## FOUR YEAR OLD BOY WRITES BRYAN

Richmond Tot Sorry "Peerless One" Was Beaten.

Perhaps the most disappointed person in Richmond over William Jennings Bryan's third defeat for the presidency was a four year old boy. He was almost heart-broken. The lad was little James Lawler, son of Frank Lawler and nephew of Officer Will Lawler.

When the sad news of his idol's defeat was broken to the boy he stoutly refused to believe it at first, but when he finally realized that Taft was the victor, he dictated the following note to the "Peerless One": "Dear Mr. Bryan—I am awfully sorry you were beaten. Your friend, James Lawler."

## ANOTHER CASE OF SMALLPOX IN CITY

Patient Quarantined in Akron Hotel.

Smallpox made its second appearance near the Pennsylvania depot when a case was reported to Dr. Bond at the Akron hotel. The patient was a Mr. Cartwright who was located on the third floor.

Sanitary Inspector George Young visited the infected hostelry and as a result nearly every boarder at the hotel has been vaccinated and the upper floor quarantined, and there is very little danger of the disease spreading.

## \$20,000 FOR AERIAL GARAGES

French Government to Establish Them.

Paris, Nov. 21.—The chamber of deputies has unanimously adopted the government's motion for a subvention of \$20,000 with which to begin the establishment of a system of garages throughout the country that will command the principal "aerial routes of travel," and out of which prizes for aviation will also be offered. The chamber also adopted a motion by M. DeDion to decorate with the legion of honor all French and foreign aviators who have conducted trials of their craft in France.

## HUNT RECOVERS.

Lester Hunt, a well known young man, who had his arm injured in a corn shredder, and that had to have the member amputated, is rapidly recovering at the Reid Memorial hospital. He was injured by a corn shredder.

## Study Not Considered Seriously

Conditions, Friends Declare, Might be Different if He Would Announce Himself for U. S. Senator from Indiana.

Although Thomas J. Study has made no formal announcement to the leaders of the democratic party in Indianapolis that he is a receptive candidate for the office of United States senator, it is known to his friends that he is "willin'". Mr. Study like other prospective candidates believes there will come a time for a "dark horse" to appear in the race. Mr. Study sees that there will be strong opposition ahead for some of the men now regarded as having the best chances to land the plum.

The following of Mr. Study in this county is not all among his republican friends. Members of the democratic party believe he is as strong a man as the party can find, search wherever it will in this state. They claim ability will be made a thing of value when the final time to make the selection arrives and then Mr. Study's chances will improve. The name of Mr. Study is not mentioned in serious consideration at Indianapolis. In all the gossip printed in the Indianapolis newspapers and sent out to various points in the state, Mr. Study is not mentioned as a candidate. He has made no formal announcement and this is the reason.

Friends of the local democratic attorney say both Kern and Slack may expect opposition from sources not now being considered. The fact John Worth Kern has been proffered about every office on the calendar by the democrats of this state will work against him, it is claimed. It is said Mr. Kern has been held up by his party and fed from the public crib so long that there is a feeling of being formed that a beneficial change might be made. Mr. Kern was the recent democratic nominee for vice-president and he has had numerous other honors bestowed upon him by the advocates of Jeffersonian principles.

## FIRE WAS SWEEPING GOLDING ON LOS ANGELES HERALD

Farmers for Miles Around Eldorado, Ohio, Fight The Flames.

MUCH PROPERTY BURNED.

Eldorado, O., Nov. 21.—Fire that broke out on the farm of John Spitzer Friday, burned with the fury of the western prairie fires and destroyed all vegetation within a radius of three miles. The origin is unknown. A high wind carried the flames rapidly in all directions and a number of fences and outbuildings on farms in the neighborhood were destroyed. It is reported, also, that one or two residences in the vicinity were damaged. The neighbors for miles around joined in fighting the flames. A threshing outfit belonging to Frank Petry was destroyed.

## NEW OPERA HOUSE AT CAMBRIDGE CITY

Omer Hurst to Remodel Old Structure.

Cambridge City, Nov. 21.—Cambridge City is to have a new opera house. Omer Hurst, who owns the present structure that bears the name of an opera house, has closed a contract with Architect Kaufman, of Richmond to prepare plans and supervise the remodeling of the present structure. The ground floor of the building will be extended to the rear. The second floor will be used for the opera house purposes. It will be modern in every respect with elevated floor, asbestos drop curtain, heated with steam and lighted by electricity. The estimates provide for an expenditure of about \$10,000.

