

THISTLETHWAITE NAMED AS COACH

Former Earlham Star Will
Take Charge of Quaker
Athletics.

MEANS GRADUATE SYSTEM

RETIRING COACH VAIL WORKED
HARD WITH THE EARLHAM
TEAMS BUT HE FAILED TO DE-
VELOP WINNERS.

Glenn Thistlethwaite, a former Earlham athlete, has been selected as coach of the Quaker teams to succeed Fred C. Vail, who will return to Gettysburg College, as physical director. Earlham undertakes the graduate system of coaching by this change. Thistlethwaite was a member of the Earlham football and track teams for several years. He played a little baseball but was not a basketball man. At present he is coaching at a small college in Illinois.

Vail came to Earlham with the reputation of being one of the best coaches of minor colleges in the east. His reputation was secured as the result of the work he did in directing the

athletic teams of Gettysburg. When Earlham secured him, the Quakers believed their star of hope had been enshrined.

Vail worked hard, none could have worked harder, but he has not turned out winning teams in all classes of sports. But the fault is not to be attributed altogether to Vail. There have been antagonizing forces at work against him. He has not had the loyal co-operation of the men he has been trying to teach. He is not a dominating coach and the Earlham athletes have taken advantage of this fact. They have regarded him as easy. The coach has believed in sparing his men wherever possible instead of driving them and the plan has not proved a success. He is of an opposite type to John Miller, the most successful coach Earlham ever had. Miller was a driver who took no excuses. Vail is a pacifier and easily imposed upon. While not developing any world beating teams, Vail has done more for the promotion of all kinds of sport at Earlham than any man ever associated with athletics there.

Thistlethwaite secured his athletic training at Earlham. He is young and is expected to prove a hard worker. His experience has been limited and he has been without training as a coach except during this year. He was a star weight man on the Quaker track team and two years ago was captain of the football team. His success or failure will depend on the kind of support he is accorded by the Earlhamites. He is fair in his dealings and is not expected to approve favoritism.

Str. Edward Elgar, the famous musician, is said to be very keen on chemistry and spends some of his leisure time in analysis and experiments. He has been an enthusiastic cyclist and can tell a good story of adventures encountered on the highways and byways of western England. At one time he made a hobby of kite flying and was not ashamed to be seen tugging at a string and gazing heavenward after a struggling object with a long tail which strained to get higher and even higher. He is also an ardent naturalist.

EARLHAM TO MEET THE BUTLER NINE

Game Played at Irvington on Saturday.

The Earlham baseball team has arranged a game with Butler's nine for next Sunday. The game will be played at Irvington. The Quakers are not showing the confidence they displayed before the De Pauw game and this factor may be in their favor. White, who does the twirling, will compete in the athletic meet at Indianapolis Friday night and the strain may be so as to impair his work as a pitcher the following day. In that case Swain will be put in the box.

DETHRONEMENT OF SULTAN IS STILL DOUBTFUL ISSUE

(Continued From Page One.)

most important civilian members are with the army. Some of the members of the cabinet, including Rifaat Pasha, the foreign minister, are active constitutionalists. Tewfik Pasha, the grand vizier, who personally is most agreeable to the sultan and to the military men, and who is looked upon as both benevolent and honest, has undertaken the direct negotiations looking to a compromise. He has not been able to proceed far up to the present, owing to the uncertain conditions which have prevailed in the last few days.

The grand vizier and his cabinet are prepared to resign if the committee asks for their withdrawal from office. Indeed, they are anxious to resign, and have been held in office only by the feeling that they may be able to avert a civil war or prevent acts of violence, which would bring about unwelcome intervention by the powers.

"The committee"—a vague term to represent influential men of modern spirit—is without definite plans. Its adherents, who have a right to a voice in its affairs, are divided among themselves. The radical faction insists that there shall be no compromise, that the sultan must be deposed and a reasonable prince, for instance, Yusef Izzeddin, named as his successor; that the whole administration should be cleaned; that no promise of Abdul Hamid's can be trusted, and that to re-establish the system of ten days ago would be to settle nothing.

Conservatives would avoid fight. The conservatives urge that the deposition of the sultan would only be possible after severe fighting; that it is uncertain whether the troops under the control of the committee would uphold such an act with their bayonets; that the wavering soldiers of the First Army corps, to the number of 25,000 or 30,000, now garrisoning the city, would be inflamed and break out into open revolt; and that to demand too much means the failure of all.

"The sultan has got them quarreling among themselves," said one of the ambassadors today, "and he will have his own way yet."

