

P. R. R. STATION IS BEAUTIFUL

Architect Itner States Symmetry of Its Lines Makes It Impressive.

RICHMOND COMPLIMENTED

FAMOUS ARCHITECTURAL AUTHORITY SAYS THAT THE CITY HAS MANY FINE BUILDINGS TO BE PROUD OF.

That the architecture of the residence and many of the important buildings in this city is of the best was a statement made by Mr. Itner, special architect in the employ of the school board to prepare plans and specifications for the addition to the Garfield school building, on a recent visit. The Pennsylvania depot, which to many citizens has been an eye-sore, was declared to be the prettiest building in the city because of its symmetry of lines. Among other buildings which he had a good word for, were the Reid Memorial church, the hospital by the same name, the court house and library, the Westcott hotel and many private residences. He refrained from discussing the beauties of the architecture of the business blocks, although he had ample opportunity, as he was taken over the entire city by T. A. Mott, superintendent of the city schools.

Mr. Itner is thoroughly capable of discussing such a subject. He is recognized all over the United States as the best authority on the architecture and arrangements of public schools and at the present time is devoting his entire time to this kind of work.

In speaking of the Pennsylvania depot to Mr. Mott he stated the beauty of the building laid in the fact that every line was symmetrical to every other, and that the brick columns added materially to the beauty. If the architect planning the building had provided stone, he said, instead of brick as a material with which to construct these columns, the effect, in contrast to the remaining portion of the building would have detracted from the general appearance. Mr. Itner declared that from any view point which he looked at the building that it appeared to be in perfect harmony with the remainder.

The business buildings of the city were the only ones not touched upon by the architect and from this it was inferred by his hearers that he preferred not to discuss them because he could not say a good word for their architecture.

INTERRUPTED BY STORK'S ARRIVAL

Hollansburg W. C. T. U. President Surprises Members.

The W. C. T. U. held their December meeting at the home of Mrs. Leola Brown. One of the most interesting features of this session was not announced on the program. Shortly after the opening exercises were concluded a message was received by telephone that the stork had just visited the home of the president, Mrs. Mamie Wolf, and had left an eleven pound boy. Of course this called for immediate and decisive action on the part of the union, and a message of congratulation was sent to Mr. and Mrs. Wolf with the suggestion that the young giant be called "Willard Dow." The reply came back that the name was adopted by the parents "unanimously."

A NEW SCHOOL WILL SOON BE FINISHED

Greenbriar Building Will Be Ready After Christmas.

Township Trustee Potter has been notified that the contractor will have the Greenbriar school house completed in time for use after the Christmas holidays. This building has been rebuilt almost entirely since the fire of a few weeks ago. It will be improved in a number of ways. The new building for district No. 9 will be opened at about the same time. The construction of this structure is being pushed. When completed it will be one of the most modern township school buildings in the state.

ANGRY WILD CAT

Joseph Turner of Richmond Has Exciting Adventure With One.

MAKES A LUCKY SHOT.

Southern Arkansas swamp underbrush all around him, with friends scarcely in calling distance and an angry wild cat before him screaming his screechiest screech, Joseph Turner of Richmond was badly frightened. Frightened so much, in fact, that he says his hair stood on the perpendicular and his trembling legs were scarcely able to hold the weight of his body. According to the story which Mr. Turner is telling, he had presence of mind enough to raise his gun and shoot at the animal. The "bob" cat scurried into the underbrush and it was by a trail of blood that Turner was able to trace the cat. Some distance away he found it dead. He has brought the skin home. He says that during his hunt in the wilds of Arkansas he secured one deer but little small game.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.
