HAINS ATTACKED VICTIM'S GHOST

Jail Physician Gives Startling Testimony in the Trial Today.

BENEFITS THE DEFENSE

THIS EVIDENCE AIDED IN SUBSTANTIATING THE ALLEGATION THAT THE ACCUSED IS A MENTAL WRECK.

Flushing, L. I., May 4.—The feature of the Hains murder trial today, was the testimony of Dr. Platt, physician of the Queens county jail, who told of Peter Hains claiming to have beheld a vision of his victim, Annis, while in that jail. The apparition occurred at night and Hains told the doctor that a combat took place. The line of defense is all in line to show Hains insane.

Tells of Attack.
Dr. Platt said that on September 10 he visited the captain in his cell and asked him how he had slept. He said that he had slept very well after Annis left. "He was here last night," the witness declared he had said. The witness then asked the captain if Annis was dead. "Captain Hains then jumped from his bed and started for me. 'You lie,' he cried, and I backed away from him and out of his cell to keep him from attacking me."

As the jail physician gave his testimony, the captain showed an unusual degree of nervousness. His eyes shifted from one place to another. He appeared to be a man who was haunted.

Aged Mother Arrives.

Wearied with the strain of the trials of two sons on murder charges and feeble with 69 years of life, Mrs. Peter C. Hains, Sr., was brought to Flushing today to do her part in saving the life of her son, Capt. Peter C. Hains Jr., on trial for the murder of William E. Annis.

She was brought here to tell of the hysteria which has characterized her ancestors and of the falling fits in her own life which have been carefully concealed until now.

Grave doubts were entertained by the lawyers for the defense of the ability of the aged mother to withstand the strain of a long examination in her weak physical condition, but her testimony is so vital to the chain of evidence which is relied on to save her son that it was resolved to bring her.

BOYS WERE NAUGHTY

Cut Up at Commencement and Were Arrested and Fined in Court.

WERE REPORTED BEFORE

For "cuttin' up in meetin'" Earl Hart and Ora Creeks, two Union county young men were fined \$20 in circuit court today. The boys were arrested in complaint of William Porterfield, trustee of Boston township. They were charged with disturbing a public meeting. The specific offense was misconduct at the Boston township commencement exercises last Saturday night.

It was claimed the boys went to the commencement and insisted on talking out loud, so as to disturb the speaker. The court had been informed that the boys were told to desist, but refused. The claim was made, also, that the same boys have interrupted meetings at Boston before. They were accused of having used profane language. The latter accusation they denied, but admitted the loud talk. They paid the fines.

MOTHERS' DAY IS TO BE OBSERVED

Movement Started by the Mothers' League of Riverdale Progresses.

WHITE CARNATION BADGE

EVERYONE IS REQUESTED, AS A LOVING AND SILENT TRIBUTE TO HIS OR HER MOTHER, TO WEAR A FLOWER.

"Our Mothers' Day" will be observed in this city, Sunday, May 9, according to plans of the Mothers' League of Riverdale. It is expected by the members of the league, to have the churches, various societies and lodges of the city, observe the day in some appropriate manner. Providing the event is a success, the league expects to have the second Sunday in May set apart annually as a special day in honor of the mothers. The Evangelistic churches of the world started the movement, and their efforts prompted the Mothers' League to take similar steps in this city.

Gifts of Flowers.
It is requested by the members of the league that every one at least observe the day by wearing a white carnation in honor of his or her mother; and that each person give a carnation away to some other person. The carnation is to be a badge, signifying love, loyalty and protection.

A member of the league in a communication to this office stated "the object is to brighten the lives of our mothers and make them more honored, loved and protected by their children; to remind sons and daughters, especially busy men and women, of the unselfish devotion of their mothers and possibly of their own self-neglect to their parents; to ask men, women and children, to make their mothers feel this May day that in her children's heart she is the 'Queen of May.'"

TENNIS MEET TO BE HELD IN CITY

Earlham Will Entertain Teams of Various State Colleges.

GOOD QUAKER MATERIAL

BEEBE IS RELIED UPON FOR GOOD WORK BUT TOM CAMPBELL, LAST YEAR'S STAR, WILL BE SADLY MISSED.

The tennis prospects at Earlham are brightening every day and it is now believed that a winning team will be developed for the state tournament, which will be held at Earlham this year at the same time of the state field and track meet. Although Earlham will have Beebe, it will lack Tom Campbell, who was one of the fastest and most clever players that has ever represented the institution, and it was mainly through him that the Quakers landed in first place last year. Beebe is again out this year and showing up in first class form and it is expected that he will be one of the members of the Quaker team.

