

GOMPERS MAKES A PROTEST TO TAFT

For Organized Labor He Objects to Lurton as Supreme Court Justice.

CITES HIS OBJECTIONS

JUDGE LURTON ALLEGED TO HAVE RENDERED DECISIONS UNFAVORABLE TO RAILROADERS—VIEWS OF TAFT.

(American News Service)
Washington, Dec. 2.—Samuel Gompers, president of the American Federation of Labor, has protested to President Taft in the name of organized labor against the nomination of Judge Horace H. Lurton to the bench of the supreme court of the United States. It is understood the objection is based on certain decisions of Judge Lurton in cases in which injuries to railroad employees and their actions for damages arising therefrom were involved. President Taft, it is understood, did not think Gompers had a correct understanding of these cases which did justice to Lurton.

DRISCHEL IS DEAD

One of Cambridge City's Best Known Residents Was Called Suddenly.

FAMED AS CHEESE MAKER

(Palladium Special)
Cambridge City, Ind., Dec. 2.—While superintending repairs, Wednesday afternoon in his building on East Main street, which is occupied by the Caldwell Hotel, George Drischel, one of the best known residents of Wayne county, was taken violently ill. A conveyance was called and he was taken to his home on North Maple street, where he remained in a critical condition until the hour of his death, at eleven o'clock this morning. Death was due to apoplexy. Mr. Drischel was born May 20, 1855, in Cambridge City. In early life he was a farmer. He leaves a wife and three sons, Carl, John and Dresham, all residing in Cambridge City.

For many years Mr. Drischel has been engaged in the creamery business with J. A. Boyd, who said today: "Mr. Drischel was one of the most honorable and upright men with whom I ever had dealings."

Mr. Drischel was noted for the manufacture of cheese, having taken premiums at all of the great expositions of the country. Funeral arrangements have not been made.

Educating Apprentices.
Apprentices employed under the jurisdiction of the Houston (Tex.) Typographical union have the opportunity of improving their evening hours by a course of study at the local Young Men's Christian association. The union has voted \$175 from its treasury for the education of boys who are forced to begin earning their livelihood before their schooling is finished, and the youths' department of the association has been opened for their benefit. The necessary memberships have been paid for, and a governing board of six members—three from the union and three employers—will see that the apprentices take the fullest advantage of the night school. Houston union claims to be the only labor organization in the city to appropriate money out of its treasury to advance the cause of education, and this is a living illustration that the Typographical union is always abreast of the times when it comes to providing for the future welfare of its members.

Carpenters Lead in Growth.
According to statistics recently made public by the United States department of commerce and labor, the Brotherhood of Carpenters and Joiners has had the greatest increase in membership of all labor organizations during the past three years, and during the same period the International Typographical union has secured the greatest reduction in the hours of labor. The International Association of Machinists has had the greatest number of strikes and has won a larger percentage of contests than any other national union.

LABOR NOTES.

The Painters and Decorators' union will meet at Cincinnati in December. Textile workers in the United States, organized and unorganized, number close upon 700,000.

It is stated with authority that President Conway of the Retail Clerks' union will succeed the late Max Morris as general secretary.

The prospects are bright for the getting together of the Brotherhood of Carpenters and Joiners and the Amalgamated Woodworkers' union.

The installation of modern safety devices that will render accidents practically impossible is one of the problems for the interest of the workmen of the country now being worked out by President Gompers and his associates in the executive council of the American Federation of Labor.

LEAVES FOR EUROPE: HER CLUB DISBANDS.

Mrs. Roswell D. Hitchcock, president of the Entertainment club, an exclusive organization that met at a leading New York hotel once or twice a year, who has gone to Italy, and with her going the club has disbanded. The disposition of the club was not brought about without heartburnings. Several members, it is said, accused Mrs. Hitchcock of running things with a high hand. In fact they asserted that the members were without voice in the management of the club. The disruption of the club naturally followed.

Y. M. C. A. Officials Are Worried About Sending Out "The Monitor"

POSTAL LAW DIFFICULTY

At the meeting of the board of directors of the Y. M. C. A. Friday evening, the subject of how to distribute "The Monitor," the association's publication will be taken up. The publication is bi-weekly and, according to the postal rules, can not be delivered in this city by city carriers as second class matter.

Providing the association withdraws its petition to have the publication entered as second class matter in this city and instead enters it at the Earlham post office, the publication may be delivered by city carrier here. An odd construction of the postal law which will probably be changed at the coming session of congress, makes it impossible to deliver the publication in this city by city carrier if it is entered at the local office.

Putting It Delicately.

At a cricket match played in the park of a baronet it was found necessary to secure the services of one of the footmen as umpire. In due course the baronet went in, and the second ball delivered him he stopped with his leg, and the cry of "How's that?" was raised.

It was the footman on whom the decision rested, and he said in a half apologetic tone:

"I'm afraid I must say 'Not at 'ome,' Sir John."

"Not at home?" retorted the baronet. "What do you mean?"

"Well, then, Sir John," replied the footman, "if you will 'ave it, I mean that you're 'out!'"—London Answers.

Work of evicting 400 more strikers from their homes was begun by the company this morning. There was no resistance. Twenty-six families in all were made homeless today, bringing the total of those thrown out up to 700.

REID CHAIRMAN OF EXECUTIVE BOARD

Of the Rock Island and R. A. Jackson Named as the Vice Chairman.

DIVISION OF ROAD IS MADE

HAWLEY AND YOAKUM ARE IN CONTROL OF THE ST. LOUIS AND SAN FRANCISCO—ELECTIONS HELD YESTERDAY.

Chicago, Dec. 2.—The Chicago Rock Island and Pacific Railroad company of Iowa was sold and delivered to B. F. Yoakum and others common stock in the St. Louis and San Francisco representing the controlling interest and being all the shares of stock which the Chicago, Rock Island and Pacific has heretofore owned in that company.

A meeting of the board of directors of the Chicago, Rock Island and Pacific Railroad company was held. Proper authority was given and the transaction was later in the day closed. One of the reasons for the sale was the legal advantage, if not necessity, of a separation of the Rock Island and Frisco properties, a question having been raised both by the Federal and certain state governments, as to the two roads being parallel and competing. The Rock Island and Frisco railroads will henceforth be operated as separate properties, there having been a complete legal severance of all relations heretofore existing between them.

"Notwithstanding this the friendliest feeling exists between those in control of the two roads, and it is intended that they shall be operated to the mutual advantage of both wherever it may properly be done."

At a meeting of the board of directors of the Chicago, Rock Island and Pacific Railroad company, held yesterday, the following were elected as the executive committee of the company: D. G. Reid, W. H. Moore, J. H. Moore, F. L. Hine, R. A. Jackson, H. U. Mudge, E. S. Moore.

The following officers were elected: D. G. Reid, Chairman of Executive Committee; R. A. Jackson, Vice Chairman of Executive Committee; H. U. Mudge, President.

At a meeting of the Board of Directors of the St. Louis and San Francisco the following Executive Committee was elected: B. F. Yoakum, Edwin Hawley, B. L. Winchell, James Campbell, Frank Trumbull, H. V. R. Thayer, Thomas H. West.

The following officers were elected: B. F. Yoakum, Chairman of Executive Committee; B. L. Winchell, President.
