

## TRIBUTE PAID TO FOUNDER OF CHURCH

Greatest Legacy George Fox  
Left to Quakers Was  
His Ministry.

### THE INSTITUTE CONTINUES.

SEVERAL SPEAKERS PARTICIPATED IN DISCUSSIONS AT EARLHAM COLLEGE LAST NIGHT AND TODAY.

"The greatest legacy that George Fox left the church was his ministry; for he had his call and qualification from God and a very definite and most gracious message to deliver to the people," stated Dr. Newlin of Noblesville, in his address to the Friends' Bible Institute at Earlham college last evening.

George Fox has unconsciously left his autobiography in his journal; a book filled with the spirit of the man who was himself filled with the spirit of God. W. L. Wankinson some two years ago said: "Benjamin Franklin flew his kite into the air and brought down electricity—Fox went higher and brought fire down from the throne of God. Few men have ever had greater grace and courage to speak in boldness and yet in love with the whole council of God."

At the conference held at five o'clock yesterday afternoon, the subject for discussion was "How we should spend our Sundays." Very interesting talks were given.

"The views of the other churches are not so different from the Friends' as they used to be," was the statement made by Richard Haworth.

"The pastors should not be invited to big dinners on Sunday," said Dr. Newlin, a well known Friend.

"The question of rest on the Sabbath is of great importance. The states should pass laws towards furthering the observance of Sunday," Charles Tebbetts, secretary of the Five Years meeting of Friends, said.

Others who took part in the discussion of the question were Elbert Russell, Morton Pearson, Ada Elliott, Leo Calvin Bray, and Mrs. Harrison, who said: "Children should be taken to Sunday school and services in the morning and the remainder of the day they should be taught to spend in quiet pleasures at home."

#### Today's Sessions.

The session of the institute this morning was a most interesting one. At this meeting three excellent addresses were heard, J. F. Randolph on "Deuteronomy," Dr. Leary on "The Fertility and Beauty of Palestine," and Eliza C. Armstrong on "A History of Friends' Missions."

In the first lecture Mr. Randolph gave a scholarly discussion of "Deuteronomy," the last book of the covenant.

Speaking on Palestine, Dr. Leary, who followed Mr. Randolph, said in part: "To an American the fertility of Syria is at first disappointing. When I first went there I despised it. Then I excused it and finally I loved it. I had to learn to look for things in Syria. Flowers of great beauty and infinite variety are abundant. Orchards of oranges and olives bear the best fruit in the world. The moonlight nights are a marvel and the moonless nights light enough to see the time by your watch. The sunsets are remarkably beautiful."

#### Missionary Revival.

The lecture given by Eliza Armstrong was a most interesting one. She said in part: "A full and accurate history of our missions is a work much to be desired and we hope it is forthcoming."

"George Fox and many of his contemporaries had the missionary spirit but later our church lost it. However, for the past fifty years our members have been engaged in missionary work."

## The General Demand

of the Well-Informed of the World has always been for a simple, pleasant and efficient liquid laxative remedy of known value; a laxative which physicians could sanction for family use because its component parts are known to them to be wholesome and truly beneficial in effect, acceptable to the system and gentle, yet prompt, in action.

In supplying that demand with its excellent combination of Syrup of Figs and Elixir of Senna, the California Fig Syrup Co. proceeds along ethical lines and relies on the merits of the laxative for its remarkable success.

That is one of many reasons why Syrup of Figs and Elixir of Senna is given the preference by the Well-Informed. To get its beneficial effects always buy the genuine—manufactured by the California Fig Syrup Co., only, and for sale by all leading druggists. Price fifty cents per bottle.

**Chautauqua**

work. The London yearly meeting leads all other Friends' meetings in the amount paid per member for this work. The first station by the English Friends was established in India and soon after one in Madagascar. The first work undertaken by American Friends was in Syria through the influence of Eli and Sybil Jones. In 1871 Samuel M. Purdie was sent to Mexico. This was really the beginning of our missionary association. Stanley Pamphry by his advice and suggestions, had great influence in the appointment of members of this organization by the yearly meetings.

The women's F. M. A. was later organized. Another important organization is the Industrial Mission in British East Africa, started through the influence of Willis R. Hotchkiss and Arthur B. Chilson.

"A most important work was the establishment of a school for girls at Ramallah. Hussey Institute for Girls is in Mexico. It would be impossible in the limit of this paper to take up in detail the work of the separate missions."

## BIG IMPROVEMENTS MADE ON BUILDING

Finley School Now Undergoing Repairs.

The improvements of the First Ward school building, better known as the Finley school are rapidly nearing completion. The building is being wired with electricity as this is one of the darkest school buildings in the city. There will be about 70 lights installed which will remedy the evil conditions. When this work is completed, the frescoers will begin the work of redecorating which has been needed for some time. The stairways are also being improved and being made more substantial.

The Finley school will be one of the best in the city with its late improvements. It is the only building that is lighted by electricity.

