

## AMERICA A REFUGE FOR THE HEBREWS

Race Will Continue to Come to  
This Country for Ages  
To Come.

### A STATE FOR THE JEWS.

HOPED THAT PALESTINE WILL  
BE CENTER OF AUTONOMOUS  
STATE FOR THE RACE—A LEAD-  
ER TALKS.

Washington, Oct. 31.—Mr. Israel Zangwill, one of the leaders of the Jewish race, now in Washington, has peculiar ideas of the future of his people.

That America will be a place of refuge for Hebrews for centuries to come is the opinion of Mr. Zangwill, expressed to a reporter, who called on him at the Shoreham hotel shortly after his arrival. He talked at some length of the present condition and future of the Jewish race and its relation to Palestine and the United States.

Just as various substances placed in a melting pot will be fused into one homogeneous mass, so Mr. Zangwill thinks, the various races now physically mixing in America will finally make a fusion race, which will include the characteristics of all of them and yet be unlike any of the races which now make up America's cosmopolitan population. He sees intermarriage and final general fusion.

"Some of the substances put into the melting pot are soft and easily fused with others; some are tough and are fused only after a long time," he explained. "So with the races that are pouring into America. The Jews I class as one of the tough substances, simply because of the anti-Semitic feeling among the Christians in the country, the hatred of the Jew. A person naturally hates some one who is different from him. But when the Christian learns to know and understand the Jews by contact and association with them this feeling will be overcome. Take a lot of people of different kinds and let them be shipwrecked and thrown together for a few days; you will then see how a feeling of intimacy and love springs up between them."

"But it is their misfortune that bring them together," he was suggested. "The misfortune simply gives them a better chance to get acquainted with each other very quickly. Without the misfortune the process will be slower."

"What are the prospects of a Jewish state, or Zionism?"

"I am the president of a territorial organization which hopes to establish an autonomous state for the Jews. At first we hope to find some available land where such a state can be established. We seemed to find one in the northern part of Africa. Little was known about it, because travelers were not allowed to visit the territory. But we received special permission to visit the territory and last spring an inspection was made. The members of the committee have now returned and are waiting their report."

"What effect will the establishment of this state have on Jewish immigration to America?"

"Of course if the state is economically successful, it will decrease the immigration to this country. But that will not be until it is economically successful. If a Jew finds he can only earn \$5 a week in the Jewish state and can earn \$3 a week in the United States, he will very likely come to the United States. The sentimental reason that our proposed country is a Jewish state will be a factor in its behalf."

"We do not oppose Zionism. We simply say that if Palestine is the best place for the establishment of this autonomous Jewish state then we will work to establish it in Palestine."

But Mr. Zangwill thinks that the proclamation of the constitution in Turkey and the establishment of a parliament will not help the movement for the reclamation of the Holy Land for the Jews.

"The young Turks party," he explained, "endeavors to preserve the Ottoman empire intact, even to bring about the return to it of some of the lands which have been taken from it. Under the despotic sway of the Sultan the empire was fast dying and other countries were waiting around to grab various parts. The new party aims to prevent the division of the empire into parts or the loss of any section of it. Therefore, it will be little

likely to grant to the Jews Palestine." Mr. Zangwill hopes while in this country to arouse the interest of the Jews here in the project for the establishment of a Jewish state. If they are content with their position in this country, he thinks they ought to help other members of their race who are not satisfied with their present place of residence, either because of persecutions or through anti-Semitic hatred. He has already had conferences with prominent Jews in this country regarding the matter.

As a "side show" to use his exact words to his larger project, Mr. Zangwill is trying to divert the Jewish immigration to this country from New York to Galveston, Texas. In the southern city, he said, there are few factories and the Jewish immigrants are not tempted to remain at the gateway as they are in New York. They go into the country and mingle with the people in all sections. This he regards as beneficial to both the Jew and the Christian.

## MYSTERIOUS VISITOR FRIGHTENS TOWN

Woman in Black Terrifies Miss-  
souri-ians.

Bowling Green, Mo., Oct. 31.—This town is in the throes of excitement over a great scare which has aroused some of the more superstitious residents. A woman wearing a flowing, witchlike garb of black appears after the evening shadows have fallen at the front doors of houses and rings the door bells and just before the door is answered suddenly disappears. The last "apparition" was seen only this week when it knocked, with three ravenlike taps, at the front door of the home of the Rev. Mr. Gardner, of the Cumberland Presbyterian church. The story goes that the minister had on previous occasions discredited the story of the "spook" and had tried to quiet the fears of the sceptical citizens.

