

NATIONS TO UNITE TO RESTORE PEACE

Bulgaria and Turkey to Join
Hands to Settle Trouble
In Balkans.

FERDINAND WAS WILLING.

ALLIANCE WILL OBLIVATE THE
HOLDING OF GREAT CONFER-
ENCE BETWEEN POWERS PRO-
POSED BY RUSSIA.

Paris, Oct. 22.—An alliance between Turkey and Bulgaria is the latest solution suggested for the permanent settlement of the Balkan troubles, and the announcement of this proposition may have an important bearing on the conference between M. Tswolsky and Prince Von Buelow at Berlin on Friday.

The French foreign office has been notified that M. Dimitroff, who is general secretary of foreign affairs of Bulgaria, and who was formerly Bulgarian agent at Constantinople, has been sent to Constantinople with a program that has been approved by Czar Ferdinand, which includes an act of alliance, offensive and defensive, between Bulgaria and Turkey.

It is explained that this was Ferdinand's policy before his "hand was forced" into the declaration of independence "by Austria's action." The government at Sofia even hoped to conclude the alliance before the proclamation of the sovereignty of Ferdinand, which would have been confirmed by the alliance.

Austria's precipitancy in Bosnia and Herzegovina, it is said, acted like a whirlwind on the Bulgarian people and ministers alike and their only idea was immediate independence.

The Bulgarian government now desires, according to its spokesmen in Paris, to work squarely for the consolidation of the Balkan states and the strengthening of Turkey's military and political status.

The negotiations for the proposed alliance have already advanced so far that a dispatch to Le Temps from Philippopolis declares that the pourparles have been successful and that all that now remains is to select the delegates to the treaty convention.

With Turkey and Bulgaria arriving at an understanding of the only danger in the situation is the continued anti-Austrian demonstrations in Serbia, which have caused Austria to warn Serbia that these outbreaks must be suppressed.

Servia's Plight.
Vienna, Oct. 22.—The government published an order today prohibiting the export of guns, ammunition, horses or any war materials to Servia.

SPENDING THOUSANDS OF DOLLARS EXPERIMENTING

The Great Scientist Made a Great
Discovery.

When a man is in doubt, it becomes his duty to investigate and when proof is piled upon proof, it is time to be convinced. There is nothing in life so valuable as good health. The reporter of this article personally knows of several people here that are rapidly regaining their health because they investigated the proofs produced by the Root Juice people and were convinced. We positively know that an eminent scientist devoted several years of his life to hard study and spent over ten thousand dollars experimenting before the afflicted were permitted to try his great discovery, which is now curing people all over the country, after all other remedies had failed. If you blot and belch sour gases, if your food lays heavy on the stomach, if you have any symptoms of indigestion, we honestly believe that one dose of Root Juice will convince you of its wonderful merits. Root Juice soothes and heals the mucous lining of the stomach, bowels and bladder and at the same time heals and strengthens the liver and kidneys. It prevents fermentation of food in the stomach and bowels and stops formation of acid by causing the digestive fluids to be supplied in sufficient quantities in a natural way and giving the liver and kidneys health and strength to do the work nature intended them to do. The blood will soon be filtered of all impurities and good, rich blood will be made to nourish the whole body. Poor, weak women and dyspeptic, backaching rheumatic men take this advice before it is too late. Get immediately and get a bottle of Root Juice. Now on sale, \$1 a bottle, or 3 bottles for \$2.50, at A. G. Luken's drug store.

APPROVES MANNER IN WHICH TAFT SPEAKS OF LABOR

(Continued From Page Three.)

his own position in relation to a matter which concerns not only business men and every decent, law-abiding citizen, whether a wage worker or not, just as much as it concerns Mr. Gompers and that part of organized labor that stands with him.

Confine Himself to Plank.

There is no need of generalities, of vague expressions of sympathy for labor. Let Mr. Bryan simply confine himself to the anti-injunction plank of his own platform and tell us publicly, definitely and clearly whether he accepts or rejects the statements of Mr. Gompers that this plank pledges him to the principles of the bill for which Mr. Gompers stands, and whether, if elected, he will endeavor to have this proposal enacted into law.

This is asked honestly, in the interest of that large voting public which believes sincerely in the promotion of every legitimate right and interest of labor, but which believes also that from the standpoint of the best interest of labor, it neither requires nor is entitled to more than justice, and that the right to destroy business should not be formally recognized in the law of the land.

I feel that I have the right to speak frankly in this matter because throughout my term as President it has been my constant object to do everything in my power, both by administrative action and by endeavoring to secure legislative action to advance the cause of labor, protect it from unjust aggression and secure to it its legitimate rights.

