EXPERIENCE OF JAY

Tells How He Was the Guest of Great English Cocoa Manufacturers.

HOLD RELIGIOUS SERVICES

Allen Jay occupied the Earlham chapel hour this morning with a talk on his experiences as a guest of the Prys and Cadburys, the great cocoa manufacturers of England.

In the factory of Jos. Fry, a Friends minister, now ninety years old, and for an extended term of years clerk of the London Yearly Meeting of Friends, are employed 2,500 working men and every morning at a signal these men leave their work on full pay for thirty minutes of religious worship, which is conducted by the leader of the corporation. These men are most contented said Allen Jay. Strikes are unknown at this factory as well as smaller differences among the employees. The working men lead a happy contented home lives in the neat cottages which are furnished by the employer. Much the same conditions are prevalent among the employed at the great Cadbury factory, where 6,000 men work.

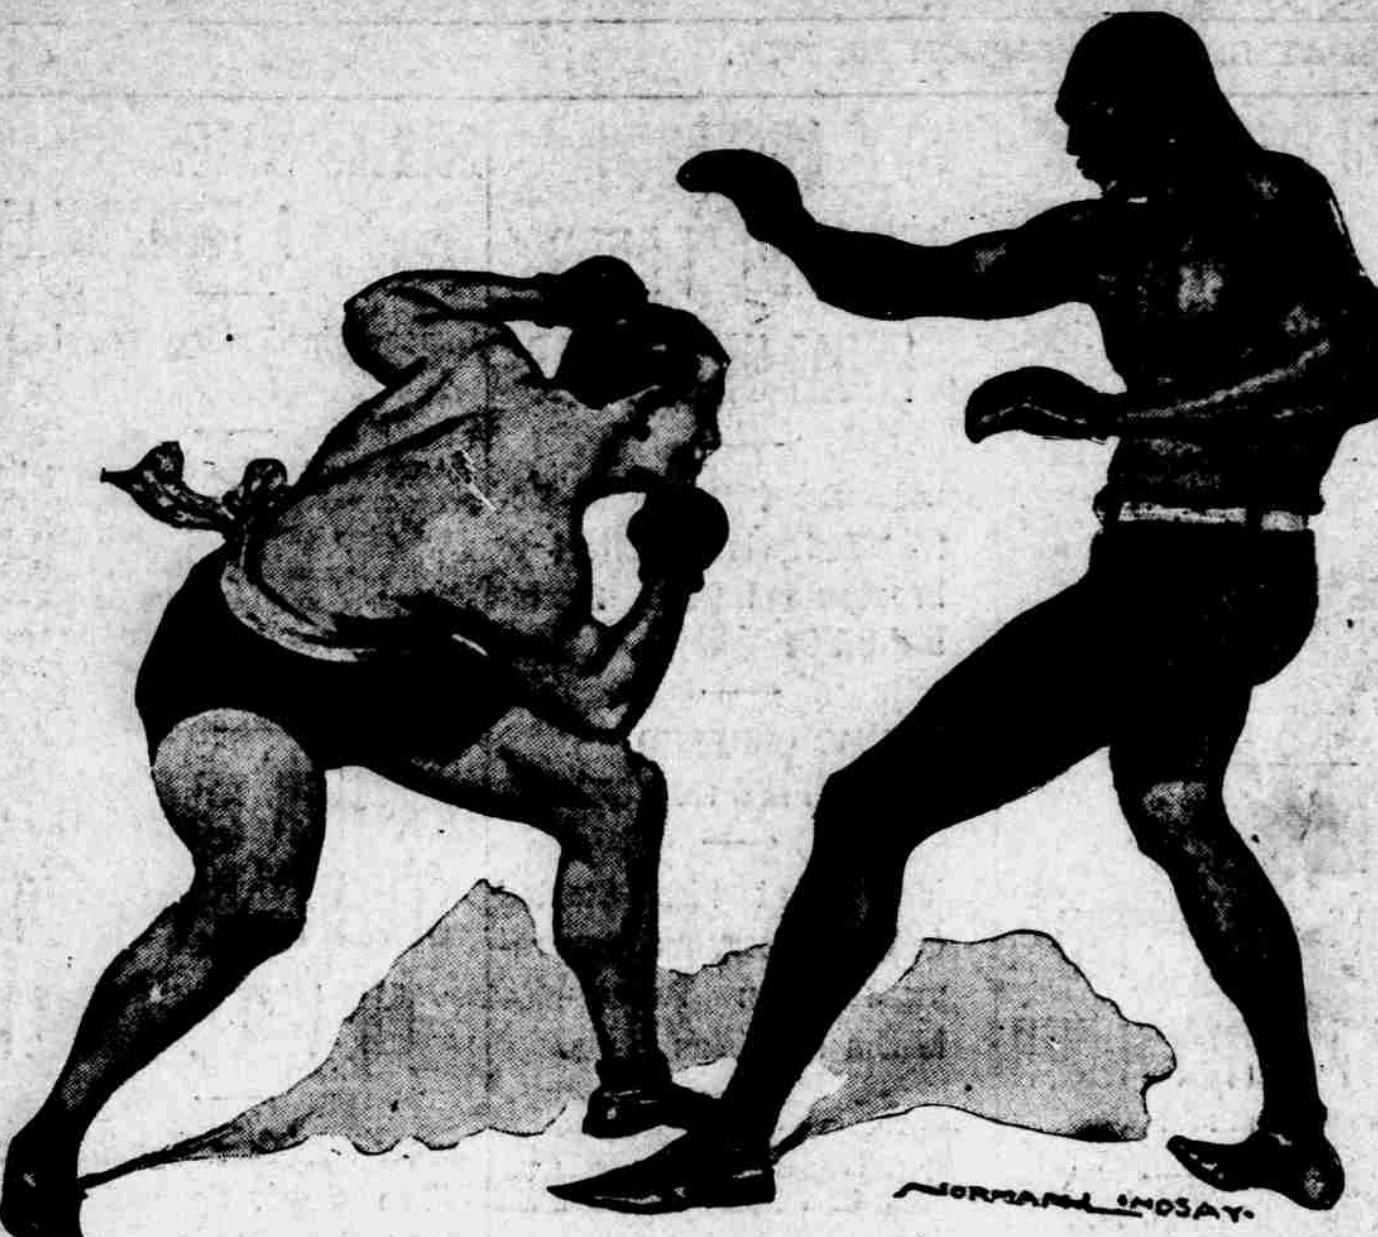

We need to study the conditions of our own workingmen in this country as have the English theirs, and apply our religion in a practical manner, concluded Mr. Jay.

PECULIAR ACCIDENT

Befalls Mail Carrier Owens And May Lose Sight of Eye as Result.

GETS TACK IN THE OPTIC

Ed M. Owens one of the city mail carriers experienced a very painful accident while pulling tacks from a carpet and it is probable that, as a result, he will lose the sight of his left eye. He is now at Reid Memorial hospital undergoing treatment.

While pulling tacks Sunday morning one of the tacks flew up and stuck in his left eye near the pupil. He went to a physician Monday, after the wound began to get worse. The physician ordered him to the hospital and now gives no hopes for his recovering the use of his eye. His place at the postoffice is being taken by substitute carrier Frank Quigley.

UNFAVORABLE REPORT.

Albany, N. Y., Mar. 10.—The assembly judiciary committee today decided to report the Woman Suffrage bill unfavorably.

FEAR AND ANGER.

A Naturalist Says They Generate Sharp Bodily Odors.

