That Noise--That Smell

News of Interest Concerning the Whirling, Buzzing Automobiles.

Harris county has 200 automobiles, the largest number of any county in Texas.

The Houston (Tex.) Auto club now has a membership of 60 and is rapidly growing.

New Castle county, Delaware, recently sold a \$100,000 issue of bonds for good road purposes.

"Chassis" is both singular and plural, according to a French authority, and "Chasses" never is correct.

Ball bearings used in live axle construction should be examined regularly and any degree of lost motion taken up.

Four French and four Italian cars will be among the 24 contestants for the Briarcliff trophy, near New York, April 24.

A bill to appropriate \$60,000 for a new state road from Baltimore to Indianapolis, is before the Maryland legislature.

Even Manitoba has caught the speed fever, for a bill to regulate the speed of automobiles is now before the provincial legislature.

The Government of the Congo Free State is building an automobile road from the head of navigation on the Congo river to the Nile.

The Milwaukee Automobile Trade Association is arranging for a three days' reliability contest, to be run as soon as the roads get settled.

Under the provisions of the automobile law passed two years ago, New Jersey has collected about \$82,000 to

spend on road repairs this year.

During 1907 the automobile industry in the United States gave employment to 300,000 persons, factory hands alone receiving \$6,150,000 in wages.

The New York State Engineer in a single recent week received bids for the improvement of 41 stretches of road in 25 counties, totaling 301 miles.

Provided the public shows proper appreciation, several hundred taxicabs will be installed in Boston by the company which has inaugurated a service there.

A steamship line that runs to the West Indies has arranged for tourists, when purchasing tickets, to engage automobile tours of the various island winter resorts.

Automobiles are selling at the rate of four a day in Indiana, according to the Secretary of State, who has registered over 5,000 since the new law went into effect.

The West Side, Y. M. C. A., New York, claims to teach a man how to run a car in four weeks. Formerly the course in its motoring school was twice that length.

GREENFIELD MAY BE DRY AS A BONE

Greenfield, Ind., Feb. 29.—The Anti-saloon League in this city has closed a remarkable campaign and has filed with the county auditor enough cards to insure it being a dry town unless the saloon men succeed in contesting the signatures. The margin is close and it appears that the necessary majority will not be obtained. Committee called time and again on every voter in the city and last night women took part in the work. Mrs. Anna New particularly doing effective work. Committees of farms came in and exerted their influence.

M'GRAW HOPES TO WIN THE PENNANT ANDERSON SHOUTS OVER PROSPECTS

Says Other Teams Must Hustle If They Keep in the Wake of the Giants.

HE COMPLIMENTS CHICAGO. TAKE A SLAP AT MUNCIE.

STATES THAT IT IS NOT LUCK WHEN A TEAM CAN WIN SO CONSISTENTLY, AND GIVES IT CREDIT FOR WORK.

New York, Feb. 26—Who will win the pennant next season? was the question hurled at Johnny McGraw last night while the Giants' manager was entertaining a crowd of baseball fans.

"I hope we do," was McGraw's modest reply.

"Who will if the Giants don't?" was the second question hurled at the little manager, now that the conversation had been started.

"Now you fellows want me to commit myself on something I have never done since I became the leader of the New Yorks," was McGraw's answer after a bit of a pause.

"You know we can't play baseball and win pennants until the season is on. The Giants for next season will play good baseball or I am not a judge, and if they do this, why the other fellows have got to beat us."

"It would be arrogance on my part to come out right here and say that the Giants will win the title in 1908. I don't know what is going to happen between now and next October. All I will say now is that the team is better than last year and will be stronger still before the season opens. Now you can draw your own conclusions. If you want to have it that the Giants will land the rag, why have it that way?"

Then the conversation drifted to the Chicago Cubs, and there was a lot of argument pro and con. McGraw was a good listener until one of the fans who can see nothing but the Polo grounds team, no matter how good the other fellow may be, remarked that the Cubs were mighty lucky to win the pennant last year.

