

BANK CLOSES DOOR

New Amsterdam National, Another of Morse String, in Charge of Examiner.

AFFECTS STAGE PEOPLE.

New York, Jan. 29.—The New Amsterdam National bank, capitalized at \$1,000,000 and situated at the corner of Broadway and Thirty-ninth street, was closed by the order of the comptroller of the currency last night, and National Bank Examiner Charles A. Hanna was placed in charge. The institution's liabilities are placed at \$4,482,016, of which \$2,065,272.43 are due depositors. The bank officers assert that not only will every depositor be paid in full, but the stockholders will receive a substantial dividend.

The New Amsterdam National was formerly one of the chief links in the chain of banks established by Chas. W. Morse, President Frank W. Kinsman, Jr., declared in a statement issued that "The closing of the National bank of North America, attracting renewed attention to the interests which had previously dominated both institutions in their past administrations, started fresh reports of an exaggerated and sensational nature which necessitated the liquidation of the bank."

The institution occupied quarters in the Metropolitan Opera House, in the heart of the uptown theatrical district, and numbered among its clientele many of those prominent on the stage.

RESORT TO REOPEN

New Management to Take Cedar Springs in the Spring.

CHARTER BEING SECURED.

If plans that are now under way do not go astray Cedar Springs, the popular resort east of Richmond will soon be re-opened, and that too, under the most flattering conditions yet known at that popular resort.

It is reported that a company is being organized, composed largely of Dayton capitalists, of which C. D. Chamberlain and Mr. McHenry are the promoters, which expects to take over the entire Cedar Springs property, make many and costly improvements and throw it open to the public this spring.

A charter has, or is being secured with a capital stock of \$100,000 and the promoters expect the deal to be finally completed within the next two weeks.

Mr. McHenry, one of the new company's members, was at the Springs this week looking over the grounds and buildings.

LACK OF SEED OATS NOTICEABLE

Few Farmers in Wayne County Have Good Variety.

There will be but few farmers in Wayne county who will have a bushel of seed oats next spring when the time comes for doing the work. The crop last year was of a very poor quality and most of it was unfit to save for seed oats. This will make a considerable advance in the price of the grain for sowing purposes.

Commander William Frederic Hammond died recently in Japan. He began life as a British naval seaman, went out to Japan from that country and rose to be an officer in the Japanese fleet. He was in no small measure responsible for the organization of the navy of Japan. He was decorated by the Mikado for his services. For several years he was the complement organizer of all newly built ships in the service and he trained the first Japanese recruits in naval gunnery. He was the only European who ever held the Mikado's commission.

FELL OUT OF TREE AND WAS INJURED

A. H. Toney of Near Concord, O., Met With Accident.

Eaton, O. Jan. 29.—A. H. Toney, living near Concord, fell from a wild cherry tree, which he was trimming, about a mile from his home. The limb broke with his weight and he fell about twenty-five feet with an ax in his hand. In falling, the ax struck him in the right cheek, cutting an ugly gash and he laid unconscious on the ground for three-quarters of an hour. It was thought that life was extinct when he was found. He is now resting easier and is thought to be out of danger.

SOCIAL NEWS

February, the shortest month in the year will soon be here. It was one of the two months which the Emperor Numa added to the calendar in 713 B. C. It comes from the Latin word Februarius meaning to expiate, because in this month the Romans celebrated the festival of expiation. The Anglo-Saxons called it "Sprout-kale" as the cabbages sprouted at this time of year. One should be especially interested in this month if it be your birth month. The zodiacal sign is said to have more influence in this month than any other. If you were born between the first and the twentieth, you will be blessed with common sense, versatility, and executive ability. If it occurs between the nineteenth and the end of the month you are, so the wise oracles say, promised a poetic temperament. The February birth stone is the amethyst and signifies power of deep love while its flower is the primrose, meaning sadness. It seems rather strange but February is Italy's favorite month for marriages. The first, nineteenth and twenty-first, being especially the favorite days for performing the ceremony. You are warned however that if you choose the eleventh of February you will be tempting fate. Six days in February are considered by superstitions minds as being most fateful. They are the eighth, tenth, seventeenth, twenty-sixth, twenty-seventh and the twenty-eighth.—Ladies Home Journal.

"THE PEOPLE'S STORE"**OPEN EVENINGS.****NINTH AND MAIN STS.****GROUNDHOG DAY SOON**

The Weather for the Following Six Weeks Will Be Determined.

FEBRUARY 2 IS THE DATE.

Sunday will be a day of fate. It is then that Mr. Groundhog will come forth into the sunshine or the snow, and make the annual forecast of the weather for the following six weeks. Upon this forecast will depend the weather up to the middle of March. If the groundhog sees his shadow, it will run back into its den and there will be six weeks of blizzards and snow. If there is no sunshine, and the groundhog does not get scared at its shadow, it will remain out of its lair and fair weather will follow. Groundhog day comes every February 2. Persons who profess to know all about groundhogs always disagree about what the forecast is. The only way to know exactly what the prophecy is, is to wait until the six weeks have passed and then go over the weather reports for that time.

FEDERAL JUDGES FAVOR STANDARD

Refuse to Increase the Bond Of Oil Trust.

Chicago, Jan. 29.—Judges Grosscup, J. and Seaman, in the United States circuit court of appeals, declined to increase the supersedeas bond of the Standard Oil company of Indiana from \$6,000,000 to \$22,240,000 asked by the government. The court expressed the opinion that the attorney for the government had not shown that the tangible property of the company was worth more than \$6,000,000.

CHURCH-GOERS PREVENT ILLINOIS BANK ROBBERY

Burglars Frightened and Fleed In Terror.

