

AUTO PLUNGES INTO CREEK OFF OF BRIDGE

Two Persons Probably Fatal-
ly Injured.

Albany, N. Y., Nov. 4.—Seven New Yorkers enroute in an automobile from New York to Albany were thrown into a creek at Coymans, near here last night and all of them were badly hurt, two of them fatal-ly.

The party consisted of Mr. and Mrs. E. F. Albee of 1133 Broadway, general manager of the Keith & Proctor inter-ests; W. L. Mitchell, coffee mer-chant, his wife, Mrs. Vashord and Mrs. Burse.

The accident was caused, according to the chauffeur, by some portion of the steering gear breaking just as the machine was to make a sharp turn to go on the bridge, which crosses Coymans creek.

The heavy car crashed through the guard rail of the bridge and turned turtle, landing the occupants 20 feet below. Messrs. Mitchell and Albee may die. Nearby farmers went to the rescue of the party.

DUPLICATES THE ROOSEVELT VOTE

Rhode Island Gives 16,000 for
Taft.

Providence, R. I.—At midnight with about two-thirds of the 161 precincts heard from, the figures indicated a probable plurality of 16,000 for Taft in this state. This is about the plurality given Roosevelt in 1904. The republican state ticket has undoubtedly been successful.

Providence, R. I.—Returns from 30 districts out of 161 in Rhode Island, indicates that Taft had carried the state by a plurality greatly reduced from that of Roosevelt's in 1904. The vote of Taft is 5,618; Bryan 3,403.

Next First Lady of Land is a Genuine Woman

MRS. WM. H. TAFT

Chicago, Nov. 4.—"The first lady of the land, what manner of woman is she?"

This all-absorbing question in the feminine mind, and in the masculine too, for that matter, is readily answered. Mrs. Helen Herron Taft, wife of the president-elect, and next mistress of the White House, has been for years a well known figure in Washington society, where her graciousness, intellect and womanly ways have won her a warm place in the hearts of those who have met her.

The characteristic of the Taft home lies in its atmosphere of hospitality to friend and stranger alike. Mrs. Taft is of the genuine type of American woman. She has no fads. She has not a trace of affectation. She possesses a refreshing sense of humor. She has a wealth of information on subjects running the gamut from politics to art. Her manner is frank and direct. She radiates graciousness.

Wife Like Her Husband.
In these qualities of temperament the next mistress of the White House is remarkably like her husband, whose genial smile has been pictured from one end of the land to the other during the campaign. Both the next president and his wife like to welcome visitors at their home. Close friends are made to feel that the Taft hearthstone is their own, business callers receive the utmost courtesy—no one ever leaves the Taft home feeling that he has been an intruder.

In taking up the reins of the highest social position in the country, Mrs. Taft will not do so with an entire sense of strangeness to the White House life. Her father was the law partner of President Hayes, and the chief ex-

ecutive held the daughter of his partner close to his heart. Although only a toddler during the Hayes administration, Mrs. Taft spent the greater part of each year at the White House. She actually grew up in its atmosphere. In appearance Mrs. Taft is tall and outthrustly slender. Her hair is dark brown and her eyes are blue gray. Scarcely lies in her expression and she is a way of smiling when she is amused which makes her face a charming picture. It has often been said that Mrs. Taft has as keen a sense of humor as her husband and that her flashes of wit often set her husband off into explosions of laughter.

Likes Reading and Music.
Reading and music are Mrs. Taft's pet diversions. She devotes some part of each day to the study of languages. French and Spanish being her favorites. Few mistresses of the White House have been familiar with the continental languages, which has prevented them from absorbing a familiar knowledge of that fascinating part of Washington society, the diplomatic corps. Mrs. Taft speaks several languages fluently. She reads musical reviews from every country where music is a power, and in addition she peruses magazines devoted to politics and the best literature of the day.

Mrs. Taft's love of music has made her something more than an amateur musician and critic. In Cincinnati, her home city, she took a conspicuous part in musical affairs and was at one time president of the Cincinnati Symphony Orchestra, besides being connected with other musical organizations. Mrs. Roosevelt is fond of music and has given several notable musicales in the White House, but she is not the polished musician that Mrs. Taft is.

A Little "Time Off" For Your Stomach

Will accomplish wonders—in indigestion and dyspepsia. Kodol gives your stomach "time off" by digesting your food while the stomach rests.

Kodol thus digests food, for the simple reason that it contains all of the elements essential to food digestion. It would be impossible for it to not digest food.

You know that decaying food is extremely poisonous. Where, then, could decaying food be any more dangerous than lying on the human stomach? Bad enough if indigestion and dyspepsia were the worst results. But they are not.

When food doesn't digest, it forms into hard, lump masses. These irritate the tender linings of the stomach and intestines, and sometimes even cancer of the stomach is caused. Chronic forms of dyspepsia are quite certain to result.

There is nothing secret about Kodol. As stated, it merely contains all the natural digestive elements. It is made in a liquid form so that it can contain all these.

In this respect it differs from ordinary pepsin tablets and other partial digesters, which embody

only one or two of the digestive elements. Kodol is a complete digester. That is why it is so invaluable in any ailment, resulting from bad indigestion.

Then again, some of these tablets containing soda or magnesia are quite harmful, if continuously used. They tend to choke up the lining of the stomach and destroy the digestive glands. They are injurious to the kidneys.

Kodol is prepared at the laboratories of E. C. DeWitt & Co., Chicago.

Dr. Adler read a letter from President Roosevelt in which the writer said:

SPEAKER CANNON ELECTED AGAIN

Fight Against Him Is Unavail-
ing.

Danville, Ills., Nov. 4.—Joseph G. Cannon was again re-elected to congress by a plurality considerably above the normal. Returns are still incomplete, but figures enough have been obtained to show he will probably have a plurality of 10,500.

The result was a surprise even to the friends of Mr. Cannon. The fight made against him by various church organizations, the anti-saloon league, and organized labor, led the republicans to believe that Mr. Cannon's plurality would not be over 3,000.

The senator asked how the state and county had gone but would not say anything further.
