PAST YEAR BAD FOR FRUITS IN STATE OF INDIANA

Walter S. Ratliff, State Agent For Government Department of Pomology, Prepares His Annual Report.

EARLY BUDDING WITH KILLING FROST CAUSE.

Report Contains Summary of Data on Horticulture, Agriculture and Forestry and Is A Most Comprehensive One.

The past year was the worst for fruit of all varieties that has been experienced in Indiana in recent years. This statement is made by Walter Ratliff of this county in the fifth annual phenological report which he is now preparing for the United States department of Pomology. Mr. Ratliff is the state agent of the department. In his report he also informs Uncle Sam that the state of Indiana is an exceedingly poor place for plum culture. For the past five years an almost total plum crop failure in Indiana has been reported. Last year early budding followed by killing cold practically ruined the entire fruit crop of the state.

Mr. Ratliff's report includes a summary of data on horticulture, agriculture and forestry. The report is made under the direction of the Hon. P. J. Gould, head of the bureau of pomology of the United States Agricultural Department.

In his report on state horticulture, Mr. Ratliff shows the time of blossoming, ripening, gathering, keeping and marketing of fresh ripe fruits. In the report on state agriculture, which also includes vegetables of all kinds, melons, pumpkins and pickles, Mr. Ratliff describes the time of seeding, planting, cultivating, ripening and harvesting of crops. The report on forestry describes the leafing and fruiting of the Hoosier forest trees and gives the time of coloration and falling of the leaves. The report is a most comprehensive one and will include, on completion, about ninety foolscap pages.

EIGHT CANDIDATES WILL FIGHT IN SIXTH

Senator E. E. Moore Expects Things to Sizzle.

State Senator E. E. Moore, of Connersville, who was in Richmond yesterday, expects a rather warm congressional fight among the republican candidates in the Sixth district. Senator Moore is the candidate from Fayette county, and there are now seven other candidates as follows: Thomas Davidson, Greensburg; W. O. Barnard, New Castle; C. W. Stivers, Liberty; Will Hough, Greenfield; and Wilfred Jessup, the Rev. J. O. Campbell and M. W. Yencer, of Wayne county. Two of the Wayne county candidates will be eliminated at a primary to be held February 19. After this elimination, it is understood all of the counties will stand loyally by their favorite sons. Senator Moore says he has the endorsement of the delegation in his county and Mr. Barnard's candidacy has already been endorsed by a mass meeting of republicans in Henry county.

COMMISSIONERS' TRIAL IS AGAIN POSTPONED

Charged With Violating Bridge Contract Law.

New Castle, Ind., Jan. 18.—The trial of County Commissioners Charles D. Mohler, Robert M. Russell and John M. Huff, indicted by the last grand jury for violating the law relating to letting bridge contracts, did not come up in the circuit court yesterday, as had been planned. Instead, the trial has been postponed until Feb. 25.

The commissioners are charged with failing to file a survey and profile in accordance with the law. One of the indicted commissioners, John M. Huff, has retired from the office since the indictments were returned. The evidence on which the jury indicted the commissioners was secured from County Surveyor Ratliff, who was called before the jury and asked to show his records of contracts completed.

Is the Stomach Dispensable?
An operation for the removal of the stomach, in a Chicago hospital recently, promoted discussion among the surgeons, whether the stomach could be removed and the patient be none the worse for it. Before the discussion had well begun, the patient had died. It demonstrated that the stomach is a necessary organ. To keep the stomach in good condition, and cure constipation, indigestion, etc., use the great herb laxative compound, Dr. Caldwell's Syrup Pepsin. Druggists sell it at 50 cents and \$1 a bottle.

CAN TAKE WIND OUT OF ROOSEVELT.

This picture was one of the remarkable exhibits at the Berlin automobile show. They are made of automobile tires and are supposed to represent President Roosevelt. The infusion of air into the tires forming the arms of the figure caused vigorous gesticulation making it appear as though it was making a speech. At the end of the supposed speech the air would be deflated and the figure would collapse as shown in the lower picture.

HUGG MEETS PANTHER ON RIVER BRIDGE

Horse Shies and Beast Plunges Into Thicket.

Princeton, Ind., January 18.—Samuel Hugg, farmer, several miles west of this city had an exciting experiment today with what he believed was a panther. Hugg was on horseback, and was passing through the Patoka river bottoms. As he was crossing Blackbridge, five miles west of here, his horse shied and came near throwing the rider off. At the far end of the bridge Hugg saw an animal larger than a dog, and which he is sure was a panther. His horse became unmanageable, and in the excitement, the strange creature made a dart from the other side, passing by or under the horse. It then disappeared in a near by thicket. Hugg says the animal was gaunt and powerful of frame. Its cry was sharp and piercing. The Wabash river bottom residents are principally negroes, and the news that a panther or other ferocious animal is at large in that section has caused intense excitement.

HYPNOTIC AID USED TO MAKE BABY, BOY

Mother Wished for Girl; Father Took to Science.

New York, Jan. 18.—Pre-natal hypnosis as a factor in sex control, it was announced yesterday, has had a remarkably successful demonstration in this city. The subject of the experiment is Mrs. H. A. Folgen, of No. 29 East Sixty-third street. The operating psychiatrist is Gustav A. Gayer, of No. 131 West Sixty-third street.

Following hypno-suggestion treatment that lasted about a year, the object of which was a male child, Mrs. Folgen has become the mother of a boy baby. He is healthy, well formed, weighs something more than ten pounds and awakes the echoes of the neighborhood with proofs of his sound lungs. He is just the little creature that his father wanted when he engaged Dr. Gayer, who took the case on a contingent fee. Dr. Gayer pointed with pride to a boy and the bill was paid. A noteworthy feature of the scientific achievement, says the psychiatrist, is that the subject of the experiment had pinned her faith to a daughter, while her husband, for reasons not made known, desired a son.

Chicago passengers using C. C. & L. trains land at 12th street (Illinois Central) Station; most conveniently located. Remember this. 6-1f
