COUNTY NIMRODS THROGLED FIELDS

Opening of the Game Season
Brought Out the Hunters
In Big Drove.

QUAIL FOUND TO BE SCARCE

BUT THERE ARE MANY RABBITS
AND HUNDREDS OF THEM
WERE KILLED YESTERDAY—
MAYOR A QUITTER.

The surrounding woods and fields were black with hunters all day yesterday. From early morning until darkness fell the crack of the rifle and report of the shot gun could be heard anywhere out side of the corporation limits and it is estimated that hundreds of rabbits were killed in Wayne county.

Although rabbits are very plentiful this year, local nimrods declare that quail is scarce and only a few of the game birds were seen yesterday. The southern part of the county was the most favored by hunters, rabbits being found in large quantities in the thickets and marshes in that section. More quail was also found in that territory, it is said.

Little Hunts a Little. Mort Little, day sergeant, is back on the desk again today after having spent a strenuous day of it yesterday. He says he had very good luck and never saw so many rabbits as there are this year.

For the first time in ten years, Mayor Richard Schillinger failed to go hunting on November 10, the first day of the open season. Dr. Schillinger declared that he was getting too old to hunt and preferred to do his hunting in the local markets.

There are almost as many hunters out today as yesterday, it is said, the local nimrods taking advantage of the beautiful weather. So far as is known there were no accidents in the county yesterday, all of the hunters taking particular caution to confine their shots purely to game.

FEDERATED CLUBS FAVOR THE PLAN

Executive Committee at Ft.
Wayne Endorsed the Des
Moines System.

WILL INTRODUCE A BILL

AT THE NEXT LEGISLATURE
MAKING IT OPTIONAL WITH
CITIES TO ADOPT THIS SYSTEM
—HAAS ATTENDS MEETING.

Municipal reform along lines suggested by the Des Moines plan of government, was the most important topic up for consideration at the organization meeting of the executive committee of the Federated Commercial clubs of Indiana, yesterday, at Ft. Wayne, which was attended by E. M. Haas of this city, who is a member of the board.

Mr. Haas, upon his return today stated that the committee endorsed the general ideas of the Des Moines plan and would recommend that a law be passed at the next session of the legislature making it optional with cities to select this kind of government. Richmond especially is interested in the plan, as are also a number of other Indiana cities.

Plan is Explained.

Different details of the plan, as it has been worked out in Des Moines, are being explained in articles carried by the Palladium. The government system at Des Moines was personally inspected by Mr. Carl Bernhardt, associate editor of the Palladium.

A number of other important matters, such as state waterways and their improvement, public accounting, fees to be paid public officials and other matters were also considered yesterday. The matters under discussion yesterday will be fully reviewed by Secretary Wallace B. Campbell, in a letter to be sent to each member of the federation.

The executive committee will hold another session at Indianapolis soon, at which time subjects considered yesterday will be more fully inspected.

The news that the king and queen have consented to allow their names to be assigned to the western towers of Truro cathedral is extremely welcome. Many of our cathedral towers bear names connected with some saint or some great local notability, but we believe it is a new departure of recent years to give them a royal aspect. The kindly action of the king and queen will be much appreciated in Cornwall.—Lady's Pictorial.

EARLHAM "PROFS" WILL BE AUTHORS

Prof. Russell and Prof. Lindley
Plan to Enter Literary
Arena Soon.

BOTH ACCOMPLISHED MEN

FORMER WILL CONTRIBUTE A
BIBLICAL STUDY AND LATTER
HAS WRITTEN A HISTORY OF
THE STATE OF INDIANA.

Two Earlham college professors will make their debut as authors about the first of next year. This includes Professor Elbert Russell of the department of Biblical literature, and Professor Harlow Lindley of the department of history and political science.

"Jesus of Nazareth in the Light of Today," is the title of the book by Professor Russell. The book is a study of the place of Christ in history and will appear in time for the Christmas sale. Professor Russell is one of the most prominent friends of the Bible and his work is expected to be in keeping with his study of the world's history and the Bible. Professor Russell is also an excellent student and his new book will reflect some of his views on modern questions.

History of the State. Professor Lindley sent a book to the publishers this summer on the history of Indiana. This book by Professor Lindley will be used as a text book in the history courses of the state. Professor Lindley is also one of the leading professors of history in Indiana and as an avocation works in the state library and also the Carnegie library at Earlham. It was thought that his book would be off the press in time for the fall term, but it is not now expected until some time in January.

