

REPORTED TRAMPS ATTEMPT A WRECK

Three Colored Men Said to Have Placed Bolt Across C., C. & L. Tracks.

REVENGE WAS THE MOTIVE

THOUGHT HERE THAT REPORT-ED ATTEMPT REFERS TO ESCAPE OF THREE SMALL BOYS—REWARD OFFERED.

Hamilton, O., Jan. 29.—A dastardly attempt to wreck passenger train No. 52, the fastest train on the C. C. & L. road was made at Cottage Grove, Ind., Wednesday night. A heavy railroad tie was wired to the track, but the obstruction was discovered by the engineer in the nick of time. Earlier in the evening three colored tramps were ejected from a freight train at Cottage Grove. They are suspected of the deed and it is thought they planned the wreck for revenge.

The headlight of the passenger train disclosed the obstruction. The train was stopped within a few feet of the tie. A reward of \$2,000 is offered by the company for the apprehension of the men.

BOYS MAKE DENIAL.

The above dispatch probably refers to the lads who placed a bolt across the C. C. & L. tracks Wednesday night. In a letter to the Palladium, Carl and Frank Kilgus say they had no intention of attempting to wreck a train when the bolt was placed on the C. C. & L. railroad just north of Boston. The boys declare they were led to do it to induce them to leave home. The lads declare they never have been in police court but what they proved themselves innocent. "We have learned enough not to listen to other boys," write the youngsters.

PITIFUL CASE IS DISCLOSED IN AN INVESTIGATION

(Continued From Page One.)

when must force him to help me, if he will not do it willingly. I am no longer able to help myself."

Wanted Place to Work.

"If George would only find me some place to work, that would more than satisfy me. I want to be independent of him, if I can. But his wife once borrowed \$40 of me, in his presence and if he would repay that, it would do much. I pawned my watch and ring to get the \$40 for them when they were in need of it. Now he won't do anything for me."

"How it comes that both my sons forget their mother in her old age when she needs me more than I know. God knows I didn't bring them up in that way. Henry, my other son, is in Wilmington. He too, is married and has five children, but has a good position on the Seaboard Air Line and could easily send me a few dollars. But he doesn't, and being in Wilmington, I can do nothing to make him help me."

Mrs. Field is twice a widow. She married Captain Samuel Augustus Field, who commanded a Minnesota regiment in the civil war and died in 1878. After that Mrs. Field had to earn her own living. She finally became a trained nurse and then married Thos. A. Sullivan, a keeper in the jail at Blackwells Island. He died seventeen years ago and again Mrs. Field-Sullivan had to earn her own living.

D. G. REID WAS IN WITH S. C. LOVE BUT HE ESCAPED

(Continued From Page One.)

This is only one instance of being short. He was in many stocks on the short side and the trend has been upward on the general list for nine months, although the real swing upward began seven months ago.

As losses continued to go against him Mr. Love's former friends are said to have returned to his assistance and backed him until the losses rendered it advisable to close out the business.

"Fights" Market All the Way.

D. G. Reid, one of Mr. Love's friends and clients, was also a bear on stocks. For three months at least he is presumed to have been on the wrong side of the movement. With Mr. Love it was a case of "fighting" the market all the way up. He would buy in at a loss the stocks he had sold shortly, only to put out more short lines and suffer more losses. And in so doing he was not alone, for a number of well known speculators did the same thing. They evidently had longer purses, however, than Mr. Love.

It is said that Mr. Love's early operations on the bull side of the market in the first three or four years after the organization of the firm were extremely successful and it was the fact of his early successes that encouraged him to continue operations, but at last on the short instead of the long side.

James A. Patten's bull campaign in wheat is regarded in board of trade circles as at least partly responsible for Mr. Love's retirement.

ONE OF AMERICA'S MARATHON RUNNERS

ROBERT FOWLER.

Affairs of the Sporting World

The reason, probably, why you don't hear Ty Cobb yelling for more salary is that last winter he signed a two-year contract.

