Incidentals .....	2,000
Totals .....	\$8,705

## Kelly Makes Report.

President Kelly in presenting his annual report, which has already been published, expressed great satisfaction with the condition of the institution and he believes that the institution will soon have outgrown even its recent extensive augmentation of accommodations. Following the report of President Kelly, Morris M. White of Cincinnati one of the wealthiest men in the Friends society spoke in the highest terms of the excellency of the institution, and stated that every member of the church should feel proud of the opportunity of assisting in the work of supporting Earlham. Mr. White stated that he could be counted on at any time to assist in liquidating the present indebtedness of some \$40,000.

He stated that had the trustees of the institution proposed a plan for meeting this obligation he would have gladly assumed a large proportion of the amount.

The report of the trustees of Fairmount academy in part follows:

Total enrollment for the year:  
In Academy department:

Boys .....	46
Girls .....	44
Total .....	90

In other departments:

Total .....	20
Total in all departments .....	110

Number of graduates:

Boys .....	2
Girls .....	4
Total .....	6

The instructors for the year are:

Edward Gardner—History and pedagogy.  
Thomas Barr—English and mathematics.

Forrest A. Foraker—Science and mathematics.  
Dora May Ellis—Latin and German.

Julia R. Kelsey—Vocal and instrumental music.  
C. Myrtle Wade—Elocution and drawing.

Bertha Tatta—Household economics.  
Richard Haworth—Bible study and homiletics.

Improvement has been made in the regularity of the attendance, for while the enrollment was smaller than that of last year, the daily attendance has been practically the same.

During the year the academy received a certificate of equivalency from the state board of education, which puts it on the same legal basis as a commissioned high school.

Throughout the year the students have worked together for the best interest of the school and in the Inter-Academic contest, Fifth month, first, Fairmount academy won both honors.

At the beginning of the year a fine painting was presented to the school by the class 1904. Some fine books were sent to the library by Alvin Seale from the Philippine Islands.

Drawing has been added to the course of study.

The enrollment at present is 104, an increase of twenty per cent over the number enrolled at this time last year. The report was signed by Ancil E. Ratliff, president of the board, and Ida E. Winslow, secretary.

## Spiceland Academy.

The report of the trustees of Spiceland Academy in part follows:

Total enrollment for the year .....	77
Number of girls enrolled .....	39
Number of boys enrolled .....	38
Total number of graduates .....	15
Number of girls .....	11
Number of boys .....	4

The State Board of Education granted the academy a certificate of equivalence, thus attesting to the standard of work of the Academy. The report was signed by Alvin C. Painter, president of the board, and Samuel B. Lane, secretary.

# Richmond's Leading Home Furnishing Store

## One of Largest Gole Fish Hatcheries is in Wayne County

The gold fish exhibit on the vacant lot at the corner of Tenth and Main streets by Messrs. Noll and Mine of this county, promises to be one of the most attractive features of the carnival.

It is not generally known that the gold fish business is a thriving industry in this country and that millions of the little gold tinted fish are annually supplied to thousands of American homes. Also, it is not generally known that Wayne county is one of the largest gold fish markets in the

world, and that is the result of the immense hatchery Messrs. Noll and Mine have established on the farm of Harry Meek, south of the city.

The gold fish at this preserve are kept in four ponds and they are sold almost as rapidly as they are bred. Recently a big Indianapolis mercantile concern ordered thirty thousand gold fish, but owing to the many previous orders it could not be filled.

"We have in the ponds every species of gold fish, from the native kind to the beautiful Japanese fish," said

Mr. Meek the other day. "The fish we use for breeding purposes are sometimes eighteen inches in length. It is the general impression that all gold fish are very small. This is because gold fish kept in aquariums and bowls do not grow. Let a gold fish live in natural surroundings and he will develop into a good sized fish," he continued.

## The Twilight Of Life.

The muscles of the stomach in old age are not as strong or active as in youth and in consequence old people are very subject to constipation and indigestion. Many seldom have a bowel movement without artificial aid. Mary, a well known actress, writes: "I have used Dr. Caldwell's Syrup Pepsin, which permanently regulates the bowels so that my stomach feels better and so strengthens the stomach that food is digested without discomfort. Druggists sell it at 50 cents or \$1 a large bottle."

## MUSIC.

(Continued From Page Seven.)

## Filial Devotion.

A southern congressman tells of a dandy in a Georgia town whose best quality is his devotion to his aged parent. Once the congressman asked Pete why he had never married. "Why, boss," explained Pete, "I's got an ole mudder. I had t' do for her, sah. Ef I doan' buy her shoes an' stockin's she doan' git none. Now, boss, you see ef I was t' git married I'd have t' buy 'em fo' mah wife, an' dat'd be takin' de shoes an' stockin's right outter my ole mudder's mouf."—Harper's Weekly.
