

PLAN CONVENTION FOR ALL CRIMINALS

King of Tramps Reitman Plans Unique Session for New York.

POLICE TO SPREAD NET.

IMMUNITY FOR THE ATTENDANTS IS NOT PROMISED—RELATION TO SOCIETY AND POLICE WILL BE DISCUSSED.

New York, Aug. 8.—Police headquarters has heard that Dr. Ben Reitman of Chicago, who calls himself the "king of tramps," and has spent the last twenty years doing rescue work among the inhabitants of the underworld, has issued a call for a "convention of criminals" to meet in this city next month.

"I'll order the arrest of every criminal who arrives for the convention," said Inspector McCafferty, "and I am not yet sure that I won't arrest those persons who are getting up the affair. We want no assembly of criminals in this city."

"Dr. Reitman may believe what those fellows tell him," said the inspector, "but I don't. We can and will arrest all of them as suspicious persons and the chances are that we'll find that many of them are fugitives from justice, escaped prisoners, men under indictment or men wanted in connection with various crimes. We'll throw out the drag net and gather them in."

According to the prospectus of the convention criminals from all parts of the country are to meet here to discuss their relation to society, to the police and to one another. "Brotherhood" is to be the watchword of the convention.

The titles of some of the addressees to be delivered at the convention, if the police forget to go around and arrest everybody connected with the gathering are: "Twenty-one Years a Criminal; Twenty Years a Prisoner;" "Dope and Booze;" "Do the Police give the Criminal a Fair Deal?" "Easier to Commit Crime Than to Find a Job;" "What Society Owes the Criminal," and "The Average Income of the Criminal."

SEVEN SUBMARINES FOR U. S. NAVY

Spear, the Expert, to Superintend the Work.

A LUMBER TRUST

Big Lumber Companies of the West Will Join Together, It Is Claimed.

JUST CAUSE FOR ATTACK.

New York, Aug. 8.—Lawrence Spear, vice president of the Electric Boat company who is considered the leading authority on submarines in America, has returned to New York after a tour of observation abroad. He will immediately begin the construction of seven submarines for the United States government.

"I have had an opportunity to learn something about the extent of the building of fighting craft in foreign countries," he said, "and it may be put down as a certainty that Japan is not buying battleships or cruisers, but is making tremendous strides in the building of torpedo boat destroyers and submarines in her own yards."

"No one knows what they have or what they intend to build. They are courteous but secretive. England and Germany have been called upon by Japan to submit plans for the construction of ship building plants."

SLOW IN ACTING.

Coal Dealers of Northwest Turn Down Tip of N. P. & G. N.

Duluth, Aug. 8.—Coal dealers in the Northwest are not acting on the suggestions of the Northern Pacific and Great Northern to get in an early supply for the coming winter. The total amount so far as ordered and shipped from Duluth being 30 per cent less than in the corresponding period of a year ago.

Just received another lot of that fancy

WHITE CLOVER HONEY

Very low price on quantity.

BEE HIVE GROCERY

YET SNAKE IS NOT AS BIG AS IT MIGHT BE.

Greenfield, Ind., Aug. 8.—A snake has been seen several times within the last few days on Col. W. W. Dudding's farm, near this city, by Charles Coffman, Archie Jones and other persons, who describe it as fifteen feet in length, with a head as big as both hands of a man, and its body as large as a man's thigh. The body is covered with white and brown spots.

IS NO SETTLEMENT

Arrival of Baby Causes Complications in Famous Young Estate.

