

The Railroad Store Joins Heartily in the Festal Spirit of Carnival Week, and Announces a Great Carnival Sale of New Fall Merchandise

First of all, we extend a hearty welcome to all visitors to Richmond during Carnival Week and cordially invite them to make this store headquarters—to freely use all its conveniences and enjoy the inspection of the magnificent Fall and Winter stocks which we have assembled.

For weeks we have been buying and planning with this occasion in view—concentrating all our efforts to the end that we might present values in all Departments which would give striking evidence of the superior economies of this store. Our success has ever exceeded our most sanguine hopes, and we have here for you a host of remarkable bargains in the choicest, freshest, most dependable and desirable merchandise.

All Departments Contribute to the Splendid Bargain Offerings of This Great Carnival Sale

and the opportunity is yours to fill all seasonable needs in appareling, dry goods and home furnishings of all kinds at the most pronounced and unhoisted price savings. Welcome! Welcome all! Whether you come to SEE or BUY, we promise you the most hospitable welcome.

When you look at Clothes you are influenced to buy what you see, but the part you can't see is where the real value is—**DEPEND ON IT!**

Our Correct Clothes, ready-to-wear, are right, the part you can't see is right—the hidden workmanship, the interior trimmings. Come in and inspect our special creations for Fall and Winter wear. Better values do not exist at

Our Price \$10

Ladies' \$15 to \$16.50 Suits and Coats \$12.50
Ladies' \$18 to \$20 Suits and Coats \$15.00

IT CURES ASTHMA WITH HYPNOTISM

Hahnemann Hospital Is Using This Course in Nervous Diseases.

PATIENTS MUST CONSENT

PHYSICIAN STATES THAT REPORTS OF CRIMES OF SOME PEOPLE ARE COMMITTED BY HYPNOTISM IS IDIOTIC.

Philadelphia Oct. 2.—That hypnotism has been used successfully in this city for several years in the treatment of many cases of nervous disorders though never without the knowledge and consent both of the patient and of the members of the family became known after the publication in the Journal of Psychology of a report presented by Dr. Charles D. Fox of 2126 Pine street. The particular case with which Dr. Fox's report dealt was that of a lawyer from this city, designated only as Mr. X., who, Dr. Fox said, had been cured of asthma by hypnotism:

ITEM WELCOMED BY MANY MEN

This recipe can be filled at home, the only name known of another's practice, as the ingredients can be obtained separately at any well stocked drug store. They are in regular use and many different prescriptions are constantly being filled with them.

This will prove a welcome bit of information for all those who are overworked, gloomy, despondent, nervous, and have trembling hands, rapid palpitation, dizziness, cold sensations, insomnia, fear without cause, timidity in venturing, and the inability to think clearly and rationally as others do, because the treatment can be prepared secretly at home without, any one's knowledge.

Overworked office men and the many victims of society's late hours and dissipations will, it is said, find the restorative they are in need of.

The restorative to try it, mix three ounces of ordinary syrup, sarsaparilla compound and one ounce compound fluid essence cardiol and one ounce tincture calomeno compound (not sardamone) mix all together, shake well and take a teaspoonful after each meal and on rising in the morning. A certain well-known medical expert asserts that thousands of men and many women are helped by this. It stimulates the dormant circulation of the blood and a consequential improvement in the nervous force, which helps to remove dreadful symptoms and untold misery.

but Dr. Fox admits that the science of mental suggestion is used frequently and effectively in many cases that come to the nervous department of the Hahnemann hospital, with which he is connected.

"It should be understood," said Dr. Fox, "that hypnotism is used only in selected cases, where there appears to be no pathological condition account for the illness, and which, therefore, offers no opportunity for the employment of ordinary methods of treatment. It has proved especially valuable in treating various forms of hysteria and neurasthenia, and in curbing and curing alcoholism and morphinism."

Consent a Requisite.