The legend of the "woman in black" dates back three years. It is said that on one late wintry night when the belated town bus was being driven from the railroad station an object resembling a woman in black seized the reins of the horses. When the driver jumped from his seat it vanished.

## LITTLE REPUBLICS GROW PEEVISH

Hondurans Having Troubles  
At Present.

Mexico City, Oct. 31.—Private advice received here from Honduras indicate that conditions are even worse than first surmised. According to this information, it is not Manuel Bonilla, former president, but General Policarpo Bonilla who threatens a revolution. This breach has been caused, it is said because President Davila is drawing away from President Zelaya, of Nicaragua. An attempt, it is reported was recently made on the life of the private secretary of President Davila, whose conduct has incensed the wing looking to the moral support of President Zelaya. The jails, it is reported are full of political prisoners.

These private telegrams declare that unless there is outside interference on the part of Mexico or the United States a revolution is inevitable.

## SCORNED TO SPY; GIRL GETS \$5,000

Massachusetts Town Must  
Pay for School's Action.

Pittsburg, Mass., Oct. 31.—Because 11 year old Pauline Jones was expelled from the city schools for refusing to spy on her schoolmates the city must pay her damages of \$5,000. Her father William Jones brought suit for her asking \$10,000 damages.

In the meantime the school authorities refuse permission to the girl to go to school.

## Slangy Names For Postoffices In United States Relegated

No more slangy names for post offices. No more jokes in the postal Guide. No more jokes cracked at the expense of entire communities.

Postmaster General Meyer believes that a town or community which is big enough to have a post office should possess a dignified name, says the Cleveland Plain Dealer. He is sedate and dignified himself and he is going to eliminate objectionable names from the list of postoffices.

At present a score or so clerks are busy at work going over the postal lists and making notes of the names that savor too much of flippancy or slang. For instance, there's a town called Skidoo in Pennsylvania, one called Brandy Keg in Kentucky and one called Mud in Texas. But there will be no more if Mr. Meyer can help it.

There is a place in Alabama called Ragland. Hardly the place you'd want to visit, judging by the name. Then there are Teddy and Theodore in the same state, which might have been called for all you know after our president. In Arkansas you find a place called Negrohill, an Oil Trough, a Sky-light, a Snowball and an Ink.

A most unpleasant place in California to many people must be Dry Town, while others no doubt, find a paradise in Port Wine. If there's anything in a name. In Kentucky there's a still more suggestive name—Brandy Keg—and also a town called Bliss. Near Fish-trap we find Goodluck, and a place called Happyton near Honeybee. We find a jolly and Jamboree also. There is a place called Decoy where they may serve that sort of thing, but a town in the same list sounds a warning—Caution.

What a place must be Kissimmee, in Florida, if they do it! Since prohibition became effective no doubt Drybranch in Georgia carries out its name. Social Circle, in the same state must be a pleasant place. Keep an eye open when you go to Lookout, in Idaho, and watch yourself at night when you are at Spirit Lake or on Lost River.

In Oklahoma, Bob, Mazie, Sadie and

Sam—all of them towns—must have a fine time courting. Ego and Loco are a little significant of one town having too much confidence in itself that it might put the sister town Loco in the skidoo class. Is Lost Nation lost? Is Smoky Hill in Kansas, smoky? Is Lewed, in Oklahoma, immoral? Is Mud in Texas, muddy? Is Zigzag, in the same state built like a flash of lightning?

Do they need more people in Needmore, Ind., and is Rainstorm, in the same state, wet? Is Greenbush, in Georgia, green, and do they ever make love in Loveless, Alabama? Do they save money at Economy, Arkansas, and does prosperity reign at Prosperity and are they going ahead at Progress—Are there bullfrogs at Bullfrog and do they raise rye at Rye Patch, Nevada? Do they eat beans and ham at Beenhaw, New Mexico? And do they live on rabbits at Rabbit Hash, Kentucky?

If a man walks barefooted at Barefoot, in the same state, would he be bloody when he got to Blood? Would he ever get a bone at Big Bone if he blustered at Bluster and they did not deal fair at Fairdeal?

