Medical Science is Victor Over Dread Spinal Meningitis

Chicago, July 2.—The first entirely successful cure of spinal meningitis ever recorded in Chicago became a matter of fact yesterday when Edward Herzog, 2 1/2 years old, was able to leave his bed where he had been confined four weeks and walk out of doors, pronounced cured.

Dr. Frank Walls, specialist for children's diseases, assisted by Drs. A. K. Warner, E. D. Chase and W. M. Waterman are given credit by the parents, Mr. and Mrs. Herman Herzog, 1247 Wilton avenue, for their prompt and daring work to save the child from death. The child was saved as a result of the discovery of a new serum by scientists in the new Rockefeller Institute at New York, which was founded a short time ago for the purpose of searching for and perfecting a cure for spinal meningitis.

The Herzog child was stricken at midnight four weeks ago last Sunday. He had been riding with his grandfather, Edward Kirchberg, a State street jeweler. When Mr. Kirchberg and the baby came into the house on Wilton avenue in the evening the child was noticed to be gasping in an effort to breathe.

He was put to bed and at midnight was taken with a convulsion. Dr. Warner was first summoned. He recognized the symptoms of fatal spinal meningitis. He called in consultation Drs. Waterman and Chase. The three doctors tapped the boy's spine and with a specimen of the secretion, hurried by automobile to St. Luke's hos-

pital. At midnight analysis was made and the disease pronounced an acute attack of spinal meningitis.

Dr. Walls was then hurriedly summoned. Dr. Walls had kept abreast with the discoveries made in the Rockefeller Institute in New York. He was able to prevent a second convulsion and telegraphed for some of the new serum which is extracted from pure blooded horses. Immediate attention was given the demand of the Chicago physician.

A special horse was picked for the purpose of the operation and the serum brought to Chicago by an employee of the institute. The child was rapidly sinking when the first operation and injection was made.

At once the wonderful new cure showed signs of effect. The pulse of the dying child became stronger and became released from the partial paralysis that seemed to grip him.

Four times a day for four days the boy was placed under the knife and serum from the horse forced into his body. On the fourth day the full effect of the cure seemed to have reached its climax and the injections were discontinued.

Yesterday he went downstairs by himself and walked out into the yard and sunshine. He was pronounced cured. Three days ago Dr. Walls, who was elated at the success of his treatment in fighting the usually fatal disease, made hurried preparations and left for Scotland for its further study. The cure of the young child will be

heralded by the medical profession as a victory for American science.

NO BASEBALL SCRAP

Milwaukee, Wis., July 2.—The purchase by Charles Haveron of the property on Chicago north side, declared to be in behalf of the American association, is said to be a war measure. The fact that the association has one of the best base ball sites in Chicago will be used as a club over the National and American leagues and when the association next makes a demand for concessions from the majors the threat to invade their territory will be made of the demands are not granted. At present it is said there is no definite intention on the part of the association to put a club in Chicago.

Tommy's Career.
"Tommy," asked the visitor, "what are you going to be when you grow up to be a man?"
"I'm going to be an arctic explorer," responded the bright little boy, "and now will you give me a quarter?"
"Gracious, Tommy! What do you want with a quarter?"
"I want to get five ice cream sodas and find out how much cold I can stand."—Chicago News.

Chester Lads Have Novel Way Seeing Union City Sweethearts

Ind., July 2.—"Love letters," and by the same token, the love also laughs at railroads. Chester lads don't care a rap whether it rains or not. It is going to rain, they even if it has to ride the passenger train to do so. Does Miss Affinity seem to be coming? The comes, just so he comes.

This was in this city the other night in a striking manner. Two well-known men of Winchester, Ind., who were in the city and who were conjoined by the way, were at least one of them returned to the objects of their devotion. Big Four passenger train No. 43 was due here this morning. Here they encountered Big Four Detective. Waiter, on the lookout for the four larks, was to retire to a dark corner and wait for an earnest consultation. Detective pulled up and down the street, but he saw no suspicious person unless he came to see their best. They were expected by any line of "deduction" to get a clow. Then they were in rapid fire.

order. The train started. One of the young men enfolded his girl in his arms, killed her with a smack that not even the puffing and groaning engine could drown and the next instant Romeo had climbed up and in between the tender and baggage car without the aid of a rope ladder, while the girl fastened her tender glances on the rapidly narrowing and disappearing sack between the baggage car and tender which, for her, contained all that made life worth living for, even if he didn't have the price of his car fare.

Detective Waiter, with a "foiled again" look on his face turned to the amused spectators who had witnessed the tender and at the same time somewhat strenuous scene and said: "Well, by hug! That's a new one on me."

TROUBLES FOLLOWED

They Descended Upon John Widau After Marrying Mrs. Minnie Weyl.

IS DEFENDANT IN SUIT

The next day after he married Mrs. Minnie Weyl of this county, troubles began to descend about John Widau, a prominent Rush county farmer. They are not difficulties of a matrimonial nature, however, and the happiness of the new Mrs. Widau does not look in danger of being impaired. Widau is named as defendant in a suit filed Wednesday in the Rush circuit court to set aside conveyance and quiet title to real estate. The suit has grown out of a deed recorded before the death of Widau's former wife and a \$40,000 estate is involved. It is alleged that Widau induced his former wife to sign the deed conveying the property to him and that fraudulent methods were used.

Y., and a daughter of a well known merchant of that city, from her husband, W. M. Turner, a prominent merchant of New York city. The grounds of action is alleged desertion and failure to support.