"I am going to butt in on that line of talk," snapped the Giants' manager. "They have been a little lucky, or, rather, the Cubs may have been more fortunate than some of the others of us in having fewer players injured, but let me tell you that the Cubs last year were about as fine a piece of baseball machinery as ever represented a city in the National or any other league."

"It isn't luck when a team can go ahead and win as consistently as did Chicago. That is good ball playing. So give the credit to those fellows out West because it is coming to them."

"I am going to keep pretty close to that Chicago bunch next season. They are the ones that must be held down. But, then, I am saying just what I didn't want to. But let's wait and fight for the pennant when the season opens."

MURRAY MAY GET RIDGELY'S PLACE

Is Now Assistant Secretary of Commerce and Labor.

Washington, D. C., Feb. 29.—It may now be stated upon excellent authority that Lawrence O. Murray of New York, assistant secretary of commerce and labor, will succeed William B. Ridgely as controller of the currency, who will soon retire to accept a position in a large business institution.

Mr. Murray is a native of Steuben county, N. Y. He served as deputy controller of currency during the second administration of President Cleveland.

He is a close personal friend of Secretary Cortelyou of the treasury department, who selected Mr. Murray for the office of assistant secretary of commerce and labor.

Mr. Murray is on terms of intimacy with President Roosevelt, and is a member of the so-called "tennis cabinet," which is made up of the younger set of the administration.

Nearly twenty thousand women are employed in Prussia as brick makers. An eleven hour day is the rule.

Chicago, Feb. 29.—Consolidation of all the elevated railroad companies in Chicago and the formation of a \$125,000,000 combine to operate the roads as one continuous system is being planned. Reports in financial and traction circles are that steps toward the consolidation are being taken, and that the plan broached is acceptable to the roads. Further it is declared that while the time is not yet thought ripe for announcing the actual combination of the roads, the details of the combine were agreed upon at a meeting held in New York over two months ago.

Plat opens at Westcott Pharmacy Monday noon, March 2d. General admission 25c. Reserved seats 15c extra. Skating on usual nights.

Stop Indigestion

It is unnecessary. All the food that you eat can be digested, and should be. Kodol will always do it. No need of the pain, the gas and the poison that come from undigested food. Note our guarantee.

So long as you suffer the pains of indigestion, you are making a cure of the stomach impossible. Undigested food forms hard lumps in the stomach. It irritates the stomach lining. And neither Nature nor drugs can remedy the trouble while that irritation exists.

When the stomach fails to digest all of the food, it must be helped out. That is essential. Aid it and rest it, for there is no other way to recuperation.

Don't do this by dieting—not by starvation. For strength comes only through nourishment, and you need all you can get.

Do it by digesting the food, for a little time, with Kodol.

There is no cure for Dyspepsia, and you don't need one. The stomach must cure itself.

Tonics and stimulants may spur the stomach to action. But any weak organ is only injured by forcing.

The right way is to help out the stomach, as you would help out a lame foot. Stop the irritation, stop the formation of gas. Stop the pain. You will be astonished, we think, to see how quickly the stomach recovers.

There are, in these days, many aids to digestion. But they are only aids.

Popin, for instance, digests only albumen. It aids only to this extent.

But a very large part of your food is starch, and another large part is fat. They must be digested, too.

Complete relief requires a product that digests all sorts of food, and Kodol alone can do that.

No other product contains all the elements needed for perfect digestion. We have proved this in countless laboratory tests. There is no other aid ever made for the stomach which will completely digest any combination of foods.

A little Kodol taken after a meal will digest it, no matter what the meal consists of.

Another fact is that the action of Kodol is instant.

It is put up in liquid form, as it must be. All of the elements needed for digestion cannot be put up otherwise.

Being liquid, like the digestive juices, the action of Kodol begins as soon as it reaches the stomach. There is no delay, as there always is when a remedy needs to dissolve.

