## CHAIRMEN ARE BOTH OPTIMISTIC

(Continued From Page One.)

for Bryan and the democratic state ticket. Republican leaders give the same figures as their estimate of the plurality for Taft and their state candidates.

## GREAT MIXUP IN IDAHO.

Republicans, Independents, and Democrats in Alliance.

Boise, Idaho, Nov. 3.—With the independence candidate for governor declaring himself for the republican national and state tickets, the independence state chairman lining up with the democrats, the democrats fighting for the direct primary, and the republicans out for local option, election day brought a complicated situation in Idaho.

The republican chairman claims the state for Taft by 20,000 and for Brady for governor by 15,000.

## CLAIMS SHRINK IN MONTANA

Chairman Now Places Majorities at 2,000 for Taft.

Butte, Mont., Nov. 3.—The most significant feature in Montana is the greatly reduced claims of the state republican chairman.

Last Tuesday Chairman Lanstrum claimed Montana would go for Taft and Edward Donlan for governor from 6,000 to 10,000. Today Mr. Lanstrum's estimate places a plurality for Taft and Sherman at not less than 2,000, with 5,000 for Donlan.

State Democratic Chairman W. B. George's estimate is that Montana will give Bryan a popular majority of at least 10,000, and majorities of at least 6,000 for the state ticket.

## FIGHT TO SAVE BRYAN.

Democrats Anxious to Wipe Out Nebraska's Republican Plurality.

Lincoln, Neb., Nov. 3.—With only eight electoral votes to be contested for the fight in Nebraska will nevertheless be one of the most strenuous ever known in the state.

Partisans of Mr. Bryan are anxious to wipe out the slender plurality the republicans have enjoyed for the last nine years, and claim to have absolute confidence they will win.

The republican managers concede a slight gain for Mr. Bryan, but insist the state is for Taft for president and that the entire state ticket will be elected, with probably five of the six congressmen.

## SOUTH DAKOTA CLOSE.

Conservative Estimates Give the State To Taft.

SioUX Falls, S. Dak., Nov. 3.—The republicans express confidence in their

## You Can Make Better Cough Syrup Than You Can Buy.

A full pint of cough syrup—enough to last a family a long time—can be made according to the recipe given below, in five minutes, at a cost of about fifty cents. It is not only cheaper than the "ready-made" cough syrup, but it is also better in every way—usually stopping a deep-seated cough in 24 hours. It is also excellent for colds, whooping cough, chest pains, bronchial troubles and similar ailments. The recipe is worth saving.

Granulated Sugar Syrup, 13½ oz.  
Pinex . . . . . 2½ oz.

Take a pint of Granulated Sugar; add one-half cup full of water, stir, and let boil just a moment. Put the 2½ oz. of Pinex in a pint bottle and fill it up with the syrup. Shake well and take a teaspoonful every one, two or three hours. Well cooked it keeps perfectly. The taste is very pleasant.

Guaiacol and other chemical elements of the pine which make the air of the pine forests so effective in the cure of consumption and other membrane diseases, are found in high proportion in Pinex, the most valuable and concentrated compound of Norway Pine Extract. For the purpose of this prescription it is immensely superior to the many weaker pine oil and pine tar preparations, and druggists have it or can get it quickly without trouble if requested.

ability to sweep the state today on both the national and state tickets, while the democrats were equally confident of electing their state ticket, and especially the democratic nominee for governor, and a good representation in the legislature. Conservative estimates give the state to Taft.

## ONE CONTRIBUTOR NAMED.

Father of Girl Said to Be Fiancee of W. J. Bryan, Jr. Gives \$500.

Milwaukee, Wis., Nov. 3.—When State Democratic Chairman H. H. Manson made his final announcement of the money expended in the Wisconsin campaign, showing a total of \$8,671.25, he named only one individual contributor. That one was Alexander Berger, the board of trade man, whose daughter is said to be the fiancee of W. J. Bryan, Jr. Mr. Berger gave \$500 to the cause, and the democratic national committee furnished \$5,000.

## ALARM IN CONNECTICUT.

Republicans Fighting Lillie Flood the State With Pastors.

Hartford, Conn., Nov. 3.—Genuine alarm prevails in the republican state headquarters here because the anti-Lillie republicans, who organized in New Haven to fight Congressman Lillie in his campaign for governor, flooded the state with ballots bearing posters for Judge Robertson, the democratic candidate, but of illegal size, and with carelessly misspelled names, and of wrong type.