Nicholson in Form.

Nicholson, who was out last year, is showing up in remarkable form and it is expected that he will be a strong opponent for those who try for the second position on the team. Habbie, another of the dormitory students, is out and also several others who are showing class. The Day Dodgers are not to be left out, for they have this year some of the best players in the college, so it is believed by the tennis association promoters, Scott, Smyser, Robbins, Tebbetts, and several others showed some class last season, but have not been out much this season, because of the weather. There are several other new men among the Day Dodgers, who are expected to make good.

The regular tournament will start as soon as the weather will permit. The tournament was to have started last Saturday, but because of the cold, bleak weather, was postponed. There are some 20 men entered and it is hoped by Prof. Coffin that during the meet some fast artists will develop. The judges for the tournament have been chosen and the men will draw for their opponents for the first round this afternoon. It is expected that some fast games will be played before the tournament is concluded.

A GAS LEAK.

After Results That May Come From Hunting It With a Light.

The folly of hunting for a leak in a gas pipe with a lighted match is not so much because of the danger of an explosion as of other damage, as is shown by the experience of a householder not long ago.

One or two small leaks were detected by going over all the pipes and holding a lighted match to them. The smell of gas ceased, but was replaced a few hours later by the smell of burning wood.

Another visit to the cellar showed a charred floor joist a little distance above a gas pipe. There was no apparent cause for this until a very close examination resulted in the finding of a tiny jet of gas which was issuing from the pipe beneath the beam.

It was lighted, but was so small as to be blue in color and nearly invisible. It had been lighted by the match used in the first investigation, but had not been noticed.

"If that leak had happened to be in a lead joint instead of an iron connection," said a gas man, "there would probably have been work for the fire brigade. The smallest possible jet of lighted gas issuing through lead will in time heat and melt the lead and make the leak larger until a big flame is issuing."

"This may make a fire hours later in the dead of night or at a time when no one is in the house. The only proper way to look for these very small leaks is to paint the suspected pipe with a smooth soap lather. Just as in the case of a bicycle tire, the tiniest leak will blow a bubble in the lather, and there you are."—London Telegraph.

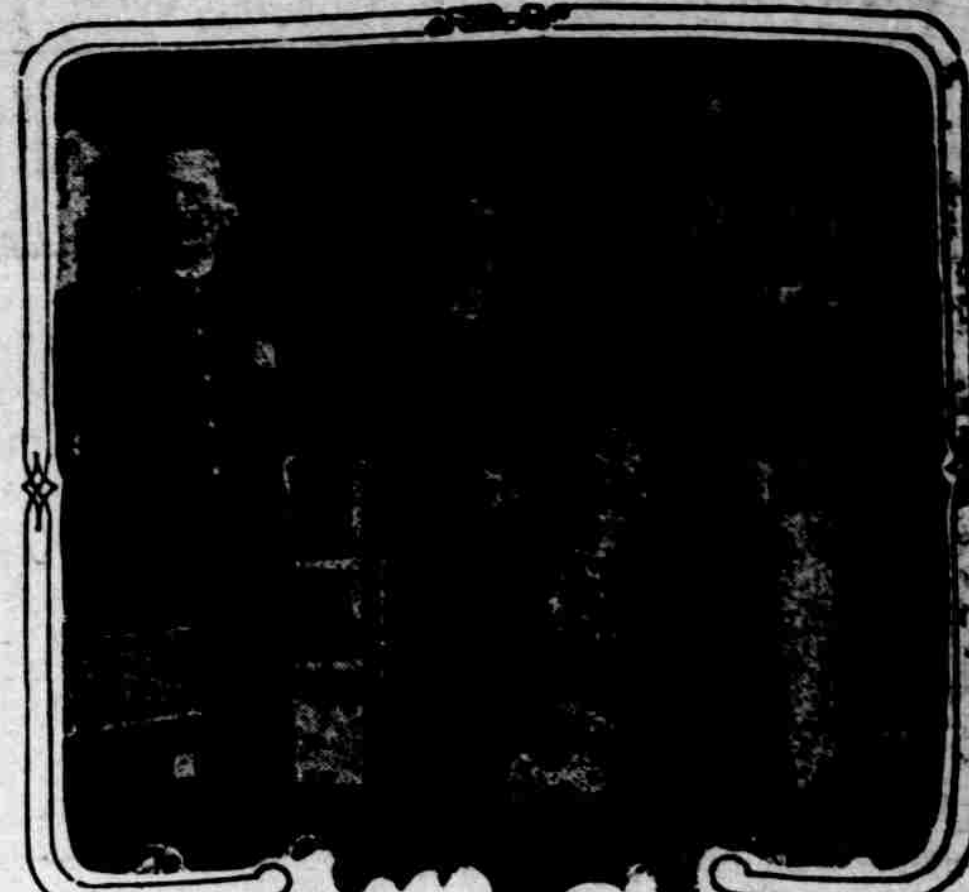

MEXICAN JACALS.