And Kodol does all that is necessary, while other digesters do scarcely half. It causes complete digestion, and that means complete relief. There is no other way to attain it.

Our Guarantee

We ask you to prove, at our risk, that the facts are as we state them. Buy a large bottle of Kodol, and ask your druggist for the signed guarantee. If you are not satisfied, take the empty bottle back with the warrant, and your druggist will return your money. There will be no quibble or question.

This offer applies to the large bottles only, and to but one in a family. That is sufficient to prove.

Then please tell others how much Kodol does.

Kodol is prepared at the laboratories of E. C. DeWitt & Co., Chicago. The \$1.00 bottle contains 2½ times as much as the 50c bottle.

Affairs of the Sporting World

ican association. As the new farming law has gone into effect he wishes to hold them together by placing them on the Muncie line-up. This would assure the local fans one of the fastest articles of baseball they have seen in many years and as the Shamrocks are willing to have another promoter step in and take the local birth it is likely that Muncie may after all see league baseball.

TEAM FOR MUNCIE.

After the adjournment of the meeting here yesterday the managers went to Muncie. They first visited the Shamrock Athletic club there, a small organization which seems to have a grip of peculiar sort on the Muncie press and were turned down. The Shamrocks stated that, they thought it would be risking too much money to go into the organization. They want some kind of a penny league and are thinking seriously of investing their cold "cash" in a city fund. We advise them not to do it as they might lose a little. But the Shamrock's refusal will not effect the I. O. league, "Jack" Grim of Indianapolis, representing President Watkins, of the Indianapolis Browns, will in all probability handle the Muncie I. O. league franchise. Grim was formerly a catcher for the Brooklyn Nationals and being well up on baseball, is not afraid of the Shamrocks. Most of the sporting public of Muncie favor the I. O. league and will support the game.

BASEBALL GOSSIP.

The Muncie Press sizing up the I. O. league situation in that city has the following to say:

The local magnates do not look with much favor upon the proposed trolley league or the Northern Indiana baseball association, which is being pushed by Frank Banyon of Bluffton.

The local promoters do not feel like expending \$1,500 which would be required to place a team here, and the probabilities are that Muncie will not be blessed with league ball during the coming year unless foreign promoters take the matter in hand and put the team in place. With the latter possibility the Shamrocks say they are in hearty accord and will not stand in the way of outside interests that may desire to place the team in Muncie, and further, they say that the local baseball property would be disposed of to the foreign capitalists at a much lower consideration than it could be placed.

It was said this morning that should the Shamrocks not take the Muncie franchise, W. H. Watkins, of the Indianapolis American association team, would take over the Muncie franchise this afternoon at the meeting of the magnates. Although no official confirmation of the statement could be secured, it is likely that Watkins will have a representative at the meeting and assume full control of the Muncie end of the new I. O. organization. The reason that Watkins wishes to acquire the local option is that he will have many members of the Indianapolis team who will need a little seasoning before entering the ranks of the American.

PROOF OF THE PLOT

SIX MEN IN DIFFERENT CITIES CONNECTED WITH KILLING OF FATHER HEINRICH.

INSANITY TO BE THE PLEA.

Denver, Colo., Feb. 29.—Proof that men in six cities of the United States were connected with the killing of Father Leo Heinrich is alleged by Chief of Police Michael Delaney to have been found in a letter written by Giuseppe Allo to his son. This missive was discovered in the cell occupied by the accused man in Colorado Springs.

Chief Delaney later declares that half dozen men connected with the supposed society had been arrested one in New York and five in Pittsburgh.

Dispatches from the Pittsburgh police, however, state that the men were taken at various times in the past three months on other charges and have not been connected by any evidence with the Denver assassination.

Whether Allo was a tool or a ring-leader in the Anti-Clerical Society, to which it is said, he belonged, Chief Delaney says he has not determined.

Insanity will be the plea in defense of Allo, according to Baron G. Tosti, Italian Consul, who visited the prisoner in jail.
