

## DRAGNET IS CAST FOR MURDERER

Police Hope to Catch Man  
Who Slew His Sweet-  
heart at Kokomo.

HAS COVERED HIS TRACKS.

HE CANNOT BE FOUND ANY  
PLACE AND IT IS HINTED THAT  
HE MAY HAVE COMMITTED SUICIDE  
BUT POLICE DOUBT THIS.

Kokomo, Ind., April 8.—A chain of circumstantial evidence has been woven about Worley Osborn, Fairy McClain's sweetheart, who shot her to death Tuesday night. Wednesday afternoon an indictment was returned by the grand jury charging him with the murder of the girl. Although a number of circumstances involve Osborn in the net of suspicion, there is no positive proof that he is the guilty man. Noel Noy, the 10-year-old son of Mrs. Mattie Noy, at whose home the murder occurred, says he saw Osborn fire the fatal shot. Upon the evidence of this child the indictment for murder in the first degree was returned. If Osborn is the guilty man he has proven himself a genius in covering up his tracks. He eluded the dragnet of the officers yesterday and last night Sheriff Joseph Lindley, exhausted by hours of searching, returned to the county jail completely discouraged and confessing that neither he nor the police had a single tangible clue as to the whereabouts of the accused man. Rumors that Osborn has committed suicide, are flying thick and fast. Officers scoff at this story and say that the accused man is not of the character to end his own life, but of the sort who will fight to the last ditch before he will be taken.

## MAN KILLED MOTHER

Shot Her Because She Kept  
Him in Public Institutions.

DID "BITS" ALL HIS LIFE.

New York, April 9.—Because his mother, Susan Carlin, had sent him to various reformatory institutions, in which he was a prisoner for many years, Bernard Carlin shot and instantly killed her at her home in Quincy street, Brooklyn. Young Carlin had just been released from the reformatory at Napanook, where he served a sentence for stealing a horse and wagon.

When Carlin was freed from the reformatory the superintendent gave him \$10 for a new start in life. He arrived in Brooklyn yesterday and went to the apartments where his mother lived with his sister Mary. When his mother opened the door he thrust the revolver in her face and fired five bullets into her head. He then attempted to shoot his sister, but the revolver was empty. He was captured after a desperate struggle in which he severely injured one of his captors. He told the police that he killed his mother "because she made me do 'bits' all my life." He declared that she sent him to an orphan asylum when he was 16 months old, and had kept him in some kind of an institution most of his life.

## BIG SCHOOL ASSURED

Union of Medical Colleges  
Brings Indiana in the  
Limelight.

### WISEACRES' PREDICTION.

Indianapolis, Ind., April 9.—With the merger of the two medical colleges in Indianapolis, physicians connected with both schools predict that Indianapolis next fall will have a school that will bid fair to become one of the largest in the country, because of the immense amount of tributary territory from which it will draw patronage. It is believed that in a very short time it will eclipse the medical school at Ann Arbor, Mich. The school will draw from a tributary population of 500,000 people. In this respect inasmuch as it will be the only school of its kind in the city and the largest in the state, it will have the advantage over the medical colleges in New York and Chicago. There are twenty medical colleges in the former city, with its population of 4,000,000 or more and fifteen colleges in the latter city with its population of nearly 3,000,000.

## MILLER DOES NOT WANT BRICK'S SEAT

Several Papers Boost Him,  
Though.

Goshen, Ind., April 9.—Charles W. Miller, who was defeated for the gubernatorial nomination in the late republican convention, has wired personal friends from Saegertown, Pa., where he has gone on a pleasure trip, saying that while he is in no sense an active candidate for the congressional seat of the late Congressman Brick of South Bend, he will accept the honor if he is given it without contest. Several newspapers in the district—the South Bend Tribune and the Plymouth Tribune—have declared for Mr. Miller.

In certain towns in Germany householders are compelled by law to sort out their house dust. They have to provide three receptacles—one for ashes and sweepings, one for cooking refuse, and one for rags and paper. The rubbish is utilized by the town authorities.

## LINTON MINERS DROP THEIR PICKS

Action Due to a Misunder-  
standing.

Terre Haute, Ind., April 9.—Authentic reports reached the city that the Linton miners have dropped their picks and refused to continue work, an action which is in violation of the agreement between the joint convention of miners and operators last week. National Board Member Hargrove is in the city and will go to Linton tomorrow with President Van Horn, Vice President Curry, Secretary Fox and Board Member W. P. Rollins and attempt to induce the recalcitrant miners to return to work.

The action of the Linton miners, the officers say, is due to a misunderstanding of the situation. The delegates voted for the resolution by which work was to be continued under the old contract until a new one could be arranged, yet the locals are disregarding it. The report that the delegates of both Clinton and Linton fields opposed the resolution was erroneous. The opposition comes entirely from the miners in the field.

The attempt to combine the business men of France into a non-political protective association to be known as "The Federation of French Manufacturers and Business Men," is reported to be making satisfactory progress.

### Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out of this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

## MERRY WIDOW HATS JAR ON PROFESSORS

Pretty Coeds at Indiana Hit  
By Order.

Bloomington, Ind., April 9.—"Merry Widow" hats have taken Indiana University by storm with the result that several of the professors have put the ban on them in their class rooms.

Before the spring vacation the big hats were unknown in Bloomington, but nearly every coed came back to school Monday with one of the giant straws, and the campus is dotted with them.

Prof. A. M. Brooks, head of the fine arts department, says the hats are a revival of a style in vogue in the latter part of the eighteenth century. They were called leghorns because they came from Leghorn, Italy.

Patronage has thus far been very liberal and promises to continue so, as the New Phillips is furnishing the chief part of the amusement for the Richmond public this week.
