CLAIM THEY WERE ROBBED OF GAME

Local Polo Team Protests Contest Played at New Castle Last Night.

IVES WAS A HIGHWAYMAN

DELIBERATELY HELD UP THE QUAKERS AND WENT THROUGH THEM FOR THE CONTEST—RICHMOND LEAVES FLOOR.

POLO LEAGUE STANDING.

Won. Lost. Pet.
New Castle..... 7 4 .636
Elwood..... 6 5 .545
Marion..... 5 .500
Anderson..... 4 5 .444
Richmond..... 5 7 .417

In an unsuccessful effort to play Referee Ives, the New Castle polo team and 500 rabid New Castle fans, the local club in its visit to New Castle last evening was defeated 4 to 2. It was the story of the raw deal that the players recited upon their return to this city this morning. Every opportunity to foul the locals was indulged in by the New Castle players, but acts committed were never seen by Ives. Even little "Benny" Sharp, the cleanest player in the league, fouled three times. Bulla fouled once for tripping when Nolan became tangled with his own club. When this foul was called by Ives, the locals left the floor and only after much persuasion went back on. Each side lost one goal on fouls. The locals claim that New Castle's last goal was made by Sampson who kicked it into the draperies. Richmond protested the game. Lineup and summary:

Richmond..... New Castle
Sharp..... Sampson

First rush.

Bulla..... Nolan

Second rush.

Jones, Fetzer..... Williams

Center.

Oesting..... Kenworthy

Half back

Lancaster..... May

Goal

Goals—Sampson 2, Nolan 3, Sharp, Fetzer and Bulla.

Fouls—Sharp 3, Bulla 1, Nolan 2, Kenworthy 1.

Stops—Lancaster 20, May 24.

Rushes—Sampson 8, Sharp 3.

ENTRE NOUS AND THE CUBS BATTLE

Good Games at the City Bowling Alleys.

The Entre Nous won two games from the Cubs last evening in the contest at the City Bowling League alleys. Waldrup in the first game rolled 209 for the Entre Nous, but fell down rather badly in the other two games. Few other good scores were made, however. The Entre Nous and Cubs are occupying fourth and fifth positions respectively in the league standing. Team scores made last evening are:

First. Second. Third.
Entre Nous..... 879 795 786
Cubs..... 837 808 692

GAMES DROP TWO TO THE WILSONS

Featureless Contests at the Y. M. C. A. Alleys.

After losing two games by a large number of pins, the Games pulled together in the third and gave the Wilsons a drubbing, at the Y. M. C. A. alleys last evening. The matches were featureless. The majority of the individual scores were less than a 140. Team scores are:

First. Second. Third.
Wilson..... 696 703 609
Games..... 567 623 661

City bowling alley, 22 N. 9th

22-11

In Lower Egypt rain formerly fell very seldom. During the French occupation about 1789, it did not rain for sixteen months, but since Mahomet Ali, and Ibrahim Pasha completed their vast plantation—the former alone planted more than 20,000,000 olive fir, cotton, acacia, plane trees, etc.—there now falls a good deal of rain.

During the last fishing season the Illinois river contributed 4,650 tons to the markets of the country. Two-thirds of the catch being carp.

Only One "BROMO QUININE," that is Laxative Bromo Quinine 6 *W. W. W.* on every box. 25c

WAS A HARBINGER OF COMING FLEET

Gallant Little Tender Yankton Arrived Yesterday at Hampton Roads.

TINY SHIP CIRCLES GLOBE

ON THE LAST LEG OF HER TRIP, LITTLE DISPATCH BOAT WAS HAMMERED AND POUNDED BY GIANT SEAS.

Ft. Monroe, Va., Feb. 18.—A messenger from the home-coming battle fleet, the tender Yankton, put in here yesterday and began to take on a full supply of coal preparatory to proceeding at the earliest practicable moment to Washington, in response to a wireless summons picked up as the craft was passing in the Virginia Capes.

The Yankton will return to Hampton Roads in time to greet the fleet, and then will journey back again to the capital, being used to convey some one of the score or more of official parties to be present during the review of the fleet next Monday.

Sails The Seven Seas.

From the moment of the departure of the 16 battleships on December 16, 1907, the Yankton has hardly known a moment's rest. She is but a mite of a ship, and has been a plaything for the storms of the "seven seas." With a displacement of only 975 tons, as against the 16,000 of the Connecticut and her class, the little Yankton has been hammered and pounded by giant seas.

Even to the last day of the voyage the fight of the sturdy dispatch boat against the elements continued, and when the anchor was cast this morning Lieutenant Commander McVay, in command, knew practically his first relief from constant duty on the bridge for three days and nights.

The safe return of the Yankton is one of the distinct achievements of the cruise. Anchored today between the armored cruisers North Carolina and Montana, whose gray sides towered far above her, the Yankton appeared but a white dot on the surface of the wind-swept waters. Wherever the fleet has gone the Yankton has also fought her way.

PICKED BAD TIME TO ASK A RAISE

Weather Bureau Chief Injures Chances by Making Poor Weather Guess.

CONGRESS DON'T FORGET

AT INAUGURATION FOUR YEARS AGO MOORE PREDICTED SUMMER WEATHER AND A BLIZZARD WAS THE RESULT.

Washington, Feb. 18.—Willis L. Moore, chief of the United States weather bureau, picked a bad time at which to ask congress to add \$1,000 a year to his salary. It is due to the fact that Prof. Moore is a pretty good politician that he already draws \$5,000 a year, considerably more than the average pay of bureau chiefs, but he overreached himself when he asked congress, just before inauguration, to gain a reputation as a prophet.

If Prof. Moore had waited another year he probably would have gotten his additional thousand dollars, for he has many friends in congress, but his judgment in asking it at this time was as bad as it was in taking advantage of what he thought was a "sure thing" to gain a reputation as a prophet.