"Do you know that when you're afraid or angry there is a certain odor comes from your body?" asked the naturalist, and the friend who had been about to swear at the conductor because he had asked him a second time for his fare forgot his grouch in amazement. "Well, the wild animals know it if you don't," continued the naturalist. "Now, it's not all advertising talk that the animal trainers have no fear of their animals, because they have to be without fear in order to get control over the beasts. Otherwise the beasts would smell the fear odor and make short work of the humans."

You know how every once in awhile you read something about an innocent child handling venomous snakes without harm. Well, it's because the child is too innocent to have any fear, so the snake is tractable with him.

You notice how your domestic animals, the dog or the cat, will slink from you when you're angry even before you've uttered a word. Well, it's because they smell the anger odor. And I'll tell you another thing. If humans refrained from all drugs, alcohol and meat they would also have the same keen sense of smell that animals have.

That is the way I live, and I can smell—well, I can smell too much for a big city like this, so I'm going to hike back to the woods, where only sweet odors will come to my nostrils."

CONSIDER PLANS TO RAISE DEFICIT

Y. M. C. A. Officials Have Decided to Make Personal Canvass Soon.

AMOUNT NEEDED \$12,000

AT A MEETING FRIDAY EVENING PLANS WILL BE FURTHER OUTLINED—NO TROUBLE IS ANTICIPATED.

The board of directors and the trustees of the Y. M. C. A. at the special meeting last evening considered plans for raising the \$12,000 deficit. Persons to whom letters have been sent explaining the situation will be waited on personally by the directors and trustees. The plans will be further outlined at a meeting to be held next Friday evening at the building. Neither the trustees nor the directors are greatly worried over the outlook as they believe that the people have now realized the value of the association and will contribute willingly.

Sanitary Inspector Young said this afternoon there is no way to tell how serious the epidemic may become. It is known a largenumber of children was exposed and it is expected that the Warner school attendance will be almost depleted. A number of adults have been exposed, also.

