 at drug stores. It is the great remedy for you to have in the house for your children.
