

RHEUMATISM

The form of rheumatism known as inflammatory means that the rheumatic poison in the blood has affected the joints. It is characterized by excruciating pain and fever and the hands and wrists are often distorted and crippled.

Mr. John Blake, a veteran of the Civil War, now a prosperous farmer, whose address is R. F. D. No. 2, Verona, N. Y., says:

"I was so afflicted with rheumatism that life was a misery. The pain was mostly in my limbs while my hands were so crippled that I could not close them. I suffered like this for years and there seemed to be no chance to get well. One day I read of Dr. Williams' Pink Pills and I gave them a thorough trial and was completely cured."

No external remedy will cure rheumatism for the poison is in the blood and the best blood medicine to combat rheumatism is

SECTARIANISM TO POINT OF SUICIDE

Chicago Speaker Says There Are Too Many Churches.

Chicago, Jan. 17.—"Overcrowded communities abound in this country," declared Graham Taylor, head of Chicago Commons, addressing the Chicago Woman's Club yesterday. Dr. Taylor was one of the speakers in a symposium on "The Religious Basis for Social Work."

"Sectarianism and the multiplication of religious organizations have been pushed to the point of suicide," he continued. "The churches are so busy trying to save themselves from each other that they forget to save the town."

"All over this land are communities of Christians that are not Christian communities. I know of one university town three-fourths of whose families have church connections, and that town is thoroughly pagan in its politics, its business and its street life. It is a fact that in town after town, city after city, class after class, there is almost a complete divorce between the churches and the daily life of the people."

"It is time to bridge the breach between the church and the world. The church must become not less worldly, but more worldly. It has retreated into a far corner and the world rushes by without heeding it."

"Look the wide land over and you will see the tremendous loss the church has sustained in the face of the ecclesiastical progress of the last twenty years. What is needed is a revival looking to a humanized religion and a united church of some kind, whether our kind or not."

Weak Heart Action

There are certain nerves that control the action of the heart. When they become weak, the heart action is impaired. Short breath, pain around heart, choking sensation, palpitation, fluttering, feeble or rapid pulse, and other distressing symptoms follow. Dr. Miles Heart Cure is a medicine especially adapted to the needs of these nerves and the muscular structure of the heart itself. It is a strengthening tonic that brings speedy relief. Try it.

"I was afflicted with what I thought was a heart trouble. When I was in bed I could not breathe. I had a choking sensation, and I was so weak that I could not get up. I had taken three bottles and now I am not suffering at all. I am cured and I can do my work. I write this in the hope that it will attract the attention of others who are as I was."

BOYCOTT WEAPON OF SALOON MEN

One Remonstrance Signer at New Castle Forced Out of Business.

CANDIDATES ARE TARGETS.

THOSE MEN NOW MAKING RACE FOR COUNTY OFFICE ARE RECEIVING BENEFIT OF LIQUOR DISPENSERS' WRATH.

New Castle, Ind., Jan. 17.—The boycott is the popular weapon of the saloon keepers of this city in retaliating against business men who signed the blanket remonstrance filed recently with the county commissioners. As a result of the boycott, one man has been driven out of business and another has suffered.

J. H. Nelson opened a bakery and confectionery in Broad street about a year ago. He built up a profitable business. Then came the agitation against the saloons. Mr. Nelson signed the remonstrance. Through their secret information bureau, the saloon men learned of Nelson's action. The next day a saloon keeper visited the bakery.

Boycott of the Baker Begun.

"What's the price of your cakes?" was the inquiry.

Mr. Nelson gave the information courteously.

"Well, —er, somebody was tellin' me you signed the remonstrance against the saloons in New Castle. How about it?" asked the saloon man.

Though the man had been a constant customer, and Mr. Nelson saw the drift of his question, he replied: "I did so; you are correctly informed."

"Then, if that's the case," rejoined the saloon man, "I don't want any of your — cakes," and with this he walked out.

In an hour everyone of the thirteen saloon men in New Castle knew that "that — baker had signed the remonstrance and we'll boycott him."

