### NOW GOODY-GOOD

Anti-Saloon League Seeks Marshall's Support of Its Work.

### PREPARES FOR ELECTIONS.

Indianapolis, Ind., Nov. 10.—The Anti-Saloon League, which backed James E. Watson, republican nominee for governor, is holding a meeting here today to plan many county local option elections. The league, according to Rev. George Hicks, superintendent of the South Bend district, regards Thomas R. Marshall, governor-elect, as its friend.

Concerning Marshall, Hicks said: "The league regards Marshall as a temperance man, and we do not fear that the brewers can persuade him to recommend that the law be repealed. Of course, the league endorsed Watson and did everything it could to elect him. The league had a right to go after Marshall, but he is elected, and he is the league's governor and the superintendent of the South Bend district has no fear that he will antagonize the program."

The municipality of Valparaiso is about to erect a theater building with a seating capacity of 1,600 on the site of the one destroyed by the great earthquake of August, 1906. It is to be up-to-date, and as nearly earthquake and fireproof as can be built. Large quantities of steel will be used in the construction.

### Rheumatism

"My mother is a great sufferer from rheumatism, and Dr. Miles' Anti-Pain Pills is the only remedy that relieves her."

MRS. G. DAVENPORT, Roycefield, N. J.  
For the pains of rheumatism there is nothing that can equal  
Dr. Miles' Anti-Pain Pills.

They overcome that nervous irritation, relieve the pain and swelling, while they have a tendency to allay fever. If taken as directed they are invaluable to chronic sufferers, as the weakening effect of pain is lessened. Try them—your druggist sells them.  
The first package will benefit; if not, your druggist will return your money.

### VOTING MACHINES PROVE ECONOMICAL

Henry County Saves \$400 on Election.

### THE THEATER

Partello Stock Co.—Gennett.  
"Under Western Skies," will be put on this evening at the Gennett by the Partello Stock company, which is showing at that popular playhouse all this week. "Under Western Skies" is a splendid drama of western life, but, unlike most dramas of its kind, it is not a blood and thunder melodrama. In fact there is not a shot fired in the play. However, it is intensely interesting and thrilling from start to close. The company played to splendid houses yesterday afternoon and evening. It is one of the best stock companies ever appearing in this city.

To purify the camps, Robespierre proposed to the committee of public safety that the armies of the republic be followed by droves of hogs. This suggestion gave birth to the popular saying: "He will be a general of Robespierre's little pigs do not eat him in route."

### IS THERE A STRANGE FATAL DISEASE?

Children Die Suddenly of Malady.

Local physicians assert they do not know of any disease that is prevalent among children in this city, which has suddenly fatal results. The case of little Dorothy Elleman, whose sudden death was reported yesterday, is said by physicians to have been due to an exceptional cause. Members of a Pennsylvania railroad passenger train crew are telling of a similar case. A woman and little boy were on a train enroute from Cincinnati. The child became ill when the train was near Camden, Ohio, and the mother notified the conductor her boy was ill and she would want to leave the train at the next stop. Arriving at Eaton, the conductor and brakeman went to the assistance of the mother, and as they picked up the boy to carry him from the train, his limbs straightened out suddenly and before he was removed from the train death ensued.