## RIVERDALE PLANS BIG CHRISTENING

Event Will Be Held in Starr Park on North Tenth Street, August 12.

### GREAT THINGS PLANNED.

MEMBERS OF NEW ORGANIZATION WORKING TO BETTER THINGS FOR THAT SECTION NORTH OF THE RAILROAD.

At the regular weekly meeting of the Riverdale Civic League last evening, it was decided to have a public christening of Riverdale under its new name. This event will be held on Wednesday evening, August 12, and it will be carried through with much pomp and ceremony. The christening will occur at the Starr Park, North Tenth street, and the following committee has been appointed to make the necessary arrangements: William Snyder, Oscar Green, George Carter, Irvin Stegall and George Spaulding. This committee has the authority to increase the number of its members if it is found necessary to do so. A speaker and suitable music for the occasion will be secured.

The following members of the league were appointed to the street railway committee: Thomas Porter, Timothy Harrington and George Bishop. It is the purpose of this committee to keep in touch with any proposition which will be of benefit to Riverdale. Eventually, the league, through its committee, hopes to secure a line of the street railway in that section of the city.

The weed cutting and clean up committees made reports last evening showing that the residents of Riverdale are conducting an active campaign, exterminating the weeds on vacant lots and putting their property in excellent condition.

The members of the league were addressed last evening by George Bishop and Prof. Ramsey. Each of them gave some helpful suggestions on the work of improving the north end of the city. The members of the league are taking a great interest in their work and they say that it will not be long before Riverdale will be one of the most attractive residence parts of the city.

#### Too Exalted Tastes.

A well known family in Catholic circles, blessed with three very small daughters, spent last winter in Rome, where the small daughters were sent to school. The family, being quite hospitably inclined, entertained quite lavishly some of the dignitaries of the Vatican.

Returning to Philadelphia, they received a hearty welcome, and among others some of their priest friends called to bid them welcome home. The mother, always proud of her three small daughters, sent for them to be brought downstairs to see a father. After awhile they came, the three little golden haired girls, but they only stood in the doorway of the spacious room and refused to come any farther.

The mother, very mortified at such behavior, said to the eldest: "Come here, dear. Don't you remember good Father—, who used to come and see us from the cathedral?"

There they stood, the three little blond tots, and looking most disapprovingly at good Father—the eldest spoke. "We like cardinals. Is what she said.—Philadelphia Ledger.

## Affairs of the Sporting World

Sixteen American athletes will take part in the Paris games which will be held Saturday and Sunday. The French are very anxious to see the work of these Olympic victors.

Rube Waddell, the eccentric St. Louis American southpaw, again demonstrated yesterday he was back in old time form by making the strikeout record of the season, wriffing sixteen Philadelphia players, all his old team mates. When the Rube is in form he is the greatest pitcher in the business.

The Brooklyn, at no time any too strong, are now in a very weak condition with their two sluggers, Jordan and Lumley out of the game on account of sickness.

The Hagerstown races are being well patronized this week. The events have attracted about the best class of horses seen in these parts for moons. An excellent bill is offered today and there will be another good one tomorrow.

An Aero club with nineteen charter members, has been formed at Columbus, O., and an effort is being made to have the big balloon races this fall start from that point.

Cincinnati played in fine form yesterday, winning from Philadelphia 4 to 2. Spade turned the trick for the Reds.

The mighty Marquard was trimmed again yesterday, Kansas City winning from him by a close score.

Wabash college, through its press agent, the sporting editor of the Indianapolis Star, has broken forth with its annual prediction that the Little Giants will again this year mop up the middle west with all football teams that get in their way.

If the Chicago Cubs win the world's championship again this year and Bill Taft is elected president, then "Brother Charley's" cup of joy will be filled to overflowing.

## CHURCH MEMBERS IN A SQUABBLE

Improvements on Bethel A. M. E. Church Responsible For Situation.

### GET RESTRAINING ORDER.

FACTION OF CHURCH NOT DESIRING IMPROVEMENTS WINS POINT OVER THOSE THAT FAVOR THEM.

Indications are that the Bethel African Methodist Episcopal church of this city has become involved in an embroglio, as the result of dissension among the trustees. Suit was entered in the Wayne circuit court yesterday by Simpson Oxendine and Walter G. Alexander and a temporary restraining order issued against Noah Williams, William H. Gordon, Walter Dennis, Isaac Smith, Joseph McElroy, George Butler and J. R. Norrell, other members of the board of trustees, and Ulysses Cook, a church member and contractor. Martin Gons, the tenth member of the trustees is named as surety for the plaintiffs. The squabble has developed from the desire of some of the directors to make certain improvements to the church in addition to those prescribed by under the original agreement. Cook is made a party to the suit, because it is he who the other defendants desire to do the additional work.

