

BEVERIDGE AND HUGHES TO FORE

Indiana Joined New York in Touching Off Ohio Campaign at Youngstown.

STEEL WORKERS PARADED.

BEVERIDGE MADE A STRONG SPEECH CALLING UPON NATION TO RALLY TO SUPPORT OF PARTY NOW IN POWER.

Youngstown, O., Sept. 5.—The republican campaign in Ohio was formally opened here today. Speeches were delivered by Governor Hughes of New York, Senator Beveridge of Indiana and Governor Harris of Ohio. The guns of these speakers were all trained on Lincoln, Neb., the home of William Jennings Bryan and, from a republican standpoint, the democratic presidential nominee for president was annihilated. The great steel industries of this city shut down yesterday afternoon not to open again until Tuesday morning and the brawn and muscle of Youngstown's chief industry formed the body of the parade which preceded the discharge of the heavy political ordinance.

The words of Governor Hughes: "The army opposing us can not pass muster either as one of defense or of salvation and we may well pause before we permit it, despite its boast of fidelity, to garrison our national institutions," was the keynote of the meeting.

Governor Hughes started with a brief eulogy of Mr. Taft, sketched the success of republican rule for the last twelve years with high praise for the reforms of the Roosevelt administration, dwelling on the creation of the bureau of corporations and passage of the railroad rate bill, the pure food bill, the meat inspection bill, the employers' liability bill and others.

Cheers for Beveridge. As the governor forcefully brought out his points he was loudly cheered. The ovation which had greeted him was repeated when Senator Beveridge arose.

"We are midway in an historic movement for righteousness written into law," said the senator. "Shall that movement be carried out or wrecked?"

He declared that of the work remaining to be done by the republican party, revision of the tariff comes first. He said the republican idea is to meet other commercial nations with their own weapons. He favored an adequate navy, for, he said, Mr. Bryan's idea of a navy only large enough to protect our own shores meant the abandonment of the Monroe doctrine. That doctrine was as nothing, he declared, without ships to take it respected.

TO ADVERTISE AND WIN VOTES

Judicious Use of Printers' Ink Appreciated by Republican Manager.

SOME BIG DISPLAY TYPE.

ADVERTISEMENTS WILL BE INSERTED IN MAGAZINES AND NEWSPAPERS TELLING VIRTUES OF PARTY.

New York, Sept. 5.—That the judicious use of printers' ink is fully appreciated by Chairman Hitchcock, of the Republican National Committee, is shown by the fact that contracts are now being made for full page display advertisements in a large number of leading magazines and illustrated weekly publications.

Later this "campaign of education," as it is termed by the Republican Literary Bureau, will be extended to the New York daily newspapers and newspapers in other sections of the country, and side by side with the display advertisements of merchants, manufacturers and the theaters will be found set in bold type arguments why Mr. Taft should succeed President Roosevelt in the White House.

GOVERNMENT BUYS NUMEROUS LEGS

Bestows Them on Its Wounded Heroes.

Washington, Sept. 5.—The government buys hundreds of artificial legs and arms every year in its generous effort to patch up its wounded heroes. The war department supplies these articles. Every soldier or sailor or civilian employee in these branches, who loses a limb or eye in the line of service, will thereafter be kept supplied for life with artificial members of the kind lost. Teeth knocked out in the line of duty will also be replaced, but if they are lost or decay there is no replacement by the government.

Helen Hunt Club Calendar Shows Year of Entertainment

Cambridge City, Sept. 5.—The Year Book of the Helen Hunt club, Cambridge City, Ind., 1908-1909 follows: September Fourteenth. President's Day. Hostess—Mrs. Wagner. September Twenty-eighth. June Seventh. Presentation of New Year Book. Reports of officers and committees. Hostess—Mrs. Meredith.

FISHERIES AND FISH INDUSTRY

Important Congress Will Be Held in Interests of Fish At Washington.

AWARDS WILL BE GIVEN.

FOURTH INTERNATIONAL FISHERY CONGRESS WILL HAVE IMPORTANT BEARING UPON MATTERS OF CONCERN.