ESTATE WORTH \$25,000,000

Chicago, August 8.—The settlement of the \$25,000,000 trusted fortune left by Otto Young, of this city, one of the largest which has yet in the United States been tied up in trust, has been complicated by the arrival of a \$3,000,000 grandchild, Samuel K. Martin, Jr., who immediately became one of the richest babies in his own right in the world. His arrival, however, not only cost the six other heirs of the Young fortune his portion, a seventh, of the estate, but postponed the final settlement of the trusteeship for 21 years. He makes the seventh heir. By the peculiar provisions of the Young will the present fortune with its accumulations is to go in equal parts to the grandchildren, which puts, therefore, a big premium upon baby cousins of Samuel, Jr. Until the baby came the Martins had no claim upon the estate. The prospective share of Mrs. Celia Young Heyworth was decreased by Samuel's appearance from 25 to 22 per cent of the whole, that of Mrs. Catherine O. Young Hobart, by the sum of \$355,000. Under the terms of the trusteeship the division cannot be made until the youngest grandchild has attained 21 years, and Samuel is the youngest Young. The results in this case will be interesting commentaries upon the growing disposition of wealthy men to trustee their estates, in much the same manner as Marshall Field did and many men in the east have done. What effect the certainty of great wealth will have upon the morals and health of the heirs and also what effect upon financial affairs the trusteeship of such big sums will have, probably will be well known by the time this \$3,000,000 baby receives his share of the Young fortune, if he does live to receive it.

According to the prospectus of the convention criminals from all parts of the country are to meet here to discuss their relation to society, to the police and to one another. "Brotherhood" is to be the watchword of the convention.

The titles of some of the addressees to be delivered at the convention, if the police forget to go around and arrest everybody connected with the gathering are: "Twenty-one Years a Criminal; Twenty Years a Prisoner;" "Dope and Booze;" "Do the Police give the Criminal a Fair Deal?" "Easier to Commit Crime Than to Find a Job;" "What Society Owes the Criminal," and "The Average Income of the Criminal."

GUARD AGAINST FIRE

Pennsylvania Train Crews to Extinguish It When Noticed.

TO PROTECT RIGHT OF WAY.

WAS BURIED AS HE LIVED.

Chicago, Ill., Aug. 8.—Is a \$300,000 lumber trust in process of formation? That great commercial mystery, which Missouri and Kansas are attacking, the big lumber companies are active in denying the existence of, but there is some excellent evidence offered that the merger will be made if the attorney general of those states or for Uncle Sam don't prevent it. That a meeting was recently held in St. Louis to discuss such a consolidation is admitted. Frederick E. Weyerhaeuser of St. Paul and Edward Hines of Chicago, among those present. Later J. B. White, of Kansas City, made this statement: "It's a dream. Mr. Weyerhaeuser as much as told me that himself. A number of men met in St. Louis several weeks ago to discuss such a consolidation and appointed a committee to perfect the plan. When the committee left here the folly of the project gradually dawned upon them." During the lull in the lumber business the golden opportunities of mergers seem to dance in the fancies of the lumber kings for, in spite of denials, the rumor of consolidation still is heard fitfully. Competition in the soft lumber trade, it was said, was "ruining" prices, there being a sharp reduction that has been welcomed by the public. That the big lumber companies, which have denuded great empires of their timber, wastefully, wantonly and at ridiculous cost for the stumpage, should now declare for a preservation of the forests, as they recently did, is looked upon as a sorry kind of joke. The Northern Lumbermen's association at a meeting here recently declared: "Forests which should be protected from needless destruction are allowed to be destroyed simply from noninterference either from the government or owners. All forests must be protected, cultivated and nurtured to the fullest, or the price of lumber and building material will go far beyond the ordinary purse."

MANY BLAST FURNACES.

Subsidiary Steel Companies Produce 50 Per Cent of Capacity.

Pittsburg, Aug. 8.—The subsidiary companies of the U. S. Steel Corporation have 116 operative blast furnaces, half of which are now active, producing a little more than 50 per cent of full capacity. Of this total the Carnegie Steel Co. has 47, of which 27 are active, two having been blown in during the last week.

DONE IN 1911

Much Labor on Campanile of St. Mark's Church.

