

## Listen To Your Pains.

Aches and Pains Are Nature's Warnings of Trouble Ahead.

Mental and physical weakness are exactly like the breaking down of the loaded coal wagon across the car tracks. The hindered traffic represents the state of mind or body under diseased conditions. Our aches and pains are nature's warning that we have violated the laws of life and health and soon we must pay unless we heed.

Most ills can be traced directly or indirectly to the stomach or digestive tract. Eat right and it's so to 1 that you will be right in health, and health means wealth.

Don't load your stomach with heavy foods such as meats and bread and potatoes in the morning. Try E-C Corn Flakes or Egg-O-See Wheat Flakes with good milk or cream and perhaps a little fresh or stewed fruit. You'll like it—it's good—so crisp and delicious—easy to digest—ready to serve.

Children grow strong and healthy on it. Invalids find it acceptable and nourishing and busy men and women find they can do a day's work without the hindrance of a sour stomach or an aching head if they eat it. Remember it's the wonderful Egg-O-See process that makes it so good to eat and so easy to digest.

## WOMEN OF STATE PLAN A MEETING

South Bend to Entertain Session of State Federation of Clubs.

TO BE HELD IN OCTOBER

PRELIMINARY PLANS FOR THIS MEETING WERE MADE YESTERDAY AT A MEETING HELD IN INDIANAPOLIS.

Indianapolis, Ind., May 28.—Plans were made at a meeting held in this city yesterday afternoon for the annual meeting of the Indiana State Federation of Women's Clubs, which will be held in South Bend in October. Consideration was given also to the preparation of a program for the convention.

Mrs. O. P. Kinsey, of the board of directors, and former president of the federation, presided. Among those present were Mrs. I. N. Taylor, Fort Wayne; Mrs. Frank Saylor, Elwood; Mrs. Cox, Terre Haute; Mrs. Anderson, Greencastle; Miss Catherine Calloway, Cambridge City; Mrs. Elizabeth Earle, Connersville; Mrs. S. E. Perkins, Mrs. V. H. Lockwood, Mrs. W. S. Johnson, and Miss Merica Hoagland, this city; Mrs. J. F. Mitchell, Greenfield; Mrs. Beer of the education committee; Mrs. Tannenbaum, of the election committee; Miss Fralich, South Bend; Mrs. Conrad, Valparaiso.

Mrs. Major is ill.

Mrs. W. S. Major, of Shelbyville, president of the federation, is ill and was not able to attend the meeting. She sent a letter in which she recommended that all proposed resolutions be sent to the resolutions committee by October 1. She also suggested a mothers' day to be observed all over the state about May 9.

Indiana has pledged twenty new clubs for the general federation at its next biennial, which will be held at Cincinnati, May 11, 1930. Of the twenty it has five promised. Twelve clubs have joined the state federation since its annual meeting in October. The federation will turn its attention to many of the vital subjects that were considered last year and for which there are departments with chairmen for each. Among these will be the home economics, art, library, education and child labor.

Reports were made of the organization of the congressional districts. The clubs of all districts except three are organized, and only one district has had no meeting. It was reported that the meetings in the districts have been enthusiastic and largely attended.

## Keeps Bowels Open; Free

There is no function of the human body so important as keeping the bowels open. Upon the condition of the bowels, more than upon any other one thing, depends the health and well-being of the entire system. There is scarcely a sickness that has not got constipation and stomach trouble complicated with it. It is at the bottom of most of the serious diseases of life.

Every grown up human being ought to have at least one full and easy evacuation of the bowels every 24 hours. But unfortunately there are thousands who do not get this. No matter what is the nature or cause of their constipation, and no matter how chronic and long-standing it is, they will not find a better cure than the well-known Dr. Caldwell's Syrup Pepsin. So confident are the dispensers of this wonderful laxative that it will cure any case of constipation in young or old, that they will send a free test bottle to anyone who sends name and address to Dr. Caldwell.

The sample will do for any constipated person what it did for Mrs. D. D. Fuller, of Eaton Rapids, Mich., for Mr. J. F. Edwards, of Lebanon, Tenn., and a host of others in all sections of the country. After having used the sample they will do as Mrs. Fuller and Mr. Edwards did, which is to go to the nearest drug store and buy a regular bottle, which costs 50 cents or 75 cents. Dr. Caldwell's Syrup Pepsin is not a tablet or powder, but a liquid laxative tonic, which is regulated by the regularity in the house. It is the most scientific blending of laxative ingredients ever put before the world.

If there is anything about your ailment that you don't understand, or if you want any medical advice, write to the doctor, and he will answer you fully. There is no charge for this service. The address is Dr. W. B. Caldwell, 210 Caldwell St., Monticello, Ill.

Why it Succeeds

Because it's for One Thing Only, and Richmond People Appreciate This.

Nothing can be good for everything. Doing one thing well brings success. Doan's Kidney Pills do one thing only.

