## ROMEY BROTHERS GOOD EXAMPLES

Popular Furniture Dealers Have Shown What Young Men Can Do.

### TELL THEIR EXPERIENCE

WILL ROMEY STATES THAT RICHMOND PUBLIC HAS CHANGED ITS OPINION RELATING TO YOUNGER GENERATION.

Will Romey of the Romey Furniture company was talking the other day about the young man in business in Richmond.

"When my brother and I came here about four years ago we were the only firm in town in which there was any really young blood in actual control. "Now it is different. The people here in Richmond have changed their ideas about young men in business. In the last four years, in a remarkable fashion. All over the country there are more and more young men in responsible business positions. This has been due to the fact that what is wanted now is results. If a young man can show men are in business for themselves—if they are efficient, they get the trade. In other words the old fashioned prejudice, born of extreme conservatism, is giving way. "It frequently happens that young men are more capable, simply because they are quick to take up modern methods. Modern business has to be conducted on an entirely different basis. The extension of many businesses simply means in many cases that there is so small a margin of profit that the business must be a large one. "In the past year I can see changes in the whole town as far as the young man is concerned. In my opinion it is the best thing that can happen for the town."

### T. P. A. Notes

(By T. C. Harrington)  
"Picnic," did you say?  
It seems there are a few dead bones left. Can't some one bury these dead ones.

John Highley, one of the most popular members of post C has been taken to Spiceland in a helpless condition due to rheumatism. John has been off the road for two weeks and his condition is bad. He has the sympathy of the entire post in his sickness. We all trust he will be himself in a short while. Mrs. Highley is with John to aid in nursing and to

see that our friend receives the best of attention.

James Lewis, Charles Pierson and Frank Parsons will leave July 9th for Sand Lake, Mich., to spend a couple of weeks fishing, boating and doing a few other side stunts. He expect to hear some wonderful tales from these mighty fishermen when they return. Their wives will accompany them to do their best in keeping things straight.

Has anyone around post C heard from the genial chairman of the social and entertainment committee? All the boys around the club rooms are waiting with anxious expectation to see something done in the picnic line. Mr. Chairman, get busy. Don't kill the whole deal because the affair can't be arranged just exactly according to your own ideas. We are all confident you have the ability to show us one of the best times ever, so please, Mr. man do us a little kindness, also the ladies and children, and we will be sure to vote you the best fellow ever. Summer will not last all year, so step lively, please.

Roy Brown is looking elegant in a brand new hat, but he swears by all that is good that his neg headgear is four years old. Roy is a little too modest. All members of Post C are hereby notified to be on the outlook for one Mr. Frank Highley. Any member might pass Frank a dozen times and never know such a fellow to be with in a hundred miles. He showed up at the club rooms this week with his beautiful mustache a thing among the missing. With his increased weight and his facial disfigurement, Frank is hardly recognized as his former self. He formerly was classed in post C's beauty chorus, but president Quigg says such will no longer be permissible.

Warning to all good T. P. A's:—Don't hold your firecrackers, too long.

Don't light the wrong end of your skyrocket and stand the same upside down.

Don't try to show the children too many things you used to do when you were a boy.

Don't fool with something you know nothing about.

Don't fail to notify Chairman Heger of the sick and relief committee, as he has prepared a large supply of ready reliefs.

Plans have been completed for the closing banquet of the Indiana Democratic Traveling Men's club and the same will be held Saturday, July 17th at the Denison Hotel, Indianapolis. P. J. O'Meara, national president of the T. P. A., has accepted an invitation, to be present and will speak at the banquet. United States Senator Shively, Congressman Korbly and Governor Marshall will be among the other speakers.

The social and entertainment committee will meet but the exact time is not stated by the chairman.

It looks as if it were another vote of the "wets" and the "drys."

The new passenger depot of Greensburg, Ind., built by the Big Four Railroad is completed and is now being occupied. The new station is a little beauty and is thoroughly appreciated by the traveling public. One sad result of the new depot is the passing of the famous chicken sandwich for which Greensburg has so long been noted. We hope this sandwich will not disappear permanently.

Will Mr. Heger kindly look over the program of the Marion picnic. Of course we don't want him to imitate our friends in post C and we couldn't if we would, but he might gather some little information that would be a little stimulating.

The proposed change in the terminus of the J. M. & I. railroad, making Richmond the terminus in place of Cambridge City, is one of much interest to all members of post C. The change is something a few members have been talking for ten years past and to these members especially will the change be of great benefit. It will enable all the boys using this road to go in and out of Richmond without a change of cars at Cambridge City, which is always accompanied by more or less annoyance. Not only will the passenger trains run into Richmond, but all the freights will go through without any transfer. Both local and through freights will run direct and this point above will be of considerable importance to those selling and shipping goods out of our city. Prompt deliveries of goods is what is demanded now days and the fewer delays and transfers, the better for prompt service. Richmond will gain considerable prestige by the change which is another boost upward. The change will go in effect about October 1st.

## MORSE IS HONORED

Bath, Maine, July 3.—Charles Morse, the dethroned ice king, who was released from the Tombs in New York, under bail, is today the most honored person in Bath. All day the old homestead where Mr. Morse was born, and where he passed many of his early years, has been the scene of rejoicing. Congratulations have been showered upon him and his wife, whose efforts resulted in the freeing of Mr. Morse from a cell, and who, with their son, Evan, accompanies him. Mr. Morse came home from Boston, where the midnight train brought him from New York. He visited the office of a prominent banking house on Congress street, Boston, Mass., leaving there to go to the Exchange Club for lunch as the guest of a prominent Boston broker.

## DISASTROUS STORM

Winnipeg, Man., July 3.—Three persons were killed and more than thirty injured by a tornado which passed over Gainsboro, Sask., Friday afternoon. It became known today.

## JAPANESE SENTENCED

Tokio, July 3.—Twenty-three Japanese politicians, members of the Diet, received sentences today following their conviction of complicity in the sugar graft scandal. Five were sentenced to ten months' imprisonment, four to seven months, five to five months, and nine to three months.