I have accomplished something; I hope to accomplish something more before I leave office, and I have taken special and peculiar interest in Mr. Taft's candidacy because I believe that of all the men in this country he is the man best qualified for continuing the work of securing to the wage workers of the country their full rights. I will do everything in my power for the wage worker of the country except to do what is wrong.

I will do wrong for no man and with all the force in my power I solemnly warn the laboring men of this country that any public man who advocates doing wrong in their interest can not be trusted by them, and this whether his promise to do wrong is given knowing that it is wrong or because of a levity and lack of consideration which make him willing to promise anything without counting the cost, if thereby support at the moment can be purchased.

Just as I have fought hard and shall continue to fight hard to bring about in the fullest way the recognition of the right of the employee to be employed for injury received in the course of his duty, so I have fought hard and shall continue to fight hard to do away with all abuses in the use of the power of injunction. I will do everything I can to see that the power of injunction is not used to oppress the laboring man. I will endeavor to secure them full and equal justice.

Therefore, in the interest of all good citizens, be they laboring men, business men, professional men, farmers or members of any other occupation, so long as they have in their souls the principles of sound American citizenship, I denounce as wicked the proposition to secure a law which, according to the explicit statement of Mr. Gompers, is to prevent the courts from effectively interfering with riotous violence when the object is to destroy a business and which will legalize the blacklist and the secondary boycott, both of them the apt instruments of unmanly persecution.

Seek to Delude Their Followers.

But there is another account against Messrs. Bryan and Gompers in this matter. Ephraim feedeth on wind. Their proposed remedy is an empty sham. They are seeking to delude their followers by the promise of a law which would damage this country solely because of the vicious, immoral purpose that would be shown by putting it upon the statute books, but which would be utterly worthless to accomplish its avowed purpose.

I have not the slightest doubt that such a law as that proposed by Mr. Bryan would, if enacted by Congress, be declared unconstitutional by a

unanimous Supreme Court, unless, indeed, Mr. Bryan were able to pack this court with men appointed for the special purpose of declaring such a law constitutional.

I happen to know that certain great trust magnates have announced within the past few weeks, in answer to the question as to why they were openly or secretly favoring the election of Mr. Bryan, that the laws that Mr. Bryan proposed, including this law especially, would be wholly ineffective, because the court would undoubtedly throw them out and that the promises to enact them could, therefore, be safely disregarded.

On July 2 last the special counsel to the Central Association of Building Trades of New York, Mr. Edward J. Gavegan, submitted to that association an opinion on the matter of injunctions; an opinion which was officially indorsed and approved the same day by the Central Association of Building Trades of New York. In this opinion, in discussing proposals to do away with or modify the power of issuing injunctions in industrial disputes, Mr. Gavegan said the proposal to favor defendants in industrial disputes above all others "would be class legislation and in the nature of special privilege, and special privilege is the bane of the workingman."

Special Interests Created.

"Special privilege is what creates powerful special interests. What the wage earner wants and all he wants is 'equality before the law' . . . It is playing into the hands of the 'special interests' to enact laws which are certain of annulment by the courts, even when they are intended in good faith for the betterment of the workingmen."

"The special interests would rather see a thousand favorable but unenforceable new laws enacted for the wage earner than to have him learn the full power of a single existing remedy. The remedies so far suggested and made public can not in the very nature of our system furnish any needed relief. Labor representatives should concentrate and use their influence for the enactment of general measures calculated to protect and not to destroy the remedy of injunction."

This is admirably sound common sense, the opinion of the counsel to a great labor body, indorsed and adopted as its own by that labor body. It is a scathing condemnation of the proposals, both vicious and chimerical, to which Messrs. Bryan and Gompers are committed. They promise what would be in the highest degree detrimental to the interests of the general public if it could be performed, and what, as a matter of fact, could not be performed.

I believe in both the patriotism and in the intelligence of the workingmen, the laboring-men of America. Therefore, I do not believe that they can be misled to their own deep hurt as Messrs. Bryan and Gompers seek to mislead them; I do not believe that they will permit Mr. Gompers to deliver them like chattels to Mr. Bryan in exchange for a sham.

Sincerely yours,
THEODORE ROOSEVELT.

The General Demand

of the Well-Informed of the World has always been for a simple, pleasant and efficient liquid laxative remedy of known value; a laxative which physicians could sanction for family use because its component parts are known to them to be wholesome and truly beneficial in effect, acceptable to the system and gentle, yet prompt, in action.

In supplying that demand with its excellent combination of Syrup of Figs and Elixir of Senna, the California Fig Syrup Co. proceeds along ethical lines and relies on the merits of the laxative for its remarkable success.

That is one of many reasons why Syrup of Figs and Elixir of Senna is given the preference by the Well-Informed. To get its beneficial effects always buy the genuine—manufactured by the California Fig Syrup Co., only, and for sale by all leading druggists. Price fifty cents per bottle.
