

COLONIZATION OF COUNTRY DESIRED

Catholics May Establish Bureau to Lead Immigrants To Farm.

CONGRESS DISCUSSES PLAN

CONVERSION OF BLACK RACE TO CATHOLICISM ALSO GIVEN CONSIDERATION AT CHICAGO MEETING.

Chicago, Ill., Nov. 18.—The colonization in the country of hundreds of thousands of Catholics now living in the congested districts of the cities and of millions of immigrants yet to cross the ocean was one of the principal matters discussed at the Catholic Missionary congress.

Other problems discussed by the delegates were: The solution of the negro problem by the conversion to Catholicism of the black race; the social settlement question; the problem of caring for the Catholic deaf; the desirability of having standard Catholic works placed in all the public libraries of the country, and the necessity of seeing that the text books used in the public schools do not misrepresent Catholic history or teachings.

"Colonization" was the most immediate important question considered, for it was taken up at an executive session of the board of governors of the Catholic church extension society and the visiting prelates held in the evening, and it is practically certain that the first tangible effect of the comprehensive congress will be the creation of a National Catholic Colonization Bureau, to operate in conjunction with the Church Extension society.

But though the address of Bishop Paul Peter Rhode, on "Colonization" was of the greatest social, economic, political and religious importance, in that it laid down concretely and in detail the methods which the Catholic church will probably use to make her children independent farmers rather than city-dwelling laborers, still it was not the most striking event of the day.

FARMER CHARGED WITH FORGERY

Frank D. Mount Now in Eaton Jail.

Eldorado, O., Nov. 17.—Frank D. Mount, a Preble county farmer, living near Eaton, lies in jail awaiting the action of the grand jury. He is charged with forging the name of John House, another farmer, to a note, which he gave to Mel Black, of this place. Mount was unable to furnish bond and so was committed to jail.

Deeds, Not Words.

RICHMOND PEOPLE HAVE ABSOLUTE PROOF OF DEEDS AT HOME.

It's not words, but deeds that prove true merit.

The deeds of Doan's Kidney Pills, for Richmond kidney sufferers, have made their local reputation.

Proof lies in the testimony of Richmond people who have been cured to stay cured.

Charles A. Fry, for a number of years a member of the Richmond Fire Department, and living at 24 North 5th street, Richmond, Ind., says: "A few years ago I got Doan's Kidney Pills at A. G. Luken & Co's drug store for my son, who had been troubled most of his life with a weakness of his kidneys. I had heard the remedy highly recommended for such cases, and was not disappointed with the results of its use. After the boy had taken Doan's Kidney Pills a short time his condition was much improved, and he continued their use for a while longer until his kidneys were again in a normal condition. Since then he has never been troubled as he formerly was, and I cannot praise Doan's Kidney Pills too highly."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

There are about 13,000 square miles of coal fields in England.

FALL CARE OF ORCHARD.

In sections where the ground is very rough the orchard should not be cultivated, especially in the fall. In hilly sections where the ground does not freeze and where there is a great deal of rainfall during the winter the ground is apt to be mellowed by the cultivation, causing the best part of the soil to wash away during these winter rains. But in sections where the ground will freeze during the winter, in level locations, fall cultivation will prevent the soil from wasting away. To turn up the mellow ground to the action of the frost renders many of the unsound minerals plant food elements available for the trees, which is valuable in developing and maturing the fruit. Cultivate between the rows, allowing the ground to be reasonably porous, so the freezing will be as beneficial as possible, but the dirt must not be allowed to remain in large lumps, which will expose the roots of the trees to the cold weather.

"Men's engagement bracelets" have arrived in London. The bracelet is a plain flat band of pure gold, which is fastened tightly on to the wearer's arm above the elbow. It is snapped on to the arm with a buckle or joined with an invisible spring. When once it is on it cannot be removed except by a small needle specially manufactured to touch the spring in a tiny hole which is left for its insertion.

It is not an unusual sight in England to see a motor bus belonging to one city running with a load of excursionists around the streets of another town twenty or thirty miles distant.
