

GARFIELD PREPARING FOR COMMENCEMENT

Prof. D. W. Dennis of Earlham, Will Give the Class Address.

DIPLOMAS ARE NOT GIVEN.

INSTEAD A CERTIFICATE OF MERIT WILL BE AWARDED—AFFAIRS AT GARFIELD SCHOOL DURING THE PAST WEEK.

The Garfield graduation committee has the program for that occasion practically completed. The class address will be given by Prof. D. W. Dennis, of Earlham. Mrs. Grace Gorman will sing. Miss Carolyn Hutton will play a violin solo and the Garfield school orchestra will furnish several numbers. The substitution of certificates for diplomas is regretted by many of the class, while others approve of the change. It seemed the consistent thing to do, from the fact that a diploma is supposed to signify the completion of a course of study and the course of study for the Richmond schools is not completed until the work of the high school is done. A certificate is merely a statement as to how much has been accomplished and may be given at any stage of the course.

The girls' open evening in the gymnasium on last Thursday was a success. A good sized audience was present to see the gymnastic drills and the basket ball games. The 7A girls gave free hand work, the 8B class a dumb bell drill, and the 8A's used the Indian clubs. The basket ball games were closely contested in the game, team One, with Mary Mather as captain, won from team Two, captained by Reba Gunder, the score being 15 to 13. In the second game, team Four captained by Elsie Hawelotte, won by a score of 6 to 5, from team Three, led by Louise Malsby. One of the most valuable features of the evening was the bringing of a number of patrons into closer contact with the school and enabling them to judge of the spirit existing between teachers and pupils. The school treasury was benefited to the extent of about ten dollars.

On last Monday morning, Prof. Thompson of the high school, gave a most interesting account of an experience on the island of Pennykeys, to the pupils at Garfield. Prof. Ellabarger will speak to the school next Monday morning.

The 7B class, which is to enter Garfield, numbers 107, consisting of 50 boys and 57 girls. In order that all will be in readiness for work, the members of the class have been asked to indicate which course they will pursue at Garfield. Nineteen have chosen the Latin course, 33 the German, 18 the English and 11 from the Hibbard school will continue German. Forty-three boys and thirty-one girls of the class have asked to take gymnastics. With this information at hand it will be possible to have the program completed and the assignment to divisions made, so that the first day of the new term will find all in readiness for work.

A Higher Health Level.
"I have reached a higher health level since I began using Dr. King's New Life Pills," writes Jacob Springer, of West Franklin, Maine. "They keep my stomach, liver and bowels working just right." If these pills disappoint you on trial, money will be refunded at A. G. Luken & Co. drug store, 25c.

ALL WOMEN ARE "CATS" DECLARES JUDGE

Clears His Court of Fashionable Folks.

Cleveland, Ohio, Jan. 18.—"All women are cats. They turn suddenly upon their best friends and spit and claw and scratch. Most of the women in this room came here to hear testimony against Mrs. Mitchell."

With these words Judge Harvey Keller, in common pleas court, cleared his court room of 200 well-dressed women today, at the opening of the hearing of the divorce case of Horace Mitchell against pretty Helen Mitchell.

"A divorce trial is always attractive to women," Judge Keller continued. "They come to hear of grillroom escapades, because they probably never have been in one. They come to satiate their curiosity about things they know nothing of."

Grillroom parties and dancing upon tables formed part of the testimony.

State of Ohio, City of Toledo, Lucas County, ss.
I, Frank J. Cheney, make oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every copy of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.

FRANK J. CHENEY,
Notary Public.
Sworn to before me and subscribed in my presence, this 6th day of December, A. D. 1907.
A. W. GLEASON,
Notary Public.
Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces of the system. Send for testimonials free.

A Few of the Two Hundred Victims of the Horrible Boyertown Fire, the First Awful Tragedy of 1908

Here are some of the victims of the Boyertown, Pa., theatre horror. From left to right, at the top row, are Nellie Foreman, killed; Mammie Toms, killed; Ruth Erb, saved; Edna Schoener, killed; below are pictures of Martha Weber and Rev. A. H. Weber.

INTERESTING TIMES IN INDIANAPOLIS

Local Telephone Men Watching the Situation.

