Foster and Reller will play the finals next Saturday. Prizes will be given these two men for their fine work, one to be presented to the winner and the other to the runner up. The nature of the prizes is kept a secret from the members.

MINISTERS KICK ABOUT NEWSBOYS

Divines Claim Little Street Merchants Are Sunday Disturbers.

ANNOY THE WORSHIPPERS

MINISTERIAL ASSOCIATION AT THE PRESENT TIME WILL NOT TAKE ANY ACTION ON SUNDAY QUESTION.

Complaint was made by a number of ministers this morning at the Ministerial association meeting, Y. M. C. A., about the newsboys calling out the names of the different Sunday papers on Sunday morning and disturbing the church services. An ice cream vendor, who is also in the habit of visiting the residence districts on Sunday mornings, came in for the same complaint. The matter was referred to the committee on Sunday observance. The Ministerial association will not take any decided action for Sunday observance at the present time because the members are still suffering from the humiliation of their failure in an attempt to close the butcher shops last winter.

The matter of filling the pulpits with visiting ministers attending Indiana Yearly Meeting, was left to Rev. Allen Jay. He will make an announcement later as to who will occupy the pulpits.

It was announced that the life of George Fox would be the subject of a paper by Rev. W. M. Nelson, pastor of the Grace M. E. church next Monday.

STRUCK BY AN AUTO

Horace Ralston, colored, aged about 24 years, was struck by an automobile on South Eighth and E streets this morning and sustained a broken collar bone. Ralston was in the act of helping his wife on the street car and was just turning away when the machine hit him, throwing him with considerable force against the curbing. The occupants of the car did not stop to learn the extent of the man's injuries but hastened away before their identity could be ascertained. Ralston was removed to the hospital and later taken to his home on North Fourteenth street, where his injuries were given medical attention.

TRADE INSTRUCTION.

Labor's Educational Committee Wants Mechanics Taught in Schools.

An official report regarding the aims and objects of the committee on industrial education of the American Federation of Labor has been made by John Mitchell, chairman of the committee.

The movement, it was stated, is not a trades union movement particularly, but is the first of the kind started by the American Federation of Labor. Chairman Mitchell says in his report:

"National associations for the promotion of industrial education have been started from time to time, but this is the first time the American Federation of Labor has gone into the subject exhaustively and finds that many manufacturers because of the specialization of the different departments of the trades find it very hard to get competent superintendents, owing to the difficulty of finding all around mechanics who have learned everything about any particular trade.

"We will agitate for the teaching of the principles of mechanics in the public schools. The high schools, for instance, teach pupils how to prepare for the professions, but as there are more people in mechanical trades than in the professions they should also, we believe, teach the principles of mechanics.

"A man, for instance, may know that a joint at a certain angle is stronger than at any other angle without knowing the reason why. Another man will know why that joint is stronger. This man will be more valuable than the first man. Ambition to excel would be stimulated if mechanics had a better opportunity of knowing the principles of a trade as well as learning one branch of a trade in a routine way. In the end this would be better for both employers and employees.

"A number of recommendations on the subject will be made at the coming meeting of the committee in Washington, which will be submitted at the next meeting of the American Federation of Labor for approval before we ask for legislation on the subject."

THREE THOUSAND UNHAPPY "KIDS"

Schools Opened This Morning After a Long, Joyful Vacation.

MARKS A SMALL INCREASE

GARFIELD AND HIGH SCHOOL BUILDINGS ARE VERY MUCH CONGESTED—OUTLOOK IS VERY FAVORABLE.

The public schools opened this morning for the fiscal year 1909-10 with a large attendance and under circumstances which speak well for their success. The total attendance is not definitely known, but is estimated at 3,000, which is a small increase over the total attendance of last year.

The especially pleasing feature of this year's opening, is the large number of students who are just entering school. It is from this source, that the small increase is due. The attendance at the Garfield and high schools is especially gratifying.

Two Schools Crowded. These two schools are operating under difficulties because of the large attendance. Both schools are overcrowded, conditions which can not be rectified until the new high school is completed. A number of the other schools are also well filled and it may be necessary to make transfers in order to accommodate some of the pupils in the grade schools best.

Garfield school, North Eighth street, was the only about which there was a question as to whether it could open on time. Although the school will be much disturbed by the noise of the workmen on the new high school building, adjoining, the school will be continued just the same. Many minor improvements were made in the school buildings during the summer and they are now in the best of condition.

Mills, a merchant, whose place of business is near Greene, Ohio. The suit was filed this morning by Will Reller. The total amount of Mills' claim is \$900. It is averred in the complaint that Corola purchased merchandise from Mills when the camp was situated near Greeneville.