Questioned as to the extent to which hypnotic influence should dominate another's will, Dr. Fox emphatically laid down the proposition that it is impossible to put a person in the hypnotic state without that person's consent. He intimated that in his opinion any plea that a crime had been committed under hypnotic suggestion was absurd, unless the person hypnotized had deliberately submitted his will at the outset to the control of another; but in his account of his treatment of his patient, Mr. X., he gave remarkable instances of the extent to which suggestions made while the patient was in a hypnotic state had been carried out after the patient had returned to his normal condition.

On one occasion it was suggested to X while under the hypnotic influence that exactly \$70 minutes later he should look at his watch and write down the time as if for reference. Just 73 minutes after the suggestion was made X, who at that time was in a perfectly normal condition, yielded to a sudden uncontrollable impulse, took out his watch and recorded the time. The difference of three minutes, Dr. Fox thought, might have been due to a difference in the time of the different watches. On another occasion X, having been told while in the hypnotic state that he would be alone in the room, absolutely failed to recognize the presence of another physician, Dr. Kulp, though Dr. Kulp, after he had been restored to his normal condition, spoke to him repeatedly and even took him by the hand.

This will prove a welcome bit of information for all those who are overworked, gloomy, despondent, nervous, and have trembling hands, rapid palpitation, dizziness, cold sensations, insomnia, fear without cause, timidity in venturing, and the inability to think clearly and rationally as others do, because the treatment can be prepared secretly at home without, any one's knowledge.

IS DYING OF LOVE

(American News Service)
Chicago, Oct. 2.—Shattered in health as a result of a hysterical and nervous breakdown following the tragic death of her fiance, young Baron Rothschild, who killed himself in Vienna, Miss Olga Menn was reported today to be in a critical condition at the home of her father, Dr. Rudolph Menn. "It is possible she may never recover," Dr. Menn said. "She has been sinking rapidly and now there seems to be little hope left."

JOHNSON IS HAPPY

Black Champion Can Give Sparring Exhibitions Without License.

ARMSTRONG IS SECURED

(American News Service)
San Francisco, Oct. 2.—Jack Johnson is happy. He announced today he had received permission from the supervisors to give sparring exhibitions, collect admission while training for Ketchel, and he was further assured that he would not be mulcted in the sum of \$81,200 for license fees.

The news put Johnson in good spirits and he went about his work with a vim. In the afternoon he sparred with Dave Mills before a large crowd. Johnson gave it out that beginning Monday he will use Bob Armstrong as one of his sparring partners in his daily exhibitions.

In addition to the usual road and gymnasium work, Ketchel sparred ten rounds yesterday afternoon at Millets. He went three rounds with Kid Lafayette and O'Connor in turn four rounds with Gunboat Smith. In the second round Smith received a clip on the chin which knocked him reeling and it was a minute or two before sparring could be resumed.

Money Comes In Bunches to A. A. Chisholm, of Treadwell, N. Y., now. His reason is well worth reading: "For a long time I suffered from indigestion, torpid liver, constipation, nervousness, and general debility," he writes. "I couldn't sleep, had no appetite, nor ambition, grew weaker every day in spite of all medical treatment. Then used Electric Bitters. Twelve bottles restored all my old-time health and vigor. Now I can attend to business every day. It's a wonderful medicine." Infallible for Stomach, Liver, Kidneys, Blood and Nerves. 50c at A. G. Luken & Co.

Winnipeg, Manitoba, is erecting twenty warehouses, factories and additions, eleven schools and educational institutions, twenty business and office structures and twenty-two apartment houses, several of the latter costing about \$200,000. Since the first of the year about 1,700 fine residences have also been erected or are building in the city.

The Bed-Rock Of Success lies in a keen, clear brain, backed by indomitable will and relentless energy. Such power comes from the splendid health that Dr. King's New Life Pills impart. They vitalize every organ and build up brain and body. J. A. Harmon, Laramore, W. Va., writes: "They are the best pills I ever used." 25c at A. G. Luken & Co.
