

FIRE INSPECTOR AT HAGERSTOWN

Portion of Odd Fellows' Building Will Have to Be Razed and Rebuilt.

FIRE ESCAPES NECESSARY

FACTORIES, GRAIN ELEVATORS AND OTHER CONCERNS INSPECTED AND REPORTS ARE AWAITED ANXIOUSLY.

Hagerstown, Ind., Jan. 27.—Since the visit of the state inspector it has been learned that numerous improvements will have to be made to several public buildings, and other places to comply with the state law regarding the safety of the public as a whole, not alone in places of amusement, but also, in buildings in which people are employed. The inspector has not sent in his report to the trustees and owners of various buildings, but a few changes that will have to be made are definitely known.

At the I. O. O. F. hall, fire escapes must be established, a back stairway constructed, an asbestos curtain added to the stage equipments, and a red lighted exit. The frame part of the I. O. O. F. building which is used as dressing apartments for theatrical troupes, was condemned and will have to be torn away and a brick addition built in place. These improvements will cost the Odd Fellows quite a little, but the lodge is well able to afford it, being in a prosperous condition.

Fire escapes must be placed on the new K. of P. building and other changes made for safety. But few changes, if any will have to be made at the public school building. The inspector visited the L. I. Car Co's factory, the saw-mill, grain elevators and other places, but it is not known whether he mentioned that there would have to be any alterations made or not. Communications in regard to the matter will probably be received by the owners of these buildings the latter part of the week.

A Generous Gift

Professor Munyon has just issued a most beautiful, useful and complete almanac. It contains not only all the scientific information concerning the moon's phases, in all the latitudes, but has illustrated articles on how to read character by phrenology, palmistry and birth month. It also tells all about card reading, birth stones and their meaning, and gives the interpretation of dreams. It teaches beauty culture, manicuring, gives weights and measures and antidotes for poison. In fact, it is a Magazine Almanac, that not only gives valuable information, but will afford much amusement for every member of the family, especially for parties and evening entertainments. Farmers and people in the rural districts will find this Almanac almost invaluable.

It will be sent to anyone absolutely free on application to the Munyon Remedy Company, Philadelphia, Pa.

SUDDEN DEATH OF PROMINENT WOMAN

Mrs. Marguerite Sweed a Paralysis Victim.

Boston, Ind., Jan. 27.—Mrs. Marguerite Sweed of near Kitchel Station died after suffering a stroke of paralysis. The stroke came upon her very suddenly. Considering the fact that she has been in the best of health lately her death was a great surprise and shock to her friends. She is survived by her husband and two boys.

ROY DENNIS HAS APPENDICITIS

Probably Not Have to Undergo Operation.

Roy Dennis, a member of the firm of Dennis and Thomas, tailors, is confined to the home of his parents, Mr. and Mrs. Richard Dennis, Richmond Avenue, with appendicitis. He was taken ill Saturday night. The attending physician states that he is better today and will probably not have to undergo an operation.

to God and their families." Demonstrations were also made by school children in many of the smaller towns of the county. The vote was about 90 per cent of that polled at the recent presidential election.

OLD PUTNAM IS DRY.

Greencastle, Ind., Jan. 27.—The total vote in Putnam county in the local option election is as follows: "Dry," 3,174; "wet," 1,590; majority in favor of "drys," 1,584. Only two precincts out of thirty-four went "wet."

The temperance party is celebrating over the great victory, and the college bell was rung for one hour.

A light vote was polled, and it is estimated that not more than 70 per cent of the regular was cast. In most of the precincts in the country districts the vote was "dry," while several of the city precincts went "wet."

The day was very quiet and there were but few demonstrations. A large white flag with the words "dry" upon it appeared upon the De Pauw flag staff and the school children marched about the city this morning.

Twenty Years of Pleasure.

St. Michael's church, Macclesfield, England, is noted for its beauty. In "The Manchester and Glasgow Road" Charles G. Harper tells of a curious epitaph in the churchyard upon one Mary Bromfield, who died in 1755, aged eighty. It reads as follows:

"The chief concern of her life for the last twenty years was to order and provide for her funeral. Her greatest pleasure was to think and talk about it. She lived many years on a pension of ninepence a week and yet saved £5, which at her request was laid out at her burial."

AMERICAN ACADEMY MEETS SATURDAY

An Important Session of Political and Social Science Organization.

JUDGE LINDSAY TO SPEAK

CELEBRATED "KIDS' JUDGE" OF DENVER WILL TALK ON THE IMPORTANT SUBJECT, "NEEDS OF DELINQUENT CHILD."