Bill Abstein seems to be getting chesty. He writes: "Fred Clarke need not worry about having first covered properly for the Pirates. No corner will be covered any better than that sack when I get on the job."

Tommy Leach says Wilson will be the best outfielder in the National league this season. He wasn't far from it last season.

A report has it that the New York Americans have made an offer to Buck Rementer, the Tri-State league catcher. Rementer caught 107 games for Lancaster last year.

Garry Hermann of the Reds is trying to dope out whether he wants the Reds at home or on the road during the holiday dates. If he could get the

opening day, Decoration day, July 4, Labor Day and a couple of other fat dates in New York he probably wouldn't have to think the matter over long.

Jack Hannifan and Tommy Shean will have a battle royal for the utility position of the Phillies. These two also fought for the honor position on the Athletics several years ago.

Six widely known players are reported to have gone to Cuba to play with the Matanzas team in the Cuban league, among them being McQuillin, of the Phillies and Schlitzler of the Athletics.

A meeting of the board of directors of the Eastern league will be held today at the office of President Pat T. Powers, Flatiron building, New York. The board is composed of the following club presidents: Chapin, Rochester; McCaffery, Toronto; Hanlon, Baltimore and Potter, Buffalo.

QUAKERS DROP GAME

Fast Marion Polo Outfit Takes Locals Into Camp With a Shutout.

QUIGLEY PLAYS GOOD GAME

Marion	3	3
Richmond	2	4
Anderson	2	3
Elwood	2	3

Marion, Ind., Jan. 29.—The fast Marion team, with two Richmond boys in the lineup, swamped the Quakers last evening in a one sided game. Quigley was the star performer and ran through the Richmond defense time and time again without opposition. Perry also played a fast game but in doing so accumulated three fouls. Altogether Marion made five fouls, taking one score away from their total. Oosting and Lancaster played in good form for the visitors. Lineup and summary.

BASEBALL BRIEFS.

Two McGraw tips: Larry Doyle will be the premier second baseman in the profession next season, and Murray will be the king of young outfielders.

The directors of the Three I League of Baseball Clubs recently fixed the salary limit of individual players at \$250.

On Feb. 16 the rules committee of the National and American baseball leagues will meet with a committee of the Baseball Writers' association in Chicago.

Warren Gill, the Pittsburgh's first baseman, has been sold to the Minneapolis club. It is said that Abstein will take his place at the initial sack next season.

Doc Gessler, right fielder, will next season captain the Boston American baseball team, according to an announcement made by Manager Fred Lake.

Baseball has an intermountain league, embracing Salt Lake City, Ogden, Boise City, Pocatello, Helena and Butte. Before long there'll be an interpeak league, taking in Pike's Head, Huascan, St. Elias, McKinley and Pocatoped.

ICE CARNIVAL PLANNED.

Winter Sports of All Sorts to Be Held in Montreal Feb. 10-20.

For the first time in fifteen years Montreal is to have a grand carnival of winter sports from Feb. 10 to 20, inclusive. This revival of winter festivities in Montreal promises to be a success. Most prominent citizens of Montreal have given their fullest endorsement to the project, and the planning of the festival has been placed in the hands of men of experience.

A big ice palace will be erected on the east flank of Mount Royal, the mountain which is a center of attraction for tourists. The style of architecture adopted for this palace is the English Tudor baronial of the fortified period. The interior of the main tower will consist of a main chamber forty feet in diameter, which will be decorated and utilized for exhibition purposes. It will be 190 feet in height and the others 100 feet each.

Some doubts were entertained as to the possibility, owing to the mild weather prevailing during the entire fall season, of securing ice of sufficient thickness to cut the huge blocks required to build this palace, but the last very cold spell, which spread all over America and even in England, France and other European countries, has removed all anxieties on that point. The ice is now of sufficient thickness to be cut into clear water, where it has that brilliant greenish blue tint peculiar to the St. Lawrence river. The decorations and illuminations of the palace will be elaborate, and the sight at night will be one not to be forgotten.

