## Christmas Hints.

To delight the heart of the boy, who is of a mechanical turn of mind, is a steam engine. A little furnace,

in which a fire can be built, valves, a whistle to let off the steam and all the other parts which go to make up a real engine are in this smaller one.

A Christmas package properly wrapped is a joy, no matter how insignificant a remembrance it holds.

A spiral top on which two small dolls fight for the possession of a brass ring was seen in "Toyland" recently.

A mistletoe bell intended to be hung under the parlor chandelier is a very attractive decoration.

Gloves are favorite gifts for the holidays.

Do not try to surprise a friend on Christmas by not asking her before hand what she wants.
