## THAW'S MENTAL STATE HOPELESS

Alienists Who Have Examined And Observed His Actions Say So.

### RELATIVES ARE A BOTHER.

IT WILL BE IMPOSSIBLE TO DETERMINE STATE OF MAN'S MIND UNTIL THEY QUIT COUNCILING HIM IT IS ASSERTED.

New York, Feb. 25.—According to reports received here, Harry Kendall Thaw is believed now to be hopelessly insane. It is declared that alienists who have examined and observed him since he was committed to Matteawan Criminal Insane asylum are convinced that he is a paranoid, and as paranoid is a progressive disease, it would appear that nothing short of a miracle can intervene to secure his freedom.

In the present state of Thaw's case his future is entirely in the hands of the state board of lunacy and the staff of alienists in Matteawan. Custom provides that when a man is committed to the state hospital for the criminal insane the doctors there shall observe him for 60 days and then make a report upon his mental condition if they see fit.

Dr. Ferris, head of the state board of lunacy, on whose judgment Thaw's chances of liberty largely depend, and who was one of the alienists engaged by District Attorney Jerome to testify in the first trial of the young Pittsburgh millionaire for the killing of Stanford White, said today:

"No one can tell whether Harry Thaw is sane or insane until relatives and counsel quit visiting and advising him. I called on Mr. Thaw once, three weeks ago. About all I could get from him was that by advice of counsel he was compelled to refuse to answer questions. I have not been near him since."

If Thaw's relatives and lawyers would let him alone for a while, Superintendent Lamb might be able to determine for himself the patient's exact mental condition. That would do much toward determining how long Thaw is to be incarcerated in Matteawan. I have no intention of visiting Thaw again, for a while at least. He is in the care of Dr. Lamb and that official must ultimately decide Thaw's state of mind. "I have at no time given an opinion that Thaw is insane," added Dr. Ferris.

### ADHERES TO PLEA

Morse Will Fight All Charges That Have Been Brought Against Him.

### DATE OF TRIAL IS NOT SET.

New York, Feb. 25.—C. W. Morse, financier and former head of the Ice Trust, through his attorney, Philip J. Britt, has announced in the Criminal branch of the supreme court that he will abide by his plea of "not guilty" of grand larceny and false pretense, for which he was indicted during his absence in Europe. He waived the right to withdraw or amend his plea, and his latest move indicates that he will battle to the death to defeat his charges.

The statement was made after Mr. Britt had moved for an examination of the members of the special grand jury. This motion was not opposed by the District attorney, Judge Dowling, however, reserved his decision. The court announced that the case would go upon the trial calendar at the convenience of the district attorney.

Through indefinite postponement today before a sheriff's jury to determine the ownership of the furniture in the home of Charles W. Morse, at 728 Fifth avenue, it became practically certain that Mrs. Morse's claim that the furnishings of the house belonged to her, will not be contested. They were covered by one of the many attachments served upon all the Morse property in the suit of the National bank of North America for the recovery of \$243,000 due to the bank from Morse.

## HUSBAND HALTED WIFE'S BURIAL FOR OWN

Wanted to Be Laid at Her Side.

Wabash, Ind., Feb. 25.—Ned Walters, aged 88 years, and his wife Hannah, aged 84 years were buried in the same grave today at Palestine, near here. She died Monday of lung fever at their home in Burkett and her husband refused to allow the undertaker to inter the remains, saying that he desired to go with her. In accordance with his plan he died last night, supposedly of a broken heart.

When relatives went through the Walters home today they found large sums of money concealed in old rags in various secluded places.

COMMON SENSE V. STRONG DRUGS.

Simple Oil of Wintergreen Cures Eczema and Drives Out Old Foggy Treatment.

If you were to break your finger or scald your arm, you would apply some healing remedy as soon as possible, wouldn't you?

That would be good common sense and it would bring the quickest relief. You surely would never think of drinking medicine or doctoring the blood to cure a surface affliction.

It's just the same principle with diseases of the skin. Eczema, psoriasis, salt rheum and barber's itch can be cured and cured easily if you strike right at the trouble as you do with a cut or burn.

The cause of itching, burning skin diseases according to modern science, is a germ which feeds upon the weaker parts of the skin. To kill these side bacilli which produce the itching sores and ugly red blotches, use the famous prescription of oil of wintergreen, glycerine and thymol, commonly known as D. D. D. Prescription.

This mild liquid was advocated by a prominent skin specialist, Dr. Dennis of Chicago, long before it was adopted generally. This liquid is called D. D. Prescription. It is a positive specific for all skin diseases.

Don't dose the stomach. Cure the skin through the skin. We know D. D. and vouch for it. Call at any drug store and get a booklet on skin diseases free.

GOODRICH WILL NOT RESIGN POSITION

Will Continue as Head of the State Committee.

James P. Goodrich, chairman of the republican state committee, who was recently appointed receiver of the C. C. & L. railroad was in Indianapolis yesterday afternoon to meet some of the Eastern bondholders of the road.

Chairman Goodrich spent an hour at committee headquarters last night. His duties in the interest of his railroad keep him in Chicago the most of the time.

A rumor which became prevalent yesterday that chairman Goodrich would resign as the head of the state committee, was denied by him last night. "So far as I know at this time I have no intention of resigning the chairmanship," said Mr. Goodrich. It is understood that Chairman Goodrich will be one of the delegates at large to the republican presidential convention.