The ice palace will be the center of the display of fireworks. By lighting it up with colored and prismatic flames the scene will be brilliant and changing. The storming of the palace promises to draw an army of snowshoers, clad in historical costumes. The program of attractions is daily added to, and exhibitions of snowshoeing, skating, curling, skating, tobogganing and sleighing will be among the features.

TENNIS MATCHES IN LONDON

Deciding Games For Davis International Cup Go to England.

With the announcement that the twenty-eighth annual meeting of the United States National Lawn Tennis association would be held Friday, Feb. 12, at the Waldorf-Astoria in New York came official news from England to the effect that the final matches for the Dwight F. Davis International challenge cup would be played at Wimbledon, London.

It has been expected for some time that, although the cup is held in Australia, the finals would be played either in England or the United States. It is possible that the preliminary international ties may be decided in this country.

The foot fault rule, an international challenge and other important legislation will be thrashed out at the American association's meeting next month.

The value of the fish and other aquatic products annually taken from the sea surrounding Japan, is over \$50,000,000.

France has three-fifths of an acre of forest to each inhabitant. That country imports annually \$30,000,000 worth of wood. State forests there yield annually \$1.75 an acre, and cost 95 cents annually.

BEST LECTURERS ON THE PROGRAM

Domestic Science Course Will Prove of Educational Value to All.

MRS. MEREDITH A FEATURE

HER REPUTATION EXTENDS THROUGHOUT THE STATE AND IS OF RECOGNIZED ABILITY—OTHER INSTRUCTORS.

It is believed by the promoters of the farmers' short course and corn school to be held at Centerville next week that the domestic science course will no doubt prove one of the chief features. They are confident in their opinion that the instructors and demonstrators obtained are among the best that could be secured. This fact is expected to meet with particular favor.

Mrs. Virginia Meredith, of Cambridge City, is perhaps the best known of any on the program. She has been prominent in society and club life in this state and elsewhere for a number of years. She has spoken in this city on domestic science subjects a number of times. She has appeared here in connection with other events, also, and is recognized as an excellent platform speaker.

Experienced Teacher.

Miss Mary Peacock is a graduate of Drexel Institute, Philadelphia. She is the daughter of Mr. and Mrs. Levi Peacock Sr., of this city. For several years she was in charge of the domestic science department at Johns Hopkins university. She has had experience in lecture work, also. She resigned her university position, because of the condition of the health of her parents.

Another graduate of Drexel, who will be found on the program is Miss Elsie Marshall, of this city. Miss Marshall was a student for a year at Lewis Institute, Chicago, also. At present she is connected with the domestic science work at Earlham college.

Miss Agnes Smiley is in charge of the domestic science work in the public schools of Piqua, Ohio. She is an authority on practice as well as theory when applied to the work and has done lecture work before societies and organizations.

Mrs. Frank Land, of this city, has quite a local reputation as a domestic science practitioner and lecturer. She is prominently identified with the local organization.

LOCAL FLORIST WAS THE TOASTMASTER

E. G. Hill Presides at Meeting Held Last Evening by State Association.

CLOSING OF FLOWER SHOW

CARNATIONS WERE THE TOAST OF THE EVENING AND PRAISED FOR THEIR WAGE EARNING CAPACITY.

E. G. Hill of this city, acted as toastmaster at the banquet tendered the florists of the state at the Columbia club, Indianapolis, last night. The banquet marked the end of the most successful flower show ever held in this state. Miss Sarah A. Hill, also of this city, was among those who responded to toasts. A number of other local florists were in attendance.

Carnations Toasted.

An Indianapolis newspaper says of the banquet: "The carnation was toasted, some of his family ridiculed, others were praised for their wage earning capacity and still others were spoken of in the most endearing terms at the banquet tendered the members of the American Florists' association at the Columbia club last night. The banquet concluded the carnation show that has been visited by 10,000 people during the last two days. The exhibition was held in the auditorium of the German house."

