

DORANDO DEFEATS HAYES IN MARATHON

Italian Runner Showed Much Speed and Great Endurance in Renewal.

AYES STAYED WITH HIM.

IT WAS NOT UNTIL THE LAST LAP AND BY TREMENDOUS BURST OF SPEED THAT AMERICAN WAS OUTDISTANCED.

New York, Nov. 26.—The end of the most exciting struggle between two men ever witnessed in this city, came at midnight last night when 10,000 persons rose and greeted Dorando as the victor in the renewal of the famous Marathon of the English Olympiad. For almost three hours Dorando Pietri and Johnny Hayes, the game little New York boy who brought victory to the American athletes in the most famous event of the Olympian games, pattered about the restricted tankard ring on which the disputed Marathon was to be re-run. From the start it was seen that Dorando, living up to the reputation he made when he last met Hayes, had wonderful speed, and endurance extraordinary in a human being. At the last race he was at one time almost six miles head of Hayes. Last night he was not six feet ahead of him during the running of the 202 laps until the last lap, when he spurted and, with his marvelous speed, gained a quarter of a lap and crossed the finish line this much ahead of Hayes. The race was run for the full 26 miles.

WAS HAPPY THRONG

Roller Skating Season Opened At the Coliseum Last Night.

ALL WAS IN READINESS.

It was the same old crowd, the same old music, but a better floor and better rollers than ever that featured the opening of the skating season in this city last evening. The weather was slightly too warm for the winter indoor pastime, but the crowd was large and everybody happy. The floor was in the best condition it has been since the rink has been opened and that is saying a great deal. During the summer months the skates have been fitted up anew and new rollers substituted for those that were nicked or broken and there is probably no rink in the country better equipped with skates than that in this city.

Of course there were numerous spills and pileups. The local skaters persist in going at a rapid rate and accidents are the inevitable result.

COME THIS WEEK

Wrestlers Who Will Appear Monday Night, Training For Contests.

WINKELHOEFER GOOD MAN.

Winkelhoefer, Young Beel and Roeber, who will take part in the double header wrestling match at the Coliseum Monday night, will arrive in this city the latter part of this week. Olson who is matched to go against the German Hercules, Winkelhoefer, will probably not arrive here until the day of the match. Olson is now in hard training at Indianapolis, as he realizes this match will be the most important he has had this season, not even barring the match he had with Americus at Baltimore.

The other three principals in the double header are also in hard training. The first match will be between the two middleweights, Young Beel and Roeber and will start at 8:15 sharp. These two men are regarded among the top notchers of their class.

Winkelhoefer is a man of about the same stature of Gotch, the world's champion heavyweight. The German Hercules is the logical favorite in the match, as he is at least twenty-five pounds heavier than Olson and is as quick and skillful as his clever opponent.

Consul Gracy at Tsingtao warns young men against going to China in the hope of finding profitable jobs. Any young man who is willing to work will, he says, find better opportunities every day in the large American cities. A new process has been discovered in China by which ramie fibre becomes a soft flax in a few minutes. A company has been formed to prepare the flax for general use, and the first shipment will soon be made to Europe.

A very creditable exhibition of Oriental paintings, both modern and ancient examples, was held at the India Government School of Art in Calcutta recently.

CONGRESSMEN DO NOT THINK TAFT WILL INTERFERE

(Continued From Page One.)

congress would vote this year to increase their salaries, employment by the government does not seem to have lost any of its attractions. Reports received by the civil service commission show that, at the recent general examinations there were more applications than ever before.

This rush to get into the service is attributed by some to belief that congress will soon raise the level of civil service salaries, but a safer opinion is that the same old lure of government employment is still at work and as population increases applications may be expected to increase.

Whatever the cause, the increase in applications is gratifying to those charged with the duty of providing Uncle Sam with clerks. The larger the list the more opportunities there are for selection, and the government always is in need of capable help.

FRIENDS WOULD PUT KUHN IN THE SENATE

(Continued From Page One.)

dependently of any other official connection with the city government.

It is believed that the work of the controller can be done by the city clerk, that of the city judge by the mayor and that of the city treasurer by the county treasurer, thereby saving to the city the salaries of the three officials whose places are to be abolished. It is argued that the board of public works as at present constituted is not needed. It is pointed out that most of the work is done by the mayor and the city engineer and that the board really does little more than ratify their acts. Under the present law there is no street commissioner, but it is felt that one is needed and that he should be a member of the board of public works, along with the mayor and the city engineer. The citizens of Kokomo and several of the other fourth class cities are said to be strong for the change, because it will save them money.

