NOW IS THE TIME.

Richmond is Panic Proof.

If you believe in this city's future, don't forget to make it known by investing in city property or Wayne County land.

If this proposition is not to your liking, go to Texas. We have some of the finest Gulf Coast Land to be had from \$12 to \$18 per acre for raw lands. Cultivated land from \$18 an acre up.

If you are not satisfied with Texas, then we will send you to Wyoming where the land is all irrigated. Very productive soil—\$35 per acre including perpetual water rights.

And then, if you can't be satisfied in the Wyoming land, will try and induce you to go to North Dakota, a rich portion of God's domain where cattle grow sleek and fat, people are happy and contented, making money and homes. The great Missouri furnishes plenty of water, while its contributing streams cover the whole country. Land is fine and cheap.

Now, then, if after looking over the field in the United States, and can't be satisfied, we will send you to King Edward's country where the virgin soil will produce such crops that you will be astounded. The great Saskatchewan wheat country of Canada is unsurpassed.

Come to the office and talk these matters over.

He—The mayor is going to be married again.
She—Why, when his good wife died he said that the light of his life had gone out.
He—There's no reason why he should not strike another match, is there?
Illustrated Bits.

A bright little fellow was taken to a barber shop for the first time to have his hair cut, and, as the barber was in a distant part of the shop for a few moments, the small customer said in lowered tones to his father: "Papa, you must tell the man that I am not to be shaved."—Delineator.

There is no medicine so sure and of the same time so pleasant to take as Dr. Caldwell's Syrup Pepsin, the positive cure for all diseases arising from stomach trouble. The price is very reasonable—25c and 50c.

Gave Napoleon Advice.
Napoleon Bonaparte had no more devoted and disinterested friend than Gaspard Monge, the illustrious academician and founder of L'Ecole Polytechnique. On one occasion he demonstrated his regard by giving the great general some unbecoming advice.

Napoleon announced his intention of reading a paper to the French Institute. Monge frankly expressed his disapproval of the plan.

"You have not time to write a good paper, and you cannot afford to write a poor one. The eyes of the world are upon you. Whatever you write will be severely criticized."

Napoleon was astonished and indignant at this plain speaking, but he never wrote the paper.

"I will soon lie with my forefathers," exclaimed a blustering orator.

"Yes," interrupted an auditor, "and give them points at it too."
