

Ten Doctors Said He Would Die

"In 1903 we wrote you regarding my husband, who was suffering from heart trouble. He was superannuated by the North Georgian Conference. Ten doctors at different times said he would die. You advised Dr. Miles' Heart Remedy and Restorative Nervine; we did as advised, and improvement was apparent from the very first. He recovered and the Conference in 1904 gave him a charge. He never felt better, although he has very heavy work and does a great deal of camp meeting work. I am so glad we took your advice and gave him the medicine, and feel that I ought to let you know of the wonderful good results from its use."

FACTIONS UNITED BY GOV. MARSHALL

Both Warring Democratic Clans Together in Conference, Tuesday.

EVEN TAGGART ATTENDED

AS FAR AS COULD BE LEARNED, EVERYTHING WAS PEACEFUL AND CALM—SUBJECT DISCUSSED NOT KNOWN.

Special Correspondent.

Indianapolis, March 31.—There was a democratic conference at the office of Governor Marshall, yesterday afternoon, the like of which has not been seen in this city in many a day. The two factions of the party in the state were represented. Tom Taggart and Billy Moore, the latter chairman of Indianapolis, were there for one side, and John W. Holtzman, former mayor of this city, and James L. Keach, who has fought Taggart and his ring ever since he has been old enough, represented the anti-Taggart crowd. What they talked about is not known, but there have been all kinds of rumors.

Marshall Called It.

These four men were called together by Governor Marshall. He sent a special invitation to each one and Taggart came all the way from French Lick to answer the summons. Unusually when Taggart, Holtzman and Keach get together, the sparks fly, but they did not fly yesterday. Everything was peaceful and calm in the governor's office as far as could be learned.

There are some who believe they discussed the Indianapolis city campaign but others do not think this likely because they say Governor Marshall does not intend to butt in on this affair. Others think they were called together in order to talk about appointments that the governor has to make. It is believed that he wishes to satisfy both elements of the party by giving each side something, but he wants to do it without making the other side mad. Whether this was the object or not, will probably become known soon, as the governor will announce some more appointments before he goes to New York next week—maybe.

There are at least fifty-nine metals known to the chemist. At the dawn of history there were only four—copper, tin, gold and silver. Three more were added by ancient civilization—iron, lead and mercury. These seven were all that were known to classic antiquity and for the first thousand years of the Christian era. It is believed that copper, because found most abundantly in the pure state, was the first to attract the attention of primitive man. Tin was probably the second, the largest deposits being in those regions longest inhabited by the human race. Iron came into general use between a thousand and fifteen hundred years before the Christian era.

The Harmony Of Home

Does Not Mingle With or Emanate From The Table of Dyspepsia

In the home, meal time should awaken in all the inhabitants a peculiar harmony of joy which will make for the home the abiding place of interest and happiness.

If one member at the dinner table is out of sorts, his influence is felt and the harmony is lacking. Conversation and mirth are absent. Devouring thoughts assail the diners and silence prevails.

"At The Dyspepsia Table Ominous, Quiet and Gloom Crowds Out Mirth."

All physicians agree that mirth and joy at meal time does much toward digestion. Mirth tingles the whole nervous organism of man, the cells wherein are stored valuable digestive juices, empty their contents under the nerve stimulation and promote the highest degree of digestion.

If gloom and discomfort prevail at table the reverse action obtains and meals become necessities, not anticipated joys.

Stuart's Dyspepsia Tablets are little storehouses of digestion which mix with the stomach juices, digest food, retinge the mucous membrane and its nerve centers, give to the blood a great wealth of digestive fluids, promote digestion and stay by the stomach until all its duties are complete.

If dyspepsia sits at tables it makes the dining room a place of awe; these tablets should be taken after meals and dyspepsia of a consequence flees.

No need for diet or fasting. The dyspepsia who will use them religiously will find no sense of nausea in the sight of generous meals or in the odor of rich cooking.

It matters not what the condition of the stomach Stuart's Dyspepsia Tablets only improve the juices and bring quiet to the whole digestive canal, of which the stomach is the center.

Forty thousand physicians use these tablets in their practice and every druggist sells them. Price 50c. Send us your name and address and we will send you a trial package by mail free. Address F. A. Stuart Co., 150 Stuart Bldg., Marshall, Mich.

Several Respond To STATE'S CALL

Counties Make Advance Payments to Relieve the Embarrassment.

SAVED FROM BANKRUPTCY

COUNTIES ARE LOSERS BY THIS SYSTEM AS MONEY IS TAKEN FROM DEPOSITORIES WHERE IT DRAWS INTEREST.

Special Correspondent.

Indianapolis, March 31.—Several of the counties have already responded to the call sent out by the treasurer of the state for advance payments of taxes to the state by the counties, in compliance with the law passed at the last session of the legislature, and up to last night, \$145,000 had been poured into the state treasury as a result.

The call, when all counties have responded, will produce about \$300,000. This will tide over the state for a time and prevent the state treasury from going bankrupt, as was the indication during the legislature, when Governor Marshall sent his message of alarm to that body. Under the new law, whenever the state treasurer sends out a call for advance payments by the counties to the state, the county treasurer and the county auditor are required to make a prompt remittance, and if they do not, they may be prosecuted by the prosecuting attorney on the showing made by the auditor of state.

Counties Are Losers.

The counties will, of course, be the losers by this arrangement, for the money which they sent to the state treasurer as advance payments has to be drawn out of the county depositories, where it is drawing interest. It is estimated that the counties will lose something like \$3,000 interest on the money, which they will send in on the present call.

Let Me Tell You Something

A woman who is sick and suffering and won't at least try a medicine which has the record of Lydia E. Pinkham's Vegetable Compound, is to blame for her own wretched condition.

There are literally hundreds of thousands of women in the United States who have been benefited by this famous old remedy, which was produced from roots and herbs over thirty years ago by a woman to relieve woman's suffering.

Read what these women say:

Camden, N. J.—"It is with pleasure that I send my testimonial for Lydia E. Pinkham's Vegetable Compound, hoping it may induce other suffering women to avail themselves of the benefit of this valuable remedy."

"I suffered from pains in my back and side, sick headaches, no appetite, was tired and nervous all the time, and so weak I could hardly stand. Lydia E. Pinkham's Vegetable Compound made me a well woman—and this valuable medicine shall always have my praise."—Mrs. W. P. Valentine, 902 Lincoln Ave., Camden, N. J.

Erle, Pa.—"I suffered for five years from female troubles, and at last was almost helpless. I tried three doctors but they did me no good. My sister advised me to try Lydia E. Pinkham's Vegetable Compound, and it has made me well and strong. I hope all suffering women will just give Lydia E. Pinkham's Vegetable Compound a trial, for it is worth its weight in gold."—Mrs. J. P. Endlich, R. F. D. 7, Erle, Pa.

Since we guarantee that all testimonials which we publish are genuine, it is not fair to suppose that if Lydia E. Pinkham's Vegetable Compound had the virtue to help these women it will help any other woman who is suffering from the same trouble.

For 30 years Lydia E. Pinkham's Vegetable Compound