The grand success which the exhibit has been the subject of a part of the toasts at last night's banquet. The Indiana Florists, who were the hosts to the carnation growers of the country, and the carnation growers were agreed that the show was a success. One of the growers said last night: "Indianapolis and Indiana have outdone themselves themselves in making our visit here a memorable one."

Today the 16,000 carnations that were brought here to win prizes for their owners will be distributed to the different hospitals of the city. Arrangements were made last night when the exhibit closed to deliver them this morning.

HAS ENVIABLE RECORD ON THE PROGRAM

Dr. N. F. Canaday Writes a Sketch of His Life, Which Is Very Interesting.

HAS PRACTICED 47 YEARS

Hagerstown, Ind., Jan. 29.—Dr. N. F. Canaday has circulated letters among his friends and patrons that will prove interesting to Wayne county people. The substance of these is interesting. Inasmuch as it is nearly a history of Hagerstown for the past 40 years. Dr. Canaday located in Hagerstown, January, 1869 to practice medicine and has continued in the business here ever since. Only one other man who was in business in Hagerstown at that time remains in business now. Only six families now reside in the same place they occupied as a residence at that time. Only three families reside on the same farms (within four miles of Hagerstown) that they occupied when Dr. Canaday located here.

An Enviably Record.

During the forty years seven physicians have died in town; nineteen doctors have moved in, practicing for a time only to locate elsewhere. Dr. Canaday has treated many hundreds of different people; has made thousands of professional visits and given thousands of office prescriptions. The doctor retains his good health and states that it is his aim to continue indefinitely in the practice of medicine. This is a record which is equaled by few men, especially in a town of one thousand population.

JEROME PUSHES THE LIBEL CASE

Thought That Douglas Robinson Will Be Prosecuting Witness in Suit.

SIGNS AFFIDAVIT IN SUIT

REPRESENTATIVE OF ATTORNEY CROMWELL ALSO CALLS ON DISTRICT ATTORNEY AND GIVES DEPOSITION.

New York, Jan. 29.—Uncertainty as to what action would be taken on the recent suggestion made by District Attorney Jerome in the government suit against the New York World for libel, that the federal authorities suspend their activities and permit him to proceed in their stead, was in a measure removed yesterday by the signing of an affidavit by Douglas Robinson, brother-in-law of the president.

May Be Complaining Witness.

It is believed that Mr. Robinson's signing of the affidavit means that he has accepted Mr. Jerome's proposition to appear as a complaining witness against the World and that the grand jury of the county of New York is preparing to take the matter in hand. Mr. Robinson was closeted with the district attorney for nearly an hour, but neither would discuss the subject of their conference. Mr. Jerome declared, however, that he had received no reply from either Attorney General Bonaparte or United States District Attorney Henry L. Stimson as to what course the government proposed taking in regard to his suggestion that the state proceedings be given the right of way. Until he received assurance that such right of way would be given him he could do nothing, he declared.

Visitor From Cromwell.

Another visitor received by Mr. Jerome was Jonas Whitely, a representative of William Nelson Cromwell, who was one of the early witnesses in Washington. Mr. Whitely left here after signing a deposition before Magistrate Krotel.

Although this deposition was not made public, it is understood to reiterate the fact that the day before the publication of the article since alleged to have been libelous Mr. Whitely called at the office of the World and notified those in charge of the paper that allegations contained in the article in question were untrue, especially as they referred to Mr. Cromwell, whom he represented. The general assumption is that the deposition was taken with a view to its being read to the county grand jury.

Seventeenth Century Napkins.