Some time ago the church decided to make extensive improvements. It is alleged the sum to be expended was fixed at \$2,500 and a local loan company provided the money. It is claimed by the plaintiffs in the suit that their names were used as surety and since then the pastor of the church, the Rev. Williams and some of the directors decided upon additional improvements. It is claimed new chandeliers were desired and also some interior decorating. Cook was selected to do the work. The plaintiffs claim they do not wish to be held as surety for the additional expense incurred. The contract for the original improvement as planned was awarded to William Hendrix.

The Rev. Williams said today it was agreed no work should be done other than that provided for by the contract with Hendrix unless the money was raised for the payment. He said it was understood from the beginning, light fixtures should be installed and the auditorium decorated if the money was subscribed. He said Oxendine, Alexander and Gons did not object to having the room decorated and even brought in a bid for a decorator and insisted the contract be awarded him, but the figures presented by Cook were lower and the other members of the board contracted with him.

### HIS OWN BAIT.

The Giant Alligator Snapping Turtle as a Fisherman.

There is a cunning reptile fisherman which makes effective use of the bait which he carries in his own mouth. This is the alligator snapping turtle, a giant among reptiles, known to attain a maximum weight of 144 pounds, with a length of shell of about twenty-eight inches. It haunts rivers flowing into the gulf of Mexico, including the Mississippi, where it is common. In appearance and actions it is an enlarged duplicate of the common snapping turtle. Its pale brown hues well match the soft, muddy bottoms on which it lies motionless, angling for fish with the decoy. The bait is attached inside the lower jaw, close to the tongue, and is a well developed filament of flesh, white and distinct from the yellowish mouth part and closely resembling a large grub. While waiting the turtle keeps this grub in motion, giving it the aspect of crawling about in a small circular course. Its mud colored shell, often studded with a growth of fine, waving moss, looks like a great round stone, and close to it is a second smaller stone, the head. Close to this smaller stone crawls the plump white grub. A fish sees it and makes a natural mistake, only to be seized by a sudden snap of the powerful jaws. The jaws are remarkably powerful. The common snapper, which attains only a third of the size of his larger relative, will bite a finger clean off, and the alligator snapper could bite through a wrist or foot.—Chicago Tribune.

### The Rub of The Body.

The organ around which all the other organs revolve, and upon which they are largely dependent for their welfare, is the stomach. When the functions of the stomach become impaired, the bowels and liver also become deranged. To cure a disease of the stomach, liver or bowels get a 50 cent or \$1 bottle of Dr. C. W. S. Syrup Pepsin at your druggist's. It is the promptest relief for constipation and dyspepsia ever compounded.

## DAYTON Y. M. C. A. WORKERS IN CITY

Inspect New Building Being Erected Here.

B. W. Godfrey, W. E. Rice, D. G. Boyd, Paul Moore, L. Grimes, Carl Shipley, R. Towpelt and R. Brock of the Dayton Y. M. C. A., were in the city this morning while on their way to Lake Geneva, where they will attend the Y. M. C. A. conference that is to be held there. While here they visited the local Y. M. C. A. building and all expressed it as their sincere hope that the organization would be a success here. The Dayton organization has one of the finest buildings in Ohio.

Bargains that will surprise you will be offered in the Cloak and Suit Department Friday and Saturday at Knollenberg's.

## THE PEOPLE'S STORE

## LINDEMUTH DENIES ALL CHARGES MADE AGAINST HIS ACTS

(Continued From Page One.)

Central Union would abandon the local field in several cities and an agreement would be reached whereby the Independents would be able to provide for their patrons the long distance service of the Central Union was not made by me, nor did I hear any other person make such a statement at the telephone meeting."

Mr. Lindemuth's position with respect to the negotiations carried on in this city is indicated by an abstract from a letter written by the secretary of the Richmond Home Telephone company, dated July 17, in which he says, "I am authorized by the directors of the Richmond Home Telephone company to say that they regret that your position as president of the Independent Telephone Association made it necessary for them to conduct the negotiations and consummate the contract recently made with the Central Union Telephone company without your knowledge or consent."

This would indicate Mr. Lindemuth's claim that he had nothing to do with the working agreement in this city, is substantiated.

HILDEGARDE: Gold Medal Flour pleases the cook. FREDERICK.

## DEMOCRATS LABOR TO CAUSE TROUBLE IN COLORED RANKS

(Continued From Page One.)

lives in North Illinois street and has been going about freely, as cats usually do, fighting by night and clawing children by day. The animal has not yet been killed, but the police are on its track, and there will be one cat less before many days have passed. In the meantime the members of the family are taking the pasteur treatment, fearing hydrophobia. Never before in the history of the state have so many cases of dog madness been reported, and an expert on hydrophobia and the special treatment of the disease is kept so busy that he can scarcely handle the cases sent to him. Health officers predict that pet animals will soon or late come under the strictest surveillance and already it is announced that the legislature will be asked to pass a law requiring the muzzling of all dogs the year round.

Bargain days: Friday and Saturday. The last days of the Sale. Bargains too numerous to mention; come and see. Knollenberg's Store.