From that time none of the six saloon men who had been trading with Nelson bought a cent's worth of him and the baker also lost the trade of a number of people who were friendly with the saloon men. The business continued to decrease, and Mr. Nelson who had for some time been desiring to sell out on account of his health disposed of his store.

Trade Returns to New Owner.

Since the new owner has taken charge much of the lost trade has returned, showing that the fight was against Nelson personally for his signing the remonstrance. Mr. Nelson is still in the city, but is preparing to leave and will engage in business elsewhere. He told the story of the boycott substantially as given in this dispatch.

The resentment of the saloon men is also shown in the case of H. H. Stretch & Co., who signed the remonstrance. A well-known saloon man had been trading with him, and learned of his signing the remonstrance. However, the saloon man's wife did not know of it, and ordered a bill of groceries, as had been her custom. When the saloon keeper returned home he saw the groceries and at once took them back with the remark: "Take you — groceries, and don't send another — thing to my house."

Many other cases of boycotting are reported, business men and candidates for office being the targets of the saloon men.

HELL FIRE FOR LIARS AND THIEVES

Minister Holds All Will Be Damned.

Last night was perhaps the most impressive session of the series of revival meetings at Bethel A. M. E. church. "Divine Rebirth" was the subject discussed by Rev. Williams. He took for his text the words, "Son, Remember," and held that memory, conscience, and regret will make lent of hell for any one. He held that all liars, thieves, peace disturbers and those who ruin young manhood and womanhood would be sent to hell with the devil. Tonight his subject will be "Noah and the Deluge."

Excessive Drinking

Orrine Destroys the Craving for Drink Sold Under Positive Guarantee

Excessive or continued use of alcoholic beverages always results in a diseased condition of the nervous system.

The drinking man is often heard to say, "I can stop of my own free will and when I wish," but the poor fellow is now devoid of the power to act at the proper time and in the right way. It's too late, the craving has secured a firm hold and because of the diseased nervous system he has not the ability for sustained effort. The result we all know.

Drunkness is no longer considered a crime; eminent scientists and physicians have agreed that it is a disease and must be treated as such. The home treatment that has been used for a number of years, and is highly successful, is Orrine. It is sold under a positive guarantee that if it does not effect a cure your money will be refunded.

Orrine is in two forms. When desiring to give secretly, purchase Orrine No. 1, and if the patient will voluntarily take the treatment, Orrine No. 2 should be given. The guarantee is the same in either case. Orrine costs but \$1.00 per box. Mailed in plain sealed wrapper on receipt of price. Write for free treatise on "Drunkness" mailed in sealed envelope by The Orrine Co., Washington, D. C. Sold by leading druggists everywhere and in this city by A. G. Luken & Co.

WILL BAR OPIUM FROM PHILIPPINES

Law Prohibiting Importation Will Soon Be Operative In Islands.

AMERICANS GET THE HABIT.

Washington, Jan. 17.—Within a little over a month's time the law prohibiting the importation of opium into the Philippines will become effective and in anticipation of that important event there is much speculation among the Filipinos in regard to the probable effect of the law. A large quantity of opium is consumed in the islands, mainly by the large Chinese element, but the baneful habit of opium smoking has been rapidly extending among the native Filipinos and even among the Americans. Congress has passed an act intended to correct the evil, but there is great doubt of the ability of the confirmed opium user to abandon the drug and a considerable agitation has been taking place in the Philippines with the object of obtaining an extension of the time permitted for the stoppage of the traffic.

Lord Kelvin, when a professor at Glasgow university, was occasionally obscure and complex when the interest of a side issue led him off the beaten track. This was made the subject of an epigram, which contrasted his methods with those of his assistant. Day, to his disadvantage. The occasion chosen was that of his return from having received his knighthood, and a student wrote upon the blackboard: "Work while it is yet Day, for the Knight cometh when no man can work."

CORTEYOU IN TRYING POSITION

White House Visitors Insist That the Secretary Will Quit.

FRICTION OVER POLITICS.

HEAD OF TREASURY DEPARTMENT NOT WILLING TO PUT ASIDE HIS OWN PERSONAL AMBITIONS FOR TAFT.