Primitive Huts in the Villages of the Mexican Indians.

The Mexican Indian huts in the villages and upon the ranches of the lower Rio Grande border region of Texas have a style of architecture and construction that is distinctly their own. This type of primitive building is rapidly passing out of existence. At many places on the border families of Mexicans have abandoned their jacals and moved into more pretentious homes.

No money outlay is necessary in erecting the old style picturesque structures; neither is a knowledge of carpentry needed. A double row of upright poles firmly set or driven into the ground forms the framework for the walls. Between these two rows of poles are placed other poles or sticks of shorter length, forming a thick and compact wall. At each of the four corners of the building posts are set, reaching to a height of about eight feet. Roughly hewn stringers are laid from one post to another, and to these stringers are tied other poles that form the framework of the walls. The strong fiber from the maguey plant or strips of buckskin are used to tie the poles into position. The rafters are tied to the ridgepole and the stringers in the same manner. At one end of the building is built the opening through which the smoke of the inside fire may ascend. Stoves are unknown among these Mexicans, and the cooking is all done upon the ground. WOMAN APPEALED TO POST OFFICE

She Said She Had Been Short Changed and Wanted Her Money Back.

SHE IGNORED THE POLICE

FRUIT VENDERS IN MAKING CHANGE FOR A \$5 BILL SLIP THEIR VICTIM HALF OF A ONE DOLLAR BILL.

Today a rather clever fraud was worked on at least one woman of the Hawkins addition, northeast part of the city, possibly others, by vegetable vendors. In this one instance the woman was given half of a dollar bill for a good bill, and she straightway came to the postoffice and tried to have it redeemed by the superintendent of the clerical force, Lawrence Handley. He advised her to put the matter in the hands of the police, but she refused, stating "my husband was in that business once and he will watch for them."

A Shrewd Move.

The woman, whose name Mr. Handley did not remember, said she purchased some vegetables of the men. She tendered a 5 bill and received in change paper money. In between two good dollar bills was stuck a part of another bill. When one of the vendors gave her the change he held the money in his hands, counted it and as they did so, showed her the edges of the bills. Not until after the vendors were safely away did she discover the deception.

Neighbors, to whom she explained her plight, advised her to go to the postoffice, where, they said, she would be given a good bill in exchange. Mr. Handley explained the postoffice did not do business that way, for if they did there certainly would be a rush on the office, everyone desiring to double his fortune.

SHERIDAN STREET IS BEING CLEANED

This thoroughfare from the Doran bridge to State street is in a worse condition than any other in the city. The mud yesterday was eight inches deep. It covered the street car rails and made it next to impossible for automobiles to get through. When this mud is removed the surface of the street, which is low now, will be several inches lower.

WESTERN UNION HAS GRAFT CASE

Crooked Work on the Part of High Officials Is Reported.

IS PITTSBURG SENSATION

SEVERAL OF THE TELEGRAPH MOGULS HAVE BEEN REQUESTED TO RESIGN—CAUSE OF SCANDAL MYSTERIOUS.

Pittsburg, May 4.—A great sensation has shaken the local management of the Western Union Telegraph company, occasioned by the discovery of alleged irregularities, following an investigation set on foot several days ago by the head of the company in New York. A "leakage" of vast importance, such as to affect business in the greater part of the country, has been traced to this city. It is alleged that three men holding responsible positions in Pittsburg have been suspended. The resignation of a fourth, who is said to occupy even a higher place than the others, is reported to have been demanded and over half a dozen employes holding positions of considerable importance here are declared to be slated for removal.

Butterfly Candy.

The favorite delicacy of the native Australian are butterfly cakes, which are made from a species of butterfly. Fines are lighted under the trees upon which the butterflies settle, and, indicated by the smoke, they drop to earth. The bodies are pounded into pulp and made into cakes, which have a very pungent odor, and they have the undesirable effect of making the eater very ill for several days. But if the diet is persevered with the unpleasant symptoms pass away, and the invalids digest them well and become exceedingly fat.