Previous to the meeting of these two bodies, the short term Bible Study class met and listened to an instructive lecture on the subject, "Paul's Gospel," by Prof. Elbert Russel of Earlham college.

RAN FROM MENKE AND GOT PINCHED

Explained His Actions in City Court.

Walter Brandt, a stranger in the city, saw patrolman Menke on his rounds through Happy Hollow last night. Thereupon Brandt ran. Menke did not know the cause, but ran after Brandt and caught him. When searched Brandt was found to have a revolver in his pocket. After a hearing in city court this afternoon in which Brandt explained his possession of the weapon satisfactorily, he was permitted to leave the city. He left the revolver also.

VACCINATION URGED

This Will Serve to Stop Spread Of the Smallpox Contagion.

MANY CHILDREN EXPOSED

Get vaccinated. Smallpox is spreading and the only way to make sure you won't be the next victim is to get vaccinated. Eighteen houses are now under quarantine and the number of patients extends into the higher twenties. Three cases were reported today, the little daughter of Harry Gee, colored, 211 North Third street; Thomas Lovin and wife, 20 North Fifth street. Lovin is a nightwatchman and has been employed at Gaar's.

STORM KING WAS ON WILD RAMPAGE

MANY WIRES DISPLACED

THE ROWDY WINDS ALSO SMASHED WINDOW PANES, TOPPLED OVER FENCES AND BROKE DOWN A LARGE TREE.

High winds yesterday afternoon and evening, did considerable damage in this city to the light companies and to the trees, window panes, and fences. No such wind storm has paid Richmond the honor of visit for several months. With it came little spurts of rain, which, while of short duration, resembled water spouts. March came in like a lamb, but is certainly trying to lionize things just at present.

The light companies experienced considerable trouble with their cables being blown down from their positions either into trees or on the ground. In the north end one of the high tension cables fell onto another line of wires and a real electrical display was had, until linesmen had straightened out the difficulty.

At the rear of the Westcott hotel another fire works exhibition of considerable beauty, but still somewhat dangerous, was given by a high tension wire becoming grounded.

High School Visited.

At the high school yesterday afternoon one of the window panes was blown in during the class hour, but fortunately no one was hurt. There were many similar occurrences, especially on the west side.

Trees in the city and Glen Miller park were damaged considerably by branches being broken off. On South Seventh street, in front of the residence of Miss Laura Gaston, a large tree was blown down, but fell into another tree and did no damage. Had it fallen entirely over, it would have injured Miss Gaston's property considerably.

In many parts of the city, wooden fences were blown over.

Walking, especially for women, was very unpleasant. As many as possible staid within doors during the entire day. Today conditions were bettered but little.

Waterworks Company Announces Increase in Capital Stock at Same Time

IT'S WATER STOCK—YES

Articles were filed with the Secretary of State today by the Richmond City Water Works Company to increase its capital stock from \$250,000 to \$375,000 today. One of the members of the company stated today that there were no improvements or additions to the equipment contemplated by the company. It is believed by some that the company is considering seriously the matter of laying an emergency water main from the pumping station three miles east of the city to the city.

At present there is but one main to supply the water. This condition is regarded as dangerous, as in case of a big fire, it is doubtful if sufficient pressure could be given at the station to fight the fire successfully without running the risk of the main breaking.

ARE PREPARED TO MEET ALL COMERS

Friday Quaker Debaters Meet Both the Wabash and Butler Teams.

ONE CONTEST IN RICHMOND

THE NEGATIVE TEAM WILL JOURNEY TO IRVINGTON—MEN HAVE TRAINED HARD FOR THE TRIANGULAR MEET.

"Resolved: that United States Senators should be elected by the direct vote of the people," is the subject of the preliminary debates which are claiming the attention of the Earlham debaters this week in their final preparation for the triangular debates to be held with Butler and Wabash Friday night. Wabash will debate the Earlham Negative team in the Earlham chapel, while the affirmative team will journey to Irvington to battle with their last year's conquerors.

Last night in the College chapel the Earlham teams held the last public trial before their final effort Friday evening. There were little less than a hundred students who left their strenuous preparation for examinations to cheer the men who will do battle for the Quakers against the Campbellites and Presbyterians.

Have Trained Hard.

In last year's debates Earlham was defeated twice but this year the teams were chosen soon after Thanksgiving. They have spent three times the usual length of time in preparation and have shown remarkably well finished speeches in their trials.

All the men on this year's teams are experienced debaters, except one and this fact is expected to give the Quakers the advantage, as the other teams have several new members. A large majority of the debates which Earlham has entered in the past have been won by them and the students are very optimistic as to the outcome of the approaching encounters.