Washington, D. C., Sept. 5.—The fourth international fishery congress will assemble in Washington September 22d, for a four days' session. The congress comes here by invitation of the United States Bureau of Fisheries. All persons interested in the fisheries, fish culture, fishery administration, and other matters within the scope of congress, are invited to attend the meeting and participate in the proceedings. National, state and provincial governments, societies, associations, clubs and other bodies are requested to send delegates. Persons who expect to attend the congress or to submit papers, should communicate with the secretary-general of the congress. Congress will deliberate on all important affairs concerning fishing and fish culture. The president and secretary-general of the congress are nominated by the U. S. Bureau of Fisheries, while the vice presidents are elected by the congress from among their members. A special appropriation for the congress was made by the congress of the United States. The congress has also received voluntary contributions from interested persons and in addition has fixed a fee of \$2 for membership for each person. The official language is English, but in presenting papers and in debates members have the right to use also the French, German or Italian language. In connection with the congress there have been arranged competitive awards for the best or most important investigations, discoveries, inventions, etc., relative to fisheries, agriculture, ichthyology, fish pathology and related subjects during the years 1906, 1907 and 1908. The awards will be in the form of money and aggregate \$12,200. Among those who have offered the prizes, which range from \$50 to \$250, are the American Fisheries Society, American Museum of Natural History, New York City, "Forest and Stream," New York City, Museum of the Brooklyn Institute of Arts and Sciences, New York Aquarium, New York Botanical Garden, Smithsonian Institute, The Fisheries Company of Philadelphia, United States Bureau of Fisheries, Wolverine Fish Company of Detroit, Mr. James Bigelow of Vermont, Hon. Geo. M. Bowers, United States commissioner of fisheries, Dr. H. C. Bumpus, director of the American Museum of Natural History, New York City, Mr. John K. Cheyne, Tarpon Springs, Fla., Prof. Theodore Gill, Dr. F. M. Johnson, Boston, New York Academy of Science, and Messrs. Henry Holt & Co., New York.

CARPET IS LINED WITH GOLD DUST

Covering of Floor in Room of San Francisco Mint Contains \$4,000.

MUST SHOW JUDGMENT.

NECESSARY TO EXERCISE GREAT CARE IN SELECTION OF CARPETS AS GOLD DUST MUST BE SAVED.

Washington, Sept. 5.—A requisition has come to the Treasury Department from the San Francisco mint, asking that a new carpet be placed in the adjusting room, as the one there now has been worn out after ten years' service. In ordinary instances such a requisition would excite no unusual interest on the part of the treasury officials, but in this case great care has to be taken in removing the old carpet, for it has become more valuable with each day's service because it is literally lined with gold dust. The old carpet will be burned, and it is expected that between \$4,000 and \$5,000 will be realized from the ashes. In the adjusting room at San Francisco files are used to trim the surplus gold from rough pieces. The gold is first run off into blanks, and then stamped, so it frequently happens that a piece is a trifle overweight or uneven. The files are then brought into play, and although no particle of dust large enough to be readily detected by the eye is allowed to escape, the greatest care can not always avoid the falling of some of the small shavings to the carpet. In purchasing these carpets great judgment is exercised. Those are sought in which the weave is as close as possible, so that the material will hold the scattered bits of gold. It is not unusual for the authorities to get \$5,000 worth of gold from an old carpet. Other thrifty devices are used in order to capture escaped particles of gold. The floor sweepings are treasured with the greatest care and they furnish enough money to pay the salaries of several employees about the building. Much gold goes up the chimneys, and they are often scraped and the soot and dirt scanned for gold. Employees who handle bars of gold are not permitted to dispose of the aprons, overalls or gloves with which they are provided, for when these articles are burned, after they have outlived their usefulness, they yield a rich harvest.

TO ELIMINATE DUST.

Tests Being Made in Belgium for Purpose. Belgium, Sept. 5.—Tests are being made here to eliminate the dust nuisance over automobile roads. Some progress has been made, and the discoveries ought to be helpful to those who are experimenting in the same line in other countries. The use of tar was found to be fairly successful. The beneficial effects however, of this process were of rather too short duration, considering the expense entailed—1½ cents per square meter.

Kodol For Indigestion. Relieves sour stomach, palpitation of the heart. Digests what you eat.

IS A TINY PRODIGAL

Little Blowout of Baby Cost Her Mother Small Sum Of \$3,000.

THREW MONEY TO WIND.

Pittsburg, Sept. 5.—The eighteen-months-old daughter of Mrs. Edward McDonough of McKeesport had a little \$3,000 "blowout" of a minute's duration which stamped her today as the most prodigal Miss Tiny in the record.

Mrs. McDonough came to Pittsburg and collected \$3,000 in life insurance. She asked for and received the money in notes, which she placed loosely in a large pocketbook.

With her little baby she started home on a street car. In an effort to quiet the peevish child the mother gave the baby the pocketbook to play with. The little girl was on a seat by an open window.

A minute later when the mother again turned her attention to the child the pocketbook was open and the money blown out of the window. Efforts to recover it were unavailing in the crowded street.

RUNNING PRINT SHOP

And at Same Time Makes Ice Cream With a Job Press.

THE MOST ORIGINAL EVER.

Stamford, Conn., Sept. 5.—When William A. White of 115 Myrtle avenue, labored as an editorial writer for Connecticut newspapers his work was noted for a flavor of originality. Now he has retired after forty years as a newspaper man and he runs a little printery premises here, but he has not forgotten how to be original. That was evident yesterday, when a party of friends found him trying out a new way of operating an ice cream