The National Monthly edited by J. Mitchell Chappell contains an editorial in the "Affairs at Washington" on United States Senator Joseph M. Dixon, a graduate of Earlham college. The editorial is as follows:

An Earlham Graduate. "Senator Dixon was in charge of the republican speakers' bureau during the last campaign and has kept in personal touch with the strong and progressive men of his time. A splendid speaker and a hard worker, he is a most efficient legislator and Montana has reason to be proud of her young senator, who has followed up effectively an illustrious career in the house, where he made every session count, for his constituents."

The National Monthly also carries a story of the "Milk from the Mountains" by Mr. Flynn Neyne, which is a story of E. A. Stuart, president of the Pacific Coast Condensed Milk company and his modern methods for milk products. Mr. Stuart is a brother of Mrs. E. Gurney Hill of this city.

Where Nature Cooks the Food.

In certain parts of New Zealand both native and white women use the natural hot springs to do their cooking. In the Rotorua region, it matters not whether the cook wishes to roast a piece of meat, boil potatoes or steam pudding, all she has to do is to step out of doors and place the cooking utensil in a steam hole. The cover is then put on, and a piece of coarse sack over the whole completes the operation. In a short time dinner is ready. At Whakarewarewa the entire earth just beneath the surface is a mass of boiling springs. Millions of gallons of hot water hiss and steam, sending vapors skyward in great white clouds. Strike the ground almost anywhere with a stick and the hole thus formed fills with hot water. Hot water for baths, the week's washing and for the ordinary purposes of the household is always on hand.

Hard on the Chairs.

Among the ancestors of Wendell Phillips were several Puritan clergymen. Perhaps it was a push of heredity which made him at five years of age a preacher.

His congregation was composed of circles of chairs arranged in his father's parlor, while a taller chair, with a Bible on it, served him for a pulpit. He would harangue these wooden auditors by the hour.

"Wendell," said his father to him one day, "don't you get tired of this?" "No, papa," wittily replied the boy preacher. "I don't get tired, but it is rather hard on the chairs."

Obeded Him. "Where's old Four Fingered Pete?" asked Alkali Ike. "I ain't seen him around since I got back."

"Pete?" said the bartender. "Oh, he went up to Hyena Tongue and got jagged. Went up to a hotel winder, stuck his head in and boiled 'Fire' and everybody did."—Everybody's Magazine.

Painful Cleanliness.

From a Vienna paper: "Comfortable pension for English visitors; good kitchen with continental staples, or plain roast beef with potatoes for same prices; nice sleeping rooms with open windows; painful cleanliness; numerous extraordinary references."—St. James' Gazette.

MUNCIE H. S. IS CALLED A ROWDY

Middletown School, After a
Football Game, Makes
Serious Charges.

WANT SCHOOL EXPELLED

FROM THE STATE HIGH SCHOOL
ATHLETIC LEAGUE—PROF. GUYER
IS MADE THE BUTT OF THE
SENSATIONAL ATTACK.

Prof. Ralph Guyer, a member of the faculty of the Muncie high school, also coach of the football team, is made the butt of more or less serious charges by Middletown high school authorities, as a result of the football game between Middletown and Muncie recently. The prosecution of the charges will be watched with much interest by Mr. Guyer's local friends.

It is probable that the board before which these charges will be presented will not meet before the Muncie-Richmond game at Muncie, next Saturday and consequently the decision of this body will not in any way affect the game.

The Middletown authorities will ask that the Muncie school be expelled from the state high school athletic association.

Friends of Mr. Guyer say that the charges are absurd while the members on the Muncie team claim that Middletown is sore because it lost the game and thereby its chances for claiming the state championship. The following charges have been made against the Muncie team and Mr. Guyer:

What Charges Are.

1. Ralph Guyer, a teacher in the Muncie high school and coach of their football team, refused to use neutral officials; acted unfairly himself, fouled his own team and then permitted a report to be published ascribing all the fouling to Mr. Hoover of Middletown, thereby casting all the offense upon the Middletown team and official.

2. Mr. Guyer permitted unfair and unsportsmanlike tactics from his team during the entire game.

3. He permitted his players and he himself used language during the game unbecoming to a prize fighter.

4. Middletown wants to know the record of the Spurgeon that played in the game against Middletown.

The board of the State Athletic association will investigate the charges and render their verdict at the next meeting of the board.