Richmond telephone men now look toward Indianapolis as some interesting developments are expected in that city, for in a petition filed with the board of public works, the Indianapolis Telephone company again asks for an amended franchise from the city, that would be, in effect, practically a new franchise, with higher rates and a longer term of life. The amended franchise also would eliminate the provision in the present contract in regard to the city's right to acquire the plant of the company; would decrease the company's annual payment to the city; would remove any limit to the company's capital stock and would strike out the provision compelling the company to connect with the lines of any outside company asking for such connection. The provision in regard to the extension of local service on petition of property holders is also eliminated.

The petition is receiving active opposition in the capital city.

HIS RULING PASSION.
A Business Proposition That Just Failed of Success.

There lived in Detroit a man who was the champion letter writer to the newspapers and to the heads of all public enterprises. One of his fads was to write every day to President Ledyard of the Michigan Central railroad and tell Ledyard wherein he was failing in the conduct of his road.

There was a letter for Ledyard every morning. They annoyed him, and he sent for his general counsel one day and said: "Russell, I'm getting tired of these letters. I will give you \$2,000 more a year if you will find that man and stop him for twelve months."

Three thousand dollars more a year appealed to Russell, and he went out to find the letter writer. He found him and made a business proposition. "Now, see here," he said, "I want you to stop writing letters to Mr. Ledyard. If you will quit for a year I will give you \$2,500."

The letter writer consented gladly. Things went along swimmingly for eleven months. Ledyard was happy, and Russell was happy. Then there was a wreck on the road. The letter writer could not resist the opportunity, and he wrote to Ledyard and told him what he thought about the road and its president and its management.

Ledyard sent the letter to Russell with this indorsement: "This is where you lose \$3,000." And it was.—Saturday Evening Post.

Absinth Foretold.
A Paris paper publishes a letter from a correspondent who in the cause of temperance cites a great authority—St. John the Evangelist. It is claimed that the inspired writer proclaims absinth as a terrible scourge and foretells its baneful powers in the eighth chapter of the book of Revelation, where we read in verses 10 and 11: "The third angel sounded a trumpet, and a big star fell from the sky on to the third part of the rivers and fountains and water. This star is called Wormwood, and the third part of the waters were changed, and many men died of thirst because they were bitter."

Wormwood in the English authorized version is rendered "absinth" in the French translation of the New Testament.

Flit island, from which the recent eclipse of the sun was observed, is a mere dot on the Pacific 400 miles north of Tahiti. The government party is expected in San Francisco January 25.

FAT OFFICERS TO BE SHOWN CONSIDERATION

Gen. Bell Hints That Riding Tests Will Not Be Severe.

Washington, Jan. 18.—That the horsemanship tests inaugurated by order of the president are to survive and be extended as a measure to increase and determine the physical efficiency of officers of the army was indicated by Gen. Bell, chief of staff, in statements made by him before the house committee on military affairs, which had up for hearing the army appropriation bill.

Gen. Bell's comments showed him to be heartily in accord with the president's views as to the propriety and necessity of these tests. He intimated that in the future these endurance tests will call for thirty miles a day in the saddle for three consecutive days, but he also suggests that when the test has reached that degree of severity some consideration will enter into the determination of which officers shall be subjected to it, the inference being that the order will not be all-inclusive, as it has been in the past.

Eat anything you want, don't starve yourself, fearing it won't agree, for Hollister's Rocky Mountain Tea cleans the bowels and stomach, and makes digestion easy. 35c. Tea or Tablets.—A. G. Luken & Co.

ARGAND LAMPS.

A Swiss Doctor's Invention and What It Accomplished.

What did Argand do for the lamp? Examine an ordinary lamp in which coal oil is burned. The chimney protects the flame from sudden gusts of wind and also creates a draft of air, just as the fire chimney creates a draft. Argand's lamp was the first to have a chimney. Look below the chimney and you will see open passages through which air may pass upward and find its way to the wick. Notice further that as this draft of air passes upward it is so directed that when the lamp is burning an extra quantity of air plays directly upon the wick. Before Argand the wick received no supply of air. Now notice—and this is very important—that the wick of our modern lamp is flat or circular, but thin. The air in abundance plays upon both sides of the thin wick and burns it without making smoke. Smoke is simply half burned particles (soot) of a burning substance. The particles pass off half burned because enough air has not been supplied. Now Argand, by making the wick thin and by causing plenty of air to rush into the flame, thereby caused it to burn with a white flame.

