

SALOON MEN SCORE A LEGAL VICTORY

Applicants for License Get Cases Out of Commissioners' Court.

CIRCUIT COURT TO DECIDE.

SALOONISTS WILL INSIST THAT THE NAMES ON THE REMONSTRANCES FILED BE STRICTLY GENUINE IN EVERY RESPECT.

New Castle, Ind., Jan. 14.—The liquor interests got exactly what they desired in the hearing of the Henry township blanket remonstrance case before the county commissioners yesterday afternoon, namely the taking of the case out of the commissioners' court with a chance to have it filed in the circuit court at an early date. The case was again taken up yesterday morning, after having been postponed from Thursday and on account of the saloon men not having filed a cost bond attorneys for the remonstrators made a motion that the applications be dismissed. The commissioners gave notice that the ruling would be made this afternoon and, after convening, held to their order as to the cost bond and the three applications, those of J. F. McGrath, A. H. Ward and William Pipher, were dismissed. Attorneys for the saloon men held a conference this afternoon and outlined their future action. It is the intention to file a bond for appeal and then file their applications in the circuit court. There is absolutely no possibility of the case being tried in this county and a change of venue will be asked as soon as the necessary papers are filed. It is expected that more than three hundred witnesses will be called and the expense will be heavy. The saloon men have made affidavit that over three hundred names on the remonstrance are illegal and will insist that the remonstrators furnish proof of their genuineness. It is expected that the appeal from the decision of the commissioners will be made in the next few days and then it will be definitely known where the case will be tried.

EDUCATED WOMEN NARROW MINDED

College Women Do Not Marry Enthusiastically and Race Suicide Results.

SAM'L McCORMICK TALKS.

YOUNG MEN ARE TAKEN FROM SCHOOLS AND PLACED TO WORK AS NUMBER OF YOUNG WOMEN DESIRE EDUCATION.

Pittsburg, Penn., Jan. 14.—Dr. Samuel B. McCormick, Chancellor of the Western University of Pennsylvania, is not enthusiastic over higher education for women. He declared in an address before the Pittsburg Principals' Association, at its weekly meeting, that women with modern education gained in colleges rather encouraged race suicide. His subject was "The Proper Attitude of the Teachers." He declared that the number of young women pursuing higher education is increasing, compelling parents to take young men from school early and put them to work.

"In the next generation it is asserted the educated women will see that their sons are educated and conditions will equalize themselves," said the Chancellor. "This theory will not stand, however, as facts have proved that college women do not marry enthusiastically, and seldom raise families. Then education causes women to become narrow-minded. Too many seek education to gain money and power. Breadth of view and real individuality interest in pupils is what teachers should have. They should teach them to use their learning to more than one end."

SOLDIERS SHOULD NOT BE FLUNKIES

Old Veterans of Richmond Indorse Editorial of Ohio Paper.

ARMY LIFE UNPOPULAR.

A GENERAL SERVICE CORPS. THEY THINK, SHOULD BE ESTABLISHED WHICH WOULD MAKE LIFE MORE PLEASANT.

G. L. Runnels states to the Palladium that the ex-soldiers of this city endorse an editorial which recently appeared in the Dayton Journal concerning the trouble the government is experiencing in enlisting men into the army. Ill treatment by commissioned officers, and the severe work burdened upon enlisted men are assigned as the causes of discontent.

A general service corps for the army which corps would be expected to do all the manual labor, such as road building, "flunking" for officers and other disagreeable tasks is a remedy recommended by the Journal to make army life more popular. The editorial referred to concludes as follows:

"It is now proposed to increase the pay of the soldier. That will not bring better or more material into the regular army. There may be more enlistments, but the standard of the service will not be raised.

"Patriotism and not money is what makes an army. And the man who handles the gun must be patriotic if the efficiency of the army is to be kept up to what it should be. But the average man with the gun finds it a difficult task to maintain his equilibrium and love the service as long as his superior officers assume that they are made of a better quality of clay.

"What the army needs is good old-fashioned democracy between man and man. When that comes, men will join the army through patriotism rather than because of financial stringencies, as is so often the case at present."

PRINCE HENRY WILL RESIGN POSITION

Kaiser's Brother to Retire From Navy League.

Berlin, Jan. 14.—An official communication just issued sets forth that Prince Henry of Prussia, brother of Emperor William, and representative of the Kaiser, as patron of the Navy League has decided to retire from his position in the event of Major-General Kelm continuing as managing director of the league.

This decision would appear to be a result of a recent lengthy conference between Emperor William and Prince Rupprecht of Bavaria, during which the prince explained that his retirement from the Bavarian branch of the league was due to the fact that Major-General Kelm had made use of the resources of the association for political purposes. The attitude taken by the Emperor undoubtedly will result in forcing Major-General Kelm to resign.

WOMEN PROPOSE? PASTOR SAYS NO

Declares Initiative in Such Affairs Belongs to Men.

Chicago, Ill., Jan. 14.—Hot denunciation of the tradition which gives to women the initiative in love affairs on leap year was made by the Rev. Melvorne P. Boynton in Lexington Avenue Baptist church.

He held that the leap year custom decreases the charm and power of woman and promotes in young men a feeling for all women kind.

"The charm of woman is her purity and her spirituality," he said. Her power over man is in the blessed fact that she is above him and makes him look up. Anything that tends to lessen this charm and power of woman must be carefully considered.

"I do not know where the silly leap year joke originated or who is its author. To suggest that woman take the initiative in the matter of matrimony is to lower her in the esteem of most men and cause her to lose much of her charm and most of her power for good."