About 1850 Pierre David published the "Maistre d'Hostel," which teaches how to wait on the table properly and how to fold all kinds of table napkins in all kinds of shapes. The shapes were "square, twisted, folded in bands and in the forms of a double and twisted shell, single shell, double melon, single melon, cock, hen and chickens, two chickens, pigeon in a basket, partridge, pheasant, two capons in a pie, hare, two rabbits, sucking pig, dog with a collar, pike, carp, turbot, miter, turkey, tortoise, the holy cross and the Lorraine cross."

ASKS REMOVAL FOR RECEIVER FOR STAR

John C. Shaffer Filed Action Yesterday in Indianapolis Federal Court.

GIVES HISTORY OF CASE

SETS OUT LOSS OF ADVERTISING AND CIRCULATION AND ASKS FOR VALIDITY OF THE D. G. REID SALE.

Indianapolis, Jan. 19.—An original bill of complaint, in the nature of a supplemental bill, has been filed in the federal court by John C. Shaffer, purchaser of Daniel G. Reid's holdings in the Star Publishing company. George F. McCulloch and others are named as defendants in the bill filed by Mr. Shaffer, who asks that the receiver be discharged and the property placed in the hands of the Star Publishing company to be managed by it, and that Mr. McCulloch be estopped from raising any question as to the right of Mr. Reid to have had possession of certain bonds and that the demand note that had been held by Mr. Reid against the publishing company be decreed a valid debt against the company.

A general history of the case and the litigation that led up to it is given and the various allegations made by Mr. McCulloch are denied in the bill. An explanation is given of the indebtedness as shown by the demand note and Mr. McCulloch's allegation that the company was not indebted to Mr. Reid for the full amount of the note is denied. It is also set forth that Mr. Reid was entitled to all the bonds of the Star Publishing company that he had held.

Shaffer Denies Statement.

Mr. Shaffer denies that he had said that he purchased Mr. Reid's holdings at such a low price that the result of the litigation between Mr. McCulloch and Mr. Reid would not affect him.

Continuing the bill says Mr. Shaffer purchased the "bonds, stock and note and the building and lands occupied by said Star Publishing company for approximately the sum of \$150,000." It is denied that during the management of Mr. Shaffer as president of the publishing company, from about November 1, 1904 until January 2, 1906, the business and affairs of the publishing company were "grossly neglected," causing waste and loss to the company.

It is alleged in the bill that Mr. McCulloch as owner and manager of the Indianapolis, Muncie and Terre Haute Stars for the year ending September 30, 1904, made a loss on the three papers approximately of \$243,436.00 "and during this complainant's management, from November 1, 1904 to January 1, 1906, said papers were redeemed from said loss and converted the loss into a net gain of about the sum of \$17,473," and that the circulation and advertising of the paper is greatly increased.

F. A. CROSBY SPEAKS

International Y. M. C. A. Boys' Secretary Holds Two Meetings Here.

PLEDGES ARE MADE TO HIM

F. A. Crosby, international secretary of the boys department of the Y. M. C. A. with headquarters at Chicago, spoke to the members of the Ladies Auxiliary this afternoon and the leaders in the boys department last evening. Both addresses were delivered in the chapel of the association building and were instructive and entertaining. The members of the boys department pledged Mr. Crosby to raise \$100 to be devoted to the expenses in establishing a state secretary in Indiana. The Ladies Auxiliary also was asked for this amount. He says that a boy's departmental secretary will be selected for Indiana in March, if he is successful in securing sufficient funds.

Mr. Crosby in his discourse this afternoon attempted to show the women how they could cooperate with the boys' department. He declared that there were two phases of work in which the women were much interested; one was the home and the other was in the Sunday school.

The Avesta.

In its present form the Avesta, the old Zoroastrian scripture, is only a fragment of the original Zoroastrian scriptures. It is generally understood that those ancient scriptures consisted of twenty odd books of a million verses. The destruction of the two original copies, the one at Persepolis, the other at Samarkand, is attributed to Alexander the Great. The Avesta, being only imperfect remnants of these originals, is in compass equal to about one-tenth of our Bible.—New York American.