Candidates admit that the fusion republicans have jeopardized the entire state and national republican ticket and have given the democrats an opportunity to carry Connecticut unless the ballots are withdrawn in time. Lillie probably will be swept into the governor's chair on the presidential wave, but the contest will be close.

## BLACK FOX PELTS.

Only About Five Skins Are Secured Each Year.

In the estimation of trappers of the Canadian northland as well as in the eyes of the nobility of Russia there is only one kind of beast, the highly prized black fox. On an average five perfect pelts of this rare fur bearer are brought down from the northland each year and in rare years as many as ten or twelve, though each year thousands of men make a living trapping and the yearly catch of foxskins amounts to over 100,000 from Canada alone.

In no way except in color does the black fox differ from the red fox, whose pelt sells for about \$2, or from the gray fox, whose winter coat is valued at from \$150 to \$400, but when a hunter can secure a black fox and remove its skin without marring the fur he is sure of receiving from \$800 to \$1,500 for his trophy. Not only is every black fox pelt sought as soon as taken, but a dozen Russian noblemen have paid agents traveling in North America all through the winter seeking out remote hillside farms and abandoned logging camps where it is possible that a shy and elusive black fox may have been seen.

Within the last twenty years a number of wealthy men who have owned fenced game preserves have spent vast sums of money in buying foxes alive and turning them loose within private inclosures. By and by it may be that some skilled or fortunate breeder will produce a black pup or perhaps a pair of black foxes may be captured alive, and from these a new breed of black foxes will arise and cause a great panic among the men who hunt for black foxes. He who can wrest the secret of breeding black foxes from nature is assured of riches past counting and can command the worshipful homage of the Russian nobility and aristocracy, who seem willing to sacrifice untold wealth for the pleasure of wearing overcoats made from the pelts of American black foxes.—Edmonton Cor. Toronto Globe.

## PREPARE FOR A BIG RALLY DAY

Special Services to Be Held at Fifth St. M. E. Church.

Great preparations are being made toward making the all-day rally that is to be held at the Fifth Street M. E. church Sunday a great success. A special program has been arranged for, consisting of musical numbers and other interesting features. The Sunday school will start at 9:15 o'clock, and at 10:30 the Rev. J. Cook Graham, minister at the church, will preach his sermon. A number of the children will be baptized. Dinner will be served in the church, and at 2:30 o'clock the Rev. Kenna, of the Third M. E. church, will preach. In the evening the Epworth League led by Miss Josephine Campbell, will hold exercises appropriate to the occasion, and at 7:30 the Rev. R. J. Wade, of the First M. E. church, will preach.

All the members of the church and Sunday school are urged to attend and bring their friends.

## POLITICS STOPS CITY BUSINESS

Committee on Franchises Is Delayed.

The committee on contracts and franchises last evening reported to council that it was not yet ready to report on amending the Main street pole ordinance to provide a penalty for placing feed wires on trolley poles, because the committee members had been too busy attending political meetings.

The regular meeting of the Domestic Science association will meet tomorrow afternoon in the Westcott hotel parlors promptly at 2:30 o'clock. This will be an open meeting and all members with their friends who are interested in this line of work are invited to attend. The meeting is expected to be unusually interesting as Mrs. Henrietta Calvin, of Purdue university, will address the session. She will talk on "Diet, and Its Relation to Health." Mrs. Calvin has a national reputation and is authority on such subjects. A small admission fee will be charged to cover expenses.

All the members of the Knights of Ladies Honor are invited to attend the box social which will be held tomorrow evening in the Red Men's hall, the affair to begin at 8 o'clock.

The Ticker club which was to have met yesterday afternoon with Mrs. John Coate, of South Twelfth street, postponed its meeting on account of the funeral of Mrs. Mary Whitridge, a former member.

Dr. Coffin, of the department of psychology, at Earlham college addressed a meeting of the Science club last evening, which was held in Parry hall. His subject being, "The Laboratory Methods of Modern Psychology." An informal discussion was held after the address by the students who are members.

The Trifolium Literary society met last evening in the parlors of the First English Lutheran church. The society is studying Scotland this season and the following papers were read by members: "Geography and Early History," Miss Gertrude Bartel; "The People and Customs," Miss Esther E. Besseman; "Industries and Commerce," Mr. E. B. Knollenberg. A large number of the members remained for the social session which was held after the program. The next meeting will be held Monday evening, December 14th. The program as given in the year book for this session is: "Universities and Schools," Miss Clara Basse; "Edinburgh," Miss Sarah Swain; "Glasgow," Mr. Henry Bentlage.

The members of the Penny club are requested to meet tomorrow evening at the home of Mrs. Jennie Barnes, to go in a body to view the remains of Mrs. Ayler.

