

BODY OF WOMAN FOUND IN BLOOD

Columbus, Ind., Again Shaken
By a Murder Mys-
tery.

ONE MAN UNDER ARREST.

THOUGHT JOHN UNDERWOOD
WAS RESPONSIBLE FOR CRIME
AS CIRCUMSTANTIAL EVIDENCE
IS AGAINST HIM.

Columbus, Ind., July 20.—In a pool of blood, the head bent to the knees, body of Carrie Hayden Percifield, divorced wife of Curtiss Percifield, was found last night on the levee west of the Second street bridge. John Underwood, a former motorman of Columbus, who is commonly known as "Doc" is under arrest charged with her murder. He was found intoxicated at his home. His collar was saturated with blood as were his coat, trousers and suspenders, which bore the marks of bloody fingers.

John Cochrane who chanced to walk along the road, saw a figure robed in white lying on the grass, and, believing that some one was injured, ran to the city water works to notify Head Engineer Tooley and Fireman Abram Bond. Bond accompanied Cochrane to the scene of the crime and found the dead woman. The city officers and Coroner J. W. Benham were at once notified and they began work on the case. An autopsy was held at the morgue was held, but no marks of violence were found on the body.

Sufferer From Consumption. Yesterday Dr. Benham was called to the Hayden home by Mrs. Percifield, who was ill of consumption. He said that she was so weak after the examination that she was compelled to retire. Dr. Benham saw her on the street Sunday afternoon and said he was surprised to see that she had gained so much strength in the last twelve hours.

Jacob Boswell and his wife, who reside about 200 yards from where the body was found, say they heard a woman scream: "Oh! Doc, don't!" The flagman at the West Second street crossing, who is acquainted with Underwood, declares he saw him running out of the woods. He spoke to him, but he says, Underwood did not know his clothing came to be covered with blood.

Underwood is married. A few months ago his wife whipped a woman with whom she charged he had been spending considerable of his time.

ZANZIBAR.

Its Fragrant Clove Forests and Its Malodorous City Streets.

It is difficult to describe in fitting language the clove gardens of Zanzibar. The "spicy breezes" which are said to "blow soft off Ceylon's isle" blow with equal softness and perhaps no less splendor through Zanzibar's beautiful clove forests. The whole island abounds in richest vegetation, but the clove forests are its real beauty spots. And what a grateful change their fragrant shade from the oriental odors and genuinely bad smells of the stuffy streets of the old town itself! For Zanzibar is not like an American city in the width of its streets and the architecture of its buildings. There is scarcely a thoroughfare in the whole place wide enough to permit two vehicles to pass, and the system of sanitation is almost as primitive as that of the garden of Eden; hence some of the smells. Fortunately the clove forests are not far away. Zanzibar has no docks or wharfs. All goods are landed or shipped by means of lighters. The tidal rise is about fourteen feet, and the fall necessarily the same. Vast stretches of beach are thus left bare at low water; hence more smells. But, with all its drawbacks, Zanzibar is not particularly unhealthy. It is hot, vigorously, viciously hot, but still the people, the white people, manage to live there in comparative comfort and in spare hours play golf, tennis and sometimes even football.—E. Verne Richardson in American Sun and Shipping.

The Spinning Mule.

Samuel Crompton, a boy of sixteen, copied the best features of the spinning machine invented by Hargreaves and Arkwright, added to them some of his own and, after three months of anxious and secret experimenting, produced the first spinning mule, so called because it was a kind of hybrid between Hargreaves' jenny and Arkwright's water frame. The raw apprentice lad was, however, no match in cunning for the cotton lords, who soon found out the secret of his new machine and shamelessly robbed him of the fruits of his ingenuity. Many years afterward, it is true, they used their influence to secure for him a parliament grant of £5,000, but he was then a broken hearted and disappointed man, to whom the money came too late to be of any real service.

"Is your husband a Congregationalist, a Presbyterian or a Swedenborgian?" "No; he is a plumber."—Baltimore American.

TIME IS THE TEST

The Testimony of Richmond People Stands the Test.

The test of time is what tells the tale. The public soon finds out when misrepresentations are made, and merit alone will stand the test of time.

Richmond people appreciate merit, and many months ago local citizens publicly endorsed Doan's Kidney Pills; they do so still. Would a citizen make the statement which follows unless convinced that the article was just as represented? A cure that lasts is the kind that every sufferer from kidney ills is looking for.

Mrs. Edgar S. Mote, of 17 North Sixteenth street, Richmond, Ind., says: "Some years ago my husband was having some trouble with his back. There was a dull aching pain that bothered him most of the time. He was told about Doan's Kidney Pills and got a supply at A. G. Luken & Co's drug store. After taking it he never again mentioned backache to me. He believed that Doan's Kidney Pills are a great remedy and has told several people of the benefit he got through using them."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

WORK SUCCESSFUL

Hundreds of Poor Aliens Given
Work Over the Country
By New Bureau.

RELIEVES CONGESTION.