ADDRESS BY THE SENIOR SENATOR

Beveridge Will Speak Here on
Subject of National
Legislation.

WILL SPEAK AT EARLHAM

HE WILL ALSO DELIVER AN ADDRESS AT THE MASONIC TEMPLE UNDER AUSPICES OF THE LOCAL COMMERCIAL CLUB.

"Watchfulness and Thoroughness in Legislation" will be the subject on which United States Senator Albert J. Beveridge of Indianapolis, will speak at the Commercial club Monday evening.

Mr. Beveridge will arrive in the city at 5 o'clock and will deliver a chapel talk at Earlham College and will also be invited to address the high school students.

The meeting to be given under the auspices of the Commercial club will be held in the Masonic banquet hall. All members of the club will be invited. Each member will be privileged to bring friends. It is necessary to make the meeting an invitation affair, owing to the hall not being large enough to accommodate all who might possibly wish to attend.

Senator Beveridge's address will be particularly interesting to business and professional men. It will deal with the workings of congress and undoubtedly he will take up the subject of the recent tariff inscription, as he was one of the leaders in this revolt.

ONE WRESTLER HERE

Alfred Medino, the champion heavyweight wrestler of Illinois, arrived in the city this morning for his bout with Charles Olson, at the Coliseum Friday night. Medino has been in hard training for the match with Olson, and the contest promises to be very interesting. It will be Medino's weight pitted against Olson's cleverness and what the result will be is a matter of considerable speculation among local followers of the sport. The odds seem to be with Olson in view of the fact that it took Roller one hour and ten minutes to throw the clever wrestler at Seattle last winter, while Roller threw the Italian in nineteen minutes in this city several weeks ago.

The National Academy of Sciences, an election to which is the highest honor in this country open to scientists, was chartered by the national government nearly half a century ago, and it is the official adviser of the government in scientific matters. The membership, which is limited to 150, has never been over one hundred.

AVOID THE LADDERS

Patrons of the Post Office
Were Careful Not to
Walk Under Them.

THEY ARE SUPERSTITIOUS

Many of Richmond's business men are superstitious, a fact which became apparent this week as the decorators on the federal building were working on the ceiling in the lobby, and it became necessary to use several ladders.

The ladders were supported by the north and south walls of the lobby, and owing to the height of the ceiling, it was necessary to lean them against the wall at a considerable angle. On one section of the south wall are located the private mail boxes, one of which practically every business man rents, and in order to get to their boxes unless care was used, they would have to walk under the ladders.

No matter how absent minded these men were about other things, nearly every one recovered himself in time to avoid walking under the ladders. Those who did proceed too far under the ladders tried to retrace their steps. One well known business man, when informed that he had walked under a ladder, replied, "Oh well, the superstition does not work with me, you know I am a republican."

Sporting Notes.

The minor baseball league clubs the past season lost 200 players by draft or purchase by the major leagues.

There is a four-year-old by Hal B. 2-04, out of Darkey Hal's dam, up in Ontario, that is said to be a pacing wonder.

Fred Crollus, one of the best half-backs Dartmouth ever had and who played with McCormack and McAdams, is now coaching Villanova.

Danny Maher, the premier jockey of the world, greater than either Sloan or Fred Archer was, has confirmed the rumor that this will be his last season on the turf as a jockey.

German Gleanings.

Germany is to have an English theater. Berlin has about a hundred factories for linen goods—forty more than the kingdom of Saxony.

What is called a "battle over beer prices" is raging in almost every town of Germany. This is the outcome of the new beer tax.

At Kiel the scholars are given problems in touring, and each child is required to answer correctly the means of going from one place to another, with all the necessary details.

One Doctor

Ask your doctor about Ayer's Cherry Pectoral for throat and lung troubles. Doctors have prescribed it for 70 years.

Have only one doctor—just one! No sense in running from one doctor to another! Select the best one, then stand by him. No sense in trying this thing, that thing, for your cough. Carefully, deliberately select the best cough medicine, then take it. Stick to it.

Deuker's

Thanksgiving

Dinner ware, Cut Glass and Crockery.

Our new patterns are arriving daily, and can now be seen on display in our spacious China and Glass room.

Also new line of oil, gas and electric lamps.