SELECTION IS MADE

Seven Groups of Ten Ears of Corn to Be Shown at Omaha.

THE INSPECTOR IS PLEASED

The selection of seven groups of ten ears from the corn offered by Wayne county growers for exhibition at the National Corn Exposition to be held at Omaha, Neb., was made yesterday by Joseph Helms, of Center Township. Mr. Helms is an expert at judging corn, and is a member of the Indiana committee that has in charge the work of preparing the state exhibit for the national show. The winner of the prize for the best ten ears of corn receives a prize of \$1,000 and a trophy cup worth \$1,000. Mr. Helms regards the chances of the Wayne county growers as being good. He was very flattering in his remarks about the quality of corn placed on display yesterday.

There was not as general response to the call of Mr. Helms for the corn exhibition as he had desired. However, the offerings made were of better rank than is usual.

The selections made by Mr. Helms and the gradings placed upon each were as follows:

E. E. Ellison, mixed corn, 78.7; yellow, 80; Frank Kuhiman, yellow, 79.5; Will Eikenberry, yellow, 78.7; Alfred Harris, yellow, 74; A. D. Bond, white corn, 71.9; William Threewitt, yellow, 72.8 and J. S. Helms, 86.7. Mr. Helms will also exhibit in a special class a specimen of the bloody butcher variety, which scores in the neighborhood of 90.

If you suffer from constipation and liver trouble Foley's Orino Laxative will cure you permanently by stimulating the digestive organs so they will act naturally. Foley's Orino Laxative does not gripe, is pleasant to take and you do not have to take laxatives continually after taking Orino. Why continue to be the slave of pills and tablets. A. G. Lukens & Co.

Francis Galton, who is now eighty-six years old, studied surgery in the old days before chloroform was used, and says of the Birmingham hospital: "The cries of the poor fellows who were operated on were very characteristic; in fact, each class of operation seemed to evoke some peculiar form of them. All of this was terrible, but only at first. It seemed after a while as though the cries were somehow disconnected from the operation, upon which the whole attention became fixed."

In 1904 Japan exported a little over \$1,000 worth of human hair; the total export was valued at \$60,000 in 1906. Large quantities are made into wigs in Paris.

RICHMOND SHOPS ARE ALL RUNNING

Great Number Are Now Employing Full Forces to Handle Business.

HOOSIER IS PROSPEROUS.

HAS LARGEST PAYROLL IN ITS HISTORY—STARR PIANO COMPANY WORKS FULL TIME WITH SOME OVERTIME.

The shop employees of Richmond had particular cause to offer up thanks this Thanksgiving day. A year ago this month was a gloomy one to these citizens. Several of the shops were closed down and nearly all the others were working with skeleton forces because of the financial panic. At the present time these conditions are reversed. Every factory is in operation and nearly all of them are working with full forces. The Hoosier Drill branch of the American Seeding Machine company now has the largest payroll in its history, over seven hundred men being at work.

At the Starr Piano works a capacity working force is employed, all the men working sixty hours per week, an average of ten hours per day, and there is considerable overtime work.

This factory has been working on this basis since the first of last January. The Gaar, Scott & Company and the Robinson & Company have not their full working forces employed, but this condition is not the result of the recent financial depression. It is the result of the drought, which has made the spring wheat prospect in the northwest an uncertain proposition. It is now thought that the wheat outlook is improving in that section of the country, and it is quite probable that next month or the first of next year will find these two big concerns operating with full forces.

At the Wayne Works, the F. & N. Lawn Mower works, the Dille, McGuire Lawn Mower works, the Westcott Carriage company, the Richmond Carriage company, the Hutton Casket company, the Richmond Casket company, the Watt & Keefer Casket company and other local manufacturers, nearly the normal working staffs are employed and the business outlook is reported to be excellent.

CHURCHES UNITED FOR THANKSGIVING

(Continued From Page One.)

the past year. We should offer gratitude to God in all things.

"All of us here today should offer gratitude to God for the advancement being made in the cause of temperance. This is more advanced today than at any time since the saloons have been established. I do not feel disposed to criticize Governor Hanly for the calling of the special session of the legislature. I believe that these moral questions should be kept out of politics. I do not think that the temperance cause has been materially helped by the clauses that are in the two party's platforms.

It behoves us to push the battle on to victory. "One ought to be grateful for the recent rain. Men have prayed. Men have longed for this event and it is very befitting that we should rejoice together for this recent blessing. "Oh that men would praise the Lord for his goodness and his wonderful works to the children of men."