Philadelphia, Pa., Jan. 27.—The American Academy of Political and Social Science will meet here Saturday, Jan. 30, at 8:30 p. m., in Witherspoon hall. The general topic of the evening will be "The Nation's Interest in the Nation's Children." Dr. Samuel McCune Lindsay of Columbia university, New York city, will preside.

Professor Lindsay will make a brief introductory address, calling attention to the value of the nation of a better protected childhood. Mr. Homer Folks, who has been identified with some of the most important work done for children, both by the state and by private societies and who is now secretary of the State Charities Aid association of New York city, and author of the standard book on the "Care of Dependent, Neglected and Delinquent Children" will speak on the "Needs of the Destitute Child." Judge Ben B. Lindsay, of the juvenile court in Denver, Colorado, who has been largely instrumental in reorganizing on a national scale the methods of judicial procedure in dealing with children, will speak on the "Needs of the Delinquent Child." And Mrs. Florence Kelley, secretary of the National Consumers' league, and author of "Ethical Gains of Legislation" will discuss what the national government can do for the cause of childhood through the better organization of information and the results of investigation, especially by the establishment of a national children's bureau, being advocated by the National Child Labor committee as one of the chief parts of the present program.

A LAFAYETTE WOMAN HUNG.

Marvelous Results of a Woman's Plea.

An old lady called on the Root Juice Scientist over at Lafayette, Ind., and said: "I actually hung to the neck of my husband and pleaded with him to try Root Juice. So much was being said about the remarkable cures the remedy has made that I felt it might do him some good. He had suffered for years with his stomach and kidneys and severe headaches. Every change of the weather his back pained him very much, and of late years the lightest food would ferment in his stomach and bowels and the fermentation of gas would cause him to bloat so that he couldn't button his vest. He tried so many medicines that he lost heart, but I finally persuaded him to take Root Juice. He has used but a little over two bottles and I never saw such a change in a man in my life. He told me this morning that he would not take the best farm in the state for what the wonderful medicine has done for him."

A number of local people have reported remarkable cures resulting from a short use of the great health-promoting discovery. It gives a good appetite, creates good digestion and seems to heal and tone every organ of the body. Root Juice is \$1 a bottle, or three bottles for \$2.50, at A. G. Luker's drug store.

DROVE OFF BRIDGE BUT NOT INJURED

Fortunate Accident Near Fountain City.

Fountain City, Ind., Jan. 27.—Mr. and Mrs. Throckmorton in returning home Sunday evening drove off a bridge to the north of this place. Although they fell several feet neither of them were injured. The accident

was caused by Mr. Throckmorton driving to one side to allow another rig to pass. The party in the other vehicle either refused to give a part of the way or was unaware of the presence of another party on the bridge.

Shirt Talks—No. 1

Evolution—that wonderfully meaning word, has more to do with the shirt making business than would commonly be supposed.

Fifty years ago the housewife of each family, among her other duties, was the shirt-maker for her household. Not only was she the shirt-maker, but, in many instances, she personally wove the cloth from which the shirts for the family were made.

With the development, however, of the modern factory system, both in regard to manufacture and distribution, all this was changed. Shirts were made in enormous quantities in various sizes, so that it was fairly easy for any man to purchase at a store shirts that would fit to a certain degree.

Even this development in shirt making however, had its drawbacks. In the first place the fit of a ready-made shirt was never what it should be. It was either too long or too short, neck band often poorly fitted and inclined to cause chafing of the skin, etc. Then again one was often hampered in making a suitable selection. There might be one shirt very much desired, but either too large or too small to fit the prospective purchaser. Furthermore individuality was lost for one had to depend on the taste of the merchant who picked his stock from the jobber's samples.

This dilemma, however, was solved by the development and establishing—evolution, if you please—of the more modern made-to-your-order shirt factory system. This new system is a combination of the thorough work of the house wife, shirt maker and the modern cloth factory coupled with up-to-date methods of distribution.

As an illustration of this fact, witness the Phoenix Shirt Co. here in Richmond. When you buy your shirts of this company they are made to your own individual measure under the watchful eyes of the expert shirt cutter, R. B. Graham, late of Chicago. You are guaranteed fit, satisfaction in this respect such as no dealer in ready-made shirts can give you. Furthermore you have here over 1,000 pieces of shirt material from which to make a selection, or just about ten times the range offered by the ready-made man.

All the Spring styles in nobby shirtings are here now and it will be well worth your time to call and see them. It will also pay you to investigate this new and satisfaction-giving way of purchasing shirts. However, if you cannot give this matter your personal attention now, telephone the Phoenix Shirt Co., phone 2367, and a representative will call at your convenience to show you samples. The prices are reasonable. They are right for about any size purse. Negligee and stiff bosom shirts from \$1.50 up; 25 cents extra for plaited bosom. Full dress and Tuxedo shirts from \$2.00 up.