## M'CARTHY ONE OF VAN CAMP'S BEST MEN

Local Boy Stands High Among Salesmen.

"Sell More Beans" is the name of a small publication issued by the Van Camp Packing Company. The last issue gives the ranking of the 250 salesmen of the concern. One of these salesmen, whose territory is limited to the city of Chicago, is John F. McCarthy, Jr. of this city. He frequently ranked among the twenty-five leading salesmen in number of sales, and has been as high as twelfth in the list. Besides the names of its best salesmen, the company prints the names of the twenty-five poorest, and in this way endeavors to create interest and the spirit of competition among its employees. The success of young McCarthy is appreciated by his many local friends.

## POPE BECOMES ILL; AUDIENCES SUSPENDED

Nothing Alarming in His Condition.

Rome, Nov. 21.—The daily audiences with the pope have been suspended temporarily, owing to the fact that the Holy Father is suffering from a cold and consequent hoarseness. Otherwise, however, he is perfectly well, and the doctors declare that there is nothing alarming in his condition.

## THE HOOSIER STORE Cor. 6th and Main Sts.

## SHOW THIS WEEK

Wayne County Corn to Be Exhibited at Court House.

HELMS IS IN CHARGE.

Wednesday of this week a corn show will be held at the court house and every corn grower in the county is eligible to enter exhibits. The object of this show, which is being held under the direction of Joseph Helms of this county, is to select the corn that will represent Wayne county in the Indiana exhibit which is to be sent to the national corn show at Omaha, Neb., the first of next month.

Mr. Helms has been appointed by Governor Hanly as Wayne county's representative on the Indiana delegation to the national corn show and he is extremely anxious that this county, one of the best corn producing counties in the state, be well represented. The show Wednesday will not in any way be connected with the Wayne County Corn and Live Stock school which will be held in Centerville the first week in February. It will not in any manner injure the latter project but, on the other hand, be of benefit to it, as it will increase the interest among the farmers of this county in the culture and improvement of grain growing.

## NOT EVEN A JAR EXPECTED WHEN TAFT TAKES PLACE

(Continued From Page One.)

assistant postmasters general, one assistant secretary of the navy, two assistant secretaries of the interior, one assistant secretary of agriculture and one assistant secretary of commerce and labor.

Besides, there are any number of lucrative berths at the heads of bureaus, the salaries of some of which are higher than those of the assistant secretaries. In making a list of these

the state department would be omitted, for the reason that the desirable places under it are in the diplomatic and consular service and entitled to be treated separately.

The treasury has a number of fat jobs in it which party service is almost entirely taken into account. Among them the comptroller of the treasury, the register of the treasury (under republican administrations always filled by a negro), the treasurer of the United States, the comptroller of the currency, the commissioner of internal revenue, the director of the mint and six department auditors. The war and navy departments do not furnish much in the way of spoils, for the bureaus in these departments are mostly headed by regular officers.

The justice department, in addition to those named above, furnishes assistant attorneys general for the several departments, a solicitor of the treasury, a solicitor of internal revenue, and any number of assistant attorneys and special attorneys. The interior department offers the president to put political workers into four very desirable places, commissioner of the land office, commissioner of patents, shipcommissioner of pensions and the commissioner of Indian affairs. The commissioner of education, directorship of the geological survey and directorship of the reclamation service are not considered political offices.

As the agricultural is a scientific

department its bureau chiefs are not ordinarily disturbed for political reasons, though a president might appoint a new chief of the weather bureau and a new forester without exciting adverse comment.

In the department of commerce and labor are several places which always have been regarded as fair political spoils among them the commissioner of labor, the director of the census, the fiscal commissioner, the commissioner general of immigration and the bureau of statistics.

If these places are not sufficiently numerous to go around, Mr. Taft will find good places in a number of independent and miscellaneous bureaus, commissions, etc., at his disposal. Among them may be mentioned places on the interstate commerce, civil service and isthmian canal commissions and the high-salaried place of public printer.