Would he feel small at Dwarf, cold at Ice, sick at Chill or shy at Coy? One wonders whether they can shoot at Aimwell, La., and what they drink at Tonic, Neb., and do they apply arnica at Arnica, Mo.?

If you were hungry, where would you go—to Biscuit, Neb.; to Crabapple, Tex.; to Burnt Corn, Ala.; or Eggs, Ky.? If you were penniless, would you feel at home in Coin, Ky.? If you wanted to marry would you think Bridal Veil Ore., an appropriate place?

One wonders whether they swear when chopping wood at Bad Axe, Mich.; whether flowers are raised at Blooming Prairie, Minn. What about those places suggested by the names of Cupid and Darling, in Mississippi; of Lovelocks, Nev.; Leggo, Miss.; Lo Lo, Mont.; Bullfight, N. C.; Blowout, Drexey and Zigzag, Tex., are names that can not be accounted for. Like Topsy, they probably "jest grewed."

### SHIVERED ON PLATFORM.

Girl Spends Two Hours on Rear of  
Pullman Car.

Denver, Colo., Oct. 31.—Late for her train at Kansas City yesterday, Miss Martha Wheatley of Orange, N. J., managed to throw her hand baggage on the platform and clamber up on the rear of the moving Pullman at the rear of the train. It was the limited and made no stops for two hours.

She threw off a note at a station asking the operator to wire ahead and have the door opened. Half an hour later the whole train crew appeared and let her into the car.

### YANKEE LOCOMOTIVES.

Vienna, Oct. 31.—American and English locomotives are to be used largely on the private railway lines in Austria, about 2,000 miles of which are to be purchased by the government next year at a cost of about \$15,000,000.

Australia is a pathetically empty land. The part of it which is most convenient for Asiatic invasion, the northern territory, is so empty that the common theory of international law any nation has a right to take possession of it for lack of "effective occupation."—Sydney Bulletin.

### MRS. SAGE LIBERAL.

Gives Gymnasium to Soldiers in the  
Philippines.

Manila, Oct. 31.—A big gymnasium equipped with the most modern apparatus, the gift of Mrs. Russell Sage, is being erected in Manila for the use of the 5,000 soldiers in Fort McKinley, the largest military post of the nation. The building will cost \$25,000. The cornerstone was laid recently by General Pershing. The gymnasium adjoins the big Young Men's Christian Association's club house which is visited by more than 500 soldiers daily.

### MORE EXAMINATIONS.

Banks Will Be Forced to Obey  
Laws.

Washington, Oct. 31.—It is the intention of Comptroller of the Currency Murray to increase the number of bank examinations during the year, especially in the cases of those national banks which have been guilty in the past of an infringement of the national banking laws. The comptroller states that there are a number of banks which view some of the less important provisions of the law as of small consequence.

## MOVEMENT FOR BETTER ENGLISH

Chicago Club Finds Enuncia-  
tion Slovenly.

Chicago, Ill., Oct. 31.—A movement for the teaching of better English in the public schools has begun by the Chicago English Club here, following charges by various educators that the enunciation of Americans, and particularly those of the Middle West, was slovenly and ungrammatical. Miss J. A. Wilcox in enumerating instances asserted she had overheard a teacher say, "I ain't particular how my pupils say a thing. What I'm after is facts."

"When Edwin Arnold visited this country," said Miss Wilcox, "he took a certain society lady out to dinner. She called attention to the elegant establishment they were in, referred to the elegant gown of an opera singer, spoke of the author's elegant reading and presently described as 'elegant' a pickle that had been served her. The superabundance of elegancies in the woman's language was a sample of the poverty of the American's use of the English language. If we paid a little more attention to teaching English in our schools we would not hear young ladies speak of Rebecca in Scott's Ivanhoe as 'perfectly grand,' of Rowena as 'awfully sweet' and of Front De Boeuf as 'ferce.'"

### LUMBER HIGHER.

Interior and Export Demands Are  
Greater.

New York, Oct. 31.—Reports from Mississippi indicate a rapid increase in the demand for export lumber at an advance of \$4 to \$5 per thousand over prices of a month ago. Interior demand is also large, at higher prices.

