## LETTERS FORGERIES

Mrs. Hains Denies She Is the Author of Epistles Published.

## CONFERS WITH ATTORNEY.

Boston, Oct. 29.—Mrs. Claudia L. Hains, of Winthrop, in a statement given out states that the letters published in Boston and New York papers as being written from her to her husband, Captain Peter C. Hains, of New York, are forgeries. When Mrs. Hains saw the letters purporting to have been written by her to her husband and which Attorney Shaw, of New York, counsel for Captain Hains, gave to the press, she hastened to the office of her Boston attorney, Frederick N. Norton.

"They are forgeries," she insisted, and Attorney Norton, after a long conference with his client, said: "Mrs. Hains states that as the fac similes of the letters did not appear she is unable to say what portions of them are genuine and what are not."

"It is noteworthy," she says, that these letters do not show any participation on her part in excessive drinking or smoking and do show conclusively that on the face of these alleged letters she has been shown as having stated fully to her husband every thing that she did, including, without reserve, her acquaintance with Annis."

A number of local persons who received invitations for the wedding of Miss Irene Bowman of Indianapolis, will be interested in the following account of the affair:

A charming home wedding of last evening was that of Miss Irene Bowman, daughter of Mr. and Mrs. Almond L. Bowman, and Mr. Edward Irving Ardern of Cleveland, O., formerly of Chicago. The ceremony was pronounced at 8 o'clock by the Rev. Layton C. Bentley, pastor of the Broadway M. E. church. The house was filled with a large number of guests. ## COMBINATION WAGON.

The wagon in use by No. 1 company of the city fire department has been converted into a combination hose and chemical wagon. It has been repaired and repainted and now is in excellent condition. All the wagons with the exception of that of company No. 3, are now combination. The changes have been made since the introduction of the first chemical wagon into the department. Nine out of every ten fires the department has to fight are extinguished by the use of chemicals now instead of water. This means a great saving in loss of property by water. The alteration of the wagon was made at the Routh wagon shop.

## \$3,000,000 Work on Santa Fe Would Stop if Bryan is Elected

Galveston, Texas, Oct. 29.—President E. P. Ripley of the Atchison, Topeka & Santa Fe, has stated that if Bryan was elected the Santa Fe system would abandon extensions and improvements, principally in the Southwest, aggregating \$3,000,000, not that it was Bryan or for partisan reasons, as he explained, but because a change in the National Government at this time would prove nothing less than an industrial calamity.

"The country is slowly recovering from the financial fright of a year

ago," said Mr. Ripley, "in which the laboring people and workmen suffered. A change in the Government's policy just now must surely mean a reorganization of the country's industrial world, and this means two or more years of unsettled conditions which America is not prepared for. The extension of the connection of the Peccos lines with the gulf lines is a very important project, but this, with other improvements, must be abandoned if the present Administration is not continued."

## BISHOPS CONVENING

Methodist Board in Session in Indianapolis Looks Over The Field.

## REPORTS TO BE RECEIVED.

Indianapolis, Ind., Oct. 29.—The semi-annual meeting of the board of bishops of the Methodist Episcopal church has begun here. Bishop Berry of Buffalo, N. Y., presided at the opening session and a different bishop will preside at each session for five days.

The senior bishop is Dr. H. W. Warren, of Denver, Col., who was born in 1831 and was consecrated 28 years ago. Bishop Walden, non-effective, is the oldest bishop present. He is 80 years old and was consecrated a bishop in 1884.

The object of these meetings of the board of bishops is to take a survey of the field and to receive full reports of the work for the last six months from the district of every "general superintendent," this being the official name of the bishops; to adjust any difficulties that may have arisen; to plan the work for the coming six months; to assign each bishop to the conferences over which he will pre-

sides during the period; to make suggestions as to what is needed financially for the different fields of work; to make recommendations to the foreign Missionary society and to other boards of the church.

## WANTS MOTHER TO HAVE CHILDREN

Count Boni Brings Action in French Court.

Paris, Oct. 29.—The petition of Count Boni de Castellane for a modification of the decree of divorce obtained by his wife, who was Miss Anna Gould of New York, on account of her subsequent marriage to Prince Helle de Sagan, came up in the Tribunal of the Seine, but at the request of the defense the hearing was adjourned until Nov. 4. The count makes this petition with the idea of giving his mother custody of his children. There is reason to believe that negotiations are under way to settle the case out of court.

There is a likelihood of gold mines being opened in the near future in Bechuanaland. Should such a development take place it would result in bringing increased business to Kimberley to help fill the gap caused by the falling off in the diamond trade.