The Woman's Foreign Missionary society of the Grace M. E. church will have its monthly meeting tomorrow afternoon at the home of Mrs. R. Lockwood, 215 North Fourteenth street. The program will begin promptly at 2:30 o'clock. Reports will be given by delegates who attended the state convention at Danville held there recently.

The Woman's Missionary society of the First Baptist church, will meet tomorrow afternoon with Mrs. G. F. Goodwin at her home, 45 South Twelfth street. Mrs. W. H. Whitely will be leader for the afternoon. "Home Missions" is the subject to be discussed at this time.

"Miscellaneous Day" was observed yesterday by the Magazine club at the home of Mrs. Harriet Dill, 35 South Fifteenth street. Each member gave a short reading or quotation in response to the roll call. The story for the day was "The Master of the Inn" written by Robert Herrick and read by Mrs. Elgar Hibberd. The first Monday in each month is fiction day for the club. After the program luncheon was served. Mrs. Charles Holton will be hostess for a meeting of the club next Monday afternoon.

The ladies of the Golden Eagle will give a dancing party this evening in the Odd Fellows hall. The public is invited to attend.

The Spring Grove Sewing circle is meeting this afternoon with Mrs. J. E. Welter at her home on North Eighth street.

Miss Caroline Foulke will be unable to give the paper on "Primitive Music in Norway," at a meeting of the Music Study club tomorrow morning. Another member will furnish this part of the program, which will begin promptly at 9:30 o'clock. All members are invited to attend. The program with the exception of the above number, will be the same as is announced in the year book.

The annual meeting of the Country club was held last evening at the club house, with an attendance of twenty members. The following officers will serve for the coming year:

President—Mr. Howard Campbell. Secretary—Mr. John E. Thompson. Treasurer—Mr. Isaac Wilson.

Reports of the committees for the year were made and other business matters transacted. The social session was not held after the meeting as had been originally planned for.

The Woman's Home and Foreign Missionary society of the First M. E. church will have a joint meeting tomorrow afternoon at 2:30 o'clock, with Mrs. R. J. Wade, at her home on South Fourteenth street. All members are invited to attend.

A meeting of the St. Paul's Guild will be held Wednesday afternoon at 2 o'clock. All the women of the parish are requested to be present. The usual business affairs of interest to members will be transacted at this time.

## BORAX FOR ICEBOX.

Cold Water Preferable to Hot in Refrigerators.

Borax is an invaluable aid to the woman who wishes to keep her icebox immaculate. It is especially desirable for use in small refrigerators, where little food is kept, where the ice is on hand more for the purpose of preserving butter and milk and keeping bottled waters cool, but it is excellent for all iceboxes.

Cold water with plenty of pure borax is preferable to hot water to use in wiping off the walls of the refrigerator. It doesn't heat the box, and, being a germ killer, it purifies everything it touches. It may also be put in the corners of the refrigerator.

Its best use of all is perhaps in keeping the receptacle for the ice itself and the outlet tube in pure and sanitary condition. It may be sprinkled freely over the bottom of the icebox proper and on the rack holding the ice. As the ice melts and runs away, no matter how impure it may be, the borax is melted in with it, killing the germs and keeping the bottom of the box clean and sweet smelling and also the escape pipes. Just before adding fresh ice it is a good plan to pour a pint of water slowly on the bottom of the icebox, over the rack, and let it run out, the fluid flushing the escape pipes, which are easily clogged. Then sprinkle fresh borax over the rack and put in the ice.

This treatment beats hot water and soap every time and is more easily applied.

## HOUSEWIFE HINTS.

Black silk may be cleaned by sponging the dirty parts with the water in which potatoes have been boiled.

If anything boils over on your stove and begins to smoke and cause an unpleasant odor throw a handful of salt on it. This removes the objectionable smell.

To clean gold lace get some rock ammonia from a chemist, pound it and apply the powder to the lace with a flannel cloth, rubbing briskly. Finally brush the lace, and it will look like new.

To prevent rust dissolve India rubber in naphtha to the consistency of cream and brush this over the metal to be protected from rust. When necessary this coating can easily be rubbed off.

Holes in plaster walls may be stopped with a mixture of sand and plaster of paris mixed into a paste with water. When dry, cover with a piece of paper to match the wall.

To clean windows try this method: Take two or three pieces of lump starch, dissolve them in a quart of water and with this wash the windows. Let the glass dry, then polish with a dry cloth.

