AN HONEST MAN SAVED BY A PHILANTHROPIST.

Mr. T. A. Morgan, of Hammond, Ind. had suffered for years with his stomach and kidneys, and while the great Root Juice scientist was proving the merits of the Root Juice remedy to the people of northern Indiana, Mr. Morgan purchased six bottles of the Juice and while it was being wrapped up, he said: "If Root Juice cures me I will make the scientist a present of one hundred dollars." A short while ago Mr. Morgan called on the scientist and said that he could eat anything without the slightest inconvenience and that his kidney trouble was entirely cured. He wanted the scientist to take the one hundred dollars, but it was refused. However, it was agreed to give the money to an orphan asylum. So Root Juice is not only curing the sick, but in this instance will be the indirect means of caring for some dead mother's child. Root Juice has proved its wonderful merits to many people of this point. From the very start it seems to soothe and heal the linings of the stomach and bowels and strengthen the liver and kidneys, thereby giving nature a chance to, in her own way, throw off the impurities of the blood. It is a wonderful medicine, sold for \$1.00 a bottle or three for \$2.50, at A. G. Luken & Co.'s drug store.