After the invention of Argand the art of lamp making improved by leaps and by bounds. More progress was made in twenty years after 1783 than had been made in twenty centuries before. New burners were invented, new and better oils were used and better wicks made, but all the new kinds of lamps were patterned after the Argand.—S. E. Porman in St. Nicholas.

Cabbages in Cuba grow to such size that a single head often weighs twenty pounds.

BAIL DENIED ALBERT LUKENS

Held for Trial for Alleged Murder.

Canton, O., Jan. 18.—Following the testimony of 15 witnesses yesterday afternoon and last night, Albert Lukens, charged with the murder of his sweetheart, Elizabeth Brown, on the night of January 6, with a hammer, was bound over to the grand jury without bail by Mayor Turnbull. The grand jury convenes Monday to take up the case.

Four of the state's witnesses—Mabel Harris, Lucy Farrington, Minnie Irwin and Hazel Martin—who testified today that they saw Lukens with Miss Brown at about 7 o'clock on the night of the crime, at local resorts, incriminated them selves as residents of resorts and were sentenced by Mayor Turnbull to the workhouse for 30 days and also fined each \$25. The proprietors were ordered arrested.

How to Avoid Pneumonia

You can avoid pneumonia and other serious results from a cold by taking Foley's Honey and Tar. It stops the cough, heals the lungs, and expels the cold from the system. Refuse any but the genuine in the yellow package. A. G. Luken & Co.

REVIVAL SERVICES.

Meeting Now Being Held at Centerville Church.

Centerville, Ind., Jan. 18.—The revival meetings at the Methodist church are now in full progress and will continue indefinitely. The Rev. Maurice E. Barrett of Spiceland and the pastor Rev. W. E. Whitlock, are in charge of the services.

The great Guadalupe artesian well at Guadalupe, Mexico, which used to spout one hundred feet high, only spouts half that now.

Appetite for Crabs

THE codfish has an enormous appetite for shell-fish, crabs and lobsters. He eats them alive and he eats them raw. He eats them all without indigestion and grows fat. He has a powerful liver.

The oil from the cod's liver makes

Scott's Emulsion

A natural power to digest and to produce flesh is in every spoonful. This power means new vigor and new flesh for those who suffer from wasting diseases.

JURY DISAGREED IN NICHOLSON CASE

Dickinson Trust Company File Suit for Accounting Of Funds.

TRIED IN HENRY COUNTY.

The jury in the case of the Dickinson Trust company against Josiah P. Nicholson, which was tried in the Henry circuit court, disagreed. It is probable that the case will be reheard. Nicholson was security on the bond of James A. Windsor, who was formerly guardian of Rebecca Weeks, an insane person. The present guardian, the Dickinson Trust company, claimed that Windsor failed to account for \$800 of his former ward's money. Nicholson being Windsor's security, an effort to collect this amount with interest was made.

It Does The Business.

Mr. E. E. Chamberlain, of Clinton, Maine, says of Hicken's Amica Salve: "It does the business; I have used it for piles and it cured them. Used it for chapped hands and it cured them. Applied it to an old sore and it healed it without leaving a scar behind." 25c. at A. G. Luken & Co. drug store.

CRY OF HIGH TAXES CHECKS SALOON WAR

Petition Strangely Disappears At Anderson.

Anderson, Ind., Jan. 18.—The agitation against saloons in this city has been checked by the cry: "Hurt the saloons and you'll hurt yourself by increasing your taxes."

A petition was in circulation to restrict the saloons, but it has mysteriously disappeared. The petition contained several hundred names, among them most of the owners or managers of factories. It asked the city council to limit the territory that saloons should occupy by barring them from all residence and factory districts.

MILTON COMMISSIONED.

Granted to the High School by State Board of Education.

Milton, Ind., Jan. 18.—The Milton High School was granted a commission by the State Board of Education this week, so the graduates will have the same credits as the city schools on entering the profession of teaching.