Since the investing army has drawn nearer to the city numerous agents of the Mohammedan league, ardent young men, theological students and junior members of the clergy, have penetrated the lines, pointing out to them that it was their duty to God and Allah to rid themselves of their officers.

League Working in Secret.
The Mohammedan league cannot be located. This secret society, which has sprung up since July, to fight the battles of faith and to repel heresies, is busy undermining the loyalty of the troops which are affiliated with the committee.

view to facilitating the occupation of the city by the Saloniki army. The men of the warships have taken the oath of allegiance, in accordance with the demand of the investing force, and the fleet is now under orders to sail for the Mediterranean for maneuvers.
Asia Minor Again Turbulent.
The situation at Alexandretta, in Asia Minor, is critical. Panic everywhere prevails. Thousands of refugees are crowding into the city, which is being patrolled by the marines from the British cruiser Diana. The British battleship Triumph has gone up the coast to Ayas to relieve that place, if possible.
At Beilan Pass conditions are desperate. Hadjin is threatened, but is holding out. The fanatic also are threatening Marash, but news from that town is difficult to obtain. Aintab is quiet. For the present Merzina, Tarsus and Adana are reported quiet, but conditions are unsettled.
The report of the sailing of two American cruisers for Turkish waters has been welcomed here.

Carlisle was going some in the Y. M. C. A. basketball game last night, and never gave Illinois a look in. The Indians were not to be denied the fruits of victory and kept plugging throughout the game. When it was all over the score board showed a finish at the rate of 24 to 9. Carlisle is making a valiant stand and if another win is returned next week, the Indians can finish the season at the half way station.

"There is no country in the world more inviting to the naturalists than Borneo," writes Consul Baker from Sandakan. "Here are found the flying squirrels, flying foxes, flying lizards, flying snakes, and the natives report flying snakes. Among the most noted birds is the little swift Collocalia nidifica. Their nests are eaten by the Chinese and are regarded as a great luxury. These build their nests in limestone caves of a glutinous saliva which they produce from their glands; no sticks or any other foreign substances are used. The collection of these nests is an important industry with the natives, though they pay a tax on all they take to the market. The value of those exported from British North Borneo in 1907 was \$35,924. They are served at the great feasts of the Chinese, especially at weddings."

POLICE LOOKING FOR A LOST GIRL

Goldie Miley Disappears From
Her Home and All Trace
Is Lost.

MAY HAVE GONE TO LOVER

PARENTS OF THE YOUNG WOMAN
HAVE SEARCHED DILIGENTLY
AND ARE NEARLY FRANTIC—
WELL TREATED.

Search is being made by John Kenworthy and wife for a fourteen year old daughter of Mrs. Kenworthy, who goes by the name of Goldie Miley, or Goldie Kenworthy. The girl has disappeared from home and it is feared she had been induced to leave by Adolph Floyd, a young man of West Alexandria, Ohio. Mr. Kenworthy has conferred with the police about the case and intended to go to Eaton and West Alexandria this afternoon to search for the girl.

Make Frantic Search.
The Kenworthy family resides south of the city. Mr. Kenworthy and his wife made a frantic search about the city for the girl last night. They were told she had been at the intersection station and they went there. She was said to have been there between 10 and 11 o'clock. They suspected she might have taken the 11 o'clock car for West Alexandria but the conductor and motorman said the girl they described had not ridden on the car. Kenworthy carried about in his pocket a piece of the goods from which the girl's dress was made for the purpose of identification. It is a bright plaid of red, white and green.

Kenworthy said he cannot imagine where the girl is if not in the company of Floyd. The young man had been forbidden to visit the Kenworthy home, but was there Sunday to see the girl. After he left the girl received a letter and Kenworthy has an idea the letter laid plans for her to run away from home.

Was Well Treated.
He said today Goldie is as well loved and treated as any other member of the family, but has not been permitted "to go about" as much as she would have liked. He said he and his wife have four children, all of whom love Goldie. Before going to bed last night the baby cried because it could not kiss "Godo" good night. Kenworthy believes the girl is angered somewhat because he refused to buy her patent leather shoes, when purchasing new footwear for her Saturday.

The foster father is very anxious to locate the girl. He said he did not want her to be with Floyd, as she is too young to marry him and he does not know what may happen. He said he did not believe the child had remained in the city in hiding during the night, or that she had money to pay for a room at a lodging house.

East Rutherford, N. J., enjoys the distinction of having a Chinese editor of one of its papers, the Borough Weekly. This paper changed hands a few days ago, and Yak Lee, a Chinese graduate of Yale, was made its editor. In his first editorial Mr. Lee says that the paper "will be conducted along strictly nonpartisan lines, and will advocate those men for office who, in his judgment, are best fitted for the requirements of the positions they seek, regardless of party politics, believing that our government, especially in local affairs, should not be made the prey of the spoils seeker nor be permitted to reach the hands of incapable."