To clean tan shoes wipe all dust from them with a dry cloth. Soap a woolen rag with white soap, rub lather over shoes, wash with clear water, wipe partly dry, place where air and sun will dry quickly. This cleans and preserves leather.

The colors of the wall paper and the carpet should harmonize. The dyes of oriental rugs are less likely to be out of harmony with walls and furniture than any other floor coverings. Since Japan sends us cotton and pile rugs that are inexpensive any room may be made to look pretty.

A practical coat hanger made by a child for an older relative is covered with raffia crocheted over the neck foundation. The wide open parts of the top of the hanger are filled in with Mexican drawnwork "spiders" made of the raffia. A set of such hangers would be an acceptable gift for a summer hostess from a departing guest.

## Cured of Discontent.

"I never complained," once said Sa'di, the poet, "of my condition but on a single occasion, when my feet were bare and I had no money to buy shoes, but I saw a man without feet and became instantly contented with my lot."

Being asked from whom he learned his philosophy, Sa'di replied, "From the blind, because they never advance a step until they have tried the ground."

"They asked me," Sa'di wrote in the Gulistan, "Of whom didst thou learn manners?" I replied: "From the blind, because they never advance a step until they have tried the ground."

## Excessive Drinking

Orrine Destroys the Craving for Drink  
Cure Effectual or Money Returned.

Excessive or continued use of alcoholic beverages always results in a diseased condition of the nervous system.

The drinking man is often heard to say, "I can stop of my own free will and when I wish," but the poor fellow is now devoid of the power to act at the proper time and in the right way. It's too late, the craving has secured a firm hold and because of the diseased nervous system he has not the ability for sustained effort. The result we all know.

Drunkness is no longer considered a crime; eminent scientists and physicians have agreed that it is a disease and must be treated as such.

The home treatment that has been used for a number of years, and is highly successful, is Orrine. It is sold under a positive guarantee that if it does not effect a cure your money will be refunded.

Orrine is in two forms. When desiring to give secretly, purchase Orrine No. 1, and if the patient will voluntarily take the treatment, Orrine No. 2 should be given. The guarantee is the same in either case. Orrine costs but \$1.00 per box. Mailed in plain sealed wrapper on receipt of price. Write for free booklet on "Drunkness," mailed in sealed envelope by The Orrine Company, Washington, D. C. Sold in this city by A. G. Luken & Co., Richmond, Ind.

## GROWTH OF CARICATURE.

John Law's Wild Schemes Gave it a Tremendous Impetus.

Caricature is nowadays one of the principal methods of criticism. No movement can overreach the mark without eliciting dozens of works of art from caricaturists all over this and all other countries.

This branch of criticism and attack dates far back, but the greatest impulse it ever felt came from the age of tremendous speculation, when, in 1719 and 1730, John Law was manipulating things financial in France. Never before had the financial world been so carried off its feet as it was at that time. Members of the nobility were waiting for a chance to purchase shares in Law's schemes. Duchesses and ladies of high renown tried their most persuasive charms on Law in the attempt to get hold of shares. Men hired out their backs for writing desks, so great was the press of business in making contracts, and one hunchback is reputed to have made 100,000 francs in this way in a few weeks. The French went verily mad over the schemes to become wealthy. Naturally the papers of the time, especially those of Holland, caricatured the state of affairs. There were pictures of all sorts caricaturing Law, the nobility, the schemes and everything connected with them.

It was this tremendous amount of pictorial work that first directed the energies of William Hogarth in London in this direction. Caricaturing began to be used more and more in the political field, and soon afterward it caused the shelving of Robert Walpole from the English ministry. Ever since then has caricaturing been one of the bitterest and most effective methods of checking public men and their schemes.

## Another Knock.

"Hotel clerks are cold hearted," sighed the shabby tragedian, who was traveling with a toothbrush and a compass.

"Speaking from experience, pal?" asked his barnstorming chum.

"Sure! I approached the clerk of the Red Dog inn and told him actors deserved special terms."

"Ah, indeed! And what did he say?"

"He said yes, they deserved six month terms in the county workhouse."—Chicago News.

Election returns at Meyer's Cigar Store.

## A Remarkable Prediction.

Manasseh Cutler of Massachusetts, in a circular in 1787 "booming" the settlement which the New Englanders were about to plant on the Ohio at the mouth of the Muskingum, declared that "the current down the Ohio and the Mississippi" for produce and merchandise of all sorts would one day "be more crowded than any other streams on earth," which was a remarkable prediction, considering that it was made twenty years before Fulton's Clermont was launched in the Hudson, which was the first steamboat in the world ever put in successful operation.
