

**SEN. BEVERIDGE  
MADE NO SPEECH**

Content to Vote Against the Tariff Measure Without Making Explanation.

**HE PREDICTS A CHANGE**

SAYS NEVER AGAIN WILL TARIFF SCHEDULES BE PREPARED AS WAS THIS ONE—PRESIDENT IS CHEERFUL.

Washington, Aug. 6.—Senator Beveridge did not participate in the speech making on the closing day of the special session. He contented himself merely with voting against the tariff report, which he did in a firm voice.

In conversation with senators he explained that he did so as a protest against those schedules of the bill which do not carry out the party's pledge for revision downward and also as a protest against the iniquitous methods of barter and trade by which tariff bills are now framed.

He was emphatic in predicting that never again will a tariff bill be passed without the aid of a tariff commission.

The Indiana senator's vote against the conference report has not disturbed in the slightest, and will not disturb, the cordial relations that exist between him and the president. There is a very strong belief in Washington that if Mr. Taft had been a senator he would have voted against the conference report. As president he could not vote it without bringing about a condition of chaos in the party.

President is cheerful.

When President Taft was at the capitol this afternoon he greeted the Indiana senator with a warmth that was noticeable in the manner in which he accosted several of the senators who voted for the bill. They had a pleasant chat together. When Senator Beveridge started to leave the president slapped him on the back and said:

"Good-by, old man."

Senator Beveridge did not offer his anti-tobacco coupon proposition as an amendment to the concurrent resolution to correct the boot and shoe joker, as he had intended. He found that since the tobacco legislation will not take effect for one year there will be ample time next winter to introduce and urge the adoption of an anti-coupon provision, and he was afraid that if he insisted on pressing the matter to a vote now he might jeopardize the passage of the concurrent resolution and thus block the way to a cheaper tariff rate on boots and shoes.

Representative Crumpacker was among the president's callers today. They discussed the tariff situation at length.

**TALLEST SUNFLOWER**

Milton Claims Distinction for Growing This Plant on Building's Top.

**HOUSES TANING IS NEEDED**

Milton, Ind., Aug. 6.—Milton can now compete with Greensburg and its tree growing on the top of the court house. A sunflower about six feet tall is growing and blooming on the fire walls at the top of the Masonic hall at Milton. There are several thrifty stalks, but one is in full bloom. It is supposed that the English sparrows that have feasted from the sunflowers planted by W. E. Booth in the near vicinity, have carried the seed and dropped it on the walls, where dust and dirt has accumulated to an extent that the seeds took root and grew. It is quite a curiosity. Along the top of the walls may be seen a lot of wild grasses and weeds also growing.

**ENTERTAINED SOCIETY.**

Milton, Ind., Aug. 6.—The Rebekah Aid society of Cambridge City, was entertained by Mrs. G. A. Borders yesterday afternoon. The ladies present were Mesdames Carl Boyd, George Roby, George Babcock, John Guyton, Guyton, Alva Harmel, Pike, Griffith, Mart Bowman, Lee Pitman, Rummel, Charles Driggs of Cambridge City, Mesdames J. B. Murley, Elizabeth Kimmel, Alverton, Alice DuGranrat and Miss Rosalie Keever. The ladies put in a pretty quilt and did a day's work on it. Mrs. Borders served a luncheon of California cherries, cake, chicken sandwiches and iced tea.

An ingenious fraud in the butter line was brought to light recently in England. In that country the amount of moisture in butter is limited by law to 16 per cent. Australian and New Zealand butters, on the other hand, usually contain only 8 per cent. of water. Taking advantage of this fact, several firms imported large quantities of these colonial butters, to which 8 per cent. of water was then added, thus bringing them down to the British standard. As the added water naturally cost nothing and the product was sold at the current butter price, a substantial profit was made.