Camden, Ill., Jan. 29.—An attempt was made by burglars last night to rob the First National bank in England, but it was frustrated by citizens who were returning from church. The burglars escaped, leaving no clue as to their identity.

THE CHAPLAIN'S PRAYER.

Washington, Jan. 29.—The unusual incident of applauding the prayer of a Chaplain occurred in the house of representatives yesterday. The Chaplain barely had concluded when handclapping and laughter were heard from various directions. "Good Lord, deliver us, we beseech Thee, from the jingo, the demagogue, the bigot and all other undesirable citizens, and give us instead the patriot, the statesman, the broad-minded, generous-hearted, manly man, that Thy kingdom come and Thy will be done on earth as it is in heaven, for Christ's sake. Amen."

OSLER SENDS POISON TO 60-YEAR-OLDS

Two Bottles of Chloroform to Aged Twins.

Detroit, Jan. 29.—Two bottles of chloroform, one each for Delos Fall, of Albion, and his twin brother, Dewitt Fall, of Jackson, was the significant gift of Dr. Osler for the sixtieth anniversary of their birth. However, neither will shuffle off according to the Osler theory, for both are men of vitality and large business affairs. Delos Fall is a former state superintendent of education and now is senior professor in Albion college and a delegate to the constitutional convention, where he is taking a leading part in the deliberations of that body. Dr. Osler long has been a friend of the Falls, and of course they look upon his present mostly as a joke.

RICHMOND PLAYS AT NEW CASTLE

Local Polo Team Will Mix It Up Tonight.

New Castle, Ind., Jan. 29.—Local polo fans are anticipating the best game of the series tonight when Richmond will be here. The Quakers won the first game a good deal like taking candy from a baby, because of the crippled condition of the local team.

The game will be called promptly at 8:45 o'clock to allow the visitors to catch a car home.

Transportation facilities are more inadequate today than at any time in New York's history. The first coming buses put in the streets in 1830 came nearer to accommodating the travel, but it was frustrated by citizens who were returning from church. The demand for transportation continually keeps ahead of the facilities provided.

NO GEORGIA LIQUOR

Prominent Railroad Refuses To Accept Shipments to Southern States.

OFFICIALS RESPONSIBLE.

Cincinnati, O., Jan. 29.—There was much surprise in liquor circles yesterday when it became known that the Louisville & Nashville road is refusing to receive shipments of liquor to Georgia. The order, which emanates from high officials of the company, includes both beer and distilled liquors.

Georgia went "dry" the first of the year, which not only forced out the saloons, but also prohibited the manufacture and sale of intoxicants in the state. As a result the liquor interests in Georgia moved, many of them, just over the border into Chattanooga from which point the demand for liquor is being supplied. This, of course, put the question of the supply of liquor up to the common carriers, the railroads and express companies, and they have been accepting such shipments. Some of these shipments have been made openly as honor, while a greater portion was billed "under cover." A large amount was shipped from Cincinnati.

ST. LOUIS WAGES WAR ON SPITTERS

460 Arrested for Expecterating on Sidewalks.

St. Louis, Jan. 29.—According to statistics compiled by Secretary Robert J. Newton, of the St. Louis Anti-Tuberculosis society, 460 persons have been arrested here since June last for expectorating in street cars, on sidewalks and in other public places, and the fines imposed have aggregated \$1,854.

A pretty custom was observed at the midshipmen's New Year's Eve bon which was held in the armory at the Naval Academy. At two minutes to twelve the lights were turned out, the band stopped playing and a bugler stepped out on the ball room floor and sounded "taps." Hardly had the last notes died away when the clock began to strike twelve. Miss Badger, daughter of Commander Badger, U. S. N., superintendent of the academy, struck eight bells, the armory fairly blazed with lights, and the class of '08, standing together, sang its class song. As usual the band played "Home, Sweet Home" and then "The Star Spangled Banner," every couple standing at attention while the latter was being played.

FORESTS OF COUNTRY MUST BE SAVED

They Now Act as Safeguard For Rivers.

Washington, Jan. 29.—That this nation has reached the point where it must decide whether it is to lose the use of the rivers in the East and South through the non-preservation of forests which safeguard the watersheds was the declaration of Secretary of Agriculture Wilson, President of the American Forestry Association. The Secretary said that the rivers of the West were fairly well taken care of on account of forests. He expressed the hope that Congress would take action to assure the beginning of the work of preservation of the forests and the safe-guarding of the watersheds.

During the hearing of a case in Westminster, England, county court the following letter from the plaintiff, a tailor, was read: "I have today issued a writ against you for the amount of your bill. Trusting for a continuance of your esteemed favors, I remain," and so forth.

Try This For a Severe Cough.

Take three-quarters of a pound of Granulated Sugar, add water, heat and stir until you have a thick syrup. Put 2½ oz. of Pinex in a pint bottle and fill it up with the Granulated Sugar Syrup. Shake well and take a teaspoonful every one, two or three hours.

The prompt results from this simple, home-made remedy will surprise you. It has been known to conquer a deep-seated cough in 24 hours. It is also an excellent thing for whooping cough, soreness of the lungs, bronchial troubles and other throat affections.

The proportion above suggested is enough to last a family a long time. It is equally effective for young or old, and has a very pleasant taste. Well cooked, it never spoils. It takes less than five minutes to prepare, and is very inexpensive. The 2½ oz. of Pinex should cost you about fifty cents, and the Granulated Sugar about four cents.

Pinex is you probably know, is the most concentrated form of Norway White Pine Extract. It is rich in gualacol and other elements that make the ozone in curing throat and lung diseases.

There are many pine tar and pine oil preparations, but none of these are to be compared with the pure Pinex itself. All druggists have it or can get it for you without trouble if requested.