Fat Consular Jobs. In the past faithful party workers have been made happy by good places in the consular service, though since the advent of Roosevelt the tendency has been to place consular appointments on a merit basis. Still, there is nothing to prevent Mr. Taft taking care of a few friends in this way. The consular places paying \$5,000 a year or more are as follows:

Four consuls-general at large, \$5,000 each: Vienna, Austria, \$5,000; Antwerp and Brussels, Belgium, \$5,500 each; Rio de Janeiro, Brazil, \$5,000; Canton, China, \$5,500; Changhai,

China, \$8,000; Tientsin, China, \$5,500; Havana, Cuba, \$8,000; Paris, France, \$12,000; Marseilles, France, \$5,500; Havre and Lyons, France, \$5,000 each; Berlin, Germany, \$8,000; Bremen, Germany, \$5,000; Frankfurt on Main, Germany, \$5,500; Hamburg, Germany, \$8,000; Belfast, Ireland, \$5,000; Calcutta, India, \$6,000; Cape Town, Africa, \$6,000; Dawson, Yukon Territory, \$5,000; Hongkong, China, \$8,000; Liverpool, England, \$8,000; London, England, \$12,000; Manchester, England, \$6,000; Melbourne, Australia, \$5,500; Montreal, Quebec, \$6,000; Ottawa, Ontario, \$6,000; Pretoria, Transvaal, \$5,000; Kobe, Japan, \$5,000; Yokohama, Japan, \$6,000; Seoul, Korea, \$5,500; Monrovia, Liberia, \$5,000; Mexico City \$6,000; Panama, \$5,800; Lourenco Marquez, East Africa, \$5,000; St. Petersburg, Russia, \$5,500; Barcelona, Spain, \$5,500; Cairo, Egypt, \$6,000; Constantinople, Turkey, \$6,000. In addition to the salaries a number of these places pay substantial sums in notarial fees.

## STENCH FROM TURKEYS.

Complaint has been made to the police against a Main street grocer who has stored a number of turkeys in the basement of a vacant storeroom. The claim is made the odor from the turkeys has been such as to make the occupancy of flat rooms above the store room objectionable and complaint has been registered.

# Dyspepsia

and indigestion are very quickly stopped when your food begins to digest. Kodol digests all you eat.

Of course nothing goes right when your stomach is all wrong. Your system is overloaded in spots and underfed in others. It requires all your attention. Your head is heavy. Maybe it aches. You feel dull. You don't really care if you succeed or not and you mostly don't.

What you need is Kodol; you have dyspepsia. It is useless to try to make the stomach do what it can't. Might as well crank your auto after the gasoline is burned out. Far more sensible to whip a tired horse. He will go till he drops. The stomach won't. It stops when it is tired and makes you a lot of trouble.

Maybe you don't weary it with too much work. Perhaps it has a notion of kicking about certain kinds of food. Fats perhaps. Starch most likely. Albumen possibly.

Kodol digests all you eat. Funny thing. Almost all digestants are made to digest albumen only. Seem to forget all about fats, phosphates, starch and the rest. Acid makes as much trouble as anything. Why not make a digestor that will do more?

It was hard work to get Kodol right. Unless it could be made to digest any food anywhere in the digestive tract we did not want to make Kodol.

Unless it could do more than any digestor known—even Nature's—we didn't want to offer Kodol.

Hard scientific work did it. Made Kodol. Made Kodol so perfect that we can guarantee it. We claim that Kodol will do all the work of a healthy digestive apparatus. That it digests any food anywhere, at once and entirely. It does more than Nature because she is limited in place—Kodol isn't.

There is no halfway work about Kodol. It is a tonic without being a stimulant. It quiets without containing a bit of narcotic.

It rests and Nature cures. It works partly by increasing the secretion and flow of the digestive juices, partly by actually preparing undigested food for proper natural assimilation. But it does all the work. It does not stop with a single class of foods in a certain place. It takes them anywhere. Hunts till it finds its work and then does it.

Don't say again that you can't eat everything. It is nothing to be proud of. It means that you have abused your stomach knowingly and ignorantly. That you are not willing to help Nature repair the damage. That you'd rather starve yourself by depriving your system of some variety of nourishment it needs. That is what dieting really means—half starvation.

With Kodol at hand, such treatment is worse than useless. It is criminally careless. The way to gain digestive strength is to help the digestive apparatus, not to quit using it.

Try Kodol. You will begin to believe in it as soon as you swallow it. You will feel it working at once. It loses no time. The wonder will be why you waited.
