

ANOTHER ADVANCE TO BE MADE IN CLOTHING PRICES

**Aldrich-Payne Tariff Law Will
Cause Difference of Three
Dollars in Price of Cheap
Clothing.**

**CLOTHIERS INTEND TO
KEEP UP THEIR FIGHT**

**They Do Not Intend to Aban-
don Their Campaign Until
The Rates on Wool Are
Lowered.**

(American News Service)
Washington, Sept. 13.—The National Association of Clothiers has come along with another notice that after clothing stocks that were purchased before the enactment of the Aldrich-Payne bill have been disposed of there will be a sharp increase in the prices of all grades of clothing to the consumers. This last announcement reiterates that, beginning next spring, the wearers of ready-made clothing in the United States will have to pay about \$120,000,000 more for this grade of clothing than they have paid this year. The manufacturers say the prices of the cheaper grade of ready-made clothing will be advanced from \$2.50 to \$3 a suit. This increase in cost will fall on the consumer and on no one else, they say, for the manufacturer, the wholesaler and the retailer will fix their prices so as to make about the same margin of profit as before.

Four Grades of Suits.
The association's announcement says that actual experience shows that dollar-a-yard cloth produces four grades of suits, classified and retailed generally as follows:
"Cheap," at \$10; "medium," at \$12.50; "good," at \$15, and "fine," at \$18 to \$20, the difference being in the way the garments are trimmed and tailored. Thus cloth costing \$1.25 a yard which is the price demanded by the cloth manufacturers for the spring of 1910, will produce "cheap" suits to retail at \$12.50, "medium" at \$15, "good" at \$18 and "fine" at \$22 and \$25. Therefore, a 25 per cent. advance in cloth results in the same per cent. of advance in the garment. Members of the National Association of Clothiers say that devoted of technicalities, the question of the operations of the wool schedules in the Dingley bill, which were adopted by the framers of the new tariff, resolves itself into this inevitable result: A deterioration in the quality of cheap clothes through a larger mixture of cotton and shoddy, and a decrease in the weight of such clothes.

Fresh Interest in Tariff.
This new announcement from the clothing manufacturers considered in connection with intimations from Beverly that President Taft intends to attack the wool schedule on his forthcoming western trip lends new interest to the tariff situation. The clothing manufacturers are out for a fight. They declare they do not intend to abandon their campaign until the rates on wool are readjusted so that the lower grade shall be placed more nearly on a par with the higher grades. That is what Senator Dooliver and the other progressive senators sought to accomplish at the recent session. The clothiers assert that when this change is made—and they want the president to insist that it shall be made—the

AT THE THEATRES

"The Man of the Hour."

There ought to be the heartiest kind of a welcome for George Broadhurst's great American play, "The Man of the Hour," which comes to the Gennett Wednesday matinee and night. The play is not among the novelties of the season, but it was found to possess such excellence on the occasion of its previous visits here that it will justly rank as a stronger attraction than many of the things that are untried and unknown. "The Man of the Hour," is essentially an American play, redolent of the soil and appeals strongly to those who admire and respect the rugged virtues. It is of a class of productions which have more than ephemeral vogue, inasmuch as it illustrates familiar and comprehensible types of humanity which compel admiration and a degree of interest which the more sensational and lurid heroes of stageodom cannot evoke. It plays its part as a missionary in uplifting the drama to better things. Its theme is new, its characters sturdy and original; its tone is clear and it develops the better side of mankind. The success of "The Man of the Hour" and it is an unquestioned success—is wholly due to its naturalness, it is so true to life that it doesn't seem like a play.

Yonder Stock Company.

The Yonder Stock Co. who opened their engagement in this city Saturday played to two good houses on the day. The opening bill was "At Cozy Corners" and a very good production

poor man will be able to purchase durable clothing at reasonable prices, and not, as under present conditions, be forced to wear clothing made of cloth of inferior quality at steadily advancing prices.