## BACK WITH MILLION THIEF HAS MANIA FOR STEALING BIBLES

Alton, Illinois Man, Missing  
Ten Years, Returns to  
His Home.

### TELLS A STORY OF LUCK.

Alton, Ill., Oct. 31.—Theodore Beckford, of Alton, is back from the Klondike with a million dollars in gold. After a silence of ten years had led his relatives to believe that he was dead. He suddenly reappeared in Alton and announced that he was a wealthy man. Three sisters, who made repeated efforts to get tidings of him, were overjoyed at his return. They are Mrs. Ida Gottentru and Mrs. Annie Thomas, of Alton and Mrs. M. Lang, of 4019 Scanlan place, St. Louis.

As soon as he arrived word was sent to all the relatives and in a short time there was a joyful reunion at the home of Mrs. Thomas.

To a reporter Beckford said he had dug a million out of the mines, if not more. "I went up in 1898," he said. "For seven years I was on the Canadian side, in Dawson, running a pack team, hauling gold back and forth. May 22, 1896, I started a grocery store. Six weeks later I was burned out. Dead broke, I took up my pick and shovel and started digging on Vault Creek, in the Fairbanks district, on the American side."

### First Lucky Strike.

"On September 12 I found nuggets. With the help of my partners, L. Stone, a Frenchman and 'Ed' Youghan, an American, I sank a shaft 180 feet and struck a vein of the richest gold ore in the district. My share of the mine's output in three years has been a million.

"It took us a month to get down by

Wilmington, Del., Oct. 31.—Pastors near Wilmington are agitated by the actions of an unknown man with a mania for stealing Bibles and then destroying them or defacing them so that they are worthless thereafter. Recently Bibles have been taken from the Presbyterian churches in Lower Brandywine and Mount Cuba, Del., and Fairville, Pa. The Bible of the church at Claymont, was taken and later was found in an old carriage shed badly mutilated.

steamer from Fairbanks. Our ship was icebound for seven days and nights in the Behring sea. A hole thirty-seven feet long was punched into the side of our steamer and we were dashed up against a big sand bank at Nome. Ice one hundred feet high loomed up before our boat and every one of the five hundred men, women and children on board spent the time praying.

"A lucky shift of the wind blew us off the sandbar into the open sea, clear of the ice and we passed safely on." Beckford says he did not write to his sisters because he was so interested in gold that he forgot everything until after he had "dug himself wealthy," when he thought he would return and visit them. He brought home a large quantity of nuggets. He will return in February.

The first voyage of an American vessel around the world was made by the ship Columbia from Boston, starting Sept. 30, 1797.

## When Your Stomach Hurts Take A Little Kodol

The pain will then cease, the irritation end, and your stomach will feel good. Kodol stops the pains of indigestion and dyspepsia quickly, Because it digests all the food you eat.

Kodol is a pleasant, palatable liquid preparation that helps the stomach do its work in a natural way and is the only preparation that completely digests all the food you eat. Being a liquid, it starts digestion at once. Kodol supplies the same digestive juices that are found in a healthy stomach. This is why it will stop the pains of indigestion quickly. This is why it prevents chronic nervous dyspepsia. Your stomach being weakened probably by overfeeding or overwork, is unable to do its work properly, and the natural result is indigestion, sour stomach, gas or belching, which will soon result in chronic dyspepsia, unless the stomach is given help.

That shaky, painful feeling in the stomach is nervous indigestion or dyspepsia. It is not only annoying, but dangerous. If left alone, the result is generally gastritis, or often that fatal affliction—appendicitis. Appendicitis according to the best medical authorities is directly caused by indigestion. Don't neglect your stomach. Don't take any chances. There is no need for you to suffer, because a little Kodol now and then will keep the stomach well, healthy and strong. Do not diet or starve yourself. That is not the way to get help. Your body needs the food your appetite calls for—you must have plenty of good food to make bone, muscle and rich life-giving blood.

Eat what you want of the food you like, and let Kodol help the stomach do its work. You can't get nourishment from your food unless you digest it. Take a little Kodol now and then. That is the only safe and sure way.

Kodol has tonic properties that uphold and help the whole system. You do not have to depend on Kodol all the time. You only take it when you need it. We want you to try Kodol—at our risk. We want to prove to you just what it will do. If Kodol fails you get your money back—what more can you ask? What more can we give?
