

BINGHAM QUERIES BREWING CONCERNS

Attorney General Submits More Than One Hundred Questions to Them.

PLANS TO ELIMINATE THEM

ANSWERS WILL FORM PART OF CASES INSTITUTED TO ANNUL CHARTERS ON GROUND THEY EXCEEDED POWERS.

Indianapolis, Ind., Nov. 24.—Attorney-General Bingham has asked two brewing companies more than 100 questions about their business. They were filed in the superior court here in the cases which the Attorney General has filed against a number of breweries to annul their charters on the ground that they have been exceeding the powers granted in their charters and that they have been conducting an illegal business in many ways. Suits have been filed against several Indianapolis and other breweries and they have been pending for more than a year.

The attorney general has asked the court to require the companies to answer as to whether or not prior to the time the suits were filed against them they owned any real estate other than that on which the breweries and stations were located; if the brewing companies executed liquor license bonds for retail liquor dealers; if they secured surety companies to become sureties on such bonds; if they had indemnified such surety companies; if they had taken leases on real estate occupied by saloons; if they had paid the government tax for saloon keepers; if they had advanced money for saloon licenses; if they owned any saloon fixtures; if they sold beer to persons other than wholesale dealers, licensed druggists and pharmacists; if they had sold beer generally to private consumers; if they had kept spirituous liquor in bond; if they had paid rent for saloon buildings; if they owned, leased or rented buildings where other business than the liquor business was conducted in them; if they had made loans to saloon keepers; if they had employed lawyers to procure liquor licenses; if they had inserted advertisements in newspapers for liquor licenses; if they had become bondsmen for defendants in criminal cases; if they are members of a brewers' association; if they had required persons to purchase liquor from any certain liquor dealers, distiller or druggists.

The attorney-general holds that if the breweries have done any one of these things they have violated their charters. He will make the same point against all breweries against whom he has instituted suits, and will try to put them out of business.

TWO TOPICS OF PRESENT IMPORTANCE

Two of the most important topics of present conversation are, who will be our next president, and Root Juice, but Root Juice seems to have the advantage, and why not? Personal health is and should be one of the greatest considerations of life, and as so many local people are praising the new remedy, Root Juice, it is not surprising that so many of the afflicted people of this county are so eager to talk about it and get all of the information they can in relation to the many remarkable cures it has made and is making. It invariably proves a great and agreeable surprise to weak, nervous, dyspeptic, constipated people, for after using it for a short while the soothing, healing and tonic properties of the wonderful remedy removes irritated and sore conditions from the linings of the stomach, bowels and bladder, heals and strengthens the liver and kidneys to healthy action, resulting in a good appetite, food well digested, bowels regular, good, rich blood, free from rheumatic poison and it soon nourishes and strengthens the whole nervous system. The people at the drug store are proud of the wonderful merits of Root Juice, and gladly tell all interested of much of the great good it is doing here. A. G. Luken & Co's drug store.

TARIFF DON'T HURT

(American News Service) Washington, Nov. 24.—The ultimate effect of the new tariff law on the trade between this country and France is not regarded as serious in shipping circles, and arrangements have been completed for opening a new line between Baltimore and Havre. The latter port is regarded as an excellent one for importation into Europe, and as an outlet for Continental manufactures. Three steamers will be used to maintain fortnightly departures and they will transport all cargoes except coal. No passengers will be carried.

The Wasp. It is said that the male wasp does not sting, but as the male and female wasps wear the same kind of polonaise and look as much alike as twins the only way to distinguish their sex is to catch one. If it stings it is a female; if not, it is a gentleman wasp.

Business. The most important part of every business is to know what ought to be done.—Columbia.

On account of Rev. Specklein holding a series of meetings at Chester, he did not fill his regular appointment at the M. E. church last Sunday evening.

George Borton of Idaho is spending

For Pain in Chest

For sore throat, sharp pain in lungs, tightness across the chest, hoarseness or cough, have the parts with Sloan's Liniment. You don't need to rub, just lay it on lightly. It penetrates instantly to the seat of the trouble, relieves congestion and stops the pain.

Here's the Proof. Mr. A. W. Price, Fredonia, Kans., says: "We have used Sloan's Liniment for a year, and find it an excellent thing for sore throat, chest pains, colds, and hay fever attacks. A few drops taken on sugar stops coughing and sneezing instantly."

Sloan's Liniment is easier to use than porous plasters, acts quicker and does not clog up the pores of the skin. It is an excellent antiseptic remedy for asthma, bronchitis, and all inflammatory diseases of the throat and chest; will break up the deadly membrane in an attack of croup, and will kill any kind of neuritis or rheumatic pains. All druggists keep Sloan's Liniment. Price 25c. Size, \$1.00. Dr. Earl S. Sloan, BOSTON, MASS.

ARE TO HOLD CONVENTION

(American News Service) Washington, Nov. 24.—The National Association for the Study of Pellagra, which was organized as a result of the national conference held in Columbia, S. C., a few weeks ago, are planning to hold their annual convention in Peoria, Ill., in June, 1910.

At the recent conference there were about 350 delegates present and papers were read by a number of prominent physicians and health officers from sections of this country and Europe where the disease prevails.

That spoiled corn is a potent factor in causing the disease, was conceded by all, but as to whether or not the disease is hereditary, the delegates were inclined to differ. Dr. H. H. Griffin of the State Hospital, Columbia, S. C., said that he considered pellagra as hereditary only in the form of a predisposition or inherited tendency.

It was stated at the conference that while the disease was a new one in this country, it had been known for years in Europe and Africa. The problem had been studied by foreign physicians for many years, and it had been decided by some of the foremost that the disease is not contagious. For this reason it was urged that quarantine precautions were not necessary.

The highest estimates place the number of cases in the United States at 5,000. The medical treatment for this sickness, and advocated by Dr. F. M. Sandwith of London, consists of a nutritious diet, arsenic, suspension of maize and elimination of intestinal parasites by appropriate treatment.

A Card Sharp's Device. One of the most wonderful mechanical aids to card sharpening was a device unearthed in a London gambling den a short time ago. It consisted of a specially constructed table containing a secret and invisible drawer in the top, which could be opened by a spring worked by slightly pressing the edge of the table. Covering the action with his hands and cards, the sharp dropped the cards he wished to transfer to his confederate into the opening, and a second spring shot them silently along a secret passage to the other side of the table, where there was another secret opening, whence the confederate contrived to take them.—London Tit-Bits.