Washington, Jan. 17.—Is the president trying to drive George B. Cortelyou from the Cabinet? The undercurrent of talk here is that such is the program of the president, who, it is asserted, is unwilling to have Mr. Cortelyou continue as a member of his official family because he has refused to give assistance to the administration's political program.

Mr. Cortelyou has said many times within the last twenty-four hours that he has not thought of quitting the cabinet, but persons who, under ordinary circumstances, get their inspiration from the White House, continue to assert that he is going out. The trouble is wholly political. The president took offense because his secretary of the treasury dared be a candidate for the presidential nomination. Even after the first friction matters could undoubtedly have been patched up had Mr. Cortelyou been willing to put aside his own ambition and climb on the Taft wagon. This Mr. Cortelyou has persistently refused to do.

Capers Changes His Mind.

The ugly part of the gossip that is going about is that the administration wants Cortelyou out so it can make use of the officeholders who owe allegiance to the treasury department in furthering the program to control the national convention.

IT IS SERIOUS.

Some Richmond People Fail to Realize the Seriousness.

The constant aching of a bad back, the weariness, the tired feeling, the pains and aches of kidney ills are serious—if neglected. Dangerous urinary troubles follow. A Richmond citizen shows you how to avoid them.

L. F. Cooper, of 714 North Thirteenth street, Richmond, Ind., says:

"For two years there existed sharp pains in my loins and sides and a continual feeling of soreness. It was hard for me to stoop, lift or bend over and when I caught cold it always settled in the kidneys. The secretions were irregular and much too frequent. The medicines I used brought me no benefit until I began taking Doan's Kidney Pills. I used two boxes of this remedy last winter and since then have been free from all trouble with the kidneys. I am, therefore, glad to recommend the use of Doan's Kidney Pills."

The New York, Susquehanna & Western railroad has a cur dog that understands the block signal system as well as the engineers. His name is Boscoe. This quaint mongrel rides in the cab of a locomotive and watches the semaphores. If an arm is up, meaning that the block ahead is not clear, Boscoe growls ominously, and the engineer takes warning. If the arm is down, indicating a clear track ahead, Boscoe barks joyously.—New York Press.

New York, January 17.—There is to be no reduction in the price of diamonds, according to an announcement made by one of the big diamond importing houses. It is stated that all importers have received word from the diamond syndicate in London, which controls 95 per cent of the diamond output of the world, that the policy of maintaining prices will be strictly adhered to in spite of the great falling off in sales within the last few months.

BERRY, CHIEF OF ENGINEERING CORPS

New Castle Man Now With C., C. & L.

New Castle, Ind., Jan. 17.—Omar A. Berry left Tuesday night for Chicago, where he has accepted the position as chief engineer with the C. C. & L. railroad, of which Paul Barnard of this city is the superintendent of maintenance and way. Mr. Berry's duties will call him all over the line from Chicago to Cincinnati. For the present he will continue to reside here.

Mr. Berry has delighted many congregations and audiences with his magnificent solos during his year's residence here and his wife and he have acquired a wide acquaintanceship. He was formerly employed with the I. N. C. and T. electric line.

Helpless.

The following was told at a smoker recently, says Lippincott's. The narrator told of a little feed he once attended where eight men were sent home in one hack, and the driver simply rang the doorbell and when a feminine voice called from an upper window, "Who is there?" the Jehu replied, "Misses, will you be so kind as to come down and pick out your baby?"

"No," said Miss Passy tartly, "I don't like the photos Kauter made for me. They make me look like a woman of forty."

"Well," replied Miss Pepprey, "you should have told him not to touch them up if you didn't want them to look so youthful!"

After the Concert.

"Why, how do you do, Eleanor?"

"Good morning, Penelope. Were you to the concert yesterday afternoon?"

"Yes, dear."

"What did you hear?"

"Oh, I heard Hollie Keyser was engaged, and Ella's sister is going to marry Jack, and Nellie came near eloping with Paul, and Penryn and Charles have made up, and Elsie has broken off her engagement with that horrid count, and—"

"No, no, dear. I mean what pieces did you hear?"

"Now, would you believe I've clean forgotten? Come over this afternoon, dear, and I'll show you my programme."

Then they separated.