The cure sick kidneys.

They cure backache, every kidney ill.

Here is Richmond evidence to prove it.

Edgar S. Mote, mail carrier, 24 S. Twentieth street, Richmond, Ind., says: Doan's Kidney Pills brought such good results in my case several years ago that I gave a public statement endorsing them. For a long time I had suffered from backache and kidney trouble and the least cold affected my kidneys, making my condition worse. Hearing about Doan's Kidney Pills, I procured a supply at A. G. Lukken & Co's drug store and their use so completely cured me that I have had but little trouble since. I have always held Doan's Kidney Pills in high esteem.

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.

## AN ITCHING PALM.

No Cure for It—Other Forms of Itching Preferable.

There is no cure for an itching palm—the money kind. Even posam, the new skin discovery, cannot help it. But when it comes to eczema, the most annoying of itching skin troubles, posam will stop the itching at once and cure the worst cases in a few days. So with hives, rash, scabies, split toes, piles, and scaly scalp, all of which are different forms of eczema, accompanied by severe itching and caused by imperfect digestion and careless diet.

Posam comes in two-dollar jars, but fifty cents' worth will answer in curing any of the diseases mentioned. It can be had of any druggist. W. H. Sudhoff makes of specialty of it.

That results are immediate will be amply demonstrated overnight by the use of the experimental sample which the Emergency Laboratories, 32 West Twenty-fifth Street, New York City, will send free by mail, in plain wrapper, to any one who will write for it.

## CAMBRIDGE CITY, IND.

Cambridge City, Ind., May 28.—Mrs. Nellie Jameson will go to New York City within a few days to remain until July.

Mrs. Bent Wilson, and Miss Emma Nicholson of New Castle, attended the funeral of the little child of Mr. and Mrs. Mark O'Hara of Richmond, Thursday.

A washout of thirty feet or more of the White Water Valley R. R. track Wednesday night, caused an indefinite delay of trains on that road.

M. H. Gear has been appointed manager of the sales of the new department of the Auto-Grand Piano company, which has been opened in Connersville. Ex-Township Trustee Trussler also has a position of like nature.

Mrs. Walter Lawson and daughter, Ruth, are visiting friends in Richmond.

Mrs. John Smith, and daughter, Miss Ella, have been in Indianapolis for several days, on account of the illness of the former's brother, Solomon Waltz.

## LIVED 152 YEARS.

Wm. Parr—England's oldest man—married the third time at 120, worked in the fields till 132 and lived 20 years longer. People should be youthful at 80. James Wright, of Spurlock, Ky., shows how to remain young. "I feel just like a 16-year-old boy," he writes, "after taking six bottles of Electric Bitters. For thirty years kidney trouble made life a burden, but the first bottle of this wonderful medicine convinced me I had found the greatest cure on earth. They're a godsend to weak, sickly run-down or old people. Try them. 50c, at A. G. Lukken & Co's.

Gambler's Superstitions.

A long French mail would appear to be popular as a mascot at Monte Carlo, for among the treacle and quaranté players it is much in evidence. Others, again, place confidence in the possession of a crooked coin. One man fixes all his hopes on a mummy's finger, a nasty looking bit of brown stick which he preserves with holy care as if it were the relic of a saint—Health and Home.

## KILLS TO STOP THE FIEND.

The worst foe for 12 years of John Deye, of Gladwin, Mich., was a running ulcer. He paid doctors over \$400.00 without benefit. Then Bucklen's Arnica Salve killed the ulcer and cured him. Cures Fever-Sores, Bolls, Felons, Eczema, Salt Rheum. Infallible for Piles, Burns, Scalds, Cuts, Corns. 25c at A. G. Lukken & Co's.

Coffee Beans.

Coffee grains are only the seed of a fruit which is very much like a cherry. It is very sweet and has a good taste. When the fruit is dried it shrivels up around the coffee grains, of which there are two in each one of the round balls placed with the flat sides together. Sometimes in the cheaper kinds of coffee these little dried balls are found with the two coffee grains snugly held inside.

Gold Medal Flour makes the whitest bread.

## WETS ROLLED UP GREAT MAJORITY

Laporte County Surprised Even the Most Enthusiastic Liberal.

FLOYD DID NOT SURPRISE

IT WAS EXPECTED THAT THE COUNTY WOULD GIVE WETS ABOUT THE SAME MAJORITY AS RESULT SHOWS.

Indianapolis, May 28.—Although it was generally conceded that Laporte county would go wet at yesterday's local option election, no one, not even the most enthusiastic wet, was prepared to hear that the wets had carried the county by the enormous majority of 4,427. When the word reached this city that this was the figure it staggered those who were listening for returns. It had been estimated that the county would go wet by probably 1,000, but it looks like nearly everyone voted one way. The total vote cast in Laporte county at the election last fall was 11,480. Of this number, Cox, democrat, for secretary of state, got 5,765, and Sims, republican, 5,615. This made a democratic majority of 150. In view of the fact that the wets carried the county yesterday by 4,427, it seems that party lines did not cut much figure, and that republicans and democrats alike, voted wet.