DERIVATION OF BIBLE

**The Word Comes from Greek,
Meaning "Little Books."**

The word Bible is derived from the Latin name Biblia, which was treated as a singular, although it comes from the Greek neuter plural, meaning "little books." This Greek diminutive was derived from byblus, or papyrus, the famous material on which ancient books were written. The title "Bible" was first used about the middle of the second Christian century in the so-called second epistle of Clement (xlv.2).

ARE TO GUARD CZAR

St. Petersburg, Sept. 13.—Five hundred secret police have been drafted in the Crimea to guard Czar Nicholas during his stay at the imperial villa at Levadia. In addition to these, secret government agents who will protect Levadia and neighboring towns, military guards have been thrown along the railroad line. Special police will be quartered on both the inside and the outside of the villa and torpedo boats will patrol the coast. The police are scrutinizing every person who arrives at Yalta, a neighboring health resort.

of it was given. Miss Lawrence as Claudia held the attention of the audience from the rise of the curtain to the fall. This company will be at the New Phillips all winter, changing the bill twice a week on Mondays and Thursdays with a special ten cent ladies' matinee on Wednesdays and Saturdays. Ladies will be admitted free on Mondays and Thursdays under the usual conditions.

"Williams' Imperials"

The attraction billed at the New Phillips Theater for Saturday, Sept. 18th is "Williams' Imperials," which name is a synonym for fun and jollity. The main part of the entertainment this season is a merry two-act comedy which has been named "The Imperials Abroad." It finds plenty of work for Harry L. Cooper, the favorite German comedian, Helen Almorah, prima-donna and Violet Hilson, the soubrette and their clever associates.

There is no attempt at plot, simply rapid fire laughter all the time, unless it be during the gyrations of the young and charming chorus girls.

An olio of vaudeville specialties by people who take care that the interest is not allowed to lag, will include Clara Raymond and Corinne De Forest in a novel "Sister" act; the "Irish-American Trio," in a comedy singing sketch, named "Broadway at Times Square"; Joseph P. Dolan and Violet Hilson in a lively singing and dancing skit; Senorita Korenah, the famous Spanish dancing beauty and Zazel's artist's models in a series of beautiful living pictures.

WANT ARBITRATION

(American News Service)
Chicago, Ill., Sept. 13.—Official notice that the street railway companies have no further offer to make to the employees and desire immediate arbitration of the wage question has been given to Wm. D. Mahon, international president of the employees union, by John M. Roach, president of the Chicago Railways Company. Thomas A. Mitten, president of the Chicago City Railway company is in New York, but is said to have telegraphed President Roach to take this action.

Arrangements for arbitration may be made after the return of Mr. Mitten Monday in a joint conference of traction and union officials. The union men insist that they will arbitrate only for a contract of one year.

FIGHTS WITH SNAKE

Winsted, Conn., Sept. 13.—Napoleon Langevin of Lantern Hill, is recovering today after being near death for four days following an encounter with a copperhead snake. He thus described his sensations:

"I knew everything that was going on, and when a chicken was killed and the fresh warm flesh put on the wound I knew all about it. I felt no pain, but seemed like some one in a dream. While the doctors thought I was unconscious I heard and recollect every word they said. I felt no pain from the cutting or from the treatment."

"The doctors said, 'If we can keep him alive for three days he may recover.' I began to keep track of the days and my one thought was I want to live and must live." When I found I was on earth at the end of the third day I was glad."

DECORATE STREETS

New York, Sept. 13.—Evidence of the near approach of the Hudson-Fulton celebration is given in the beginning of work on the street decorations all over the city. Among the most imposing will be thirty-six pillars in Fifth avenue between Fortieth and Forty-second streets, the erection of which is now under way. The principal scheduled events are the rendezvous of foreign and American war vessels. It is roughly estimated that approximately 800 vessels will participate in the events of the opening day, September 25.