UNFORTUNATE MAN CALLED BY DEATH

Francis J. Mitchell, Insane,
Three Years a Jail In-
mate, Is the Victim.

HE DIES IN CONVULSIONS

MITCHELL, AN UNFORTUNATE
CONFINED WITH CRIMINAL
CLASSES WHILE AWAITING TO
BE ADMITTED TO ASYLUM.

Francis J. Mitchell, an epileptic, died this morning about 3:30 o'clock as a result of convulsions, in his cell at the county jail, where he has been an inmate for more than three years. He was found dead about 6 o'clock by Joe Moore, and Coroner Bramkamp was called, pronouncing death due to epilepsy.

Mitchell suffered from both epilepsy and insanity, and his case was practically incurable. He had been at the jail for a long period, awaiting admission to a state institution for insanity or epilepsy, but owing to the overcrowded conditions of these institutions, he was not accepted, others less badly afflicted being taken instead, in hopes that they might recover.

Had Been Very Unruly.

Recently Mitchell had been sinking rapidly and has been very unruly at times. Last night when he was placed in his cell, he was no worse, but about 1 o'clock, it is believed, he suffered an attack and another again about 3:30 o'clock. One of the prisoners was awakened by his convulsions, but paid no further attention.

The deceased is survived by two brothers, Charles and James, and one sister, Mrs. Mary Connell. The remains were taken to 814 Sheridan street, where he resided before being committed to the jail. The funeral will be held Saturday morning at 9 o'clock, at St. Mary's church. Burial will be in the cemetery of the same. Friends may call at any time.

WANTS TO BE CITY

Whether New Castle will graduate from its teens will be decided next Tuesday at a general election. New Castle wants to be a city. The town board does not like the name of town, and last night at a meeting granted a petition for an election. New Castle claims a population of approximately 20,000, and for several years has been the biggest town in the state.

MISERY FROM A BAD STOMACH AND DYSPESIA WILL VANISH.

A little Diapepsin will make
you feel fine in five
minutes.

Take your sour, out-of-order stomach—or maybe you call it indigestion, Dyspepsia, Gastritis or Catarrh of Stomach: it doesn't matter—take your stomach trouble right with you to your pharmacist and ask him to open a 50-cent case of Pape's Diapepsin and let you eat one 22-grain Tri-angle and see if within five minutes there is left any trace of your former misery.

The correct name for your trouble is Food Fermentation—food souring; the digestive organs become weak, there is lack of gastric juice; your food is only half digested, and you become affected with loss of appetite, pressure and fullness after eating, vomiting, nausea, heartburn, gripping in bowels, tenderness in the pit of stomach, bad taste in mouth, constipation, pain in limbs, sleeplessness, belching of gas, biliousness, sick headache, nervousness, dizziness or many other similar symptoms.

If your appetite is fickle, and nothing tempts you, or you belch gas or if you feel bloated after eating, or your food lies like a lump of lead on your stomach, you can make up your mind that at the bottom of all this there is but one cause—fermentation of undigested food.

Prove to yourself in five minutes that your stomach is as good as any; that there is nothing really wrong. Stop this fermentation and begin eating what you want without fear of discomfort or misery.

Almost instant relief is waiting for you. It is merely a matter of how soon you take a little Diapepsin.

WARNING IS GIVEN

Health Officer Bond Reminds
Public This Is Typhoid
Season.

WELL WATER DANGEROUS

This is the season for typhoid fever, and City Health Officer Dr. Charles S. Bond, warns all persons to be particularly careful in regard to the kind of water they drink. Most of the typhoid germs come from the water in old unused wells. The city water has been analyzed, it is said, and found to be perfectly free from germs of that nature.

There are only a few cases of typhoid fever in the city at present, the small towns in the county being more infected with the disease than Richmond, although the population is several times smaller. There were more than twice the number of typhoid cases in the city last year at this time, than there are at present.

EXPECTED IS HERE

(American News Service)
Amarillo, Texas, Nov. 11.—This is the first city in the country to honor Cook and Peary by naming twins for them.

Mr. and Mrs. Charles Aylesworth are the parents, and the names are the result of an argument over the relative merits of the two explorers. Mrs. Aylesworth is a Peary enthusiast, while her husband believes in Cook. The naming of the twins came as a compromise, and today Cook Aylesworth and Peary Aylesworth are sleeping on the same pillow.
