

DEPARTMENT TO TEACH CHILDREN

Postmaster Issues Circulars
Offering Advice About the
Proper Use of Mails.

TO DIRECT LETTERS.

MANY MISTAKES ARE MADE BE-
CAUSE OF POOR FORMS OF AD-
DRESS AND OTHER INEXCUSA-
BLE ERRORS.

Within the next several days all the school children will be furnished with a circular issued by Postmaster Spekenhler, giving a model form of address for letters. One of the most serious problems confronting the postal department today is the lack of knowledge on the part of persons sending letters and other packages through the mail. They fail to address them right or use an incorrect form. This is the reason that the dead letter office each year is filled with misdirected letters and packages. Recently Postmaster-General Meyer issued instructions to the postmasters over the country to furnish a model form of address to the teachers and the students of the schools and have the teachers give instructions as to how to address an envelope in the proper form.

In complying with this request Postmaster Spekenhler has had a four leaf circular printed. It will be given to every school boy and girl in public and parochial schools. This means that some 5,000 will be issued. The children will be requested to study the folders and take them home for their parents to study, and it is hoped that in this way that the many poorly addressed letters received at the local postoffice will be eliminated. The cost of issuing the circulars is defrayed by the postmaster. The circular also urges the patrons of the postal service to use stamped envelopes as they bear a place for the return address thus making them much more satisfactory than the envelopes now in general use.

Besides giving the correct form of address the circulars explain the different classes of mail and the amount of postage and office hours at the registry, money order, general delivery and the stamp windows. The time is also given when the mail pouches are closed for the different trains. There is also a number of rules and suggestions.

Hoarse coughs and stuffy colds that may develop into pneumonia over night are quickly cured by Foley's Honey and Tar, as it soothes inflamed membranes, heals the lungs, and expels the cold from the system. A. G. Luken & Co.

AGED RESIDENT GOES TO REWARD

Mrs. Sarah Fryar Died After
Only Brief Illness.

Mrs. Sarah C. Fryar, one of the oldest residents of the city died yesterday afternoon after a short illness at her home 218 South Thirteenth street at the age of 78 years. Mrs. Fryar came to Richmond when a small girl. She is survived by a sister Mrs. Mary Bradbury, four daughters, Mrs. John Saunders of Indianapolis, Mrs. John Mulford, Laura Fryar of this city and Mrs. Gehart of New Castle and one son, Charles.

The funeral will be Thursday morning at 10 o'clock from the home. The burial will be at Earlham.

The Best Cough Syrup Is Easily Made at Home.

It is not much trouble to make the cough syrup suggested in this recipe—any woman can prepare it in five minutes. It does the work quickly and is much cheaper and better than the cough and cold medicines you buy.

Put 2½ oz. of Pinex in a pint bottle, then fill up the bottle with Granulated Sugar Syrup, made as follows: Take one pint of Granulated Sugar, add one-half cup of water, stir and let boil just a moment. Take a teaspoonful every one, two or three hours, as required. The taste is very pleasant, and if kept well corked, it never spoils. It is equally good for all members of the family, regardless of age.

The results from this simple home-made article are surprisingly prompt. It breaks up a cold quickly and usually stops a deep-seated cough in twenty-four hours.

In making this, however, do not expect good results by using any of the numerous pine oil or pine tar preparations. None of these compare with the real Pinex itself, which is the most valuable concentrated compound of Norway White Pine Extract. All druggists have it or can get it very easily on request.

The Pinex should cost about fifty cents; Granulated Sugar, about four cents; total cost of a full pint of this unequalled mixture, fifty-four cents.

SANTA MUST WEAR ASBESTOS WHISKERS

St. Louis, Dec. 8.—It will be whiskerless Santa Claus for St. Louis this year, and the abolishing of window decorations in which masses of cotton are passed off as nature fakes for the driven snow. Fire Chief Swingley and A. C. Henry, chief of the Fire Prevention Bureau, have spoken.

The two have joined in a request to business houses and church societies to furnish Santa with asbestos whiskers and do away with the snow effects in the decoration of store windows.

Powdered asbestos or other materials noninflammable may be used for snow, but cotton is absolutely barred.

CLASH ON REMOVAL IS FROWNED UPON

Plans to Be Laid by Students
To Prevent This.

To overcome the hindrance to a natural and easy transition to High School, the social education committee of the Garfield school council has recommended a conference of pupils, teachers and parents, to be held sometime during this school term. The school council has approved the plan, and it will now be submitted to the SA class. If the class approves, and shows a disposition to make the meeting a success it will be held. The meeting, it is thought, will afford the pupils an opportunity to meet the high school instructors and acquaint themselves with the lines of work offered, and will give the instructors an opportunity to get hold of pupils who are not inclined to go to high school.

FESTIVAL WEEK.

At council meeting last evening councilman Bartel stated that he thought the city should make an annual invoice the same as any mercantile establishment would. He introduced a resolution providing that the head of each city department annually make an invoice of the effects of his department and embody the same in the annual report of the city controller. This resolution was adopted.

Councilman Von Pein called attention to the fact that proper care was not being taken of the South Seventh street park. He said that claims should be placed on each side of every walk to keep the people from walking on the grass. Referred to the board of public works.

Councilman Williams called attention to the fact that a deep ditch had just been dug in North Tenth street between B and C streets. North Tenth street, he said, had just recently been macadamized. Mr. O'Neal of the board stated that it was very hard to regulate such matters.

On the request of E. J. Humpe council last evening suspended the ordinance which prohibits signs being hung over sidewalks on Main street. This ordinance will become effective again after the Christmas holiday season.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. NEWS GROWS WARM UNDER ITS COLLAR

Says Refused to Burn Incense
Under Nostrils Greedy
For Incense.

CLAIMS ANSWER EVASIVE

CHARGES PRESIDENT DENIED
NOTHING ALTHOUGH HE WAIT-
ED UNTIL CAMPAIGN CLOSED
TO REPLY.

Indianapolis, Dec. 8.—The Indiana-
polis News replies to President Roose-
velt's letter to Wm. Dudley Foulke,
of Richmond, calling Delevan Smith, pub-
lisher of the paper, a liar for editor-
ials regarding the Panama Canal.

The News says that its real offense
was that it refused to burn incense
before a man whose nostrils are
greedy for incense, and refused to ac-
cept a candidate nominated by the
president of the United States through
the use of official patronage.

The News says that its refusal to
assume that in every issue of veracity
between "infidelity and the citizen,
infidelity was always and of neces-
sity right," was irritating to the pre-
sident and that his letter abusing the
paper and its owner assumes to deny
everything yet actually denies nothing.

The News says that its criticism of
the Panama Canal deal was based
largely on the statement of the New
York World, which was repeated over
and over in the campaign, and not de-
nied until today. The only man who
did deny the charges, says the News,
was Charles P. Taft, of Ohio.

The News declares "now that the
campaign is over the President rushes
violently into print and asserts with
his usual violence, that this paper is a
liar."

if he was guilty or not guilty.
"Guilty," said Attorney Study.

AFTER POLL BOOKS HEALTH OF RULERS IS THREATENED

Republican Inspector Says
Several Precinct Books

DEMOCRATS MADE HASTE

Judge Myers, of Greensburg, repu-
blican poll book inspector for this dis-
trict, was in the city today in at-
tempt to secure the poll books used in
the county in connection with the re-
cent campaign. He found that in the
third, seventh, eighth and fifteenth
precincts of Wayne township the poll
books have not been returned. The
same is true of the precincts in Har-
rison and Abington townships. Judge
Myers said the democrats had been
very precipitate in sending their books
to state headquarters.