Successful Argument.

The argument that carried the day for the wets in Laporte county was that if the saloons were driven out of the county no more Sunday excursions would be run into Michigan City by the steamboat companies in the summertime, and the city would lose the \$350,000 a year of business that the excursionists bring to that place. This is what did it.

Floyd county was expected to go wet by about the majority it gave, 1,700. New Albany held the key to the situation. Harrison county did as expected, and went dry, thus forcing out of business, four saloons.

The results of the local option elections all over the state thus far prove that people do not pay any attention to party lines when it comes to voting on the liquor question.

Drys in the Lead.

Picking out the counties in which there have been hard fights at local option elections, and leaving out those that were already dry by remonstrance, it is found that the drys have been victorious in 18 fights and the wets have won in 9 of them. Of the 18 that have gone dry 11 are democratic counties and seven are republican. Of the nine wet counties six are democratic and three republican. This does not look much like it is either a republican or a democratic question.

WON'T SLIGHT A GOOD FRIEND.

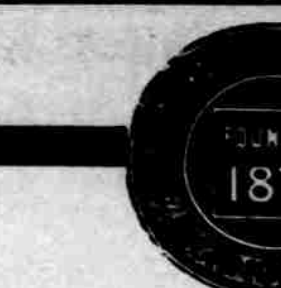

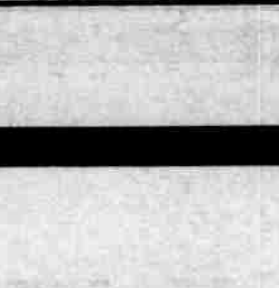

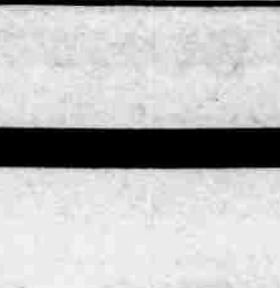

"If ever I need a cough medicine again I know what to get," declares Mrs. A. L. Alley of Beas, Me., "for, after using ten bottles of Dr. King's New Discovery, and seeing its excellent results in my own family and others, I am convinced it is the best medicine made for Coughs, Colds and lung trouble." Every one who tries it feels just that way. Relief is felt at once and its quick cure surprises you. For Bronchitis, Asthma, Hemorrhage, Croup, LaGrippe, Sore Throat, pain in chest or lungs its supreme, 50c and \$1.00. Trial bottle free. Guaranteed by A. G. Lukken & Co.

WHY THEY SUCCEED.

There is a disposition on the part of many who live in central and eastern states when they read of the marvelous returns secured in the growing of fruit in the mountain and Pacific coast states to attribute them almost entirely to meteorological conditions—to a sort of marvelous alchemy of air and soil that brings luscious fruit to a perfect maturity with little or no effort on the part of the grower. There is no denying that in the territory referred to climatic conditions are remarkably favorable to fruit growing. But coupled with this favorable environment is given a degree of painstaking care in the matter of the pruning and cultivation of the orchard and the spraying and harvesting of the fruit that is an eye opener to any one who is only familiar with orchard conditions which are to be found in sections of many central and eastern states. The western fruit grower is largely relieved of the anxiety of killing freezes at blossom time, entirely so of fall damage at picking time and of the killing of his trees during cold winters, and in so far fortune favors him, but his success both as to quantity and quality of fruit is by no means a matter of chance. He makes a business of fruit growing, attends to his business intelligently and carefully and succeeds. Were the methods he follows adopted by eastern orchardists their apple growing business would be revolutionized.

LIFT THE HERD STANDARD.

Some dairy papers of the country, with a view to arousing a greater interest in a more intelligent type of dairying, are offering generous prizes to the owners of cows which make the best butter record during a period of twelve months. This is good as far as it goes, but it seems to put a premium on exceptional individual merit rather than average herd performance, which is the thing that really needs boosting. It is not so much the location of cows which already have a better capacity of 700 to 1,000 pounds which is going to uplift and make American dairymen more profitable as the raising of the better output of whole herds from 150 to 250 pounds. Let the editors of these progressive dairy papers offer \$1,000 prizes for best herd performance, and they will be doing something that will

RICHMOND is not experiencing a boom, but a rapid, healthy growth, due to a steady industrial betterment, the presence of railroad facilities, prosperous interurban, natural beauty and far-famed progressiveness. There is no more prosperous city in the United States than Richmond, none growing faster or which gives evidence of greater promise, either as a city of homes or as a manufacturing city, and none better as a College center.

HIGHLAND ADDITION has been opened, not way out in the country, but near the very center of the city, on National Avenue, and on the city car line, and in line with Richmond's greatest growth. There is no prettier or more desirable locality in the city, and just across the street from Earlham College.
