TONIGHT MARKS THE OPENING OF ART EXHIBITION

General Public Is Invited to Attend and Become Members of the Enterprising Organization.

GARFIELD BUILDING AN ANIMATED PLACE

Everything Was Hushed and Bustle There Today—Prize Awards Will Be Announced This Evening.

The thirteenth annual exhibition of the Richmond Art association will open tonight. Around the Garfield building there is the greatest activity. Here are men carrying tables—there others are tacking burlap—pictures everywhere. And in a back room the jury of awards are having their troubles in deciding which pictures deserve the prizes.

But in spite of this apparent confusion—the exhibition will be in perfect order tonight—in fact things are farther along in the converting of a school building into an art gallery, than they have been at any of the twelve previous exhibits at a corresponding period.

Tonight when the exhibit is thrown open it is expected that the show of beautiful things will exceed the expectations of the citizens of the town.

There has been a misunderstanding in previous years," said Mrs. Johnson, the president of the association, "about the first night. It is misinterpreted that this night is for members only. But in reality it means that the whole public is invited to come, and become members of association. It is by a large membership that the association can accomplish things—such as the bringing of really good pictures and the like to Richmond. We are especially anxious to increase our membership this year on account of the terms of the conditions of Mr. D. G. Reid's gift of \$500 to the association. It is by our membership that we hope to raise the money which will enable us to take advantage of his generous offer. We feel confident from the reports that are coming in, that there will be a large number of people here tonight who are enough interested in having good pictures in Richmond to become members of the Art association."

Program for Tonight.
Tonight the Domestic Science club, which is the committee on reception, will have charge of the entertainment of the members of the association. Light refreshments will be served and the high school orchestra will furnish music. The announcement of the prize winners by the jury of awards will be given at eight-thirty. The jurors are Walter Marshall Clute of Chicago, George Julian Zolnay of St. Louis, and E. T. Hurley, of Cincinnati, all of whom are well known artists of national reputation. In addition to this William Dudley Foulke, S. S. Stratton, Jr., T. A. Mott, Mr. Zolnay and Marshall Clute, will make three minute addresses. It is probable that S. S. Stratton, who will represent the school board, will make some announcement concerning the new high school and the art galleries which will be built in it.

Meredit Dodged ELKS' CONVENTION
Sheriff Was Fearful of Strike Situation.
Sheriff Meredith is not a very good walker, so he says, and for that reason did not go down to Evansville to attend the Elks convention. The sheriff was at Jeffersonville yesterday to take Harry Clark, the youthful forger. He had intended to go to Evansville but as the strike continued in progress he was afraid to risk a visit. Clark did not break down perceptibly when he came in sight of his future home behind the high walls.

"I suppose," said the visitor, "it's like pulling teeth to get any money out of your husband these days?"
"Oh," chimed in little Tommy before his mother could speak, "ma don't have any trouble pulling teeth. She just takes 'em out and puts 'em in a glass."—Philadelphia Record.

ADENOIDS.

The Way These Growths Endanger the Health of Children.
Adenoids are curious little cauliflower-like growths which appear at the junction of the nasal cavity and the pharynx. They are often observed at birth, but they seldom cause discomfort until some months later. Then they interfere with respiration and cause the baby to be restless. It tosses in its sleep and wakens suddenly, crying out as if in distress.

If adenoids are permitted to remain they deform the mouth, teeth, throat, chest and face. At their worst they produce pop eyes and what is called a frog face. They cause mouth breathing, with all its attendant evils. They open the way for a hundred and one ills, from rupture of the eardrum, running from the ears, coughs and tonifits to pulmonary tuberculosis.

A slight operation suffices to remove them. The baby suffers little pain and loses little blood. Out they come, and with them the overgrown tonsils that commonly accompany them. If they are suffered to remain they may never be discovered. But it is certain that in one way or another, directly or indirectly, they will cause damage.—Dr. Leonard Keene Hirschberg in Delineator.