The union services at the First English Lutheran church were participated in by the members of that congregation, the Second English Lutheran, the South Eighth Street Friends, and the St. Paul's Lutheran churches. The sermon in English was delivered by the Rev. Emerson Harsh, of the Second English Lutheran church and the Rev. Conrad Huber, of St. Paul's spoke in German. The services were conducted by the Rev. E. G. Howard, of the First English Lutheran church and the scripture was read by the Rev. Mr. Keats of the South Eighth Street Friends church.

In his sermon, the Rev. Mr. Harsh told of the reasons why thanks should be given to God. He declared thanks were due for His great temporal blessings, the agricultural blessings, those that have befallen the industrial world and the institutional development. The blessings were said to have been shown in the kindness offered and the guiding hand that has been manifested in political affairs. The abounding blessings that have befallen the church of Christ were told of.

The Rev. Conrad Huber chose for his scriptural reading the first and second verses of First Timothy, chapter 51. His text was as follows: "I exhort, therefore, that first of all supplication, prayer, intercession, and giving of thanks be made for all men, for kings and for all that are in authority, that we may lead a quiet and peaceable life in Godliness and honesty."

The text was expanded upon and the sermon, which was in German, was a forceful presentation of the spirit of the day.

Lead, when reduced to a very low temperature in liquid air, is said to act much as steel at ordinary temperatures. It will serve as a helical spring, for example. Just as iron is soft and inelastic at a high red color, so lead is dull and soft at ordinary temperatures, for it is then already well on its way to be melted.

This store will be closed all day Thursday

KNOLLENBERG'S

Sale on Wednesday Friday and Saturday, This Week

Annual Thanksgiving Underwear Sale

It's the interesting and timely occasion always appreciated by our patrons. Following an established custom of the store we will give our

Annual Reduction Price Underwear Sale on Wednesday, Friday and Saturday of this Week, Nov. 25, 27 and 28.

(Thursday the store will be closed)

PROSECUTION WINS IN ARRAIGNMENT

Coopers, Alleged Murderers, Plead Not Guilty.

Nashville, Tenn., Nov. 26.—Colonel Duncan B. and Robin J. Cooper and John D. Sharp, were arraigned for the murder of Senator Edward Carnack, and their trial was set for Dec. 8. They entered pleas of not guilty.

Counsel for the defense objected to the persons being brought in person into court, urging the past custom which has prevailed in this court in this respect, but the attorney-general insisted on following the law to the letter, and the court sustained him.

No request for admission to bail was made. Counsel for the defense attempted to have the case for the January term of court, but Judge Hart allowed the state's request for December 8.

Contrary to the prevailing opinion, there are more persons injured in boarding the street cars in New York city than alighting from them. The monthly average during the last year has been about 18 per cent. more.

MELISSA: The only flour I ever had any luck with is Gold Medal Flour.

FOURTEEN MARRIAGE LICENSES GRANTED

Wednesday Record Day of Month and Year.

Fourteen marriage licenses were issued by the county clerk yesterday. This was the record day of the month and year. More licenses were issued yesterday than had been in all the other days of the month. In addition to the persons securing licenses whose names were printed yesterday were: Anthony Schmidt, Anderson and Varigie Moser, Richmond; Frank Sanders, Centerville, and Clara Tschlog, Center township; Albert Metzger and Catharine Garrison, both of Richmond.

The man with the gun was busy today. Nearly everybody enjoyed a vacation and all those with sporting propensities were out in search for the rabbit and quail. The rain was welcomed by the hunters for more reasons than the material good it did. It laid the dust and enabled the bird dogs to "work" on trails. This is something the dogs had been unable to do for

BANG OF THE GUN IS HEARD TODAY

Many Men Leave the City on Hunting Trips.

The man with the gun was busy today. Nearly everybody enjoyed a vacation and all those with sporting propensities were out in search for the rabbit and quail. The rain was welcomed by the hunters for more reasons than the material good it did. It laid the dust and enabled the bird dogs to "work" on trails. This is something the dogs had been unable to do for

several weeks on account of the dry condition of everything. At an early hour this morning numerous vehicles were seen leaving the city and all contained marksmen anxious to try their skill. Others walked and as soon as the daylight arrived the bang of the gun was heard in fields and woods. The slaughter of rabbits will be great. A party of three men returned at noon and had twenty cotton tails to their credit.

A paste is made by boiling glue water and rye flour to which, while in warm condition, for 1,000 parts of the mass thirty parts of thick turpentine are added.

The Federated Malay States produce 60 per cent. of the world's production of tin.

Satisfaction and Style

are invariably gained by wearing K. & K. Suits and Overcoats. All the latest styles and patterns and every garment guaranteed to fit.

Prices

\$10.00 to \$22.50.

Krone & Kennedy