LATE NEWS BULLETINS

Buffalo, N. Y., April 22.—While watching the wonderful sight ice jam at Niagara Falls this afternoon Mrs. Whipple of Buffalo, aged 65, slipped on a block ice and was swept over the brink of Luna Falls. A moment later the body disappeared. The jam is ten miles long but the situation is considered slightly improved.

A CUSTOMS SCANDAL.
New York, April 22.—Discovery that great quantities of dutiable goods had been smuggled into this country proved today to be only a fore runner of a scandal in the customs house unearthed by Collector Loeb. Mr. Loeb admitted today that there was a big scandal in the customs departments but said none of the present

employees were involved. Others declare a big shake up will soon occur.

FOUND MURDERED.
Chicago, April 22.—James Campbell thirty-five, foreman of the Chicago Railways Co., was found murdered on the steps of the Warren Avenue church this morning. He had been robbed, probably by holdup men.

KILLED BY DYNAMITE.
Chattanooga, April 22.—Rudolph Buol was assassinated early this morning by some one who entered his bedroom through a window. The murderer placed dynamite on the bed exploding it with a fuse. He was instantly killed while his wife escaped uninjured. A posse is searching for the assassin.

JEFFRIES IS ANGRY

"I'd Go After the Coon Without a Cash Offer" He Announces.

A TELEGRAM THE CAUSE

New York, April 22.—James J. Jeffries is mad all over, now that he has made up his mind to fight Jack Johnson.

"I'd go after that coon without a cash offer," he asserted today. The declaration was called forth by the following telegram from Los Angeles: "Upon the receipt of the news that Jeffries had announced he would fight Johnson, Manager McCarey, of the Pacific Athletic club, sent an offer of \$50,000 to Jeffries as his end of the purse, win, lose or draw. Should the big one accept, suitable proposition will be made to Johnson. In case McCarey is successful in having the fight take place before his club, the contest will be held at the Vernon arena, formerly owned by the Jeffries Athletic club, and probably will be carded for forty-five rounds. "If nothing better offers," said Jeffries, "I'll take that. I bet the \$50,000 anyway, eh? Well, I will look it over—but hark ye, I'd go after that coon without the cash offer."

GEORGE E. CLARK IS REPORTED ILL

South Bend Man Is Well Known in City.

Word has been received by friends and relatives of George E. Clark, an attorney at South Bend, that he is seriously ill in a hospital at Chicago. Mr. Clark was formerly an instructor of rhetoric in Notre Dame university. Last summer he delivered a lecture at the chautauque in this city. He is a cousin to Sister Mary Immaculate, superior at St. Mary's school in this city.

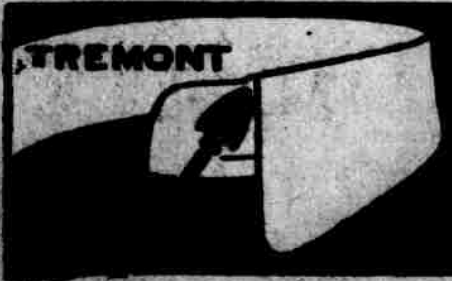

San Air.
At a meeting of the French Therapeutic society M. Lecomte showed that the therapeutic effect of sea air on the coast is quite different from that of the open sea—i. e., twenty or thirty miles out. On the coast the effect tends toward excitement and congestion and, moreover, is irregular in its action. Out at sea it is tonic and regulating, and in addition the patient gets quiet, a regular life and a continuous bath of pure air. These advantages are not so patent on board great liners on account of the vibration and the smell from the engines, but on a sailing ship they are evident.

Chinese Idea of Government.
Here is a Chinese idea of prosperity in a nation: "When the sword is rusty, the plow bright, the prisons empty, the granaries full, the steps of the temple worn down and those of the law courts grass grown, when doctors go afoot, the bakers on horseback and the men of letters drive in their own carriages, then the empire is well governed."

Getting Ready For Him.

Great men are they who see that spiritual is stronger than any material force.—Emerson.

The Royal British Radium Institute has accounted the interest in radium, and a firm of medical and scientific instrument makers are busy supplying tiny tubes of radium bromide for internal therapeutic work. As glass absorbs some of the emanations the radium bromide is enclosed in a small dome about one-quarter inch in height by three-eighths of an inch in diameter, made of quartz. The tube is hermetically sealed to a rod, and can then be introduced into an incision or into the interior of the body. The quartz only holds about a sixth of a grain of radium bromide, but it costs \$500.
