

CONFERENCE OF CATHOLIC ENDS

Extension of Catholic Influence Was Determined Upon.

BOURKE COCKRAN SPEAKS.

LARGE CONTRIBUTIONS ARE RECEIVED—GREAT SATISFACTION UPON THE WORK THAT HAS BEEN PERFORMED.

Chicago, Nov. 19.—The first Catholic Missionary congress, which convened in this city last Sunday, with 1,500 delegates, including the majority of the distinguished leaders of the church both clerical and lay, in the country, closed with a mass meeting last night, the feature of which was a stirring address by W. Bourke Cockran, of New York.

On every hand were heard expressions of satisfaction at the work of the congress in outlining a new missionary movement designed in particular to perpetuate the Catholicism of immigrants from Catholic countries and to send priests to sparsely settled districts. In the end it is the purpose of the congress that the church in America shall support missionaries in foreign lands.

A message of thanks was sent to the Pope at Rome and another presented to Archbishop Falcone for the encouragement given the meeting.

Alexander, a stranger of Kankakee, sounded the keynote of the movement when he declared that the assimilation of various races into one nation was going on in America, and that it can be most effectively forwarded by the Catholic church.

A. A. Hirst, of Philadelphia, another speaker, referred to German Catholics as the most enlightened citizens of that country, because they understood their religion. William P. Breen of Ft. Wayne, Ind., discussed methods of overcoming obstacles in the way of church extension and missionary endeavor.

In addition to Mr. Cockran, the mass meeting last night was addressed by Archbishop Quigley of Chicago, and Bishop Donahue, of Wheeling, W. Va. Substantial contributions were received and enthusiastic approval of the congress, which marks the advance of the Roman Catholic church in America to a position in the church councils on a parity with other nations, was voiced by speakers, who outlined the steps necessary to be taken in the movement inaugurated by the missionary congress.

The final benediction and dismissal of the delegates and visiting prelates was given by Archbishop Quigley.

THE PEOPLE ARE AROUSED

They No Longer Doubt Testimonials Are Useless.

The Root Juice people came to Richmond to prove the reports that were circulating over the country in relation to the many remarkable cures the great remedy was making. Hundreds of people that heard of the remedy crowded into A. G. Luken's Drug store and bought some of it and after taking it a short while many returned for more and urged their friends to try it. Many local testimonials were published in this paper until it became useless as so many of this city know of many cures it has made and is making. It has certainly proved to be the greatest remedy known for the stomach, liver, kidneys and blood. It is remarkable the way it heals the stomach and bowels and gives strength to the liver and kidneys. Out of all of the hundreds that gave the remedy a fair trial at this point not a single one has been heard to condemn it, but on the contrary many who suffered for years with indigestion, chronic constipation, rheumatism and various kidney complaints, after taking a few bottles of the juice claim a positive cure. So the great remedy does not merely patch. IT CURES. Root Juice is sold for \$1 a bottle, six bottles for \$5 at A. G. Luken's drug store.

NARROWLY ESCAPES SERIOUS INJURY

Wilbur Wright's Presence of Mind Saves Him.

Lemans, Nov. 19.—Wilbur Wright, the American aeroplane, had a narrow escape yesterday from serious injury in an accident similar to that which happened to his brother Orville's aeroplane at Ft. Mier some weeks ago. The chain attached to one of the propeller's broke when he was making his second flight yesterday afternoon and the machine began to turn over. Wright, with marvelous presence of mind, re-established the balance of the aeroplane by leaning to one side and cut off the motor, descending in safety.

NOW A TWENTIETH CENTURY QUESTION

What Shall Be Done With Millions of People in China?

DAVIDSON'S OPINION.

SPEAKS AT LAST SESSION OF FRIENDS' MISSIONARY CONFERENCE IN THIS CITY—SEVERAL PAPERS READ.

"The people of America during the past five years have been crying for China to awaken, and now that these people are about to awaken, it is a question of the twentieth century, what shall be done with that four hundred millions of people?" Thus spoke A. Warburton Davidson, missionary to west China, at the last session of the Friends' conference at the South Eighth Street Friends' church last evening. His subject was on "The Awakening of China," and was very much enjoyed by all who were in attendance.

Mr. Davidson pointed out that no other country has made such progress during the past five years as China. "The country is located in the temperate zone, where all the races are to be reckoned with. While its present greatness is due to its large coast line and good harbors, it is a rich and resourceful land managed by thrifty people. The Chinese have been sending their young and bright sons to the western countries to learn and study proper conditions, and when they return home the best things are adopted and started in the Chinese lives. Thus it is that will be only a short time that China will awaken."

Preceding the very interesting talk by Mr. Davidson, Mrs. Mattle King of this city, read a very interesting paper on the subject of "The Transformation of Hawaii."

Prof. Elbert Russell of Earlham college, presided over the meeting yesterday afternoon. Julia E. Jessup of Economy, read a paper on "The Power of Simple Manliness as Shown in the Life of Paton." A paper by Miss Nellie Cassett of Earlham college, on "Missionary Enthusiasm Shown in the Life of Patterson," was read.

CABINET AIDS SCHOOL TEACHERS

Industries Easier to Explain to Children.

The new Industrial cabinet recently secured by the school board for the use of the teachers in explaining the manufacture of various products, is proving a great aid to the teachers in the grades. The new cabinet explains 80 industries to the minutest detail, showing the raw material, the different stages of manufacture and the finished product.

The cabinet is divided into three parts, one section being devoted to the mineral kingdom which takes in coal, gold, copper, silver, etc., and the second portion being adopted to the vegetable kingdom and the third section to the animal kingdom. There is also a color study which contains 176 distinct colors.

HEXAMETHYLENETETRAMINE