Washington, July 20.—Cold figures show in a striking manner the effective work of the division of information of the bureau of immigration and naturalization in diverting hundreds of poor aliens from the crowded centers of the country to fertile fields and other places where there is a big demand for that class of labor.

From the first of February last to the close of June nearly 1,000 aliens and others have been sent, in response to applications, to various parts of the country. Twenty-six nationalities are represented in this distribution and the employment secured was principally farmwork.

KNOWLEDGE AND CULTURE.

The Two Do Not Necessarily Walk Hand in Hand.

High marks in examinations depend upon a trained memory and a power of acquiring irrelevant information. Culture, on the contrary, is a sympathetic assimilation of the best in the realm of thought and achievement. Culture is a slower process and a deeper, and its reward strikes further in. Assimilation of the best that has been thought and accomplished affects not merely the brain, but the character—the whole spirit of a man. Culture implies a soil plowed and fertilized, where whatever seed falls has the better chance for growth. Information even in vast quantities, so long as it remains mere information, used for purposes of passing examinations, need not affect the manners nor the morals of a man; both may remain hopelessly lax in an encyclopedian mine of facts. But culture affects primarily the manners and the morals. A cultured gentleman has external methods of getting on with his kind; he has the true sense of relationship, the feeling that all he can learn to feel or to be is not for himself, but for service; he knows himself in a network of human inter-relations. In the end the test of knowledge is not examination marks; it is living.—Harper's Weekly.

GEORGIA LEGISLATORS GAY OLD ROOSTERS

Arrested While in Midst of Hot
Poker Game.

Atlanta, Ga., July 20.—Detectives raided a room in the Kimball house, one of Atlanta's leading hotels, Sunday afternoon and arrested five members of the Georgia legislature who were engaged in a game of poker for high stakes.

When the detectives rushed into the room there was a "jack pot" on the table worth over \$500. The legislators got busy with the telephone and exerting their influence, gave bond for \$300 each and kept their names off the police record.

There is no medicine so safe and at the same time so pleasant to take as Dr. Caldwell's Syrup Pepsin, the positive cure for all diseases arising from stomach trouble. The price is very reasonable—50c and \$1.

CANDIDATES HAVE WORK BEFORE THEM

Taft and Bryan to Spend a
Busy Week.

Washington, D. C., July 20.—Although the real opening of the Presidential campaign is still some distance off the candidates of the two big parties and the various political campaign managers have a fairly active week in prospect. While ostensibly resting in anticipation of the stirring times which are to come, all are combining considerable work with their pleasures. William J. Bryan, the Democratic Presidential nominee, on Saturday will meet the subcommittee in Chicago, at which time the National Chairman will be selected. William H. Taft, Presidential nominee of the Republican party, at Hot Springs, Va., will finish his speech of acceptance to the notification committee and have it in readiness for their Cincinnati event the following week.

CUPID DEFEATED; HIS BOW BROKEN

Board of Education Rules
Against Little Fellow.

Tamaqua, Pa., July 20.—The board of education of this city has ruled against Cupid. When the public school is opened for the fall term it will be found that the male teachers are married and the women teachers are maidens who have promised not to wed in the term for which they have been appointed.

It is the latest idea to prevent the confusion that has been an annual thorn in the side of the board, because so many pretty teachers sent in their resignations in order to marry male teachers. The board believes it has solved the problem.

The women teachers must have signed antimarriage contracts.

DANCING PILGRIMS.

The Annual Carnival of the "Saints" of Echternach.

On every succeeding Whitsun Tuesday from time immemorial 10,000 to 20,000 pilgrims of both sexes and of every age and condition of life dance for four or five hours at Echternach, in the grand ducy of Luxemburg, to an unmistakable polka tune and an apparently nonsensical refrain. The central figure of this great Echternach "spring procession" is St. Willibrord, who migrated from Northumberland to the frontiers of the Black forest twelve centuries ago. Emperors and kings have in vain forbidden the "saints" of Echternach to indulge in their annual carnival.

With the peasantry of East Luxemburg and Eifel the "spring procession" is as popular today as it was in 1131, when King Lothaire came to pray at St. Willibrord's tomb. The simple minded dwellers on the banks of the Sure and the Moselle are firmly convinced that their best hope of freedom from nervous diseases in this world and eternal salvation in the next lies in this mystic dance of five steps forward and two backward, by which, after three hours' indescribable toil, they cover the two or three miles intervening between the starting point, at which the pilgrims receive the episcopal blessing and the goal at the steps of St. Willibrord's shrine.

REPAIRING FILL.

Pennsylvania Strengthening Roadbed At Whitewater Bridge.

Improvements are being made by the Panhandle railroad company at the west end of its bridge over the Whitewater river. New ties and rails have been installed and a large quantity of dirt and gravel has been dumped upon the fill at the west side of the stone arch. The recent heavy rains washed down this fill, so as to plow ravines and hollows in all directions. The fill is one of the deepest in this section of the country.