CHURCH TOWER

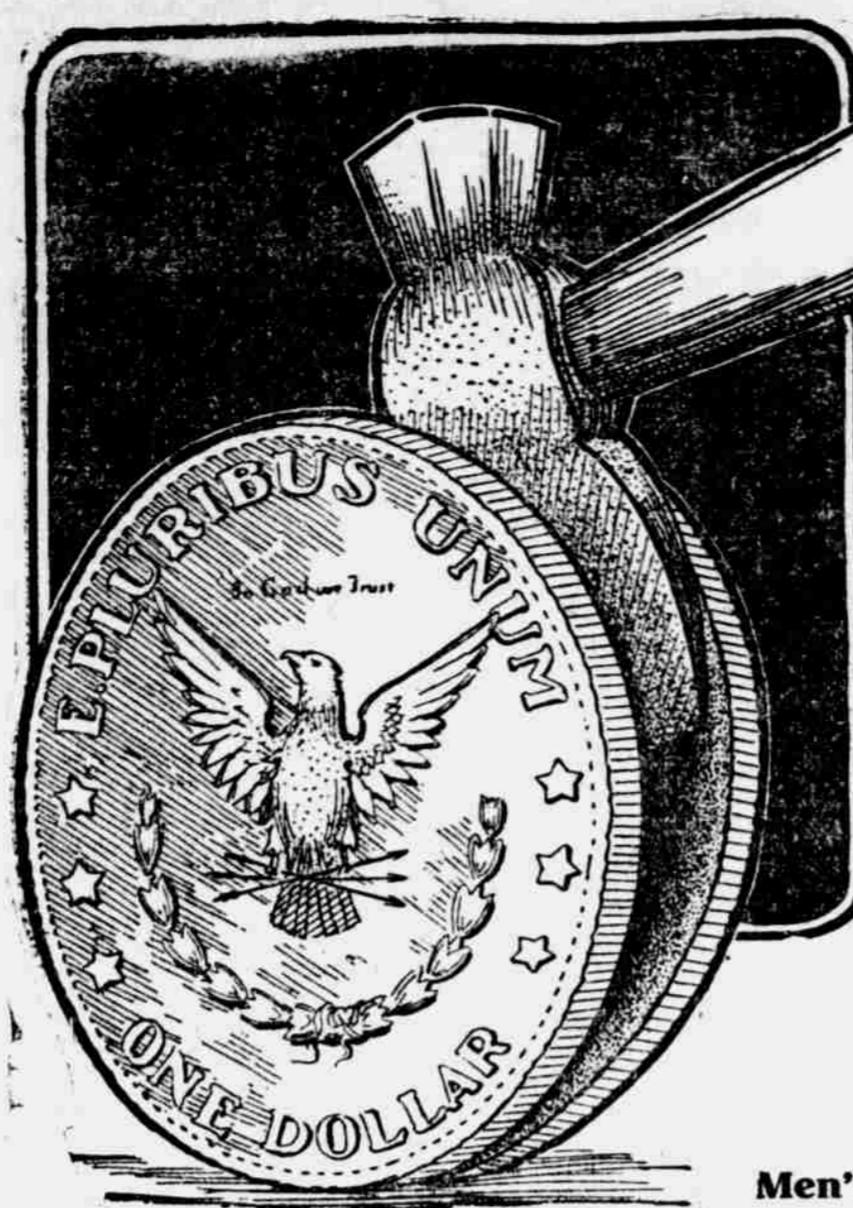

VENICE, AUG. 8.—The new campanile, or bell tower, of St. Mark's church in Venice, will probably be completed by April, 1911. The bricks used are baked twice, with wood fire, and then submerged in water for a week before being used. The number of men employed is about a hundred, and 3,500 bricks are laid daily. The foundation has been made strong enough to bear a structure three times as heavy as the tower will be.

STICK TO CABINET

Baltimore, Aug. 8.—Attorney General Bonaparte disposed of the recent report that he contemplated leaving the cabinet after the November election and would be succeeded by Wade H. Ellis of Ohio, in the following telegram from Lenox, Mass.:

"Have not the slightest intention of resigning before the end of the present administration. Have denied this story so often that I think further denials on my part are unnecessary."

CHARLES J. BONAPARTE."

WONDERFUL SAVINGS IN THE DOLLAR SPLITTING SALE

Time is money. We can save you money and save you time if you come here during our once a year Dollar Splitting Sale. We have the goods, and are more than willing to split the dollar with you, giving the long end nearly every time, and you always get full value in each article you purchase, or your money refunded—that's our way of doing business. "Quality, Price and True to Our Word" is our motto. Come in and see the price marks for yourself. MATCHLESS MERCHANDISE GOING AT TREMENDOUSLY LOW PRICES.

We Will Split Dollars With You in the Clothing Department

MEN'S CLOTHING
